Electrical &
Electromechanical
Technology

Heating,
Ventilation,
Air Conditioning
& Refrigeration
Technology

Major
Appliance
Professional
Technology

Experience first-hand three professions that need technicians, installers, maintenance, and service personnel during this half-day, hands-on workshop. Our world could not function without the skills and talents of professionals in each of these occupations.

These industries offer variety, job security, respect, upward mobility, great salary, lifelong employment, and opportunity for advancement. These workshops are excellent mechanical and technical career days for men and women.
