

Would you like to learn the skills necessary in order to walk out into the woods with nothing, and not only survive, but live lavishly? If this idea appeals to you, then you may be interested in our primitive outdoor skills. Learn to work with nature, instead of against it. We teach skills that will enable you to walk softly within the woods, as indigenous cultures have for centuries, disturbing little and meeting your needs abundantly. In these classes, you will learn that the earth will provide for all who know her ways....

Primitive Fire  Primitive

Have you ever wondered what it would be like to create a primitive fire with your own hands using tools forged from the earth? In this class, we will experience the mystery of fire and learn how to do the bow drill fire technique. Participants will actually carve and create their own bow drill tools and learn the fire-starting techniques.

Bring a sharp carving knife as there is quite a bit of carving involved in this class. Dress appropriately for outdoor weather. There is a \$2 fee associated with this course payable at class.

Mar. 3	S	8:30 a.m.-12:30 p.m.	\$19
SCC, U-118	Spring	LLLX-1685-LNWA	

Primitive Rope Making  Primitive

After this class, you will never look at trees or the prairie in quite the same way. Together we will learn what materials to gather in order to make rope from natural plant fibers. The rope making techniques taught are the same simple techniques that were done by the indigenous cultures and pioneers. In this class, you will actually create your own cordage to take home after class.

Feb. 2	Th	6-8 p.m.	\$12
