

Hemp is the belle of the crop ball in 2020, with gardeners and farmers lined up for a chance to dance—but desire does not necessarily translate to know-how. From seed to harvest to processing, acreage owners and home gardeners are asking a lot of hemp questions.

Since the 2019 Legislature passed into law the farm bill which would allow hemp farming in Nebraska, it is time to learn what all is involved in this process for the small producer. Dave Sanders will lead this class that will cover licenses/permits, seed sources/seed sexing, soil types, growing cycle, sexing plants, identification of the parts of the plant, insects/prevention, harvest time/drying and lab tests required to comply with the law.
