

City Chicks

Chicks
If you hear the sound of clucking over the morning news, don't be alarmed, it may be one of the growing numbers of city dwellers across the country

promoting backyard chickens in an urban residential landscape. This is a national trend that has been on the rise, and proponents are raising chickens as pets and for the added benefits of fresh eggs, pest control and fertilizer. Ecological and sustainable, come and find out the ins and outs of caring for urban chickens.

Agility Fundamentals

This class is perfect for all dogs at any skill level, puppy to adult. This class will build specific skills that your dog needs before you begin obstacle training. Agility is difficult to teach if your dog is running around with a toy, sniffing, mugging you for a treat, jumping on you, or visiting others. If your dog doesn't know how to focus on you and the task at hand, this can make it difficult to train your dog to go over a jump or into a tunnel, much less chain together obstacles and speed. The foundation skills covered in this six-week class will make your future agility training and sequencing much more enjoyable!
