Beginning Genealogy: Where to Start with Your Family History  Family

This is a kick start class in tracing your family tree. Bring what you know about your family to the first class and from there you'll learn the basics of beginning your genealogy. In these sessions, we'll discuss how to organize and record your information, fill in the gaps and begin a research plan. You'll learn how to use censuses and other common records, build an ancestor time line and how to find reliable information.
