

Emergency Nursing Pediatric Course (ENPC)

Accurate assessment of a child with an acute illness or injury requires special knowledge and skills. ENPC gives nurses the tools to provide expert care for patients from birth to adolescence.

ENA developed the Emergency Nursing Pediatric Course to establish a standardized body of pediatric emergency nursing knowledge and to improve the care of all pediatric patients. This fourth-edition course combines interactive learning with scenario-based assessments to give nurses a comprehensive learning experience.

The two-day intensive course includes:

- Hands-on training using both an individual and team approach
- Teaching scenarios offer you the opportunity to practice the systematic approach of the initial assessment in real-life situations
- Online modules allow you to learn at your own pace and refer to information at any time
- Evidence-based content developed by pediatric emergency experts
- A comprehensive 5th Edition Emergency Nursing Pediatric Course Provider Manual, includes special emphasis on age and developmental stages
