## Digital Photography 101

Students will learn the basic functions of a digital camera. Class covers types of digital cameras, megapixels, optical vs. digital zoom, digital storage media, battery types, cost/value comparisons, memory management, red-eye reduction, and application presets. Beginning photographers interested in digital cameras and how to use them will enjoy this class.

*Students are encouraged to bring their digital cameras/software and docking station to class if they have them for one-on-one time to understand the specific functions of your particular camera and software.*

## Shutterfly Photo Book Memories

Learn how to master the free Internet website Shutterfly to design and create your own photo books and/or albums. Shutterfly has all the tools with easy options for editing, colors, backgrounds, and fonts for the beginner or creatively challenged. You will start a photo book and design in the first class and gain knowledge to work on your project outside of class. The final class will be spent getting one-on-one help and ordering your finished product.

*Students need to log on and set up a Shutterfly account prior to first class. Bring to class: Shutterfly account username and password and 12-15 pictures on a flash drive. Basic computer knowledge and Internet skills are needed to be successful. Cost does not include the cost of your finished product.*

## Digital Photography 201

It is suggested that students take Digital Photography 101 first. Digital Photography 201 covers the actual applications of digital photography, including how to choose each function for a particular use; which resolution to use when; improving camera performance; how to avoid accidental erasure or degradation of your photos; when, why and how to turn the flash on (or off); and problem solving to get predictable results.
