Digital Photography Editing/Post Processing

LIVE Online

This is an overview of editing digital images, both RAW and JPEG using the software you have on your laptop. You should have digital images with which to practice during the class. The recommend editing programs are: Photoshop CC, Affinity Photo, Luminar (up to Version 4) and DxO photolab. We will discuss noise reduction, sharpening, cropping and other techniques to enhance your masterworks.

Photography & Editing Using Your Mobile Device

LIVE Online

Are you interested in focusing on photography using your mobile devices—smart phones and tablets (not limited to Apple products)—and doing some limited post-processing of these photographs? Techniques in photography will be discussed, as well as an overview of many of the hundreds of useful apps for photography and editing, and also some very handy gadgets for your cellphones and tablets.

In preparation for the course, please download Snapseed for photo processing on your device(s) prior to the first class. Snapseed is a free app. Have your mobile device handy as you login to this Zoom class from your desktop or laptop.

Digital Photography 201

It is suggested that students take Digital Photography 101 first. Digital Photography 201 covers the actual applications of digital photography, including how to choose each function for a particular use; which resolution to use when; improving camera performance; how to avoid accidental erasure or degradation of your photos; when, why and how to turn the flash on (or off); and problem solving to get predictable results.

Digital Photography 301

It is suggested that students take Digital Photography 201. A study of various lighting techniques and contrast ratios, filters, special effects, and how to get those way-cool photographs of portraits, landscapes, night scenes, fireworks, time-exposures and more. This class is for those who want to go beyond "automatic" mode and learn how to get those really cool shots!
