ABOUT SCC

SCC is a two-year institution of higher education governed by an 11 member Board of Governors. The College's primary service area is comprised of 15 counties. The college operates on the quarter system and has campuses in Beatrice, Lincoln and Milford. SCC offers more than 50 Programs of Study, most technical in nature. Job placement is what makes SCC such a good choice. More than 90 percent of graduates continue to find employment or continue their education.

Accreditation

SCC is fully accredited by the Higher Learning Commission, a commission of the North Central Association of Colleges and Schools.

Higher Learning Commission

 E-mail: info@hlcommission.org | Web site: www.ncahlc.org

Awards

SCC awards the following to students who successfully complete a required program of study:

- Associate of Applied Science Degree
- Associate of Arts Degree
- Associate of Occupational Studies Degree
- Associate of Science Degree
- Certificate
- Diploma

Calendar

SCC operates on a quarter calendar system with terms that start in January (Winter), March (Spring), July (Summer) and October (Fall).

Enrollment

The 2010 Fall Quarter enrollment was 11,914 students, the largest in school history. During the 2009-10 academic year, the College also served more than 17,300 non-credit students enrolled in Continuing Education classes on the campuses and in communities throughout southeast Nebraska.

Entrepreneurship Center

Located at 285 S. 68th St. Place in Lincoln, SCC's Entrepreneurship Center serves as a resource center for anyone interested in entrepreneurship. The center staff offers assistance to anyone interested in starting a business or looking for direction on their path to business independence. One floor of the center is dedicated to business incubation. The center also hosts credit and non-credit classes on entrepreneurship and is home to Lincoln Public School's Entrepreneurship Focus Program and the Information Technology Program.

History

The College has been operating in its current structure since July 1, 1973, when a statewide community college system was implemented by the Legislature. However, the campus in Milford existed long before 1973. The first postsecondary technical institution, exclusively offering two-year postsecondary degrees in vocational/technical programs, was established by the Nebraska Unicameral in 1941 at Milford. Operated by the Nebraska Department of Education, the school was originally established to meet the occupational education needs of the entire state. In 1971, the Legislature passed a bill which combined junior colleges (Fairbury, established in 1941, in SCC's area), state vocational/technical colleges,

and the area technical schools into one system of two-year institutions. The consolidation originally established eight technical community college areas. The number was reduced to six when Lincoln merged with Southeast in 1973. As conceived in 1971, Nebraska community college areas were to be governed locally by elected boards. Southeast derives its operating revenue from three major sources: local property taxes, state aid (a combination of sales and income tax funds apportioned by the Legislature), and tuition.

Primary Service Area

The College serves the following 15 counties in southeast Nebraska:

Cass	Lancaster	Saline
Fillmore	Nemaha	Saunders
Gage	Otoe	Seward
Jefferson	Pawnee	Thayer
Johnson	Richardson	York

Technical & Career Education

Students may choose from applied technology programs grouped into seven divisions:

- 1) Agriculture/Food/Natural Resources Division
- 2) Business Division
- 3) Communications & Information Technology Division
- 4) Community Services & Resources Division
- 5) Construction & Electronics Division
- 6) Health Sciences Division
- 7) Transportation & Manufacturing Division

Job opportunities in each area are growing as the demands for employees with technical knowledge and skills increase. Business and industry advisory groups provide suggestions on standards, trends, emerging technology and course content.

Academic Transfer Education

SCC offers the first two years of college course work for transfer to four-year colleges and universities within the **Arts & Sciences Division**. Students enrolled in the academic transfer program may earn an Associate of Arts or an Associate of Science Degree. Located within the division are Developmental Education, General Education,

Humanities, Math, Science, and Social Science. Transfer of credits has become easier since the approval of the Nebraska Transfer Initiative in 1995. Students who begin their college careers at SCC, and transfer credits to a four-year college, graduate at rates comparable to those who began their college work at a four-year institution.

Student Activities

Each campus offers students opportunities to build leadership skills and friendships in organizations such as Student Senate and Phi Theta Kappa, the national community college scholastic honor society. Students may also participate in career-specific groups such as the Licensed Practical Nurses Association of Nebraska, and student chapters of such organizations as the Society of Manufacturing Engineers. In addition to career-related and scholastic groups, the Beatrice campus offers the following intercollegiate sports: men's and women's basketball, men's golf and baseball, and women's volleyball and softball. SCC-Beatrice also provides a variety of other activities, including art, theatre, and vocal and instrumental music. Each campus offers intramural sports and wellness centers where students can use exercise equipment and participate in aerobic and fitness activities.

Housing

SCC campuses in Beatrice and Milford offer residence hall living for single students. The Milford Campus also has housing for married couples and single parents. The Lincoln Campus maintains rental listings, city maps, and costs to assist students with their living arrangements.

Placement

In recent years, more than 90 percent of SCC graduates regularly report placement in training-related positions or in continued education following graduation. Most career program graduates receive multiple job offers, many before they graduate. Graduates are entitled to lifetime job placement services. In response to College surveys, employers report high satisfaction with the preparation and work habits of SCC graduates.

Instruction

SCC instructors are highly qualified. Academic instructors have completed master's degrees in their teaching fields. Some instructors have earned doctorates or have completed hours toward their doctoral degrees. Technical instructors have both formal and vocational education.

Services

SCC provides students with a wide variety of services, such as academic advising, disability services, financial aid, tutoring, TRIO Student Support Services, and TRIO Upward Bound. Students also have access to cafeterias, ample parking, housing (Beatrice and Milford), and a child development center in Lincoln. The College provides libraries, computer labs with Internet access, and placement services. These services support classroom experiences and help make a college education more accessible to prospective students.

Student Population

Nearly half of the nation's first-time freshmen enroll at community colleges. More and more students take classes simultaneously at two colleges. Flexible schedules, cost, convenient locations and small classrooms make community colleges a good education investment. Nebraska community colleges and four-year institutions work together to make co-enrollment and transfer of credit as easy as possible.

Student Diversity

SCC values diversity and seeks to recruit and retain students from a variety of cultures, races and ethnic groups. The College values the heritage and viewpoint each student brings to the campuses and classrooms. SCC offers activities, services and recognitions celebrating diversity. Support programs are offered for students of a variety of races and cultures as well as single parents and persons who are entering non-traditional careers. SCC also welcomes students with disabilities and complies with the Americans with Disabilities Act. College programs and activities are based on the principle that all students have the right to obtain an education in a college environment free from all forms of discrimination and harassment.
