Butterflies, Birds & Winged Ones

With the constant erosion of native wildlife habitats, gardens increasingly provide a valuable source of food and shelter for a wide range of creatures. Birds and butterflies can be cared for and encouraged into gardens in many ways. We will look at habitat landscaping concepts for birds and butterflies and the many plants we can use in pollination gardens.

OneNote to Document Garden Ideas

Remember keeping diaries or journals? Some people write faithfully, and others tire of the writing quickly. Finding a passage you wrote way back when means pouring through pages and pages of entries before you find it again. But what if there was an easier (and more fun) way to keep track of your gardening notes? OneNote can do this, and it comes free with every installed version of Microsoft Office! All you need is to be very comfortable with a computer, and you will love this class!

Features of Perennial Plants

What kinds of perennials will you finally choose to fill your garden? Some gardeners want plants that pop up monthly from March through November. Some want lots of tall plants, round plants, flat plants. Red plants, blue plants, and pink, yellow and orange plants. Do you need some that will remind you of a grandparent or other family member or friend? Those are the best plants to include!
