## A message from the President

Dear Friend of Southeast Community College,

On behalf of the Board of Governors, the alumni, faculty, staff, and students of this excellent institution, I am pleased to present Southeast Community College's placement report "Graduates 2013-2014: A Report on Employment/College Transfer Outcomes." The report includes graduation and employment statistics associated with 2013-14 graduates from all of our applied technology and transfer programs.

The report includes the total number of graduates, the number employed within the training-related field, the number continuing their education, the percent employed within Nebraska, and the average salary for SCC graduates. The graduation and employment data are captured via surveys and phone interviews conducted by SCC placement staff. For the 2013-14 graduates, 1,640 of the 1,676 graduates completed the graduate survey, yielding a response rate of 98%. The surveys are distributed just before the date of graduation. Follow-up interviews and surveys are conducted throughout the year to ensure the highest possible response rate. In addition to graduation and employment statistics, the report includes employers and transfer colleges and universities associated with each of SCC's programs. The report also includes a sampling of personal experiences of graduates and employers in relation to the impact of SCC's programs.

This report represents one of our many efforts to evaluate the success of our programs and the degree to which we are accomplishing our mission. Seventy-four percent (74%) of graduates from SCC's applied technology programs reported that they had secured employment within their training field at the time of their graduation. Ninety-three percent (93%) of these graduates reported that they were either employed or continuing their education. Eighty-two percent (82%) of graduates from SCC's academic transfer program reported that they were continuing their education.

SCC is committed to its mission of providing the highest quality applied technology and academic education opportunities to its 15-county service area. SCC has a long history of ensuring that employers have access to qualified graduates who have the skills needed for successful and productive employment. SCC continually seeks to align its programs with the specific needs and requirements of employers and transfer institutions. We are committed to meeting the educational needs of our students, employers and the community.

Sincerely,

Paul Illich, President, Southeast Community College

### SCC Board of Governors

Chairperson: Kathy Boellstorff, Johnson; Vice Chairperson: Dale Kruse, Beatrice; Secretary: Nancy A. Seim, Lincoln; Treasurer: Helen E. Griffin, Lincoln; Robert J. Feit, Pickrell; Ed C. Heiden, Sterling; Ruth M. Johnson, Lincoln; Terrence L. Kubicek, Lincoln; Steven Ottmann, Dorchester; Edward C. Price, Lincoln; Lynn Schluckebier, Seward; Bill Beltz, Faculty Representative, Milford. (Jan. 23, 2014)

### Equal Opportunity/ NonDiscrimination Policy

It is the policy of Southeast Community College to provide equal opportunity and nondiscrimination in all admission, attendance, and employment matters to all persons without regard to race, color, religion, sex, age, marital status, national origin, ethnicity, veteran status, sexual orientation, disability, or other factors prohibited by law or College policy. Inquiries concerning the application of Southeast Community College's policies on equal opportunity and nondiscrimination should be directed to the Vice President for Access/Equity/Diversity, SCC Area Office, 301 S. 68th Street Place, Lincoln, NE 68510, 402-323-3412, FAX 402-323-3420, or jsoto@southeast.edu.

### Declaración de política sobre equidad/ antidiscriminación

La política pública de Southeast Community College es de proveer equidad, y prohíbe discriminación, en todos asuntos referentes a la admisión, participación, y empleo contra toda persona por motivo de raza, color, religión, sexo, edad, estado civil, origen nacional, etnia, condición de veterano, orientación sexual, incapacidad, u otros factores prohibidos por ley o política del Colegio. Preguntas relacionadas a la política sobre equidad/

antidiscriminación de Southeast Community College deben dirigirse a: Vice President for Access/Equity/Diversity, SCC Area Office, 301 S 68 Street Place, Lincoln, NE 68510, 402-323-3412, FAX 402-323-3420, o jsoto@southeast.edu.

### The SCC Mission...

Southeast Community College values the opportunity to provide quality applied technology and academic educational opportunities for the students, businesses and communities of our district. To achieve that purpose, SCC will:

- Continue to value local governance
- Value and support diversity
- Be affordable and accessible
- Develop and maintain partnerships
- Provide responsive delivery systems
- Respond to emerging technology
- Promote continuous improvement
- Promote student learning through the provision of quality instruction, curriculum and appropriate facilities
- Embrace lifelong learning
- Maximize and utilize resources efficiently
- Be accountable
- Encourage a positive environment
- Promote recruitment and retention
- Be communicative
- Be fiscally responsible

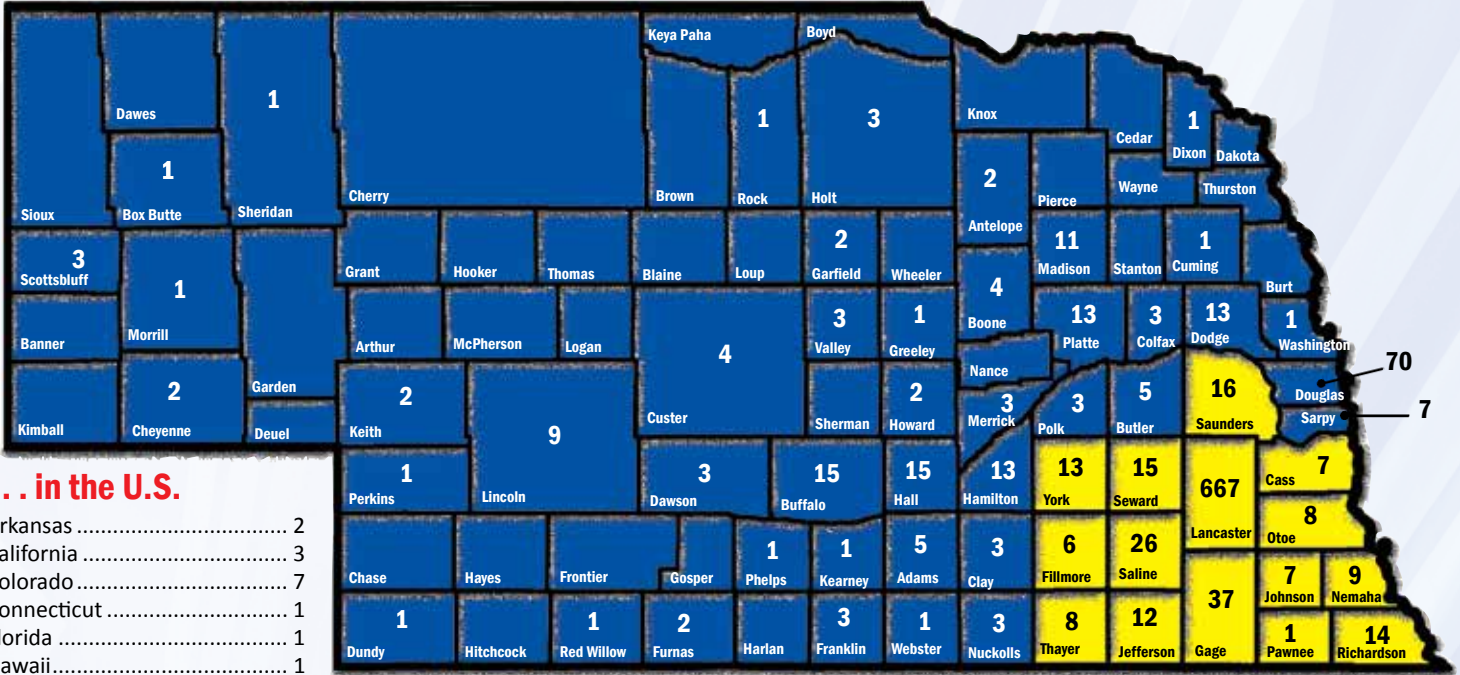

### Limitations of Information

This publication should not be considered a contract between SCC and any prospective student. SCC's Board of Governors reserves the right to make changes in this publication during the life of the publication and without notice.

# AGRICULTURE BUSINESS & MANAGEMENT TECHNOLOGY

*"With a small start in business during high school, I went on to SCC and enrolled in the horticulture program. The hands-on training and family-like environment accelerated my career by reiterating small-town values and relationships. The knowledge I retained about plants by being able to actually be in the field long outweighs just reading it in a book. I continue to visit the school and have contact with my instructors on a regular basis. They are always there and willing to help!"*

**Josh Graczyk, Owner  
 Graczyk Lawn and Landscape, Kearney, NE  
 2005 Agriculture Business & Management Technology Graduate**

During his junior year in high school, Dylon Marshalek took a horticulture class and worked in landscape design after school. That is when he decided to pursue horticulture as a career. He learned about SCC's program from a relative who talked about SCC's program being hands-on and that was what he wanted. He interned at Friesen Landscaping and was offered full-time employment after graduation.

*"I like building landscapes, retaining walls, landscape lighting, all new skills I learned during my internship. I would recommend this program to anyone who wants to actually do what they teach you in class. For me it was a great opportunity to learn new skills in the focus of Horticulture that I was going to follow."*

**Dylon Marshalek, Landscape Crew Member  
 Friesen Landscaping, Lincoln, NE  
 2013 Agriculture Business & Management Technology Graduate**

# BUSINESS ADMINISTRATION

*"I currently work for the University of Nebraska-Lincoln at the Pawnee County Extension Office, as the office manager. One of the reasons I got this job is because I had an Associate Degree in Business Administration from SCC, and for that reason I was able to beat out some of my competitors. I get the pleasure of working with children of all ages, while putting my degree to work in the office. I also used some of my instructors as references on my application which helped me get this position. I am so proud that I had such amazing instructors at SCC because they have prepared me for my career! I speak so highly of SCC. Not only do they prepare their students for*

*their futures, but you create lifelong relationships with the instructors, and that's hard to find at any college. Thank you SCC!"*

## What Employers Say About SCC Graduates

*"I have been conducting on-campus interviews at SCC every quarter for a few years. On-campus interviews have provided a large number of our excellent technicians. The Computer Information Technology program at SCC provides students with exactly the skills needed in the support field. The employees we have hired have been exemplary and are some of the best technicians we have at Dell."*

**Jonathan Westerlin**  
 Dell, Service Desk Manager

*"My experiences at SCC helped me grow as an individual and taught me the base skill set I needed to succeed in attracting employers. The professors are engaging, warm and very knowledgeable. The relationships I fostered at SCC are lasting and positive. SCC's Computer Programming Technology program provides the skills both millennials and non-traditional students need to set themselves apart from the pack of applicants in today's competitive job market."*

**Emma Lehman, Software Developer, DST Retirement Solutions**  
 DST Systems, Kansas City, MO  
 2013 Computer Programming Technology Graduate

## Positions

Service Technician at a truck dealership/independent shop

*"I was very happy with the instructors at SCC, as well as their placement program. After graduating I had three job opportunities thanks to SCC. I decided to accept the offer from Cummins Great Plains as a generator technician. This was a great opportunity because the position included Cummins factory training. During my 20 years of employment at Cummins I installed and troubleshot generators, paralleling gear, transfer switches, PLCs and communication networks.*

*Nearly five years ago, I began employment at Google, and it has been a very exciting ride. In the beginning I was the generator lead assisting a team with maintaining equipment and communicating with other Googlers across the world to review issues and agree on repairs and upgrades. As a member of the Data Center Operations team, I have moved on to many other roles in my career. I have been involved with the mechanical team assisting with the operations and maintenance of chillers, cooling towers, water softeners and HVAC equipment. I spent a year as a commissioning lead, which involved managing and assisting teams testing all of the electrical and mechanical equipment in our new buildings. This process tests all the equipment to make sure that it is ready for critical operations. I am currently training for associate facility manager. Who knows what is next!"*

**Reggie Gay, Associate Facility Manager**

 Preschool Head Teacher  
 Teacher  
 Toddler Teacher

*"My Early Childhood Education degree has made me much more aware of children's development and their needs. The three boys I care for, ages 2 1/2, 5 and 7, have lots of energy so I plan several age-appropriate activities to fill our day. I consciously observe the boys and adapt my plans to their needs and interests. Some days are spent at home with quieter activities, and other days are field trips of our choice like the library, parks or museums. No two days are the same; I enjoy that flexibility. The connection I have made with my family is incomparable to anything I could do at a daycare center. I am so glad I made the decision to enroll in online classes after I moved to Newfoundland. It has made a difference in my success!"*

*“Being a part of the manufacturing industry can mean that you will see a wide variety of challenges in your daily routine. The Manufacturing Engineering Technology courses at Southeast Community College will provide you with the right set of skills to effectively take care of these problems. Your teachers, who were part of the manufacturing industry, have the ability not only to teach you from a book but most importantly, they can relate an issue to one you will see on a daily basis in the manufacturing industry. Getting the hands-on experience at Southeast Community College greatly improves the transition from school to the workplace.”*

*"I have attended and received degrees from two well-known four-year colleges in the southeastern Nebraska area. I have also received two associate degrees from Southeast Community College. Without a doubt, I value my education from SCC above any other institution. Instructors at SCC thrive on challenging students with critical thinking skills, writing skills and problem solving skills, all of which are essential to real-world employment. Also, at Southeast Community College, students really do come first. Other colleges will tell you students come first but, from my experiences, SCC puts those words into action second to none. Every instructor, staff member and administrator is willing to help any student at a moment's notice. I wouldn't be where I am today with the income I have, where I live, and how happy I am, without my education from SCC. In my mind, an education from SCC is unbeatable."*

## What Employers Say About SCC Graduates

*"Electronic Contracting has been a long-time supporter of the Southeast Community College Electronic Systems Technology curriculum and thus have employed most of our technicians from this program. Many of our technicians have moved into our engineering, sales, estimating, and upper-management departments. Electronic Contracting values the real world approach that SCC provides to students and the dedication to keep up with current trends in the industry."*
