

Now that you've been accepted, here are your next steps!

CHECK YOUR EMAIL

The majority of communication from Southeast Community College will come to you via email. This includes important information from your program, Admissions, Financial Aid, and Registration. We will use the email address you listed on your application, so be sure to check that daily. If you need to update your email address, please contact Admissions at admissions@southeast.edu.

LOG IN TO THE HUB

You will receive an email from The Helpdesk with your login information and instructions on how to log-in to The Hub. Please contact the Helpdesk, 402-437-2447, if you are having any issues getting logged in. The Hub is used for many things, including online registration, access to financial aid, your SCC student email, class schedule, and grades. You will need to begin accessing The Hub prior to the start of classes. This log-in and password also will be used to access FREE WI-FI at all SCC locations.

NEW STUDENT ENROLLMENT (NSE)

You will receive an email from Admissions prior to your start date that will contain more information about NSE, including dates and times of the various scheduled sessions.

As part of the NSE experience, you will complete a pre-NSE survey, connect with an advisor, register for classes, and learn important information to help you have the best possible start at SCC! NSE is required of all students.
