ARTS AND SCIENCES/PSYCHOLOGY (THERAPY DOGS) PRESENTATION

Presenters: Dr. Katherine Zupancic and Nicole Trevena-Flores, M.A.

Title of Presentation: **Therapy Dogs take the Bite out of Finals Week Stress**

Dr. Zupancic reported that a pilot project for therapy dogs at Southeast Community College (SCC) during finals week was approved and implemented fall quarter of 2013. The pilot project was a success and since the beginning of this project, the Therapy-Dogs-for-Finals-Week event has been held each quarter for the past six years.

Some of the benefits of this project has been:

- empowered students through innovation and inclusion
- provided students an engaged learning experience
- immersion into data collection strategies
- embraces collaboration within the organization and local community
- stress relief during finals week

The initial satisfaction survey dealt with how satisfied were students with the approachability of the therapy dogs. There were 90 students surveyed: 52 extremely satisfied, 15 very satisfied, 15 satisfied, 7 somewhat satisfied, and 1 unsatisfied. Of the 90 students surveyed, 87 indicated they would like the dogs back.

Ms. Nicole Trevena-Flores reported that this project was presented at the 2016 League for Innovation for Community Colleges. For the presentation the students help create the survey for data collection, took photos and helped to create the PowerPoint slides.

Dr. Zupancic indicated that the dogs that are used for this service are free. The organization that sponsors these dogs is the Healing Heart Therapy Dogs, which is a volunteer service. Dr. Zupancic thanked them for all they have done and introduced them.

Ms. Bohaty stated that the students look forward to having the dogs on campus during finals week.

2019-2020 BOARD MEETING SCHEDULE

Chairperson Seim stated that the 2019-20 Board meeting schedule has a few things different than last year. The proposed meeting schedule is responsive to the statutory budget requirements and ACCT meeting schedule. As a result the October meeting has been moved to fourth Tuesday of the month due to the ACCT scheduled meeting.

In August the meeting will be held at the Plattsmouth Learning Center, and the January meeting will be held at the York Learning Center.

If there are any concerns contact Chairperson Seim or an Executive Team member.

SUICIDE PREVENTION GRANT UPDATE

Stacy Riley, Dean of Students; Kevin Forch, Director of Student Success; and Kalika Jantzen, Director of the Counseling Assistance Program for Students, presented the progress on the Substance Abuse and Mental Health Services Administration – Garrett Lee Smith Suicide Prevention Grant.

A major focus of the Grant Project has been creating a network of supportive services for students who are experiencing emotional distress, which may lead to suicidal ideation and suicide attempts. Grant leaders trained employees and students on the QPR (Question, Persuade, Refer) method as part of the network of supportive services.

The grant was applied for in September 2017. The goal has been to build an infrastructure necessary to accomplish the original goals and objectives of the SCC care team and provide gatekeeper training to faculty, staff, and students.

Ninety-two percent of healthcare professionals have found QPR relevant to their work.

The objective of the federal grant is to train 1,010 students, faculty and staff in QPR. Currently there are 214 trainees. They have developed partnerships with local health care agencies.

Their goal is to reach 1050 students during a three-year-term. There have been 441 students who have participated in different activities. Their goal is to be visible and have easy access for faculty to report concerns.

*Chairperson Seim declared the Board in recess at 4:15 p.m.

*Chairperson Seim declared the Board in regular session at 4:28 p.m.

TABLEAU SERVER AND DATA ACCESS

Rebecca Carr, Office of Institutional Research, provided an overview of a new data access tool, Tableau Server. This system allows the Office of Institutional Research to provide interactive dashboards and reports to support decision making at the departmental, divisional, and institutional level. The College continues to expand its data infrastructure to support SCC's mission and strategic goals.

Ms. Carr reviewed the limitations of Tableau Desktop:

- cannot guarantee security of data
- emailed or shared on the Hub
- cannot determine whether the reports are used
- process of updating data with a new term/year is cumbersome

and she reviewed the advantages of Tableau Server:

- ensures security of underlying data
- reports are shared in a single location
- can see which reports are being used by which people
- process of updating data with a new term/year is easy and some can happen automatically

Ms. Robin Moore reviewed the uses of Tableau Server and advantages allowing them to review daily the opportunities to add classes as needed.
