

Nebraska Hall

Nebraska Hall is an all-male residence hall. It is set up in a traditional dormitory style, with community restrooms on each floor. Nebraska Hall has mostly three-person rooms. It also has eight single rooms and some two-person rooms and four-person rooms. The four-person rooms are reserved for second-through sixth-quarter students.

Nebraska Hall is currently being remodeled. Remodeled **three-person rooms** have one set of bunk beds and one lofted bed, three closet armoires, three desks and three desk chairs. All the furniture in these rooms can be moved.

The rooms that have not been remodeled have one set of bunk beds, one regular bed, two desks, three chairs, one single closet and one double closet. All the furniture in these rooms is stationary, except the desk chairs. If you are placed in one of these rooms, you may be asked to move to a remodeled room as soon as it is completed.

Single-person rooms are located in a private section of Nebraska Hall known as the "PODs." This area has eight single rooms, a two-person room and a lounge area. There are large windows in the lounge area, but no windows in the individual rooms. Each room has a thick curtain for privacy. Only the students assigned to the single rooms have access to the PODs. Each student assigned to this area will receive a key that locks the closet in his room. This key also allows the student access into the PODs.
