Digital Photography 201

It is suggested that students take Digital Photography 101 first. Digital Photography 201 covers the actual applications of digital photography, including how to choose each function for a particular use; which resolution to use when; improving camera performance; how to avoid accidental erasure or degradation of your photos; when, why and how to turn the flash on (or off); and problem solving to get predictable results.

Digital Photography

Gain greater proficiency in digital photography while using an advanced amateur camera (adjustable), mirrorless interchangeable lens camera (MILC) or digital single-lens reflex (DSLR) camera. We will provide you with the fundamentals as you practice with your own camera. Basic principles of photography will be reviewed and the more sophisticated digital camera operations along with hardware options and software will be discussed.

A camera with adjustable shutter speeds, apertures and ISO is necessary for this class (e.g. DSLR, mirrorless interchangeable lens camera and/or advanced amateur digital camera).
