Leadership

Educators, trained child care professionals and Early Childhood Education program students provide leadership and supervision. Focus activities are led by qualified, knowledgeable specialists in that field of emphasis.

Grouping

Children are grouped according to age (i.e. ages 6-8, ages 8-11) while they are on campus. However, due to the Nebraska State Law for car seats, there will be mixed age groups for field trips to be able to transport everyone safely. Each group will have a teacher/pupil ratio of approximately 1:10.

Activities

Our camps emphasize safe summer fun while enriching the camper’s prior educational knowledge. All campers will be engaging in developmentally appropriate activities related to each camp focus. As a part of camp, the children will have the opportunity to participate in the Summer Reading program through the city libraries as we will visit the library one time per week, and another part of our regular activity will be swimming at the city pools. Campers also will be participating in games and crafts related to the weekly themes. Campers will have time to socialize with friends and build new relationships. Campers will be participating in one or more field trips per camp and may be off campus multiple times during the week.
