GRADUATE REPORT

2022

Employment & Transfer Statistics

2021

2020

Dear Friend of Southeast Community College,

On behalf of the Board of Governors, the alumni, faculty, staff, and students of this excellent institution, I am pleased to present Southeast Community College's Graduate Report. The report includes graduation and employment statistics associated with 2022 graduates from all of our applied technology and transfer programs.

The report includes the total number of graduates and degrees granted, the number employed within the training-related field, the number continuing their education, the percent employed within Nebraska, and the average starting salary for SCC graduates. In addition to graduation and employment statistics, the report includes the colleges and universities to which our graduates transferred, as well as the employers and starting positions associated with each of SCC's program graduates.

This report represents one of our many efforts to evaluate the success of our programs and the degree to which we are accomplishing our mission.

SCC is committed to its mission of providing the highest quality applied technology and academic education opportunities to its 15-county service area. SCC had more than 1,300 graduates during 2022, with 93% employed or continuing their education immediately after graduation. Eighty-nine percent of our employed graduates are working in Nebraska. Remarkably, these graduate statistics are consistent with past graduate data. The 2022 graduates had approximately the same success and retention rates as past graduating classes. On behalf of SCC, I congratulate our faculty, staff and graduates for this incredible accomplishment.

SCC has a long history of ensuring that employers have access to qualified graduates who have the skills needed for successful and productive employment. SCC continually seeks to align its programs with the specific needs and requirements of employers and transfer institutions. We are committed to meeting the educational needs of our students, employers and the community.

Sincerely,

A handwritten signature in black ink, which appears to read "Paul Illich". The signature is fluid and cursive, with a large, stylized "P" and "I".

Paul Illich, President

Southeast Community College

The mission of Southeast Community College is to empower and transform its students and the diverse communities it serves. The College provides accessible, dynamic, and responsive pathways to career and technical, academic transfer, and continuing education programs. Student success and completion is maximized through collegiate excellence, exemplary instruction, comprehensive student support services, enrichment programs, and student-centered processes. SCC is committed to a proactive and evidence-based approach that continually assesses and responds to student, community, and employer demand for higher education.

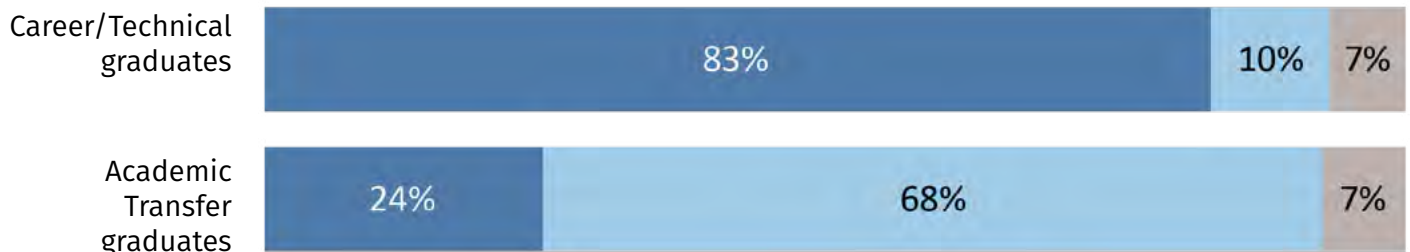

93% SUCCESS RATE

SCC graduates who are employed or continuing their education.

Of 1,301 graduates during the calendar year, only 6.9% of those who responded were not employed or continuing their education.

Employment and Transfer

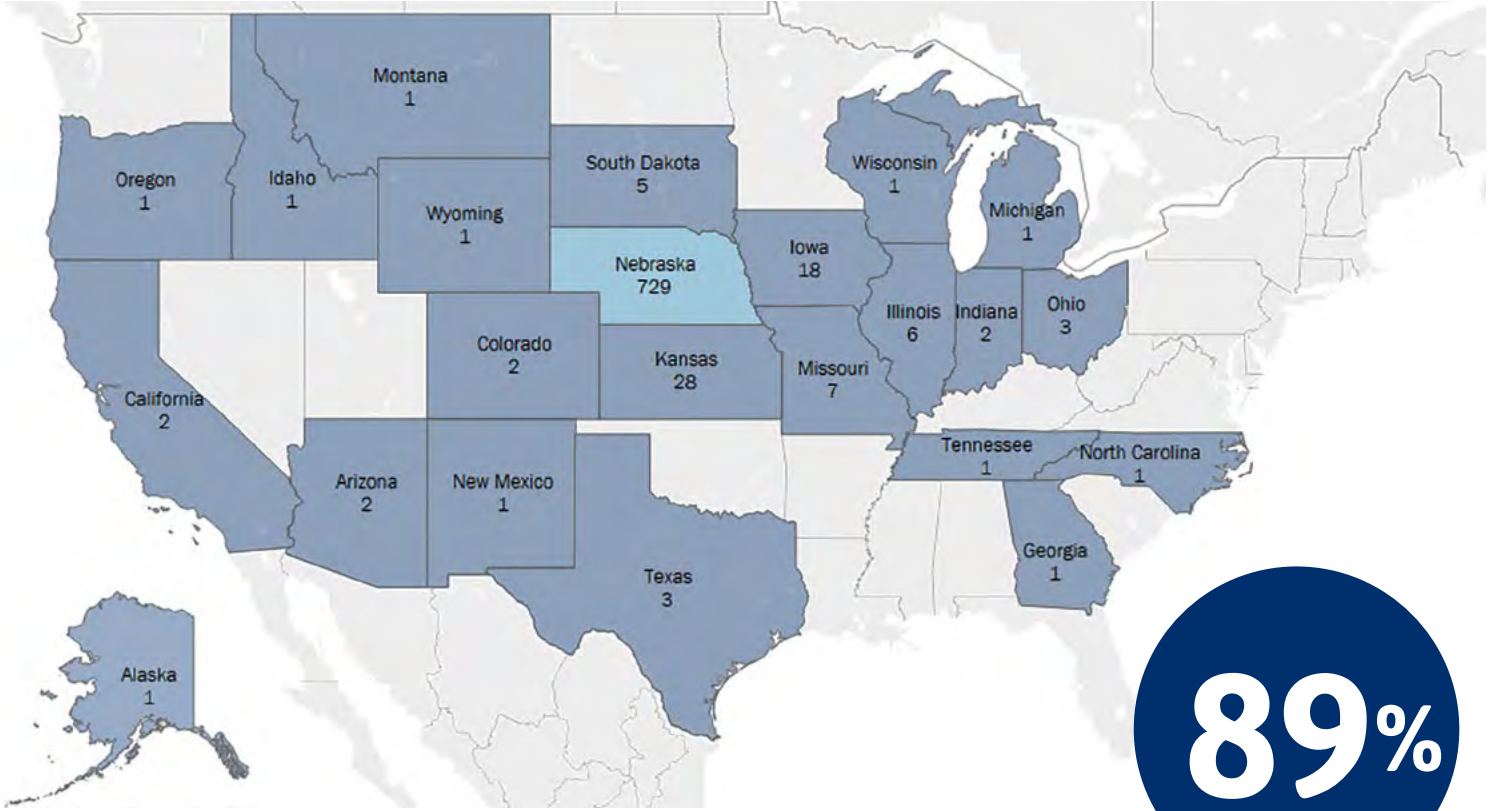

A large majority of the 933 graduates from Career/Technical fields who responded are employed (83%), and a large majority of the 188 Academic Transfer graduates who responded are continuing their education (68%).

- Employed
- Continuing education
- Still seeking or not seeking

Values may not add to 100% due to rounding.

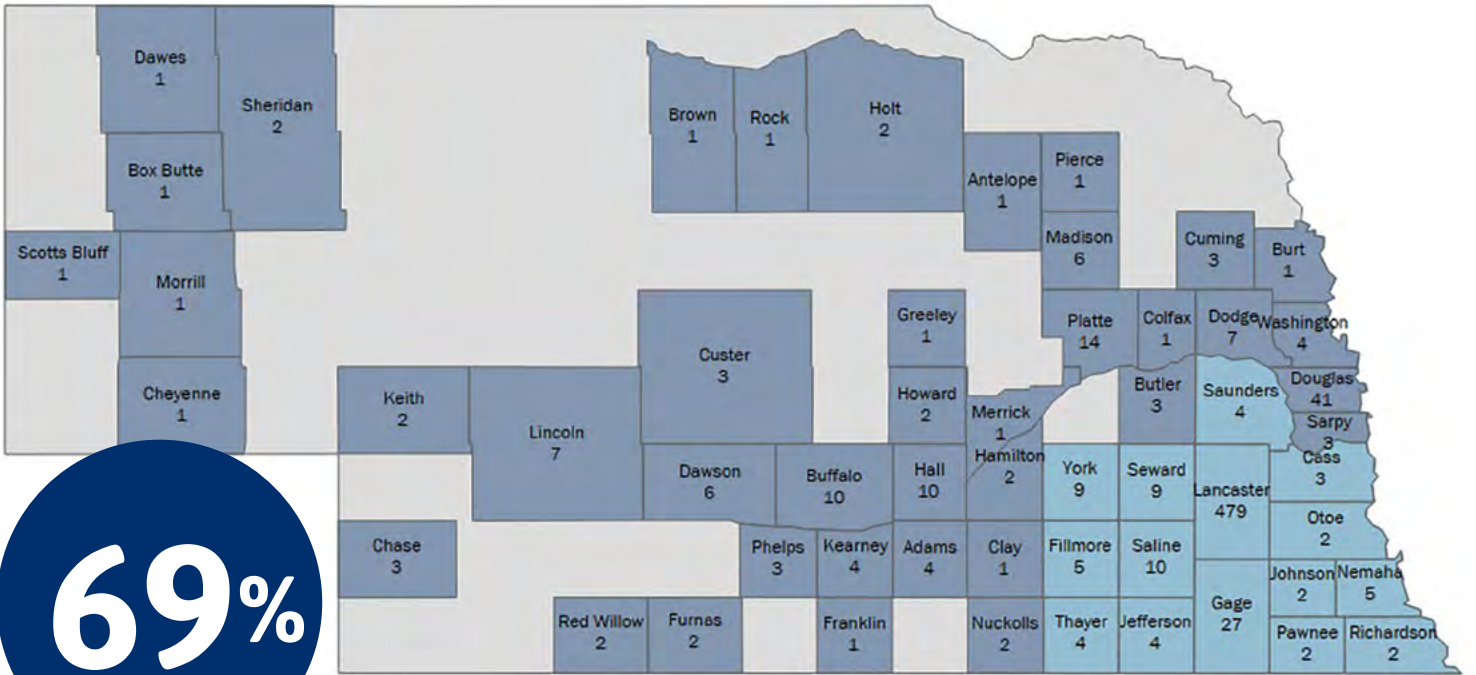

STATE AND REGIONAL IMPACT

89%

Employed graduates working in Nebraska is

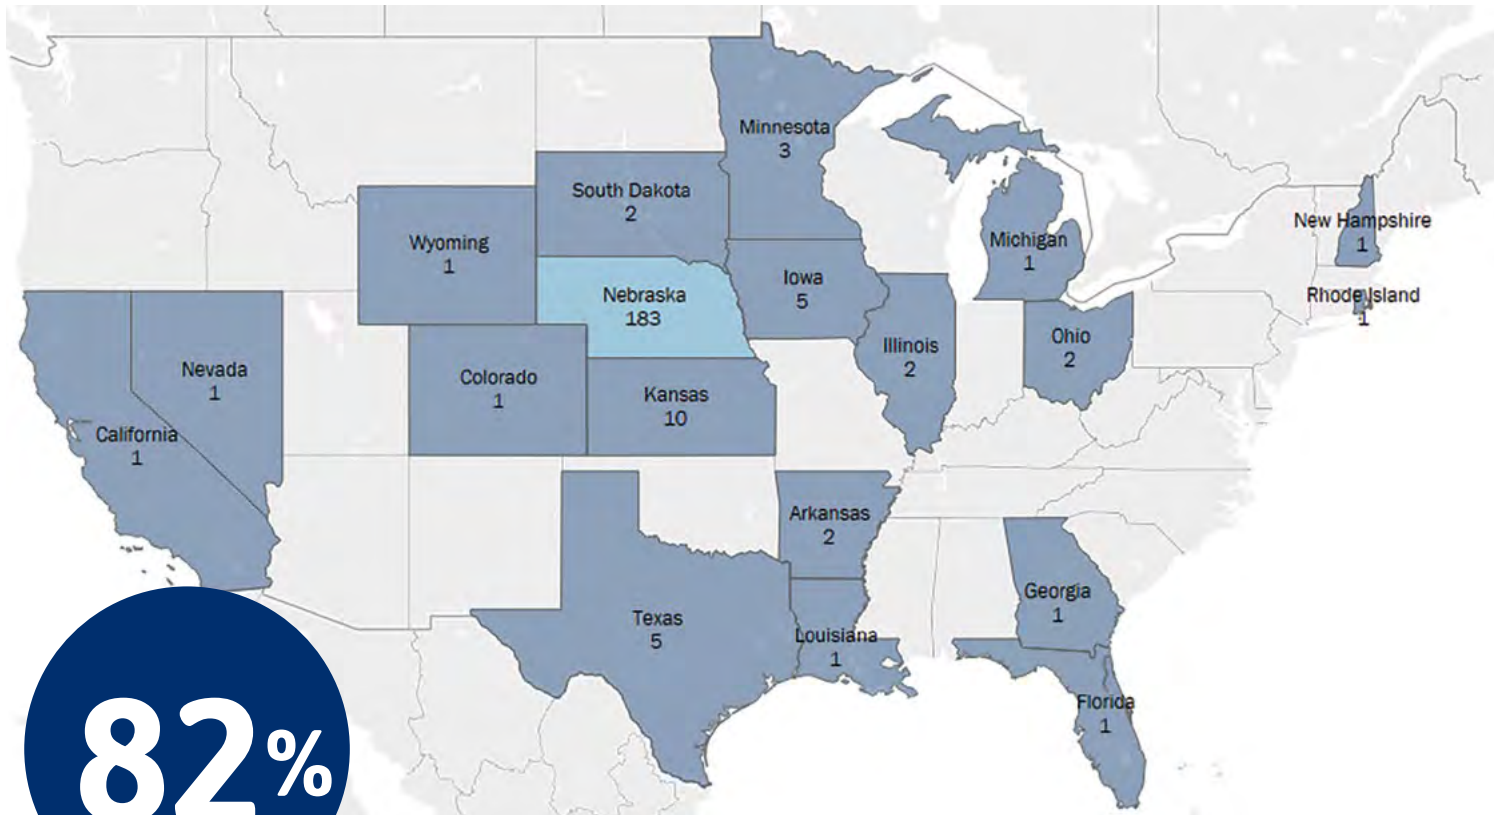

Total employed: 818

69%

of employed graduates are working in our 15-county service area.

CONTINUING EDUCATION

82%

of graduates who are continuing their education are doing so in Nebraska. *Total continuing education: 224*

Gathering Data

Information about the post-graduation status of SCC graduates was collected directly from the graduates at or near the time of graduation and from the National Student Clearinghouse. The information was collected by the Career Services Offices at the time of graduation through personal conversations, classroom visits, telephone calls, emails, mailings, texts, and social media. The Career Services Offices reported that it has been more challenging to get students to respond since 2020.

Wage and employment information has been self-reported by graduates for their first job after graduation. Self-reported continuing education status was supplemented with information from the National Student Clearinghouse.

Twelve (12) graduates completed multiple degrees during 2022. All percentages and location-based counts use the unique number of graduates. The data table is based on the number of degrees. In the data table, the graduates who completed multiple degrees will be counted multiple times, once for each degree they received.

- **Number of degrees granted during 2022: 1,349**
- **Number of graduates during 2022: 1,301**
- **Number of graduates who responded: 1,119**
- **Response rate: 86.0%**

All salaries are based on a 40-hour work week unless noted. Salary statistics reflect certificates, diplomas and associate degrees. The graduates in the "Still Seeking, Not Seeking, No Response" column are not included in the percentage calculations. Values may not add to 100% due to rounding.

(A.A.) = Associate of Arts
(A.S.) = Associate of Science

¹ Salaries were not reported by a large enough sample and have been omitted for confidentiality.

² Pay plans and benefits vary to include commissions and bonuses.

³ Must complete 640 hours of a state-specific Administrator-in-Training program.

⁴ Transfer degree, no salary.

⁵ Salaries were reported from Lightcast at the 10th percentile salary level for the Standard Occupational Code(s) associated with the program.

⁶ To obtain a sample large enough to report, salary information is based on graduates from 2018, 2019, 2020, 2021, and 2022.

⁷ To obtain a sample large enough to report, salary information is based on graduates from 2020, 2021 and 2022.

⁸ To obtain a sample large enough to report, salary information is based on graduates from 2021 and 2022.

⁹ Truck drivers may be paid by the hour, by the week, or based on the number of miles driven. In 2022, the average starting pay for first-year truck drivers in Nebraska was \$46,000-49,000.

SCC Chosen to Establish a Walter Scott Jr. Career Pathway Scholarship Program

Southeast Community College and the Walter Scott Family Foundation are partnering on a scholarship program that will provide financial assistance to students in select career-technical programs on the Milford Campus for at least the next 10 years.

The Foundation has made an initial commitment of more than \$7.6 million over the next decade in creating the Walter Scott Jr. Career Pathway Scholarship. The scholarship will pay for tuition, fees, room, and board for up to four consecutive semesters for 25 new students a year. The first selection of 25 students will occur by the 2023 Fall Semester.

Additional amenities for Pathway Scholars include an on-campus living and learning environment and program enrichment activities throughout the year, providing program-directed and student-selected experiences.

“Southeast Community College’s new partnership with the Walter Scott Family Foundation is an incredible opportunity for our students, employers and communities by creating a pathway for students to earn a credential in one of the College’s many programs that directly align with high-demand, high-wage and high-skill occupations,” said SCC President Dr. Paul Illich.

Calvin Sisson, president and CEO of the Walter Scott Family Foundation, said “Walter Scott Jr. believed that investing in young people through scholarships is one of the finest investments we can make as a society. The Foundation is proud to partner with Southeast Community College on a life-changing scholarship opportunity that develops future leaders for our state’s skilled and technical workforce.”

“The Walter Scott Jr. Career Pathway Scholarship program aligns seamlessly with the College’s vision to be a national leader in developing high-contact technical and academic experiences through personal and sincere relationships with engaged and invested faculty, staff and administrators,” Illich added.

Tracy Kerner is serving as the Scott Pathway director. She is dedicated to the program and will provide support and career placement at the Milford Campus. Funding for a Summer Bridge program also is being implemented to provide opportunities for Scott Pathway Scholars to demonstrate leadership on campus by providing direct support for camps and activities related to career and technical education awareness for high school students.

The Walter Scott Jr. Career Pathway Scholarship is intended for high school seniors planning to enroll in a qualifying program of study at SCC in the fall. To apply, applicants should complete the High School Seniors application, which is open from Dec. 1 through March 1 of each year.

One of the criteria that must be met in order to qualify for the scholarship is to be accepted and enrolled in one of the following programs:

Construction Pathway

- Building Construction Technology
- Concrete Construction Technician
- Electrical & Electromechanical Technology
- Heating, Ventilation, Air Conditioning & Refrigeration Technology
- Land Surveying/GIS/Civil Engineering Technology
- Plumbing Technology

Manufacturing Pathway

- Energy Generation Operations
- Manufacturing Engineering Technology
- Nondestructive Testing Technology
- Precision Machining and Automation Technology

Transportation Pathway

- Auto Collision Repair Technology
- Automotive Technology
- Deere Construction & Forestry Equipment Technology
- Diesel Technology-Truck
- Diesel-Ag Equipment Service Technology
- Ford ASSET
- GM ASE
- John Deere Tech

First Residence Hall, Lincoln Campus

On May 3, 2022, SCC broke ground on what will become the first residence hall on the Lincoln Campus. Construction on the 250-bed unit is expected to be completed in fall 2023, and students will begin occupying the space in January 2024, the start of the Spring Semester.

A 2018 survey of students taking classes on the Lincoln Campus was conducted. Of the 7,238 students invited to participate, 1,635 students completed the survey and an additional 77 partially completed the survey for total of 1,712 respondents and a response rate of 24%.

More than one-third (36%) of respondents primarily enrolled at the Lincoln Campus or Education Square in downtown Lincoln indicated that they would be very or moderately likely to choose to live on campus if there were on-campus residence halls at the Lincoln Campus.

Consultant Greg Wachalski, an expert in student housing, did a study and found:

- Lincoln students expressed strong support for on-campus student housing. Fifty-seven percent of those who live with parents and 43% of apartment renters indicated, in the student survey, that on-campus housing would be “very important” or “important” to them.
- Those who will eventually end up living on campus will seek the residential college experience and proximity to academic resources and other students.

Sampson Construction is the general contractor. BVH is the architect.
