Students complete one year of prerequisite courses and three years of nursing courses.

Students will gain hands-on experience with over 900 clinical hours completed upon graduation from the program. Students will train in a fully equipped skills lab. A preparation course is built into the curriculum to help students succeed on the National Council Licensure Examination (NCLEX). This program is designed for students who have not yet completed nursing coursework nor have a nursing license. The BSN program is accredited by the Commission on Collegiate Nursing Education (CCNE).
