Photography

Fall 2020

**Photography Fundamentals**

Do you already know how to operate a film or digital camera, but want to learn more about the fundamentals of photography? Become proficient in the use of your camera through a practical study of exposure and basic photographic principles, such as aperture, shutter speed, ISO, metering, focus, and composition. You will receive shooting assignments each week and bring images to class for review and group discussion.

Bring your film or digital camera.

**NEW! Digital Photography**

Gain greater proficiency in digital photography while using an advanced amateur camera (adjustable), mirrorless interchangeable lens camera (MILC) or digital single-lens reflex (DSLR) camera. We will provide you with the fundamentals as you practice with your own camera. Basic principles of photography will be reviewed and the more sophisticated digital camera operations along with hardware options and software will be discussed. A camera with adjustable shutter speeds, apertures and ISO is necessary for this class – e.g. – dSLR, mirrorless interchangeable lens camera and/or advanced amateur digital camera.

Weekly exercises will be given.

**NEW! Digital Photography Editing/Post Processing**

This is an overview of editing digital images, both RAW and JPEG using the software you have on your laptop. You should have digital images with which to practice during the class. The recommend editing programs are: Photoshop CC, Affinity Photo, Luminar (up to Version 4) and DxO photolab. We will discuss noise reduction, sharpening, cropping and other techniques to enhance your masterworks.

**Digital Photography 101**

Students will learn the basic functions of a digital camera. Class covers types of digital cameras, megapixels, optical vs. digital zoom, digital storage media, battery types, cost/value comparisons, memory management, red-eye reduction, and application presets. Beginning photographers interested in digital cameras and how to use them will enjoy this class.

Students are encouraged to bring their digital cameras/software and docking station to class if they have them for one-on-one time to understand the specific functions of your particular camera and software.

**Digital Photography 201**

It is suggested that students take Digital Photography 101 first. Digital Photography 201 covers the actual applications of digital photography, including how to choose each function for a particular use; which resolution to use when; improving camera performance; how to avoid accidental erasure or degradation of your photos; when, why and how to turn the flash on (or off); and problem solving to get predictable results.

**Location Key**

Wahoo, WHLC .......................... Learning Center at Wahoo, 536 N. Broadway St.

**Check out all classes offered at www.southeast.edu/WahooLC**

For more information, contact Diana Kerwin-Kubr at 800-828-0072, ext. 5581, or dkerwin-kubr@southeast.edu
NEW! Digitizing Memories

Do you have envelopes full of negatives and slides or boxes of photos? Discover how to preserve them in a more organized form by scanning. We will look at scanning techniques and some of the devices to make scanning easy to do. Discussion will involve the software necessary to scan your negatives, slides and photos and look at the software "VueScan". Have a negative, slide and/or print available to scan during class.

A camera with adjustable shutter speeds, apertures and ISO is necessary for this class (e.g. DSLR, mirrorless interchangeable lens camera and/or advanced amateur digital camera).

Keyword: Digital

NEW! Advanced Techniques in Digital Photography

Using your MILC or DSLR camera discover more advanced techniques in the world of digital photography. This course is designed to provide you with fundamentals as you practice with your own personal camera in three areas: Nature, Architectural and Portraiture. We will meet every other class in a "field location" following social distancing guidelines and the following weeks will look at the photos and select the ones to edit (post-process). Basic principles of photography will be reviewed and then more sophisticated digital camera operations, such as controls, function and purpose, lighting, composition, hardware options and software will be discussed.

A camera with adjustable shutter speeds, apertures and ISO is necessary for this class (e.g. DSLR, mirrorless interchangeable lens camera and/or advanced amateur digital camera).

NEW! Photography & Editing Using Your Mobile Device

Are you interested in focusing on photography using your mobile devices and doing some limited post-processing of these photographs? Techniques in photography will be discussed, as well as an overview of many of the hundreds of useful apps for photography and editing, and also some very handy gadgets for your cellphones and tablets.

In preparation for the course, please download Snapseed for photo processing on your device(s) prior to the first class. Snapseed is a free app. If possible, participants should log in to LIVE Online classes with a laptop or other device and not from the cell or tablet they intend to use for photography, but this is not absolutely essential.

### OR REGISTER ONLINE

You must have an email account to register online.

2. **Search for your class** by entering a **key word** in the title or the **course number**. Click **Submit**. (Enter information in only one field for broader results.)
   
   **Key Word Example:** Driver
   **Course Number Example:** TRAN-3398
3. **Select the course** for which you wish to register. Click **Submit**.
4. Enter your **personal information**, **certify your identification** and click **Submit**.
   
   * You must provide your Social Security Number.
5. **Optional:** Enter your **Additional Registration Information** and click **Submit**.

* The College requires a student's Social Security number as a condition for enrollment online. A student's Social Security number information constitutes an "educational record" under FERPA.

### OR REGISTER BY MAIL, FAX OR IN PERSON

**Registration Form - Non-Credit Course**

Complete this form with payment information and send via mail to Southeast Community College, Continuing Education, 301 S. 68th St. Place, Lincoln, NE 68510 OR FAX to 402-437-2703

The College requests, but does not require, a student provide their Social Security number during the admissions process. Visit [www.southeast.edu/collegecatalog](http://www.southeast.edu/collegecatalog) for additional information.
