On behalf of the Board of Governors, the administration, faculty and staff, welcome to Southeast Community College and our 2012-2013 Catalog.

We are pleased that you have chosen SCC, and we will do everything we can to help make your experience positive.

This catalog contains detailed information about SCC. Of primary importance are the chapters that contain our Programs of Study and course descriptions. Here you will learn about the courses you will take, the types of jobs that are available and an overview of the program. With more than 50 program options to choose from, we believe you will find a program or class that is perfect for you.

Southeast is a vibrant two-year public institution of higher education serving a primary area of 15 counties in southeast Nebraska. With multiple face-to-face locations and a growing online student population, SCC is well-positioned to meet the needs of students of all ages.

With a 94 percent graduate placement/continuing education rate and very affordable tuition and fees, SCC is a tremendous value. Our unique blend of career/technical programs will provide you with the skills necessary to compete in today’s workforce. We also offer an academic transfer program for students who wish to complete the first two years of a four-year degree. The transfer option through SCC helps reduce a student’s overall debt once they complete a baccalaureate degree.

SCC also offers continuing education opportunities that include professional growth and customized training services for business and industry and personal enrichment classes that are both fun and educational. And the College’s entrepreneurship center is one of only a few in the United States to hold the highest accreditation available.

Southeast takes great pride in putting students first. Our classes are small, creating a comfortable non-threatening learning environment. And our award-winning faculty focuses on excellence in teaching and your success, whether it’s getting you a job or preparing you to transfer. Our staff of dedicated professionals will provide you with career counseling, financial aid information, tutoring, career placement, and many other support services.

We welcome students of all races and nationalities, women and men, people with disabilities and students of all ages in our programs and activities. SCC values diversity as an important part of the educational process and continues to seek students, faculty and staff who bring a variety of life experiences and viewpoints to the College.

Congratulations and best wishes.
Your success is what we’re all about.

Dr. Jack J. Huck, President
Tuition and fees must be paid by the first day of class. The following tuition and fees rates are effective July 1, 2012–June 30, 2013:

Introduction

About SCC

The SCC Mission...
Southeast Community College values the opportunity to provide quality applied technology and academic educational opportunities for the students, businesses and communities of our district. To achieve that purpose, SCC will:

• Continue to value local governance
• Value and support diversity
• Be affordable and accessible
• Develop and maintain partnerships
• Provide responsive delivery systems
• Respond to emerging technology
• Promote continuous improvement
• Promote student learning through the provision of quality instruction, curriculum and appropriate facilities
• Embrace lifelong learning
• Maximize and utilize resources efficiently
• Be accountable
• Encourage a positive environment
• Promote recruitment and retention
• Be communicative
• Be fiscally responsible

Code of Ethics
At Southeast Community College we aspire to

Be Accountable and Show Respect for Others
Be accountable. Accept responsibility for decisions, for the foreseeable consequences of action and inaction, and for setting an example for others. Remember the special obligation to lead by example, to safeguard and advance the integrity and reputation of the College as a whole. Demonstrate respect for human dignity, privacy, and the right to self-determination for all people by being courteous, prompt and decent.

Be Honest and Demonstrate Integrity
Be truthful, sincere, and straightforward as well as honorable, upright, and courageous. Act with conviction.

Pursue Excellence in Fulfilling Responsibilities and Job Duties
Pursue excellence in all matters. In meeting personal and professional responsibilities, be diligent, reliable, industrious, and committed.

Perform all tasks to the best of our ability, and develop and maintain a high degree of competence. Be well-informed and well-prepared.

Be Kind and Compassionate
Be dedicated to the ideas and principles that demonstrate the spirit of kindness and compassion.

Give and share services with others while being trustworthy and fair in fulfilling commitments.

Adhere to the Principles of Diversity
Adhere to the principles of nondiscrimination and equality without regard to race, color, gender, sexual orientation, age, marital status, disability, religion, ancestry, veteran status, national origin or other factors prohibited by law or College policy. Be true to the equal treatment of individuals, including the tolerance for others and acceptance of diversity.

Fulfillment of these ethical practices reflects on the promises we have made to ourselves, to our community and to Southeast Community College. Respectful of these promises, we are guided by this motto: “Make each decision as if it were the one decision for which you would be remembered.”

-Walter Burke, Texas Instruments

Nondiscrimination Policy
Equal Opportunity/Nondiscrimination Policy - It is the policy of Southeast Community College to provide equal opportunity and nondiscrimination in all admission, attendance, and employment matters to all persons without regard to race, color, religion, sex, age, marital status, national origin, ancestry, veteran status, sexual orientation, disability, or other factors prohibited by law or College policy. Inquiries concerning the application of Southeast Community College’s policies on equal opportunity and nondiscrimination should be directed to the Vice President for Access/Equity/Diversity, SCC Area Office, 301 S. 68th Street Place, Lincoln, NE 68510, 402-323-3412, FAX 402-323-3420, or jsoto@southeast.edu.

Declaración de política sobre equidad/antidiscriminación - La política publica de Southeast Community College es de proveer equidad, y prohíbe discriminación, en todos asuntos referentes a la admisión, participación, y empleo contra toda persona por motivo de raza, color, religión, sexo, edad, estado civil, origen nacional, ascendencia, condición de veterano, orientación sexual, incapacidad, u otros factores prohibidos por ley o política del Colegio. Preguntas relacionadas a la política sobre equidad/antidiscriminación de Southeast Community College deben dirigirse a: Vice President for Access/Equity/Diversity, SCC Area Office, 301 S 68 Street Place, Lincoln, NE 68510, 402-323-3412, FAX 402-323-3420, o jsoto@southeast.edu.

Limitations of Catalog Information
This publication should not be considered a contract between SCC and any prospective student. SCC’s Board of Governors reserves the right to make changes in this publication during the life of the publication and without notice.
INTRODUCTION

About SCC

SCC is a two-year institution of higher education governed by an 11-member Board of Governors. The College’s primary service area is comprised of 15 counties. The college operates on the quarter system and has campuses in Beatrice, Lincoln and Milford. SCC offers more than 50 Programs of Study, most technical in nature. Job placement is what makes SCC such a good choice. More than 90 percent of graduates find employment or continue their education.

Accreditation

SCC is fully accredited by the Higher Learning Commission, a commission of the North Central Association of Colleges and Schools.

Higher Learning Commission
230 S. LaSalle St., Suite 7-500, Chicago, IL 60604
800-621-7440 | (312) 263-0456 | Fax: (312) 263-7462
Email: info@hlcommission.org | Website: www.ncahlc.org

Awards

SCC awards the following to students who successfully complete a required program of study:

• Associate of Applied Science Degree
• Associate of Arts Degree
• Associate of Occupational Studies
• Associate of Science Degree
• Certificate
• Diploma

Calendar

SCC operates on a quarter calendar system with terms that start in January (Winter), March/April (Spring), July (Summer) and October (Fall).

Enrollment

The 2011 Fall Quarter enrollment was 12,242 students, the largest in school history. During the 2010-11 academic year, the College also served more than 18,614 non-credit students enrolled in Continuing Education classes on the campuses and in communities throughout southeast Nebraska.

Entrepreneurship Center

Located at 285 S. 68th St. Place in Lincoln, SCC’s Entrepreneurship Center serves as a resource center for anyone interested in entrepreneurship. The center staff offers assistance to anyone interested in starting a business or looking for direction on their path to business independence. One floor of the center is dedicated to business incubation. The center also hosts credit and non-credit classes on entrepreneurship and is home to Lincoln Public School’s Entrepreneurship Focus Program and the Information Technology Program.

History

The College has been operating in its current structure since July 1, 1973, when a statewide community college system was implemented by the Legislature. However, the campus in Milford existed long before 1973. The first postsecondary technical institution, exclusively offering two-year postsecondary degrees in vocational/technical programs, was established by the Nebraska Unicameral in 1941 at Milford. Operated by the Nebraska Department of Education, the school was originally established to meet the occupational education needs of the entire state. In 1971, the Legislature passed a bill which combined junior colleges (Fairbury, established in 1941, in SCC’s area), state vocational/technical colleges, and the area technical schools into one system of two-year institutions. The consolidation originally established eight technical community college areas. The number was reduced to six when Lincoln merged with Southeast in 1973. As conceived in 1971, Nebraska community college areas were to be governed locally by elected boards. Southeast derives its operating revenue from three major sources: local property taxes, state aid (a combination of sales and income tax funds apportioned by the Legislature), and tuition.

Locations

Besides primary campus locations in Beatrice, Lincoln and Milford, SCC has more than 20 off-campus sites within the 15 counties.

(402) 323-3383, Fax: (402) 323-3399

Primary Service Area

The College serves the following 15 counties in southeast Nebraska:
Technical & Career Education
Students may choose from applied technology programs grouped into seven divisions:

1) Agriculture/Food/Natural Resources
2) Business
3) Communications & Information Technology
4) Community Services & Resources
5) Construction & Electronics
6) Health Sciences
7) Transportation & Manufacturing

Job opportunities in each area are growing as the demands for employees with technical knowledge and skills increase. Business and industry advisory groups provide suggestions on standards, trends, emerging technology, and course content.

Academic Transfer Education
SCC offers the first two years of college course work for transfer to four-year colleges and universities within the Arts & Sciences Division. Students enrolled in the Academic Transfer program may earn an Associate of Arts or an Associate of Science degree. Located within the division are Developmental Education, General Education, Humanities, Math, Science, and Social Science. Transfer of credits has become easier since the approval of the Nebraska Transfer Initiative in 1995. Students who begin their college careers at SCC, and transfer credits to a four-year college, graduate at rates comparable to those who began their college work at a four-year institution.

Student Activities
Each campus offers students opportunities to build leadership skills and friendships in organizations such as Student Senate and Phi Theta Kappa, the national community college scholastic honor society. Students may also participate in career-specific groups such as the Licensed Practical Nurses Association of Nebraska, and student chapters of such organizations as the Society of Manufacturing Engineers. In addition to career-related and scholastic groups, the Beatrice campus offers the following intercollegiate sports: men’s and women’s basketball, men’s golf and baseball, and women’s volleyball and softball. SCC-Beatrice also provides a variety of other activities, including art, theatre, and vocal and instrumental music. Each campus offers intramural sports and wellness centers where students can use exercise equipment and participate in aerobic and fitness activities.

Housing
SCC campuses in Beatrice and Milford offer residence hall living for single students. The Milford Campus also has housing for married couples and single parents. The Lincoln Campus maintains rental listings, city maps and costs to assist students with their living arrangements.

Placement
In recent years, more than 90 percent of SCC graduates regularly report placement in training-related positions or in continued education following graduation. Most career program graduates receive multiple job offers, many before they graduate. Graduates are entitled to lifetime job placement services. In response to College surveys, employers report high satisfaction with the preparation and work habits of SCC graduates.

Instruction
SCC instructors are highly qualified. Academic instructors have completed master’s degrees in their teaching fields. Some instructors have earned doctorates or have completed hours toward their doctoral degrees. Technical instructors have both formal and vocational education, and many have experience in the industry.

Services
SCC provides students with a wide variety of services, such as academic advising, disability services, financial aid, tutoring, TRIO Student Support Services, and TRIO Upward Bound. Students also have access to cafeterias, ample parking, housing (Beatrice and Milford), and a child development center in Lincoln. The College provides libraries, computer labs with Internet access, and placement services. These services support classroom experiences and help make a college education more accessible to prospective students.

Student Population
Nearly half of the nation’s first-time freshmen enroll at community colleges. More and more students take classes simultaneously at two colleges. Flexible schedules, cost, convenient locations, and small classrooms make community colleges a good education investment. Nebraska community colleges and four-year institutions work together to make co-enrollment and transfer of credit as easy as possible.

Student Diversity
SCC values diversity and seeks to recruit and retain students from a variety of cultures, races and ethnic groups. The College values the heritage and viewpoint each student brings to the campuses and classrooms. SCC offers activities, services and recognitions celebrating diversity. Support programs are offered to students of a variety of races and cultures as well as single parents and persons who are entering non-traditional careers. SCC also welcomes students with disabilities and complies with the Americans with Disabilities Act. College programs and activities are based on the principle that all students have the right to obtain an education in a college environment free from all forms of discrimination and harassment.

General Education Requirements

Role/Mission of General Education - Students who earn a degree from Southeast Community College should exhibit both breadth and depth of knowledge. Therefore, SCC requires a General Education component in all degree programs. The goal is to provide all students, in both career and transfer curricula, a common, broad-based, well-rounded educational experience.

Every Program of Study requires students to take General Education classes as well as Program Core classes. To complete an associate degree, whether it is of applied science, arts, science or occupational studies, a student must successfully complete a minimum of 22.5 quarter credits from general education requirements. Students should contact the program advisor to select general education courses from each category area which will meet that program’s graduation requirements. Transfer students should also work closely with the school to which they plan to transfer.

The associate degree* requires at least one *Oral Communication and one *Written Communication course, plus one course from three of the other five areas. A Certificate program must complete one course from the seven general education areas, and a Diploma program must complete one course from two of the seven general education areas. One exception is the Professional Truck Driver Training Certificate.

*Oral Communication

Transferring Credits

Transferring Your Credits
Southeast Community College is fully accredited by the Higher Learning Commission of the North Central Association of Colleges. Credit is therefore acceptable by most colleges and universities in the United States. Even though most courses listed under the Academic Transfer area at SCC transfer to most colleges and universities, you should consult with your advisor, the Registration and Record’s Office in Beatrice and Milford, or Career Advising Services in Lincoln to be sure the courses you take are applicable to the degree you are seeking. It is ultimately the student’s responsibility to check with the institution where credit is being transferred.

The most important step:
Contact an advisor from the institution to which you plan to transfer as soon as possible!

Start today – don’t wait until the last minute to find out if you’ve taken the correct classes to meet general education requirements. You will need:
- A list of general education courses required for your major.
- A list of admissions requirements for the college – including the minimum GPA you will need from SCC to get accepted for your major.
- Information on which SCC classes will transfer and how those classes apply to your baccalaureate degree.

How transferring credits works:
- The receiving school always has final approval of how they will use your previous credits.
- Courses must have a grade of ‘C’ or higher to transfer the credits.
- Four-year schools require a minimum cumulative GPA of a 2.0 (‘C’ average) to transfer. Many schools or majors require a higher GPA.
- Remember: credits transfer – grades do not. Your GPA at any school is based on the courses you take at that institution.
- Your grades at SCC will be used to make an admissions decision for the school you plan to transfer to. After you transfer, however, you will have credits on your transcripts but no GPA until you complete courses at your transfer institution.
- The number of credits you are able to transfer over does not include developmental classes.
- Your transfer school will want an official transcript from SCC once you transfer. To do this, go to the Student Services Office on your campus to request a transcript.
- Apply to your transfer school at least 6-9 months before you wish to attend. Some schools have earlier deadlines.

The Nebraska Transfer Initiative
The Nebraska Transfer Initiative (see the Nebraska Transfer Initiative Articulation MATRIX) provides seamless transition for SCC Academic Transfer graduates. The Initiative is a cooperative effort by Nebraska’s public and private higher education institutions to facilitate the transfer of students who have earned an Associate of Arts degree into baccalaureate-level programs.

The core of this initiative is a common general education cluster of courses, with the remainder of credit hours required for the Associate of Arts degree selected by the students in consultation with a transfer advisor and the institution to which they are transferring. This initiative provides a smooth transition with a minimum loss of time and credit when it is accepted by the baccalaureate-granting institution in Nebraska. Effectively, through this initiative, associate and baccalaureate-granting institutions are equal partners in providing the first two years of a baccalaureate degree.

Colleges and Universities
The following four-year colleges and universities have approved course articulation agreements with Southeast Community College. (See also the Nebraska Transfer Initiative Articulation MATRIX.)

- Bellevue University
- Chadron State College
- Clarkson College
- College of Saint Mary
- Concordia University
- Doane College
- Grace University
- Hastings College
- Kansas State University
- Midland University
- Nebraska Christian College
- Nebraska Methodist College
- Nebraska Wesleyan University
- Northwest Missouri State University
- Peru State College
- Union College
- University of Nebraska-Kearney
- University of Nebraska-Lincoln
- University of Nebraska-Omaha
- University of Phoenix
- Wayne State College
- York College

University/College Transfer Courses for Specific Majors:
Copies of university/college degree requirements are available in the Registration and Records Office in Beatrice and Milford and in Career Services in Lincoln for the following majors:

- Accounting
- Agricultural Sciences
- Agribusiness
- Agricultural Economics
- Agricultural Journalism
- Agronomy
- Animal Science
- Biochemistry
- Crop Protection
- Grazing Livestock Systems
- Horticulture
- Veterinary Science
- Veterinary Technologist

**SOUTHEAST COMMUNITY COLLEGE | CATALOG 2012-2013**

www.southeast.edu
Academic Transfer Program

Arts & Sciences
The Arts & Sciences Division is comprised of transfer areas of General Education, Humanities, Math, Science and Social Science. Students will be able to complete the first two years of general education credit or to take specific academic courses for transfer.

These courses are carefully designed to meet transfer specifications, and SCC instructors are qualified professional educators in their subject areas. The result is that SCC students are consistently well prepared for success in their transfer colleges. Courses within the Developmental Education area also are located in the Arts & Sciences Division. Students who satisfactorily complete a two-year Arts & Sciences program may earn an Associate of Arts or an Associate of Science degree from Southeast Community College. The associate degree validates an ability to successfully complete college-level studies and may expand student options for further study and for career advancement.

Beatrice and Lincoln Campuses
Prepares students for transfer to a senior college/university

To receive an A.A. or A.S. degree from either the Beatrice or Lincoln Campus, a student must meet the requirements stated in this catalog. Mathematics classes numbered below 1150 and other classes numbered below 1000 generally do not meet graduation requirements and will not transfer to other colleges.

- It is the student’s responsibility to know the requirements for the desired degree. The Vice-President for Instruction must approve any deviation from the curriculum printed in this catalog.
- Four-year colleges and universities have their own requirements for a bachelor’s degree. Students who plan to transfer to a senior college or university should consult early with an advisor to determine their curriculum.
- A student who lacks a high school diploma or GED and is enrolled in the academic transfer courses may take a maximum of 24 credit hours. Enrolling in further academic transfer courses will require a high school diploma or GED.

Competency in the basic skills – reading writing and computation
These competencies are essential if you are to function effectively in transfer classes. You must meet the following minimum requirements to enroll in academic transfer courses.

1. Minimum proficiency in reading and writing, either at the original entrance assessment, subsequent assessment or in courses that address these competencies prior to enrollment in courses requiring these competencies.
2. Minimum proficiency in computational or algebraic skills, either at the original entrance assessment, subsequent assessment or in courses that address these competencies prior to enrollment in mathematics courses requiring these skills.

Mathematics, English and Reading Placement Policy: Students presenting proof of passing (a grade of C [P] or higher) the prerequisite course are exempt from the readiness requirement. Otherwise, readiness is established by having a current, satisfactory score on the college placement exam (Compass/Asset/ACT).
**Associate of Arts Degree (A.A.)**

The Associate of Arts degree is for students who plan to complete their first two years of a bachelor's degree in education, humanities, social science, or social work before transferring to a college or university. Students are encouraged to meet with their advisor and receiving college or university to determine transfer courses that will meet the requirement for the student’s field of study. Not all courses will be available at all campuses.

---

The Associate of Science degree is for students who plan to complete their first two years of a bachelor’s degree in engineering, science, mathematics, or a pre-professional program (pre-vet, pre-dentistry, pre-med) before transferring to a college or university. Students are encouraged to meet with their advisor and receiving college or university to determine transfer courses that will meet the requirement for the student’s field of study. Not all courses will be available at all campuses.

**Credit Hours Required for Graduation: 90.0**

Health Information Management Systems

This focus allows students to take general education and prerequisite courses toward the HIMS program at Central Community College in Hastings. Students may take classroom or Web-based courses at SCC Lincoln, then transfer to Central Community College to complete the Medical Coding Diploma or their Associate of Applied Science degree in HIMS.

Central Community College has created an agreement to accept 44 quarter credit hours toward the Diploma and 53 quarter credit hours toward the Associate of Applied Science degree.

Please contact Linda Delgado, HIMS advisor, at 402-437-2753 or ldelgado@southeast.edu.

Please work closely with your SCC Academic Advisor. Suggested courses vary depending on your transfer school. Ultimately, it is the student’s responsibility to check with the institution where credit is being transferred.

DIPLOMA
The Diploma gives graduates the entry-level skills needed for employment as clinical coders in a variety of health care settings.

53.0 hours
Media/Journalism

This focus allows pre-journalism students an opportunity to complete the first two years of a journalism degree and transfer to a four-year college or university. This set of courses prepares students for entry-level positions in radio, television, newspapers and other businesses which employ new media technologies. Please work closely with your SCC Academic Advisor. It is the student’s responsibility to check with the institution where credit is being transferred.

A “C” must be achieved in all focus courses to progress in the program.

Pre-Engineering

This focus allows a pre-engineering student at SCC to complete the first two years of an engineering degree program (STEP) and transfer to the University of Nebraska-Lincoln. Requirements vary with each engineering major. Please work closely with your SCC Academic Advisor.

This focus is appropriate for majors in Agriculture, Biological Systems, Civil, Electrical, Industrial and Mechanical Engineering. It is ultimately the student’s responsibility to check with the institution where credit is being transferred.

Agriculture Business & Management Technology

Beatrice Campus

Associate of Applied Science Degree

Types of jobs available:
- Golf course superintendent
- Grain elevator manager
- Livestock genetics salesperson
- Crop consultant
- Landscape
- Equipment salesperson
- Research technician
- Crop and livestock production specialist
- Commercial pesticide applicator
- GPS precision specialist
- Agronomist
- Conservationist

Program overview
This program is located on the Beatrice Campus. Students are admitted every quarter. Students may focus in Agribusiness, Horticulture, Crops, Livestock, Golf Turfgrass Management, or Diversified Agriculture.

For more information contact:
Annie Erichsen, Program Co-Chair
402-228-8258, 800-233-5027 ext. 1214
or the College Admissions Office
Beatrice 402-228-8214, 800-233-5027 ext. 1214

Credit Hours Required for Graduation:
Agribusiness Focus: 132.0
Crops Focus: 132.0
Diversified Agriculture Focus: 132.0
Horticulture Focus: 132.0
Livestock Focus: 132.0

Students who wish to pursue an Associate of Science degree in agriculture should visit with an SCC-Beatrice Agriculture Business & Management Technology faculty advisor.

General Education Requirements:
Contact your program advisor to select general education course/s from each category which will meet your program’s graduation requirements. See page 16 for complete list.
(One class from each area below).

Oral Communications 4.5
Written Communications 4.5
(Plus three classes from the five areas below; no two classes from the same area).
Mathematics, Science, Social Science, Humanities, and/or Computer Technology 13.5

22.5 hours

Agribusiness Focus:

AGRI1135 Basic Fertilizer Management 3.0
AGRI1141 Livestock Management & Selection 6.0
AGRI1153 Soils & Plant Nutrition 6.0
AGRI1211 Fundamentals of Ag Marketing 4.5
AGRI1221 Livestock Nutrition 4.5
AGRI2219 Pesticide Certification (or HORT2219) 3.0
AGRI2232 Forage Harvesting and Management (or 2233 or 2253) 6.0
AGRI2233 Planting and Tillage Equipment (or 2232 or 2253) 6.0
AGRI2253 Grain Harvesting & Management (or AGR2232 or AGR2233) 6.0
AGRI2267 Advanced Marketing 4.5
AGRI2279 Precision Technology 4.5

Select 21 hours from the following:

AGRI1124 Basic Ag Leadership 4.5
AGRI1143 Introduction to Equine Management 4.5
AGRI1257 Live Animal Selection & Carcass Evaluation 4.5
AGRI2202 Advanced Ag Business Management 6.0
AGRI2220 Ag Chemicals & Equipment Application 4.5
AGRI2233 Principles of Livestock Feeding 4.5
AGRI2231 Animal Breeding 7.5
AGRI2245 Animal Health 6.0
AGRI2258 Livestock Ultrasound Technology 6.0
AGRI2265 Irrigation & Water Management 6.0
AGRI2280 Advanced Crops 4.5
AGRI2295 Special Topics – Cooperatives 1.0
HORT1132 Horticulture Plant Identification & Selection 4.5
HORT1154 Greenhouse Management 3.0
HORT1155 Basic Landscaping 4.5
HORT1239 Arboriculture 3.0
HORT1242 Turfgrass Management 4.5
HORT2265 Irrigation & Water Management 6.0
Agribusiness Focus: 63.0
67.5 hours

Crops Focus:

AGRI1135 Basic Fertilizer Management 3.0
AGRI1141 Livestock Management & Selection 6.0
AGRI1153 Soils & Plant Nutrition 6.0
AGRI1211 Fundamentals of Ag Marketing 4.5
AGRI2202 Advanced Ag Business Management (or 2279) 6.0
AGRI2219 Pesticide Certification 3.0
AGRI2220 Ag Chemicals & Equipment Application 4.5
AGRI2233 Planting & Tillage Equipment 6.0
AGRI2253 Grain Harvesting & Management 6.0
AGRI2265 Irrigation & Water Management 6.0
AGRI2279 Precision Technology (or 2202) 4.5
AGRI2267 Advanced Marketing 4.5

Select 9 hours from the following:

AGRI2212 Ag Machinery Maintenance 3.0
AGRI2222 Agriculture Analysis 3.0
AGRI2232 Forage Harvesting & Management 6.0
AGRI2240 Range Management 6.0
AGRI2280 Advanced Crop 4.5
HORT1136 Plant Propagation 3.0
HORT1154 Greenhouse Management 3.0
HORT1242 Turfgrass Management 4.5
Crops Focus: 63.0-64.5
Eelectives: 3.0-4.5
67.5 hours

Diversified Agriculture Focus:

AGRI1124 Basic Ag Leadership 4.5
AGRI1141 Livestock Management & Selection 6.0
AGRI1153 Soils & Plants Nutrition 6.0
AGRI1211 Fundamentals of Ag Marketing 4.5
AGRI1221 Livestock Nutrition 4.5

Agribusiness Courses Take a minimum of 6 credits

AGRI2202 Advanced Ag Business Management 6.0
AGRI2223 Principles of Livestock Feeding 4.5
AGRI2253 Grain Harvesting & Management 6.0
AGRI2267 Advanced Marketing 4.5
AGRI2279 Precision Technology 4.5

Livestock Courses take a minimum of 12 credits

AGRI1143 Introduction to Equine Management 4.5
AGRI1257 Live Animal Selection & Carcass Evaluation 4.5
AGRI2231 Animal Breeding 7.5
AGRI2240 Range Management 6.0
AGRI2245 Animal Health 6.0
AGRI2254 Advanced Swine Production 4.5
AGRI2255 Advanced Sheep & Goat Production 4.5
AGRI2256 Advanced Beef Production 4.5
AGRI2258 Livestock Ultrasound Technology 3.0
HORT2286  Advanced Landscaping 4.5  
HORT2292  Landscape Maintenance 3.0  
HORT1154  Greenhouse Management 3.0  
HORT1239  Arboriculture 3.0  
HORT1242  Turfgrass Management 4.5  
HORT2265  Irrigation & Water Management 6.0  

**Mechanics Courses take a minimum of 9 credits**

AGRI1116  Electric & Gas Welding 2.0  
AGRI1195  Advanced Electric and Gas Welding 2.0  
AGRI1218  Basic Farm Engines 4.5  
AGRI2212  Ag Machinery Maintenance 3.0  
AGRI2232  Forage Harvesting and Management 6.0  
AGRI2233  Planting & Tillage Equipment 6.0  
AGRI2253  Grain Harvesting & Management 6.0  
AGRI2265  Irrigation & Water Management 6.0

HORT2214  Horticulture Equipment Maintenance 3.0  
HORT2265  Irrigation & Water Management 6.0  
HORT2288  Golf Course Management 6.0  
HORT2295  Advanced Golf Course Management 8.0  

Select 10.5 hours from the following:

AGRI2229  Technology Precision 4.5  
HORT1136  Plant Propagation 3.0  
HORT1154  Greenhouse Management 3.0  
HORT1155  Basic Landscape Design 4.5  
HORT1239  Arboriculture 3.0  
HORT2292  Landscape Maintenance 3.0  
HORT2286  Advanced Landscaping 4.5  
Golf Turfgrass Management Focus 63.5  
Electives 4.0  
67.5 hours

**Horticulture Focus:**

AGRI1141  Livestock Management & Selection (or 1177) 6.0  
AGRI1177  Companion Animal (or 1141) 4.5  
AGRI1153  Soils & Plant Nutrition 4.5  
AGRI1211  Fundamentals of Ag Marketing 4.5  
HORT2219  Pesticide Certification 3.0  
AGRI2220  Ag Chemicals & Equipment Application 4.5  
HORT1132  Horticulture Plant Identification & Selection 4.5  
HORT2265  Irrigation & Water Management 6.0  

Select 21 hours from the following:

AGRI1116  Electric & Gas Welding 2.0  
AGRI1135  Basic Fertilizer Management 3.0  
AGRI2222  Agriculture Analysis 3.0  
HORT1136  Plant Propagation 3.0  
HORT1154  Greenhouse Management 3.0  
HORT1155  Basic Landscaping 4.5  
HORT1242  Turfgrass Management 4.5  
HORT2214  Horticulture Equipment Maintenance 3.0  
HORT2292  Landscape Maintenance 6.0  

Select 9 hours from the following:

AGRI2240  Range Management 6.0  
AGRI2279  Precision Technology 4.5  
AGRI2286  Advanced Landscaping 4.5  
HORT1190  Management of Turfgrass Pests 4.5  
HORT1239  Arboriculture 3.0  
HORT2288  Golf Course Management 6.0  
Horticulture Focus: 63.0-64.5  
Electives: 3.0-4.5  
67.5 hours

**Livestock Focus:**

AGRI1141  Livestock Management & Selection 6.0  
AGRI1211  Fundamentals of Ag Marketing 4.5  
AGRI1221  Livestock Nutrition 4.5  
AGRI1257  Live Animal Selection & Carcass Evaluation 4.5  
AGRI2223  Principles of Livestock Feeding 4.5  
AGRI2231  Animal Breeding 7.5

Architectural-Engineering Technology

Milford Campus

Associate of Applied Science Degree

Types of jobs available:
- Architectural technician
- Engineering technician
- Estimator
- Heating and plumbing layout and drafting
- Structural steel and wood detailer
- Building contractor

Graduates of this program are trained to be special members of a team that assist both the architect and engineer.

Architectural-Engineering graduates are working throughout the United States. SCC has placed graduates on both the East and West coasts, but the majority of the graduates are placed in Nebraska and surrounding states. Students work in companies of various sizes. Some graduates continue their education at a four-year college or university to earn a bachelor’s degree.

Program overview
This program is located on the Milford Campus. Students will be admitted during the Summer (2012), Winter (2013), Spring (2013), and Summer (2013) quarters. Call the Admissions Office for the next available entry times.

A flexible schedule on the Milford Campus is available. Please contact the program chair for more information.

For more information contact:
Paul Buell, Program Chair
402-761-8351, 800-933-7223 ext. 8351, pbuell@southeast.edu

or the College Admissions Office
Milford 402-761-8243, 800-933-7223 ext. 8243

Prepares students for careers in architectural and engineering building technologies

Credit Hours Required for Graduation: 135.0

Following is a suggested guide for a full-time student to complete an A.A.S. degree in Architectural-Engineering Technology. Graduates of the program are trained to be a special member of an engineering or architectural team, assisting both the engineer and architect. Students may substitute academic transfer courses for vocational general education courses.

Please note: ALL Architectural classes must have a minimum grade of “C” or higher for graduating from this program. Corequisite classes must be taken during the same quarter, as theory & lab information changes each quarter. All classes, ARCH1103 through ARCH2546 are prerequisites for acceptance into the 6th quarter.

General Education Requirements:
Contact your program advisor to select general education course/s from each category which will meet your program’s graduation requirements. See page 16 for complete list.

(One class from each area below).
Oral Communications 4.5
Written Communications 4.5
Mathematics 4.5

(MATH1080 is a prerequisite for ARCH1210 Elementary Structural Design. Students must receive a “C” or higher in MATH1080 before enrolling in ARCH1210 or any other class which has MATH1080 as a prerequisite.)
(Plus two classes from the four areas below; no two classes from the same area).

Science, Social Science, Humanities, and/or Computer Technology 22.5 hours
Associate Degree Nursing
Lincoln Campus (some courses online)
Associate of Applied Science Degree

Types of jobs available:
- Registered Nurse (when licensed) work in a variety of settings, including acute care, surgery centers, clinics, and long-term care facilities

Graduation meets one eligibility requirement for application to sit for the National Council Licensure Examination (NCLEX-RN). Graduates must pass the NCLEX-RN to obtain a license as a Registered Nurse. Program graduates work in small and large facilities throughout Nebraska and the United States. Many graduates have continued their education and are on the way to earning a bachelor’s or master’s degree.

Program overview
This program provides instruction in basic nursing skills, medical/surgical nursing, maternal/child nursing, mental health, and gerontology. An intensive curriculum of math, chemistry, microbiology, anatomy, physiology and other related sciences gives students an essential academic foundation for 608 hours of clinical practice in various settings.

General Education courses may be taken at any SCC location or transferred from an accredited college or university.

This program is located on the Lincoln Campus.

Application requirements
Students must fulfill program requirements before they will be admitted into the program’s core courses. Contact the Admissions Office for specific program information and self-advising sheet.

For more information contact:
Virginia Hess, Program Chair
402-437-2730, 800-642-4075 ext. 2730, vhess@southeast.edu
or the College Admissions Office
Lincoln 402-437-2600, 800-642-4075 ext. 2600

ADMISSION REQUIREMENTS:
1. Complete an application for admission.
2. Completed health statement.

This program is accredited by the National League for Nursing Accrediting Commission, 3343 Peachtree Road NE, Ste. 850, Atlanta, Georgia 30326, Phone 404-975-5000, www.nlnac.org; and approved by the Nebraska Board of Nursing.

Credit Hours Required for Graduation: 108.0

Initial Program Requirements:
All courses must be completed with a grade of C+ or higher before enrolling in Associate Degree Nursing (NURS) core courses. The math and science courses must have been completed within the last 5 years.

- Human Anatomy w/Lab 6.0
- Biology of Microorganisms w/Lab 6.0
- Human Physiology w/Lab 6.0
- Chemistry & the Citizen w/Lab 6.0
- Intro to Sociology 4.5
- College Algebra (or higher) 4.5

33.0 hours

Other courses to improve success:
- MEDA1101/1102 Medical Terminology 1, 2
- INFO1010 Computer Literacy or BSAD1010 Microsoft Applications I
- PSYC1250 Interpersonal Relations
- PSYC1810 Introduction to Psychology

FSDT1350 Basic Nutrition 4.5

13.5 hours

Nine (9.0) hours of the Initial Program Requirements plus the 13.5 hours of General Education Requirements fulfill the required 22.5 hours. General Education Requirements may be completed prior to enrolling in Associate Degree Nursing (NURS) core courses.

Please note: Licensed Practical Nurse (LPN) Advanced Standing is available for those who have earned their LPN Diploma, hold an active license and are seeking an RN degree. Please contact the Admissions Office for specific program information and self-advising sheet.

Special Program Requirements:
1. Complete an application for admission to the Associate Degree Nursing program after the initial 33.0 credit hours have been completed with a grade of C+ or higher prior to enrollment in the Nursing (NURS) core courses.
2. Must have passed the “Nursing Assistant” course and be on “Active Status” in the Nebraska registry before starting NURS 1206 (Introduction to Professional Nursing).
3. A current Healthcare Provider CPR card (contact Program Chair for specific requirements) is required before starting (NURS) Associate Degree Nursing courses.
4. A criminal background check will be required of each student in this program. Based on the outcome of the background check, a student may be prevented from taking certain courses, accessing certain laboratory experiences, or completing the program. A non-refundable fee of $45 will be assessed for this CBC. Please note: Misdemeanor or felony convictions may prevent a graduate from acquiring a state license. Contact the State Board of Nursing with questions.

www.southeast.edu
Auto Collision Repair Technology

Milford Campus

Associate of Applied Science Degree

Types of jobs available:
• Auto body repair technician
• Paint and prep technician
• Insurance appraiser/estimator
• Frame technician
• Sales representative
• Auto restoration technician
• Welder

Program graduates are working in small companies and Fortune 500 companies throughout Nebraska and the entire nation. Others have continued their education.

Program overview
This program is located on the Milford Campus and admits students for the winter and summer quarters. This program is an introduction to the collision repair industry, including estimating, metal repair, welding, refinishing, and detailing.

Tools are required as part of the program. For cost estimates, please request the program estimated expense form. Students also have the opportunity to work on their own vehicles, giving them real-world, on-the-job experiences.

Upon completion of the program, students will qualify for one year of work experience required by ASE for technician certification.

For more information contact:
William E. Vocasek, Program Chair
402-761-8241, 800-933-7223 ext. 8241,
bvocasek@southeast.edu

or the College Admissions Office
Milford 402-761-8243, 800-933-7223 ext. 8243

This program is accredited by the National Automotive Technicians Educational Foundation (NATEF), 101 Blue Seal Drive, Suite 101, Leesburg, VA 20175, 703-669-6125, www.natef.org

Credit Hours Required for Graduation:
105.0-106.5

The Auto Collision Repair Technology program is certified by National Automotive Technicians Education Foundation, and was the first Auto Collision Repair program certified in the state of Nebraska. Students gain the entry-level basics of auto collision repair and master the skills required for today’s structural and non-structural body components. This is the only Auto Collision Repair Technology program in the state of Nebraska that is an I-CAR (Inter-Industry Conference on Auto Collision Repair) Training Alliance Member offering I-CAR Welding Qualifications and additional certifications.

General Education Requirements:
Contact your program advisor to select general education course/s from each category which will meet your program’s graduation requirements. See page 16 for complete list.

Students are required to provide or purchase a basic tool set during the first quarter. A required tool list and more information can be acquired by contacting the program.

This SCC program is Affiliated with ASE Accredited by NATEF
Automotive Technology

Lincoln and Milford Campuses
Associate of Applied Science Degree

Types of jobs available:
- Diagnostic and repair of all areas of the vehicle, including all aspects of engine repair, transmissions, suspension systems, brakes, electrical/electronics, heating and air conditioning and drivability.
- Service writer
- Service dispatcher
- Service manager
- Warranty clerk
- Parts counter personnel
- Sales associate

Activities in this field include researching service information using manuals or computer-based programs, using an extensive array of hand tools and diagnostic equipment, writing, speaking, and basic math skills.

Program graduates are employed in dealerships, independent shops, fleet service facilities and owner/operator shops.

Program overview
This program is located on the Milford and Lincoln campuses. Upon completion of the Associate of Applied Science degree, graduates will have earned one year toward the two-year ASE certification.

130.5-132.0

The Automotive Technology program is nationally recognized and is certified by the National Automotive Technicians Education Foundation, and is led by Automotive Service Excellence-certified instructors. The program provides students the fundamental knowledge and experience needed to become entry level technicians in the automotive industry.
Building Construction Technology

Milford Campus

Associate of Applied Science Degree

Types of jobs available:
• Concrete/masonry specialist
• Carpenter
• Cabinet maker
• Drafting/Estimating
• House construction

Many students focus on a career involving framing or trim, working for residential and light commercial construction contractors. Others may have opportunities in concrete and/or masonry construction with companies ranging in size from small to large.

Most employers are looking for aggressive, motivated and energetic employees who desire to excel and move forward with their career.

Many choices exist that will allow students to grow in that company for a period of time to become responsible and, over time, to develop supervisory skills.

Program overview

This program is located on the Milford Campus. This program offers drafting and estimating skills, masonry/concrete and cabinet construction not offered at some construction schools.

Students have an opportunity to participate in program activities and projects that are affiliated with the National Association of Home Builders and the Associated General Contractors professional groups. These affiliations provide an excellent chance to acquire more industry exposure and to help further develop the necessary leadership skills important for employment success.

A flexible schedule on the Milford Campus is available. Please contact the program chair for more information.

Business Administration

All Campuses and Online

Associate of Applied Science Degree, Diploma, Certificate

Types of jobs available:
- Assistant manager
- Sales associate
- Executive director assistant
- Human resources assistant
- Customer service associate
- Insurance agent
- Small business owner
- Accounting clerk
- Accounts receivable manager
- Billing clerk
- Bookkeeper
- Office assistant
- Business analyst
- Claims processor
- Insurance claims representative

Program overview
The program is available online and at all three campuses in Beatrice, Lincoln and Milford. Students may focus in Accounting, Marketing, Entrepreneurship, Information Systems, or Insurance/Financial Services. Students may pursue a basic course of study leading to a Certificate, Diploma or choose from focus areas, which lead to an Associate of Applied Science degree.

A flexible schedule on the Milford Campus is available. Please contact the program chair for more information.

As Business Administration graduates, students in marketing are trained to work in a retail environment, insurance company, or in non-profit organizations.

Students in the Information Systems Focus can work as a liaison with IT and business to design and implement computer systems to support the needs of business. This focus area is not available entirely online and requires some IT courses which are only available on the Lincoln and Milford campuses.

Students in the Insurance and Financial Services Focus can hold jobs in the insurance and financial services industry.

For more information contact:

Milford 402-761-8243, 800-933-7223 ext. 8243

Special Program Requirements:
Students who wish to pursue their education in Business Administration must complete the regular SCC admission requirements and the following special requirements:

1. Students will need previous accounting work experience or course work in accounting, which can be validated from high school and/or college transcripts. Students who cannot validate competencies in accounting may take courses in this area at SCC or elsewhere; credit earned in the courses listed below will count towards graduation.
   • Office Accounting (OFFT1310)

2. Students will need to demonstrate keyboarding skills of at least 30 words per minute minimum. Students who cannot validate competencies in keyboarding must take courses in this area at SCC or elsewhere; credit earned in the courses listed below will count towards graduation.
   • Beginning Keyboarding I (OFFT1010)
   • Beginning Keyboarding II (OFFT1020)

BSAD1010 Microsoft Applications I 4.5

Total: 49.5 hours

This program is accredited by the Accreditation Council for Business Schools & Programs, 11520 West 119th Street, Overland Park, KS 66213, (913) 339-9356, www.acbsp.org

For the Event-Venue Operations Management Certificate:
Jo Taylor, Program Chair 402-437-2465, 800-642-4075 ext. 2465, jaytaylor@southeast.edu
Tim Mittan, Director, Entrepreneurship Center 402-437-2524, 800-642-4075 ext. 2524, tmittan@southeast.edu
or the College Admissions Office
Beatrice 402-228-8214, 800-233-5027 ext. 1214
Lincoln 402-437-2600, 800-642-4075 ext. 2600
Milford 402-761-8243, 800-933-7223 ext. 8243

Special Program Requirements:
Students who wish to pursue their education in Business Administration must complete the regular SCC admission requirements and the following special requirements:

1. Students will need previous accounting work experience or course work in accounting, which can be validated from high school and/or college transcripts. Students who cannot validate competencies in accounting may take courses in this area at SCC or elsewhere; credit earned in the courses listed below will count towards graduation.
   • Office Accounting (OFFT1310)

2. Students will need to demonstrate keyboarding skills of at least 30 words per minute minimum. Students who cannot validate competencies in keyboarding may take courses in this area at SCC or elsewhere; credit earned in the courses listed below will count towards graduation.
   • Beginning Keyboarding I (OFFT1010)
   • Beginning Keyboarding II (OFFT1020)
General Degree electives:  
For students who have not chosen a focus, these electives are designed for students to customize their courses and skills in a business degree. Choose from the following approved elective courses in Business Administration and Office Professional. (39.5 credit hours minimum) to complete an A.A.S. degree.

Entrepreneurship Focus:  
This business focus leads a student toward self discovery and provides a better understanding of who they are and how that relates to entrepreneurship. They will gain a realistic understanding of what is expected as an entrepreneur and gain working knowledge as well as hands-on experience with skills necessary for success in any venture. The following courses must be completed for an A.A.S. degree.

Information Systems Focus:  
(This focus must be completed on campus in Milford or Lincoln.)

This business focus would prepare an individual to research, design and implement computer based or automated business systems. This person would be responsible for researching and gathering business requirements, designing and prototyping application interfaces, reports and documentation. Other job opportunities include: Business Systems Analyst, Software or Application Developer, System Application Specialist and Quality Assurance. Students will need to complete the following courses and then choose one option to complete an A.A.S degree.

Total: 54.0 hours

Business Administration Diploma:
The Diploma in Business Administration is designed to provide a general, but comprehensive, study in the basic skills needed for students to obtain entry-level jobs.

Diploma Core Courses:
- ACCT1200 Principles of Accounting I | 4.5
- BSAD1010 Microsoft Applications I | 4.5
- BSAD1020 *Microsoft Applications II | 4.5
- BSAD1050 Introduction to Business | 4.5
- BSAD2310 Business Ethics | 4.5
- BSAD2540 Principles of Retailing | 4.5
- BSAD2655 Leadership Practicum | 5.0
- INSU1100 Fundamentals of Insurance I | 4.5
- OFFT1680 *Web Page Support | 4.5

9.0 hours

41.0 hours

* Course has prerequisite.

Business Administration Certificate:
This Certificate in Business Administration is designed to provide a comprehensive study in entrepreneurship and the basic skills needed to start a business venture.

Certificate Core Courses:
- ENTR1050 Introduction to Entrepreneurship | 4.5
- ENTR2040 Entrepreneurship Feasibility Study | 4.5
- ENTR2090 *Entrepreneurship Business Plan | 4.5
- ENTR2050 Marketing for the Entrepreneur | 4.5
- ENTR2060 Entrepreneurship Legal Issues | 4.5
- ENTR2070 Entrepreneurship Financial Topics | 4.5
- BSAD2540 Principles of Management | 4.5

Total: 36.0 hours

Event-Venue Operations Management Certificate:
This Certificate will equip students with an in-depth knowledge of the event and venue management industry and a practical awareness of contemporary event and venue operations. It will provide a thorough understanding of key concepts and theories in event operations combined with practical skills in key areas such as event conception and implementation, marketing, risk management, client service and venue management.

Suggested Courses of Study:
- EVOM1060 Customers and the Event Experience | 4.5
- ENTR1050 Introduction to Entrepreneurship | 4.5
- FSDT2402 Fundamentals of Event Planning | 4.5
- BSAD1070 Customer Service | 4.5
- EVOM1150 Venue Operations Management | 4.5
- BSAD2480 Event Marketing | 4.5
- SPCH2810 Business and Professional Communication | 4.5
- EVOM2900 *Event-Venue Internship or | 4.5
- EVOM2901 *Event-Venue Cooperative Experience | 4.5

Total: 36.0 hours

* Course has prerequisite.

~ Required competency must be met before taking course.
Chrysler College Automotive Program

Milford Campus

Associate of Applied Science Degree

Types of jobs available:
- Entry-level technician in a Chrysler Dealership
This program is offered jointly by Chrysler and SCC, in cooperation with Chrysler dealers.

Students in the program are required to have a sponsoring Chrysler dealer.

Program overview
This program runs seven quarters. During the first, third, fifth and seventh quarters, students are on campus studying electronics, engine repair, transmission repair, suspension system, brakes, drivability, and heating and air conditioning. During the second, fourth and sixth quarters, students are at the dealership on co-op, gaining experience working with a mentor master technician, in the subjects they studied the previous quarter when they were on campus.

This earn-while-you-learn approach to mastering the different automotive systems has proven to be beneficial to both the students and dealers.

Please note: If a student’s dealership-sponsored employment is terminated for reasons beyond the student’s control, such as lack of work, the student may be allowed to seek a different sponsoring dealership to continue in the program. If a student’s dealership-sponsored employment is terminated for inappropriate behavior, such as failure to follow policies, poor attendance, lack of cleanliness and/or dishonesty, the student will be deemed “less than competent to perform required tasks” and will not be allowed to continue in the program.

For more information contact:
Rick Morpew, Program Chair
402-761-8317, 800-933-7223 ext. 8317, rmorpew@southeast.edu
Todd Morrill, Instructor
402-761-8426, 800-933-7223 ext. 8426, tmorrill@southeast.edu
or the College Admissions Office
Milford 402-761-8243, 800-933-7223 ext. 8243

Credit Hours Required for Graduation:

143.5-145.0

Course offerings and prerequisites will be determined by the program. A grade of “C” or higher in all CAP classes is required to progress through the program.

General Education Requirements:
Contact your program advisor to select general education course/s from each category which will meet your program’s graduation requirements. See page 16 for complete list.
(One class from each area below).
Oral Communications 4.5
Written Communications 4.5
(Plus three classes from the five areas below; no two classes from the same area).
Mathematics, Science, Social Science, Humanities, and/or Computer Technology 13.5-15.0
22.5-24.0 hours

Students are required to provide or purchase a basic tool set during the first quarter. A required tool list and more information can be acquired by contacting the program.

Students are required to wear program uniforms while in classroom or laboratory settings.

This SCC program is Affiliated with ASE Accredited by NATEF
Computer Aided Design Drafting

Lincoln Campus

Associate of Applied Science Degree

Types of jobs available:
- Consumer product design
- Industrial process design
- Commercial constructions design
- Virtual building design

Computer aided design drafters are responsible for the dynamic new designs of most structures and consumer products available today. In engineering and architectural offices across the nation, designers have many responsibilities that will employ their abilities to think “outside the box” as they create solutions to today’s design challenges.

Program graduates are employed by large and small businesses and by government agencies.

Design drafters are professional people involved in the process of creating solutions to technical engineering design problems. They work in a specialized environment as communicators and must exhibit good written and verbal skills, along with the use of high levels of math and physics to create new industrial, commercial and business products.

Program overview
The program is located on the Lincoln Campus and admits new students every quarter. Students must earn a minimum course grade of “C” or higher in all prerequisite and program courses to continue to the next course.

For more information contact:
Dan Masters, Program Chair
402-437-2650, 800-642-4075 ext. 2650, dmasters@southeast.edu

Types of jobs available:
- Applications/Web programmer
  Graduates of this specialization may work as applications developers using programming languages such as Java, C#, Visual Basic.NET, and C++. They may also work programming behind the scenes of a Website with PHP, JavaScript, and SQL.
- Computer support specialist
  Graduates of this specialization may work as the main computer resource technician in a company or may work as a member of a team providing help desk support.
- Network manager
  Graduates of this specialization set up, maintain and manage computer networks.

Program overview
Classes are offered both day and evening on the Lincoln Campus. Some program courses are available online. Students in the program can complete an Associate of Applied Science degree in any of three career focus areas: Applications/Web Programmer, Computer Support Specialist or Network Manager. A Certificate also is available for anyone wishing to add basic computer training to already existing skills.

Graphic Communication Certificate
This certificate will equip students with an in-depth knowledge of graphic communications with an emphasis in design theory, image preparation, print layout, and web design. It relates to programs in Graphic Design|Media Arts, Computer Information Technology, Office Professional and Journalism.

This certificate will be available starting January 2013.

Core Courses:
- GDMA1118 Introduction to Graphic Communication 3.0
- GDMA1119 The Structure of Graphic Communication 6.0
- GDMA1124 Introduction to Typography 4.5

Additional Courses:
- INFO1521 Web Graphics 2.0
- GDMA1123 Page Layout 4.5
- INFO1431 Web Page Fundamentals 3.0
- INFO1522 Web Layout 2.0

General Education Course 4.5

Total Certificate Hours 29.5 hours
Types of jobs available:

Students will be prepared for careers with a focus on software development. Skills are acquired on three different IBM computer platforms in areas of Web Design to Mainframe Computing within the IBM computing platforms of PC in a client-server environment, mainframe (zSeries) and the mid-range System i.

PC courses include Visual Basic developed in the .NET framework, Java, HTML, JavaScript, Java Servlets, embedded SQL and JSPs as well as Microsoft Office products.

These courses will provide the programming skills needed to develop, implement and maintain Web-based applications.

The zSeries courses include JCL, TSO/ISPF, embedded DB2/SQL, COBOL and CICS.

The System i curriculum focuses on the RPG IV programming language. Students create interactive applications that utilize sub-file processing. Students also will gain experience with the IBMi operating system using Control Language, DDS, SEU, PDM, DFU, CLP and SDA.

Students also are responsible for creating a working business system. Student groups interview area businesses, then design and code a business system. Students experience the project team environment common in business system development.

Students will have hands-on experience on all three platforms and will develop an understanding of how these platforms work together in a multi-platform environment typically found in business and industry today.

The program will prepare students for attaining employment in a competitive IT market. Students will be able to choose companies based on their experience with a single platform or with a multi-platform environment.

Program overview

Students will be able to complete the program in 18 months and will graduate with an Associate of Applied Science degree. Students not only have the option of employment, but they also may transfer credit to a four-year college or university to complete a bachelor’s degree. This program is located on the Milford Campus.

A flexible schedule is available. Please contact the program chair for more information.

For more information contact:

Beth Stutzman, Program Chair

Criminal Justice

Lincoln and Beatrice Campuses and Energy Square (some core courses online)

Associate of Applied Science Degree

Types of jobs available:

- Communications officer
- Crime lab technician
- Crime prevention specialist
- Animal control officer
- K-9 unit specialist
- Railroad police
- Corrections officer
- Bailiff
- Investigator
- Patrol officer
- Electronic Monitoring Officer

Graduates of the program will find employment in law enforcement at the state, county, or city level. Positions are available in corrections, courts, private sector, regulatory agencies, computer and physical security.

Graduates of the Nebraska Law Enforcement focus will find employment in law enforcement at the state, county or city level.

This degree can be used for seeking immediate employment in the criminal justice field. SCC offers Criminal Justice courses as electives in the Associate of Arts (A.A.) or Associate of Science (A.S.) degree in the Academic Transfer program if you're looking to earn a bachelor's degree.

Most federal programs, forensic crime labs, and/or continue their education. SCC's Criminal Justice program introduces students to careers in law enforcement and corrections and/ or continue their education. SCC's Criminal Justice program introduces students to careers in law enforcement and/or corrections and equips them with both the skills and knowledge needed to ensure careers and/or additional education.

This program is intended to support the continued professional growth of in-service practitioners through the enhancement of field-specifics and knowledge. The program provides educational and internship experiences that enable students to succeed at an entry-level criminal justice job or advance in their criminal justice career. SCC's program provides an overview of the criminal justice system while also focusing on elements of criminal investigations, forensics and police report writing.

Our criminal justice faculty at SCC have extensive education and experience in law enforcement agencies, corrections agencies, juvenile justice, probation, military, prosecution and defense litigation, crime scene investigation and private security. SCC instructors have proven experience, knowledge of proper procedures and an understanding of criminal law, which means students will receive up-to-date, relevant skills.

For more information contact:
Rita Dondlinger, Program Chair
402-323-3459, 800-642-4075 ext. 3459, rdondlinger@southeast.edu

or the College Admissions Office
Beatrice 402-228-8214, 800-233-5027 ext. 1214
Lincoln 402-437-2600, 800-642-4075 ext. 2600

Nebraska Law Enforcement Training Center:
3600 N. Academy Road, Grand Island, NE 68801
www.nletc.state.ne.us

Special Program Requirement:
Course offerings and prerequisites will be determined by the program. A grade of "C" or higher is required in all CRIM classes to progress through the program. All other required courses must be completed with a "C" or higher to progress through the program.

A criminal background check will be required of each student in this program. Based on the outcome of the background check, a student may be prevented from taking certain courses, accessing certain laboratory experiences, or completing the program. A non-refundable fee of $45 will be assessed for this CBC.

There are strict admission/hiring qualifications by criminal justice agencies if you are considering employment in the criminal justice profession. Factors that usually disqualify candidates from employment include (but not limited to), a criminal record (i.e. theft, assault, any felony), history of drug/alcohol abuse, significant psychological/personal disorders, dishonesty, etc. Criminal Justice agencies hire only the best qualified individuals to obtain and maintain public trust and confidence.

NLETC Requirements

NLETC Admissions and Physical Training:
Students entering the Law Enforcement focus should be aware of the admission requirements for acceptance at the Nebraska Law Enforcement Training Center for the 12 credit hour internship to complete requirements for the Associate of Applied Science degree. Students must meet the ‘NLETC Requirements’ as part of the application process at the Training Center.

Credit Hours Required for Graduation:
91.5-93.0

General Education Requirements:
Contact your program advisor to select general education courses from each category which will meet your program’s graduation requirements. See page 16 for complete list.

(One class from each area below).
- Oral Communications
- Written Communications
- English 1010 Composition I or ENGL 1015 Composition and Literature

This program is offered jointly by Deere Construction & Forestry Equipment and SCC, in cooperation with Deere Construction & Forestry Equipment dealers.

Students in the program are required to have a sponsoring Deere Construction & Forestry Equipment dealer. Students are expected to continue employment at the dealership after graduation.

Program overview

This program is located on the Milford Campus. New students are admitted every two years. In addition to meeting general SCC requirements, students are tested to evaluate potential for success in the program.

Please note: If a student’s dealership-sponsored employment is terminated for reasons beyond the student’s control, such as lack of work, the student may be allowed to seek a different sponsoring dealership to continue in the program. If a student’s dealership-sponsored employment is terminated for inappropriate behavior, such as failure to follow policies, poor attendance, lack of cleanliness and/or dishonesty, the student will be deemed “less than competent to perform required tasks” and will not be allowed to continue in the program.

For more information contact:

General Education Requirements:

Contact your program advisor to select general education course/s from each category which will meet your program’s graduation requirements. See page 16 for complete list.

One class from each area below:

- Oral Communications 4.5
- Written Communications 4.5
- Science
  - PHYS1150 Descriptive Physics 6.0
  - (Plus two classes from the four areas below; no two classes from the same area)
  - Mathematics, Social Science, Humanities, and/or Computer Technology 9.0
  - 24.0 hours

Students are required to provide or purchase a basic tool set during the first quarter. A required tool list and more information can be acquired by contacting the program.

Students are required to wear program uniforms while in classroom or laboratory settings.

The program prepares students to be entry-level service technicians with Deere Construction & Forestry dealerships. Graduates typically continue employment with their sponsoring dealership. Each student spends five quarters on campus and two quarters working in a sponsoring Deere Construction & Forestry dealership. John Deere University Levels 1 & 2 Construction & Forestry Equipment classes must be successfully completed to qualify for graduation. These classes are assigned during the student’s seventh quarter of training.
Dental Assisting

Lincoln Campus and Online
Diploma

Types of jobs available:
Successful graduates will have the opportunity to perform a variety of laboratory, clinical and office tasks. Dental assistants work alongside a dentist to provide dental treatment to patients. They have specialized skills that allow them to keep the patient’s mouth clean with suction devices, prepare materials, assist during surgical procedures, and expose and process dental x-rays. Other skills include:
- Polishing teeth
- Sterilizing and disinfecting dental equipment and instruments
- Educating patients regarding oral hygiene
- Communicating post-operative instructions

Program overview
The program is located on the Lincoln Campus.

For more information contact:
Susan Asher, Program Chair
402-437-2740, 800-642-4075 ext. 2740, sasher@southeast.edu
Crystal Stuhr, Online Coordinator
402-437-2738, 800-642-4075 ext. 2738, cstuhr@southeast.edu
or the College Admissions Office
Lincoln 402-437-2600, 800-642-4075 ext. 2600

This program is accredited by the Commission on Dental Accreditation (CODA), 211 East Chicago Avenue, Chicago, IL 60611, 312-440-2500, www.ada.org

Program Admission Requirements:
1. Application to the College
2. Completed Assessment/Placement Test
3. High School and/or College Transcripts.

Credit Hours Required for Graduation: 74.5

The Dental Assisting program provides opportunities to develop specialized skills in dental health education, chairside assisting, laboratory procedures, and business office operating procedures. The program provides clinical experiences at the University of Nebraska Medical Center-College of Dentistry, the Veterans Administration Dental Clinic, the Lincoln/Lancaster-County Dental Clinic, the People’s Health Clinic and in private dental offices. Graduates of the program are eligible to take the chairside certification examination of the Dental Assisting National Board, Inc., www.danb.org.

Diesel-Ag Equipment Service Tech

Milford Campus
Associate of Applied Science Degree

Types of jobs available:
- Dealership technician
Successful graduates will have a variety of responsibilities, including engine, power train, hydraulic system, electrical & electronic, and air conditioning diagnosis and repair. Students can expect to work on tillage, planting, spraying, and harvesting equipment. Field service work also is part of the technician’s job.

Program overview
This program is located on the Milford Campus. New students are admitted twice a year in the winter and summer quarters. In addition to meeting general requirements of SCC, students are tested to evaluate potential for success in the Diesel-Ag Equipment Service Tech program. Graduates are awarded an Associate of Applied Science degree.

For more information contact:
Lester Breidenstine, Program Chair
402-761-8328, 800-933-7223 ext. 8328,

Early Childhood Education

Lincoln Campus and Online

**Associate of Applied Science Degree, Diploma, Certificate**

---

**Types of jobs available:**
- Preschool teacher
- Infant and toddler caregiver
- Before/after school activity coordinator
- Professional nanny
- Paraprofessional in public/private elementary schools
- Child care administrator
- Family support worker
- Corporate/public/private child care provider
- Family child care home provider
- Home Visitor
- Family Advocate
- Early Childhood Program owner/operator
- Early Childhood Program owner/operator

**Program overview**
This program is located on the Lincoln Campus and online. Students can enter every quarter, be a full- or part-time student and select from day, evening and online classes. Students may earn a Certificate in In-Home Care, (Professional Nanny/Child Care Home Provider) or a Certificate in Home Visitor/Family Advocate, a Diploma in Child Care Professional (early care and education in a group setting) or an Associate of Applied Science degree that includes teaching and administration or an Entrepreneurship focus.

**ECED Online**
The ECED online courses are designed to provide both theory and practical application of course content. Students are required to observe, implement and record their interactions with children in a variety of early childhood settings. Assignments with a requirement of interaction with children will be submitted through various formats within the online classroom. Practicum field experience will be coordinated with the ECED Practicum Coordinator to assure a meaningful experience in an approved setting.

**Special Program Requirement:**
1. A criminal background check will be required of each student in this program. Based on the outcome of the background check, a student may be prevented from taking certain courses, accessing certain laboratory experiences, or completing the program. A nonrefundable fee of $45 will be assessed for this CBC.
2. In addition to the criminal background check, each student will receive a child and adult abuse registry check by the State Department of Health and Human Services. Clearance through this check is required in order to take certain courses, access certain laboratory experiences, or complete the program.
3. First Aid/CPR certification is required prior to taking ECED2065 Head Teacher
4. A grade of C or higher is required for all ECED classes.

**For more information contact:**
Program Chair
402-437-2455, 800-642-4075 ext. 2455
or the College Admissions Office
Lincoln 402-437-2600, 800-642-4075 ext. 2600

**Credit Hours Required for Graduation:**
- **Certificate:**
  - In-Home Child Care 37.5
  - Home Visitor/Family Advocate 42.0
- **Diploma:**
  - Child Care Professional 83.5

**Associate of Applied Science Degree:**
- Early Childhood Education 119.5
- Entrepreneurship Focus 120.0

**Certificate–In-Home Child Care:**
This certificate provides relevant curriculum for an in-home setting. Those preparing to be a professional nanny or work in a family childcare setting receive current information on curriculum and methods of implementation for children birth to age eight.

**Certificate–Home-Visitor/Family Advocate:**
This certificate is designed to enhance the preparation, ongoing professional development, and effectiveness of early education program staff who work with families and/or who provide services to children and families through home visitation.

**ECED Required Core Courses:**
(for Diploma and Associate of Applied Science degree)

Mathematics, Science, Social Science, Humanities, and/or Computer Technology 13.5

22.5 hours

ADDITIONAL ELECTIVE HOURS*
*Students will have to complete additional elective credit hours. Any ECED course not required for specialization Diploma or A.A.S. degree OR any elective approved at the discretion of the academic advisor. See ECED listings for possible elective options.
**ELECTRICAL SYSTEMS FOCUS**

**Types of jobs available:**
- Residential, commercial and industrial construction environments
- Designing, installing, maintaining and upgrading advanced electrical control circuits

**Program overview**

Students are admitted in the summer and winter quarters. Approximately half of the training time will take place in a laboratory setting where students will apply their classroom theory.

---

**ELECTROMECHANICAL SYSTEMS FOCUS**

**Types of jobs available:**
- Designing, installing, maintaining and upgrading industrial automated systems
- Designs in the machining, welding, fabrication, wiring and installation of new and existing production equipment

**Program overview**

Students focus on electrical principles, manufacturing processes, welding, electrical and mechanical repair of machinery, hydraulics, electric motors and generators, and many other components and processes directly related to electromechanical technology.

For more information contact:
Ken Reinsch, Program Chair/Milford 402-761-8258, 800-933-7223 ext. 8258, kreinsch@southeast.edu or the College Admissions Office Milford 402-761-8243, 800-933-7223 ext. 8243

Electrician Construction - IBEW Option

Milford Campus

Associate of Applied Science Degree

The curriculum is provided with the cooperation of representatives of SCC and Nebraska representatives of the International Brotherhood of Electrical Workers, IBEW-Local 265. Applicants must meet the stated SCC and IBEW-Local 265 entrance requirements to be accepted into the program.

The curriculum is normally delivered over a five-year period. Instruction will be delivered at the IBEW training facility.

For more information contact:
Ken Reinsch, Electrical & Electromechanical Technology; Program Chair
402-761-8258, 800-933-7223 ext. 8258, kreinsch@southeast.edu

Joint Apprenticeship and Training Committee (JATC); 402-423-4519

or the College Admissions Office
Milford 402-761-8243, 800-933-7223 ext. 8243

IBEW Training Center
For members of the International Brotherhood of Electrical Workers (IBEW - Local 265)

Classes are held at the IBEW Training Center, 6200 S. 14th Street in Lincoln. Prepares students for a career in the commercial and residential electrical construction industry.

Credit Hours Required for Graduation: 117.5

General Education Requirements:
Contact your program advisor to select general education course/s from each category which will meet your program’s graduation requirements. See page 16 for complete list. (One class from each area below).

Oral Communications 4.5
Written Communications 4.5

(Plus three classes from the five areas below; no two classes from the same area).

Mathematics, Science, Social Science, Humanities, and/or Computer Technology 13.5

22.5 hours

On-the-job Training:
One course of 200 clock hours per year. Skills checklist, as shown on syllabi, verified to SCC by IBEW. Supervision by IBEW members. Location of the OJT site varies with the demands of the Electrical industry.

ELET1715 Electrical Wiring Applications I 5
ELET1720 Electrical Wiring Applications II 5
ELET1725 Electrical Wiring Applications III 5

Electronic Systems Technology

Lincoln and Milford Campuses

Associate of Applied Science Degree

ELECTRONIC SYSTEMS TECHNICIAN FOCUS

Types of jobs available:

- Audio technician
- Avionics technician
- Car stereo installer/repairer
- Home theater installer/repairer
- Radio/TV broadcast engineer
- Security systems
- Studio technician
- Telephone technician
- Two-way radio installer/repairer
- Video technician

Students focus on the installation, configuration and repair of commercial and consumer electronic products such as computer systems, video and audio systems, AM/FM broadcast, two-way radio communication systems, avionics, security systems and telephone systems.

ELECTRONIC SYSTEMS MILITARY FOCUS

This focus is for military personnel who have performed the repair and maintenance of various types of electronic equipment during duty. Using that prior military training as the core for this A.A.S. degree, students can take additional educational requirements to prepare for entry and advanced level employment in a wide array of electronic careers.

COMPUTERS, AUTOMATION and NETWORKING SYSTEMS FOCUS

Types of jobs available:

- Electronic systems designer
- Engineering assistant
- Field service technician
- Industrial automation technician
- Network administrator
- Network technician
- PC support technician
- Robotics technician
- Technical manager
- Telemetry technician

Classroom and laboratory activities also prepare technicians to install, configure and repair industrial control systems which include such devices as programmable logic controllers (PLCs), robotics, and vision systems.

Program overview

This program is located on the Lincoln Campus during the day and night and on the Milford Campus during the day.

Energy Generation Operations
Milford Campus
Associate of Applied Science Degree

Types of jobs available:
- Bio-diesel production facility operator
- Coal-fired power plant operator
- Ethanol production facility operator
- Natural gas turbine plant operator
- Nuclear power plant operator
- Reciprocating engine power plant operator
- Solar plant operator
- Wind turbine farm operator
- Wind turbine technician

Program overview
This program is located on the Milford Campus. Flexible scheduling may be available. Contact the program chair for more information.

This program is designed to provide five quarters of common core curriculum for several types of energy generation systems operations. Energy Generation Operators must understand and oversee all aspects of a power generating facility, whether that facility is generating electricity or liquid fuels. Students will study a wide range of necessary topics to gain this broad understanding of plant operations and maintenance. In the 6th quarter, specific types of fuel operations will be covered in detail to prepare students for careers in the type of energy generating plant of their choice.

Fire Protection Technology

Lincoln Campus

Associate of Applied Science Degree, Certificate

Types of jobs available:
- Municipal fire departments
- State, federal fire agencies
- Airport rescue and fire fighting departments
- Ambulance services
- Fire protection equipment companies

Program graduates are working in small and large departments, agencies and companies throughout Nebraska and neighboring states. Other graduates are continuing their education.

Graduates are eligible to apply for certification as Emergency Medical Technician-Basic through the National Registry of Emergency Medical Technicians. Graduates are also eligible to apply for certification as Firefighter I, Firefighter II and Hazardous Materials Operations Level through the Nebraska State Fire Marshal.

Program overview
This program is located on the Lincoln Campus. New students are admitted each quarter. Students may attend either full- or part-time and select from both day and evening class sessions. Courses are based upon National Fire Protection Association Professional Qualification Standards, National Fire Academy Fire and Emergency Services Higher Education model curriculum and International Association of Fire Chiefs Officer Development Handbook course recommendations.

Special Program Requirement:
1. Misdemeanor or felony convictions may prevent a graduate from acquiring emergency medical certification and may make a graduate ineligible for employment.
2. All Fire Protection (FIRE) courses must be completed with a C+ or higher to progress through the program.
3. All other required courses must be completed with a C or higher to progress through the program.

Electives:
- EMT Parts I & II are offered through the SCC Continuing Education Division. Please call (402) 437-2700 or (800) 828-0072 for the Continuing Education Division.

Credit Hours Required for Graduation:
Certificate 39.0
Associate of Applied Science Degree 98.0
Food Service/Hospitality

Lincoln Campus (some core courses online)

Associate of Applied Science Degree, Diploma, Certificate

Types of jobs available:
- Baking/Pastry graduates may find employment in hotels, fine dining establishments, grocery stores, bakeries, retirement centers and other eating establishments.
- Culinary Arts graduates cook in clubs, hotels, retirement centers, fine dining restaurants and catering services.
- Dietetic Technician graduates usually work in health care or long-term care facilities doing either clinical or management duties under the supervision of a dietician.
- Food Service Management graduates work in institutions, family restaurants, fast food, health care and hotels performing supervision or entry level management.
- Lodging graduates are employed in hotels and motels as well as banquet-type businesses.
- Graduates of the Food Service Training Certificate programs usually work in many types of institutional food services and may be currently employed and updating their skills.
- Students taking the Certificate courses for the Event-Venue Operations Management will gain an in-depth knowledge of the event and venue management industry and a practical awareness of contemporary event and venue operations.

Program Entry and Awards
This program is located on the Lincoln Campus and accepts new students each quarter.
Part-time students are admitted on a space-available basis.

Special Program Requirements
All Food Service/Hospitality students must obtain a Lincoln-Lancaster County Food Handlers permit.

Dietetic Technician students are required to complete a physical examination and earn a Cardiopulmonary Resuscitation card prior to entering the second quarter of the program.

Students are required to purchase a professional uniform and appropriate shoes, and provide their own transportation to off-campus practical and co-op learning sites. A minimum grade of “C” is required for all required Food Service/Hospitality program courses. A minimum grade of “C” is required for all courses which serve as prerequisites before students may advance to the next course in the sequence.

Dietetic Technician Focus:
The Dietetic Technician Focus is accredited by the Accreditation Council for Education in Nutrition and Dietetics, 120 So. Riverside Plaza, Suite 2000, Chicago, IL 60606-6995, 800-877-1600. Graduates of this focus may be eligible to take the registration exam and apply for membership in the Academy of Nutrition and Dietetics.

Special Focus Requirement:
A Criminal Background check is required of each student in the Dietetic Technician Focus. Based on the outcome of the background check, a student may be prevented from taking certain courses, accessing certain laboratory/practicum experiences, or completing the program focus. A nonrefundable fee of $45 will be assessed for this CBC.

Ford Automotive Student Service Educational Training

Milford Campus
Associate of Applied Science Degree

This training program is offered jointly by Ford Motor Co. and SCC in cooperation with Ford or Lincoln dealers.

Students must secure a Ford or Lincoln dealer to sponsor them during training.

Types of jobs available:
• Entry-level technician in a Ford or Lincoln dealership.

Program overview
Ford ASSET is recognized as the premier program in the global automotive industry for the training and placement of new manufacture-specific service technicians.

This alliance was created so that a new generation of service technicians would be available. Ford Motor Co. provides current vehicles, components, state-of-the-art diagnostic equipment and instructional materials. Students gain knowledge of the entire operation of the vehicle and receive advanced diagnostic training to keep them current with industry progress.

Students spend four quarters as full-time students on the Milford Campus and three quarters working in a Ford or Lincoln dealership. Instructors follow a curriculum designed by an advisory committee comprised of representatives from SCC, Ford Motor Co. and Ford or Lincoln dealerships.

Special Program Requirements:
Please note: If a student’s dealership-sponsored employment is terminated for reasons beyond the student’s control, such as lack of work, the student may be allowed to seek a different sponsoring dealership to continue in the program. If a student’s dealership-sponsored employment is terminated for inappropriate behavior, such as failure to follow policies, poor attendance, lack of cleanliness and/or dishonesty, the student will be deemed “less than competent to perform required tasks” and will not be allowed to continue in the program.

General Motors Automotive Service Educational Program

Milford Campus

Associate of Applied Science Degree

This educational program is offered jointly by General Motors and SCC in cooperation with GM dealers.

Students must secure a General Motors dealer to sponsor them during training.

Types of jobs available:
• Service technician, specialty technician or service writer in a GM dealership.

Program overview
Students spend four quarters as a full-time student on the Milford Campus and the remaining three quarters working in a GM dealership.

Through a carefully constructed program of classroom and experience-based education, students gain knowledge of engine fundamentals, electrical and electronic principles, fuel systems, brakes, steering and suspension systems, body computer systems, transmissions, and heating and air conditioning systems. Students have access to new products and equipment necessary for proper and accurate diagnosis of current GM systems. They also receive regular updates on all new GM products to stay current with industry progress.

Special Program Requirements:
Please note: If a student's dealership-sponsored employment is terminated for reasons beyond the student’s control, such as lack of work, the student may be allowed to seek a different sponsoring dealership to continue in the program. If a student’s dealership-sponsored employment is terminated for inappropriate behavior, such as failure to follow policies, poor attendance, lack of cleanliness and/or dishonesty, the student will be deemed “less than competent to perform required tasks” and will not be allowed to continue in the program.

For more information contact:
Rick Morphew, Program Chair
402-761-8317, 800-933-7223 ext. 8317, rmorphew@southeast.edu
Mark Christensen, Instructor
402-761-8306, 800-933-7223 ext. 8306, mchriste@southeast.edu

Graphic Design|Media Arts
Energy Square location in Lincoln
Associate of Applied Science Degree, Certificate

Graphic design includes the process of combining words and pictures to communicate a message. Graphic designers are visual communication problem solvers.

Types of jobs available:
- Web designer
- Designer for print publications such as magazines and catalogs
- Art director in an advertising agency
- Designer for printers
- Billboard/sign designer
- Package designer

Special Program Requirements
Graphic Design|Media Arts is located at the downtown Lincoln ESO location. A group of 24 students is accepted into the program every January and July. Students are accepted on the basis of test scores, prior to students starting the program. New students are required to participate in an orientation session prior to being fully admitted to the program in order to guarantee a seat in the program.

Students learn the technical skills and fundamental conceptual theories and techniques needed to produce compelling visual communication messages. Students work in the graphic design lab, at individual work stations, and use Macintosh computers. Students will become proficient at using all the standard software common to the graphic design industry.

Most design work is executed with a computer. However, the thinking/visualization process is still done by drawing. Students will draw, research, study, and make oral and written presentations. Students will work individually and in teams simulating a real-world business environment. Students will apply design skill and knowledge using typography, illustration, photography, copywriting and other processes to create designs. Finished assignments become part of students’ professional portfolios.

Graphic Design|Media Arts classes will begin in January 2013 and July 2013.

General Education Requirements:
Contact your program advisor to select general education course/s from each category which will meet your program’s graduation requirements. See page 16 for complete list.

(One class from each area below).

Oral Communications 4.5
Written Communications 4.5

(Plus three classes from the five areas below; no two classes from the same area).

Mathematics, Science, Social Science, Humanities, and/or Computer Technology 13.5

22.5 hours

Graphic Communication Certificate
This certificate will equip students with an in-depth knowledge of graphic communications with an emphasis in design theory, image preparation, print layout, and web design. It relates to programs in Graphic Design|Media Arts, Computer Information Technology, Office Professional and Journalism.

This certificate will be available starting January. For those students interested in continuing in the Graphic Design|Media Arts please see the Program Chair for the course articulation.

Core Courses:
GDMA1118 Introduction to Graphic Communication 3.0
GDMA1119 The Structure of Graphic Communication 6.0
GDMA1124 Introduction to Typography 4.5

Additional GDMA courses:
GDMA1121 Photoshop 4.5
GDMA1123 Page Layout 4.5
GMDA2244 Web Design 6.0

General Education Course 4.5
Total Certificate Hours 33.0 hours

For a student interested in Journalism that would want to complete this certificate.

Core Courses:
GDMA1118 Introduction to Graphic Communication 3.0
GDMA1119 The Structure of Graphic Communication 6.0
GDMA1124 Introduction to Typography 4.5

Additional Courses:
(These courses are online or face-to-face on the Beatrice campus.)
PHOT1760 Digital Photography & Creative Imaging 4.5
JOUR1820 Media Writing 4.5
JOUR1840 Advanced Media Writing 4.5
JOUR1880 Multimedia Reporting 4.5
JOUR2880 Multimedia Editing 4.5

General Education Course 4.5
Total Certificate Hours 40.5 hours
Professionals in the HVAC/R industry design, build, install, service, maintain, troubleshoot and repair indoor comfort heating and cooling systems year-round.

**Types of jobs available:**
- Maintenance Specialist
- Building Engineer
- Service Technician
- Plant Manager
- Heating System Specialist
- Business Owner
- Steam Fitter
- Service Manager
- Sales Representative

**Program overview**
This program is located on the Milford Campus. Students may focus on the installation and maintenance of residential, commercial or industrial heating, ventilation, air conditioning and plumbing systems or refrigeration equipment.

Prior to graduation, students will be required to take the Industry Competency Exam. The ICE test measures industry-agreed standards of basic competencies for entry-level technicians.

**A flexible schedule on the Milford campus is available. Please contact the program chair for more information.**

402-437-2746, 800-642-4075 ext. 2746  
ckonken@southeast.edu

This program is accredited by the Council for Standards in Human Service Education, 1935 S. Plum Grove Road, PMB297, Palatine, IL 60067, Web Site: www.cshse.org.

**Credit Hours Required for Graduation:**
112.5-113.5 hours

**Human Services Core Courses:**
- **HMRS1101** Human Services Concepts 4.5
- **HMRS1357** Multicultural Counseling 4.5
- **PSYC1810** Introduction to Psychology 4.5

**Human Services Practicum Courses:**
- **HMRS1109** Pre-Practicum Education 4.5
- **HMRS1110** Practicum and Seminar 1 4.5
- **HMRS1210** Practicum and Seminar 2 4.5
- **HMRS1311** Practicum A & D and Seminar 1 5.0
- **HMRS1411** Practicum A & D and Seminar 2 5.0

**Total Human Services Focus Courses:** 18.0 hours

**Electives:**
Students are required to complete 9 hours of elective coursework. Students may choose from any of the Human Services Courses not used as part of the 18.0 credits listed above or any other College credit classes level 1000 or higher.

**Total Electives:** 9.0 hours

**General Education Requirements:**
Contact your program advisor to select general education course/s from each category which will meet your program’s graduation requirements. See page 16 for complete list.

- Oral Communications 4.5
- Written Communications 4.5
- Social Science
  - PSYC1810 Introduction to Psychology (no substitution) 4.5

**Human Services Practicum Courses:**
- **HMRS1109** Pre-Practicum Education 4.5
- **HMRS1110** Practicum and Seminar 1 4.5
- **HMRS1210** Practicum and Seminar 2 4.5
- **HMRS1311** Practicum A & D and Seminar 1 5.0
- **HMRS1411** Practicum A & D and Seminar 2 5.0

**Special Program Requirements:**
1. Students must complete a health statement before acceptance into the Human Services program.
2. A criminal background check will be required of each student in this program. Based on the outcome of the background check, a student may be prevented from taking certain courses, accessing certain practicum experiences, or completing the program. A non-refundable fee of $45 will be assessed for the CBC when the student enrolls in HMRS 1109 Pre-Practicum Education, which is when the CBC is conducted.
3. The criminal background check includes a child and adult abuse registry check with the State Department of Health and Human Services.
4. Students may be requested by practicum sites to submit to drug testing and/or fingerprinting. The student may be responsible for the cost associated with the drug testing and/or fingerprinting.
5. A grade of “C” or higher is required for all HMRS classes.

For students interested in pursuing Alcohol & Drug (A & D) Counseling:
- A minimum of 300 clinical hours with a LADAC counselor that include at least 10 hours in each of the 12 core competencies/functions.
- Hours supervised at 1:10 ratio by supervisor.
- 3-9. HMRS1102, HMRS1357, PSYC2960, HMRS1402, HMRS1403, HMRS2517, and HMRS2518.

**Alcohol & Drug Clinical Courses:**
- **HMRS1109** Pre-Practicum Education 4.5
- **HMRS1110** Practicum and Seminar 1 4.5
- **HMRS1210** Practicum and Seminar 2 4.5
- **HMRS1311** Practicum A & D and Seminar 1 5.0
- **HMRS1411** Practicum A & D and Seminar 2 5.0

23.5 hours

*Please note: Students need to obtain a First Aid and CPR card before progressing into HMRS1110 Practicum and Seminar 1.

**Alcohol & Drug Clinical Courses:**
- **HMRS1109** Pre-Practicum Education 4.5
- **HMRS1110** Practicum and Seminar 1 4.5

23.5 hours

*Please note: Students need to obtain a First Aid and CPR card before progressing into HMRS1110 Practicum and Seminar 1.
The John Deere Tech program is offered jointly by John Deere and SCC in cooperation with John Deere dealers. This model program was the first of its kind in the United States.

Students in this program are required to have a sponsoring John Deere dealer. Students are expected to continue employment at the dealership after graduation.

**Types of jobs available:**
- John Deere dealership technician who works on engines, power trains, hydraulic systems, electrical & electronics, air conditioning diagnosis and repair, tillage, planting, spraying, and harvesting equipment.

**Program overview**
This program is located on the Milford Campus. During training, students will work for two quarters at their sponsoring dealership. New students are admitted twice a year, in January and July. In addition to meeting general requirements of SCC, students are tested to evaluate potential for success in the John Deere Tech program. Selected applicants must secure a John Deere dealership sponsor for off-campus training.

Please note: If a student’s dealership-sponsored employment is terminated for reasons beyond the student’s control, such as lack of work, the student may be allowed to seek a different sponsoring dealership to continue in the program. If a student’s dealership-sponsored employment is terminated for inappropriate behavior, such as failure to follow policies, poor attendance, lack of cleanliness and/or dishonesty, the student will be deemed “less than competent to perform required tasks” and will not be allowed to continue in the program.

For more information contact:
William E. Vocasek, Program Chair
402-761-8241, 800-933-7223 ext. 8241, bvocasek@southeast.edu
or the College Admissions Office
Milford 402-761-8243, 800-933-7223 ext. 8243

**Credit Hours Required for Graduation:** 158.0-160.0
Types of jobs available:

- Land surveying technician that surveys the construction of streets, dams, bridges, highways, airports, and parks; survey boundary locations of sub-divisions, private property, and commercial property.
- Civil CAD drafter who draws computer drawings of plans for construction, boundaries, plats, maps for all planning, and conventional drawings for small projects.
- Construction materials inspector who tests construction materials and checks construction work.

Program graduates are working in small to large engineering consultant companies throughout Nebraska and neighboring states. Other graduates are continuing their education.

Program overview

This program is located on the Milford Campus and is the only land surveying school in the state of Nebraska. Students may seek employment in land surveying, civil CAD drafting, or construction materials inspection.

A flexible schedule on the Milford Campus is available. Please contact the program chair for more information.

For cost estimates, please request the program estimated expense form. Upon completion of the program, students will qualify for a nine-month work experience toward obtaining their Registered Land Surveyor license.

For more information contact:

Dale Mueller, Program Chair

or the College Admissions Office

Milford 402-761-8243, 800-933-7223 ext. 8243

Credit Hours Required for Graduation: 128.5

A minimum grade of "C" or higher is required in all LSCE and General Education courses to progress through or graduate from the program.
Long Term Care Administration

Online (core classes can be face-to-face or online)

Associate of Applied Science Degree, Certificate

Types of jobs available:
• Nursing home administrator
• Assisted living administrator
• Executive director of long term care administration

Program overview
The Associate of Applied Science degree in Long Term Care Administration is intended to meet individual state educational requirements. An administrator is the chief executive responsible for planning, organizing, leading and supervising the operations of a home for the aged licensed by Health and Human Services. Specific duties include budget administration, personnel activities, supervision, public relations, leadership changes and facility management.

This program is online only and is one of the few programs of its kind in the United States that offer an Associate of Applied Science degree. General Education classes may be taken online or face-to-face. Developed in cooperation with many long term care administrators in the profession, this degree supplies a great foundation for individuals who desire advancement in long term care or an administrative position.

Students will need to pass and complete an administrator-in-training program according to their states’ requirements. This is in addition to the student’s degree and not part of the curriculum.

After educational and state-specific AIT program, the student will need to take and pass a national exam, National Association of Long Term Care Administrator Boards (NAB) for licensure requirements. Some states will require a state exam.

Additional fees would be applicable for the state-specific AIT and NAB exam paid to them. Additional fees would be applicable for the state-specific AIT and NAB exam paid to them.

Diploma:
To complete the Diploma, a total of nine (9.0) general education requirements must be fulfilled. This includes one math course plus one other general education course from Oral or Written Communications.

MACH A.A.S. Degree Requirements:
Not all courses may be available at each SCC campus.

Die Maker Focus: (Milford)
MACH2530 Die Design I 2.0
MACH2532 Die Making Lab I 7.0
MACH2547 Die Theory 5.0
MACH2634 Die Design II 2.0
MACH2636 Die Making Lab II 7.0
MACH2535 Mold Theory 5.0

28.0 hours

Mold Maker Focus: (Milford)
MACH2535 Mold Theory 5.0
MACH2537 Injection Mold Design I 2.0
MACH2538 Mold Making Lab I 7.0
MACH2547 Die Theory 5.0
MACH2640 Injection Mold Design II 2.0
MACH2642 Mold Making Lab II 7.0

28.0 hours

Tool and Die Maker Focus: (Lincoln)
WELD1174 Machine Tool Welding 1.5
MACH2245 Introduction to Molding 3.0
MACH2246 Jigs and Fixtures 6.0
MACH2256 Die Construction 7.0
MACH2258 Quality Control 3.0
MACH2266 Advanced Die Construction 7.5

28.0 hours

General Education Requirements:
Contact your program advisor to select general education course/s from each category which will meet your program’s graduation requirements. See page 16 for complete list.
(One class from each area below).
Oral Communications 4.5
Written Communications 4.5
Mathematics 4.5
Science, Social Science, Humanities, and/or Computer Technology 9.0
22.5 hours

Associate of Applied Science degree: 122.0 hours

Intelligent Machine Integration Certificate: (Milford)
This Certificate is for individuals who already have an associate degree or higher in Machine Tool Technology or Manufacturing Engineering Technology and wish to earn a Certificate in Intelligent Machine Integration. Classes will cover automation and advanced CNC concepts for manufacturing environments that are becoming more computer- and network-driven.

Certificate: 22 hours
Major Appliance Professional Technology

Milford Campus
Diploma

Types of jobs available:

• Professional repair technician
• Self-employed owner/technician

After a short period of time with an employer, many graduates will be assigned a service van to perform in-home service of major appliances. They will read wiring and system diagrams to diagnose malfunctions, repair major appliances in homes and provide in-person customer service.

Program overview

This program is located on the Milford Campus. Students use typical service tools and equipment to troubleshoot and repair major appliances in a laboratory designed to simulate working conditions in the industry.

For more information contact:
Jeff Boaz, Program Chair
402-761-8262, 800-933-7223 ext. 8262, jboaz@southeast.edu
or the College Admissions Office
Milford 402-761-8243, 800-933-7223 ext. 8243

Credit Hours Required for Graduation: 75.5

Major Appliance Technology students will complete coursework in classrooms and laboratories with instruction provided by experienced major appliance professionals. Graduates of this program will be awarded a Diploma.

Qualified major appliance technicians have many opportunities for employment, including working for retail businesses, repair shops and wholesalers. Some major appliance technicians work for manufacturers, and others become self-employed business owners.

Associate of Applied Science Degree, Certificate

Types of jobs available:
- Product designer
- Operations manager
- Engineering coordinator
- Field engineer
- Machine designer
- CNC programmer
- Product research and development specialist
- Direct manufacturing support specialist
- Quality control and assurance specialist
- Lean manufacturing engineer
- Technical support engineer
- Tooling design and development specialist

SCC has an active student chapter, S218, of the Society of Manufacturing Engineers which helps students create contacts with local industries and potential employers.

Program overview
This program is located on the Milford Campus. A flexible schedule is available. Students who earn an Associate of Applied Science degree in Manufacturing Engineering Technology at SCC will be able to transfer up to 90 hours to Missouri Western State University and earn a Bachelor of Science degree in Manufacturing Engineering Technology from the St. Joseph, Mo., university.

Please contact the program chair for more information.

Certificate: 21 hours
### Types of jobs available:
Graduates work in offices and clinics of physicians, podiatrists, chiropractors, optometrists and other specialties.

Medical Assistants perform clinical duties such as vital signs, laboratory tests, and electrocardiograms. They draw blood, prepare and administer medication and assist the physician. They may also perform administrative duties such as scheduling appointments, billing, coding, and insurance.

Program graduates are working in clinics and physicians’ offices throughout Nebraska or continuing their education.

### Program overview
This program is located on the Lincoln Campus and online.

The program prepares students to become competent entry-level medical assistants in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.

New students are admitted to the classroom program in the spring and fall quarters. New online program students are admitted only during the spring quarter. Online students must visit the Lincoln campus three times during the program.

Southeast Community College, in cooperation with Central Community College, provides an opportunity for students to earn an associate degree in Medical Assisting.

### For more information contact:
**Kathy Zabel, Program Chair**  
402-437-2756, 800-642-4075 ext. 2756,  
kzabel@southeast.edu

**Lincoln 402-437-2600, 800-642-4075 ext. 2600**

The Medical Assisting program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahp.org) upon the recommendation of the Medical Assisting Education Review Board. Commission on Accreditation of Allied Health Education Programs, 1361 Park St., Clearwater, FL 33756, 727-210-2350.

### Program Admission Requirements:
1. Application to the College  
2. Completed Assessment/Placement Test  
3. High School and/or College Transcripts  
4. Completed Health Statement

### Credit Hours Required for Graduation: 79.0

To complete a Diploma in the Medical Assisting program, courses are generally taken in the following order.

Medical Laboratory Technology
Lincoln Campus
Associate of Applied Science Degree

Types of jobs available:
- Medical laboratory technicians perform general tests in various clinical laboratory settings, including blood banking, chemistry, hematology, immunology and microbiology. MLTs perform tests that aid in the diagnosis and treatment of disease.

Program graduates attain employment in a variety of settings, such as hospitals, clinics, physician offices, and public health institutions, pharmaceutical laboratories, and animal clinics.

Graduates work in small and large facilities throughout Nebraska and neighboring states. Many continue their education and earn a bachelor's degree in Clinical Laboratory Science/Medical Laboratory Science.

Program overview
This program is located on the Lincoln Campus and includes principles and technical instruction in the areas of hematology, clinical chemistry, clinical microbiology, immunohematology (blood banking), immunology/serology, parasitology, urinalysis, and clinical microscopy. Students obtain additional laboratory experiences and learning opportunities within hospital and clinic laboratories.

Students are admitted into the program in the summer quarter. The program can be completed in eight full-time quarters. Students may also choose a three-year option in which to complete the program. Graduates are eligible to take the national certification examination offered by the American Society for Clinical Pathology Board of Certification, and may transfer these two years of credit to the Clinical Laboratory Science Program, University of Nebraska Medical Center.

For more information contact:

Special Program Requirements:
- A criminal background check will be required of each student in this program. Based on the outcome of the background check, a student may be prevented from taking certain courses, accessing certain laboratory experiences, or completing the program. A non-refundable fee of $45 will be assessed for this CBC.
- A minimum grade of C+ is required in all MEDT courses.
- A current Healthcare Provider CPR card (contact Program Chair for specific requirements)
- A repeat skin test for tuberculosis and/or a chest x-ray are required prior to Clinical Education I. Flu immunization may be required.
- Students may be requested by clinical sites to submit to and pass drug testing and/or fingerprinting. The student is responsible for the cost associated with drug testing and/or fingerprinting.

Required Support Course:
- Computer Elective 1.5 hours
* Recommended for transfer to 4-year institution. UNMC Articulation Agreement.

General Education Requirements:
Contact your program advisor to select general education course/s from each category which will meet your program’s graduation requirements. See page 16 for complete list.

- Oral Communications 4.5
  * ENGL1010 Composition I
  * BIOT1101 Human Physiology & Lab 6.0
  * Written Communications 4.5
- Mathematics 4.5
  * MATH1150 College Algebra or higher
- Social Science 4.5
  * BIOS2130

Total 24.0 hours

Advanced Placement:
Students with previous college credit may apply for advanced placement pending evaluation of transcripts and availability of class space.

Please note: Higher-level general chemistry may be substituted for LBST1421/1422.
- BIOS1010/1010L may be substituted for LBST1205/1215.
- BIOS1110/1110L may be substituted for LBST1212/1231.

SOUTHEAST COMMUNITY COLLEGE | CATALOG 2012-2013 www.southeast.edu
Motorcycle, ATV and Personal Watercraft Technology

Lincoln Campus
Diploma

Types of jobs available:

- Repair technician who diagnoses and repairs all areas of the vehicle, including engines and transmissions, suspension and brake systems, and electrical/electronic systems.
- Parts counter person
  Activities in this area include researching service information using manuals or computer-based programs, using an extensive array of hand tools and diagnostic equipment, writing, speaking, and basic math skills.
- Sales associate

Program graduates are employed in dealerships, independent shops and owner/operator shops.

Program overview
This program is located on the Lincoln Campus with classes beginning in January and July.

Nondestructive Testing Technology

Milford Campus

Associate of Applied Science Degree

Types of jobs available:
- NDT technician
- NDT inspector
- Sales and marketing specialist
- NDT engineer
- Research and development specialist
- Contractor
- Business owner

Program overview
The program is located on the Milford Campus and is one of the few programs of its kind in the United States that offers an Associate of Applied Science degree. Developed in cooperation with the many industries it serves, the program trains technicians who are in high demand in a wide variety of industries, including aircraft and aerospace, power generation and utilities, chemical and petrochemical, defense and military (civilian and enlisted), general manufacturing, and transportation.

For more information contact:
Randy Walbridge, Program Chair
402-761-8346, 800-933-7223 ext. 8346, rwalbrid@southeast.edu

or the College Admissions Office
Milford 402-761-8243, 800-933-7223 ext. 8243

Credit Hours Required for Graduation: 146.0

The Nondestructive Testing Technology program trains students to examine products and materials for flaws without damaging the products. Listed are the courses necessary for a full-time student to complete an A.A.S. degree in Nondestructive Testing Technology. Students must attain a grade of “C” or higher in all NDTT and General Education courses to receive an A.A.S. degree.

General Education Requirements:
Contact your program advisor to select general education course/s from each category which will meet your program’s graduation requirements. See page 16 for complete list.

(One class from each area below).
- Oral Communications 4.5
- Written Communications 4.5
- Mathematics 4.5

(Plus two classes from the four areas below; no two classes from the same area).
- Science, Social Science, Humanities, and/or Computer Technology 9.0

22.5 hours

In addition students must complete the following courses:
- BSAD2540 Principles of Management 4.5
- PHYS1017 Technical Physics 4.5

9.0 hours
Office Professional
Beatrice and Lincoln Campuses and Online
Associate of Applied Science Degree, Diploma, Certificate

Types of jobs available:
- Administrative assistant
- Office manager
- General office clerk
- Medical transcriptionist
- Legal office assistant
- Medical office assistant
- Executive assistant
- Desktop publisher
- Customer service assistant
- Receptionist
- Computer operator

Program overview
This program is located on the Beatrice and Lincoln campuses. Students may choose a Certificate focusing on general office or Microsoft Office skills, a Diploma focusing on general office or medical transcription skills, or an Associate of Applied Science degree focusing on administrative, legal or medical office skills.

Graduates are equipped with knowledge of cutting-edge technology and software, a professional attitude, and enhanced skills in the office environment.

You can expect to use traditional office skills on the job as well as new technology. Soft skills such as teaming, ethics, attitude and professional work habits and responsibilities also are covered.

Program graduates are working in small and large companies throughout southeast Nebraska and surrounding states. Other graduates are continuing their education.

or the College Admissions Office
Beatrice 402-228-8214, 800-233-5027 ext. 1214
Lincoln 402-437-2600, 800-642-4075 ext. 2600

Credit Hours Required for Graduation:
Certificate:
- General Office Focus: 40.5
- Graphic Communication Focus: 31.5
- Microsoft Office Focus: 40.5

Diploma:
- General Office Focus: 86.0
- Medical Transcription Focus: 86.5

Associate of Applied Science Degree:
- Administrative Office Focus: 113.0
- Legal Office Focus: 113.0
- Medical Office Focus: 114.5

This program offers students generalized training in office professions as well as course work in three focus areas: administrative, legal, and medical. With appropriate elective courses, students completing requirements for an Associate of Applied Science degree will be prepared to take the Certified Professional Secretary or Certified Administrative Professional examination awarded through the International Association of Administrative Professionals. All course prerequisites must be passed with a “C” or higher to continue through the program.

Special Program Requirements:
Students who wish to pursue their education in the Office Professional program must complete the college admissions requirements and the special program requirements:
1. Students will complete the COMPASS, ASSET, ACT or SAT pre-admission testing. Skills students currently have in math, writing, and reading comprehension will be determined by test scores. Scores from testing will be used to place students in appropriate math and writing courses as well as any developmental reading program that may be necessary. Developmental courses include the following:
   ENGL0850 Reading Strategies I
   ENGL0880 Reading Strategies II
   ENGL0950 Beginning Writing
   ENGL0980 Intermediate Writing
   MATH0900 Math Fundamentals
   MATH0950 Beginning Algebra
   Your advisor will assist you in interpreting placement scores and determining if you are required to take the prescribed developmental courses.
2. Students’ high school or college transcripts must validate successful completion of an accounting course. Two semesters of high school accounting or one semester/ quarter of college accounting must have been completed with a B average or higher. Students who cannot validate previous accounting course work will be required to take OFFT1310 Office Accounting.
3. Prerequisite competencies required in the program include a typing/keyboarding skill of a minimum of 30 words per minute with three or fewer errors on a three-minute timing. Students who do not meet this requirement will complete Keyboarding I (OFFT1010) and/or Keyboarding II (OFFT1020).
4. If your advisor determines that you must take developmental or prerequisite courses, they will be taken during the first part of the program. The credit hours earned in these classes will not count toward graduation requirements.

SOUTHEAST COMMUNITY COLLEGE | CATALOG 2012-2013  
www.southeast.edu 77
Types of jobs available:

- Ambulance services
- Fire Departments
- Hospital settings
- Health education instructor

Paramedics provide medical care, and their goal is to prevent and reduce mortality and morbidity due to illness and injury. Paramedics primarily provide care to emergency patients in an out-of-hospital setting.

As an advocate for patients, paramedics seek to be proactive in affecting long-term health care by working in conjunction with other provider agencies, networks and organizations. The emerging roles and responsibilities of the paramedic include public education, health promotion and participation in injury and illness prevention programs.

Program Overview:
This is a 15-month program located on the Lincoln Campus. Paramedic students will complete the coursework in classrooms and laboratories and gain hands-on training while working in hospitals and with ambulance services. Graduates of the program receive an Associate of Applied Science degree and may take the National Registry certifying examination.

75.0 hours

Special Program Requirements:
1) Students must either be nationally registered as an EMT-B or be licensed as an EMT-B in the state of Nebraska before starting the Paramedic program.

2) A current Healthcare Provider CPR card or Professional Rescuer CPR card through the American Red Cross (contact Program Chair for specific requirements).

3) All courses must be completed with a minimum grade of C+ (75%) in order to progress through the program.

4) A criminal background check will be required for each student in this program. Based on the outcome of the background check, a student may be prevented from taking certain courses, accessing certain laboratory experiences or completing the program. A non-refundable fee of $45 will be assessed for this CBC.

5) Misdemeanor or felony convictions may prevent a graduate from acquiring National Registry certification or a state license. Contact the National Registry of Emergency Medical Technicians and the state of Nebraska EMS program with questions.
Types of jobs available:

- Parts manager
- Warranty manager
- Service manager
- Service writer
- General manager
- Self-employed
- Factory representative
- Sales associate
- Merchandising representative
- Advertising representative
- Business office manager

Activities may include inventory control, computerized business systems and electronic cataloging, purchasing products, sales and marketing. The paid Cooperative Experience training offers students opportunities to establish vital contacts with individuals in the field for full-time employment.

Graduates are working in exciting careers in entrepreneurship, management, marketing, sales and service to customers in automotive, agriculture, aviation, industrial, construction, warehousing, or any other business that sells products. Many graduates continue their education in business, marketing and supervision.

Program overview

This program is located on the Milford Campus. Students focus in automotive, agriculture and construction equipment, implement, industrial, trucking and retail business, and in district management.

A flexible schedule on the Milford Campus is available. Please contact the program chair for more information.

For more information contact:

This SCC program is affiliated with ASE
Pharmacy Technician
Beatrice Campus and Online
Diploma

Types of jobs available:
- Pharmacy technician

Duties can be quite varied depending on the work setting. Technicians may assist the licensed pharmacist in filling prescriptions by counting tablets, packaging, labeling, receiving prescriptions, ordering, inventory control, mixing IVs, completing insurance claims, and many other activities.

Technicians are employed anywhere a licensed pharmacist may work, such as an acute care hospital, long-term care, home health, mail order, and retail pharmacy services.

Program overview
This program is located on the Beatrice Campus and online. The program is 12 months, or four quarters in length.

Please note: Students are required to take labs in-person on the SCC Beatrice Campus. All clinicals must be taken at SCC-approved sites.

For more information contact:
Elina Pierce, Program Chair
402-228-8247, 800-233-5027 ext. 1247, epierce@southeast.edu
or the College Admissions Office
Beatrice 402-228-8214, 800-233-5027 ext. 1214

This program is accredited through the American Society of Health-Systems Pharmacist, 7272 Wisconsin Ave., Bethesda MD 20814, 301-657-3000, www.ashp.org.

Program Admission Requirements:
1. Application to the College
2. Completed Assessment/Placement Test
3. High School and/or College Transcripts
4. Completed Health Statement

Credit Hours Required for Graduation: 64.5

The Pharmacy Technician program provides opportunities to learn how to deliver direct pharmacy services to clients and to be introduced to the entire pharmacy industry. The program will provide hands-on experience in the acute care, long-term care or retail pharmacy settings. Graduates of the program are eligible to take the national certification exam for pharmacy technicians through the Pharmacy Technician Certification Board. Current students will sit for the national certification exam for pharmacy technicians during the final exam for PHRM1241.

Students must be admitted into the Pharmacy Technician program to be able to take any PHRM classes.

General Education Requirements:
Take one general education course from each category below. See page 16 for complete list.

- Oral Communications 4.5
- Written Communications 4.5

9.0 hours

Special Program Requirements:
1. Students must have a current Healthcare Provider CPR card (contact Program Chair for specific requirements).
2. A criminal background check and an Adult and Child Abuse check will be required of each student in this program. Based on the outcome of the background check, a student may be prevented from taking certain courses, accessing certain laboratory experiences, or completing the program. A non-refundable fee of $45 will be assessed for this CBC.
3. Before going to a clinical site, SCC’s Pharmacy Technician students are required to register and be active on the registry while performing the duties of technicians in the state of Nebraska. (See Registry information below.)
4. Computer skills in keyboarding and Windows will be helpful.
5. All courses must be passed with a (C) or higher.
6. All labs must be taken face-to-face on the SCC Beatrice campus.
7. All clinicals must be performed at SCC-approved sites.

Registry Information
Beginning September 1, 2007, the Nebraska Department of Health and Human Services implemented the following to register as a pharmacy technician in the state of Nebraska.

To work in Nebraska a graduate must:
- Be at least 18 years of age;
- Be a high school graduate or be officially recognized by the State Department of Education as possessing the equivalent degree of education;
- Have never been convicted of any non-alcohol, drug-related misdemeanor or felony;
- File an application with the Department; and
- Pay the applicable fee of approximately $25

Other states may have different laws. Consult state statutes.
The Physical Therapist Assistant program at Southeast Community College is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 1111 North Fairfax Street, Alexandria, Virginia 22314, telephone 703-706-3245; email: accreditation@apta.org; website: www.capteonline.org

Program Admission Requirements:
1. Application to the College
2. Self-Advising Sheet
3. High School Graduate or GED
4. Completed Health Statement
5. Job Shadow Information Form (10 hours)

Credit Hours Required for Graduation: 109.5

General Education Requirements (Program Prerequisites)
Courses must be successfully completed with a C+ (75%) or better prior to admission to the program.

Oral Communications 4.5
*SPCH1110 Public Speaking or
*SPCH1090 Fundamentals of Human Communications or
*SPCH2810 Business & Professional Communications

Written Communications 4.5
*ENGL1010 Composition I or higher

Mathematics 4.5
*MATH1150 College Algebra or higher

Science 6.0
*BIOS1140 Human Anatomy w/Lab
*BIOS2130 Human Physiology w/Lab

OR
*BIOS1210 Anatomy & Physiology I w/lab
*BIOS1220 Anatomy & Physiology II w/lab

Social Science 4.5
*PSYC1810 Introduction to Psychology

*Meets the General Education Requirement.

For more information contact:
Betsy Becker, PT, Program Chair-Lincoln

or the College Admissions Office
Lincoln 402-437-2600, 800-642-4075 ext. 2600

Types of jobs available:
- Physical therapist assistants work in a variety of settings, including outpatient clinics; hospitals; inpatient rehabilitation facilities; skilled nursing, extended care, or sub-acute facilities; homes; education or research centers; schools; hospices; industrial, workplace or other occupational environments; fitness centers and sports training facilities.
- PTAs provide physical therapy services under the direction and supervision of a physical therapist. PTAs help people of all ages who have medical problems, or other health-related conditions that limit their ability to move and perform functional activities in their daily lives. PTAs must complete an associate degree and be licensed, certified, or registered in most states.
- Care provided by a PTA may include teaching patients/clients exercise for mobility, strength and coordination, training for activities such as walking with crutches, canes, or walkers, massage, and the use of physical agents and electrotherapy such as ultrasound and electrical stimulation.

Program overview
- This program is located on the Lincoln Campus.
- The program admits up to 24 students annually. Classes begin in the winter (January) quarter.
- All PTA courses are offered face-to-face and meet Monday through Friday.
- During clinical education, students will have the opportunity to use classroom knowledge and laboratory skills to provide care to patients in a health care facility under the direction of a clinical instructor. Students will complete three clinical education experiences at pre-approved clinical sites.
- Clinical education sites may be outside of the Lincoln area and can include day, evening, and weekend hours. Students are responsible for their own books, fees, travel and lodging during the classes, labs, and clinical experiences.
- After successful completion of the PTA program, graduates become eligible to take the national licensure examination.
Types of jobs available:
The polysomnographic technologist performs a vital role in the diagnosis and treatment of sleep disorders. Already an integral part of clinical and research settings, some polysomnographic technologists have broadened their scopes to include management and marketing of sleep centers, product support and sales, public and patient education regarding sleep hygiene and relaxation counseling, increasing public awareness about sleep disorders and working to shape public policy through advocacy. The field has shown significant growth due to obvious increased public awareness of sleep disorders worldwide. With this growth has come the need for accessible educational opportunities for technologists. Sleep technologists obtain certification through board examination to acquire the credential of Registered Polysomnographic Technologist (RPSGT).

Polysomnographic technologists are the technical group specially trained to perform polysomnograms (PSG) for the diagnosis and treatment of sleep/arousal disorders, including the management of nasal positive airway pressure (nPAP) titration for obstructive sleep apnea syndrome (OSAS). These individuals function independently to safely operate sophisticated medical equipment to record sleep/wake physiology. They work under the direct supervision of a physician who practices sleep disorders medicine. The physician develops the protocols technologists follow in performing PSG studies, including utilization of PSG for nPAP titration.

Program overview
Individuals making application to the Polysomnographic Technology program must provide college transcripts demonstrating graduation from an associate degree program from a health-related program of study or a copy of a current RT or RN license. A Certificate in Polysomnographic Technology is awarded upon completion of the program, which is accredited by CAAHEP. Graduates of the program will be eligible to take the Registered Polysomnographic Technologist exam offered by the Board of Registered Polysomnographic Technologists.

The Polysomnographic Technology program is a part-time program that includes 9 credit hours per quarter. The program is two quarters in length (6 months). The program is offered online with clinical rotations being completed in an approved sleep disorders center. Students are required to complete 240 contact hours of lab/clinical education and attend a two-day workshop at the SCC campus in Lincoln, Neb.

Students will complete a comprehensive program in patient assessment, equipment calibration, data acquisition, diagnostic evaluation, therapeutic modalities and follow-up care of patients.

Students are encouraged to select sleep disorders centers near their home to complete their clinical education. Approval of sleep disorders centers is at the discretion of the faculty and determined on an individual basis.

Program Admission Requirements:
1. Application to the College
2. College transcripts demonstrating graduation from an Associate Degree program in a health-related program of study or a copy of a current RT or RN license
3. Completed Health Statement

18.0 hours

General Education Requirements:
See page 16 for complete list.

Written Communications or Oral Communications 4.5 hours

Students may (submit a transcript to see if they can) receive credit by transfer for a Written or Oral Communications requirement.

If the student credit will not transfer, the student is required to take one General Education course.

Special Program Requirements:
1. A current Healthcare Provider CPR card (contact Program Chair for specific requirements) is required.
2. A criminal background check will be required of each student in this program. Based on the outcome of the background check, a student may be prevented from taking certain courses, accessing certain laboratory experiences, or completing the program. A non-refundable fee of $45 will be assessed for this CBC.
3. A (C+) must be maintained in all courses in order to progress through the program.
4. Students are required to attend a two-day conference at Southeast Community College-Lincoln Campus. Students are responsible for travel and lodging for the two days.
Practical Nursing
Beatrice and Lincoln Campuses and Online
Diploma

Types of jobs available:
- Licensed practical nurse

Graduates are eligible to apply to take the National Council of Nursing Licensure Examination and apply for licensure in their state of choice. After licensure, LPNs work in a variety of settings, including hospitals, long-term care, clinics, and home health care.

The Associate Degree Nursing program at SCC permits advanced admission for LPN graduates.

Program overview
This program is located on the Beatrice and Lincoln campuses and teaches students the concepts, principles, skills, and attitudes needed to become practical nurses who can work with patients throughout their life span.

Students will gain knowledge in medical-surgical, maternal-child, and geriatric nursing. Faculty facilitate clinical experience in area health care agencies.

Part-time Track
Students take theory classes online and attend clinicals at approved sites in Beatrice, Falls City, Geneva or Lincoln, Neb., on a part-time basis.

Students taking the part-time track must attend clinicals in-person in Beatrice, Falls City, Geneva or Lincoln, Neb. Total time to complete the part-time track is two years.

Learning by doing – clinical experience
Students will have hands-on clinical experience in a variety of health care facilities. SCC instructors provide close supervision and guidance in the clinical settings.

Student clinical assignments will be based on facility availability. This requires some assignments to be performed at nearby towns and some evening hours.

For more information contact:
Crystal Higgins, Program Chair-Beatrice 402-228-8264, 800-233-5027 ext. 1264, chiggins@southeast.edu

Program Admission Requirements:
1. Application to the College
2. Completed Assessment/Placement Test
3. High School and/or College Transcripts
4. Completed Health Statement
5. Must have passed the “Nursing Assistant” course and be on “Active Status” in the Nebraska Registry.

Credit Hours Required for Graduation: 76.0

This program is accredited by the National League for Nursing Accrediting Commission, 3343 Peachtree Road NE, Suite 850 Atlanta, Georgia 30326, www.nlnac.org, 404-975-5000

Special Program Requirements:
1. A current Healthcare Provider CPR card (contact Program Chair for specific requirements) is required.
2. A “C+” must be achieved in all courses to progress in the program.
3. Anatomy and Physiology courses must be taken within 5 years of admission.
4. A criminal background check will be required of each student in this program. Based on the outcome of the background check, students may be prevented from taking certain courses, accessing certain laboratory experiences, or completing the program. A non-refundable fee of $45 will be assessed for this CBC. Please note: Misdemeanor or felony convictions may prevent a graduate from acquiring a state license. Contact the State Board of Nursing with questions.
5. Part-time track students are required to attend clinicals in Beatrice, Falls City, Geneva or Lincoln, Nebraska. Students are responsible for travel and lodging for clinicals.

Math, Computer Literacy, Human Relations, First Aid.
Professional Truck Driver Training

Lincoln Campus
Certificate

Types of jobs available:

- Professional truck driver

As a professional truck driver, graduates of the program will be employed either as a long-distance over-the-road driver or a local driver. Most companies who employ graduates of the program are long-distance carriers. Some local positions are available, but tend to be seasonal.

Persons considering this occupation need to understand that long-distance driving is a dramatic lifestyle change. Drivers will sometimes be away from home for long periods of time.

Program graduates are working for trucking companies in southeast Nebraska and throughout the United States.

Program overview

This program is located on the Lincoln Campus. On-campus housing is not available. Graduates will obtain a Class A Commercial Drivers License. Students will sharpen their driving skills on the private SCC backing range and perimeter road, before progressing to highway driving.

For more information contact:
Michael Kuebler, Program Chair
402-437-2685, 800-642-4075 ext. 2685, mkuebler@southeast.edu
or the College Admissions Office
Lincoln 402-437-2600, 800-642-4075 ext. 2600

Credit Hours Required for Graduation: 18.0

The Professional Truck Driver Training program prepares students for a career in over-the-road truck driving in both intrastate and interstate commerce.

This is a 10.5-week (one quarter) intensive truck driving course. Students learn to operate articulated vans and flat beds. Training includes driving on the city streets and rural roads, two-lane and interstate highways.

Scheduling:

First shift 7 a.m. to 1:30 p.m.
Second shift (not available all quarters) 15 days of: Classroom 7 a.m. - 1:30 p.m.
36 days of: Driving 1:30 - 8 p.m.

Students are assigned to either first or second shift by the program.

Below is the guide for a student to complete an award in Professional Truck Driver Training.

TRUK Core Classes

</tr>
</tbody>
</table>

Special Program Requirements

Prior to Start of Class:
1. Minimum age of 18 years.*
2. High School Diploma or GED.
3. Valid motor vehicle operator’s license.
4. Copy of driving record for the past three years from the Department of Motor Vehicles.
5. Physically qualified under Department of Transportation regulations. Physician to complete a D.O.T. form.
6. Drug screen required.
7. Obtain a CDL Learners Permit by taking a 50 question General Knowledge Test at the DMV.
8. Acceptance into the program may be contingent on the quality of the driving record, results of the drug screen, and results of the D.O.T. physical.

All reviews will be made by the program.

*Employment opportunities require the applicant to be at least 21 years old to work in interstate commerce, and at least 23 years old for insurance requirements with some commercial carriers.
Types of jobs available:

- Radiologic technologists work in a variety of settings, including hospitals, clinics, doctors’ offices, and private/governmental institutions. Graduates are eligible to work in any state in the nation once they have earned their board certification and attained necessary state licensure.

Program overview

The program teaches the safe use of radiation to produce images of the human body for diagnostic purposes. Students will acquire the knowledge and skills required for critical thinking, problem solving and effective communication in the radiologic technology field, and learn how to practice within the ethical, professional and legal boundaries required.

Program graduates can earn an Associate of Applied Science degree after eight quarters of full-time study, become eligible to take the national examination of the American Registry of Radiologic Technologists, and apply for state licensure. Individuals who have been convicted of, or plead guilty to, a felony or misdemeanor may not be eligible to sit for the ARRT exam and work as a medical radiographer. The student may file a pre-application with the ARRT in order to obtain a ruling on the impact of their eligibility for examination.

This program is located on the Lincoln Campus and online. The clinical courses are supervised and held at pre-approved accredited medical centers. Students are responsible for their own transportation and will rotate between rural and metropolitan hospitals, long-term care facilities and various clinics.

or the College Admissions Office
Lincoln 402-437-2600, 800-642-4075 ext. 2600

This program is accredited by the Joint Review Committee on Education in Radiologic Technology, 20 North Wacker Drive, Suite 2850, Chicago, IL 60606, 312-704-5300, www.jdcert.org

Credit Hours Required for Graduation: 162.0

Program Admission Requirements:

1. Application to the Program
2. Completed Assessment/Placement Test
3. High School and/or College Transcripts
4. Completed Health Statement
5. Self-Advising Sheet
6. Website Verification
7. Job Shadowing

Program Prerequisites:

Program prerequisites and General Education requirements must be completed prior to entering the program (unless student meets Advanced Standing requirements – see section on Advanced Standing.) Students must be accepted into the program before any RADT classes are taken.

The RADT program courses begin in the summer and winter quarters. All prerequisite or general education courses may be taken at SCC or at any accredited college or university and must meet SCC requirements for course transfer. Interested students must complete an application for admission to the program when beginning prerequisite courses.

General Education Requirements:

- Introduction to Sociology
- Composition I
- Oral Communications
- Intermediate or College Algebra
- Human Anatomy with a Lab
- Human Physiology with a Lab

Prerequisite Courses:

- Concept-based or technical Physics with a Lab
- Medical Terminology
- Concept-based or Technical Chemistry with lab
- Basic Pharmacology

Course requirements: 30.0 hours

Advanced Standing

Advanced standing students may be one of the following:

- Possess a provisional or limited radiographer’s license (or the equivalent of a license for states without licensure law) AND have worked as a limited or provisional radiographer for the past year.
- Have completed a Radiography program in another country.
- Have completed a Radiography program and have been unable to pass the ARRT exam.

Advanced standing students must have the program prerequisites waived prior to program eligibility but are required to complete all general education courses according to college policy. These courses may be transferred from another accredited institution or they may be taken at SCC during the program; they must be completed by graduation from the program.

Radiologic Technology Courses:

Student must complete RADT courses in the following order:

<table>

Special Program Requirements:

1. A current Healthcare Provider CPR card (contact Program Chair for specific requirements) is required prior to entrance into the program.
2. A criminal background check will be required of each student in this program. Based on the outcome of the background check, a student may be prevented from taking certain courses, accessing certain laboratory experiences, or completing the program. A non-refundable fee of $45 will be assessed for this CBC.
3. Computer skills are necessary. It is highly suggested for students lacking in this area to enroll in a computer technology course.
4. All required courses must be completed with a minimum grade of C+ or 75% PRIOR to entry into the program. All Radiography program courses must also be completed with a minimum grade of C+ or 75. If a student receives less than a C+ or 75% in any Radiography program course, the student is dismissed and may recycle into the program, within one year, if there is an opening in the program that term and they meet program recycle requirements.

SOUTHEAST COMMUNITY COLLEGE | CATALOG 2012-2013
www.southeast.edu 85
Respiratory Care
Lincoln Campus and Online
Associate of Applied Science Degree

Types of jobs available:
- Respiratory therapists work in a variety of settings. Employment of respiratory therapists is expected to increase faster than the average for all occupations through the year 2016 because of substantial growth in the middle-aged and elderly population, a development that will heighten the incidence of cardiopulmonary disease. Although hospitals will continue to employ the vast majority of therapists, a growing number can expect to work outside of hospitals in home health care services, offices of physicians, outpatient centers, skilled nursing facilities and patients’ homes.

Program overview
Students complete a comprehensive curriculum in assessment, treatment, management, diagnostic evaluation, and care of patients with lung and heart problems. Supervised clinical practice at local hospitals and health centers gives students experience in common procedures such as administering medical gases, aerosols and inhaled medications, applying ventilatory support, and testing techniques used in diagnosis, monitoring and treatment. Clinical practice for the program is provided in cooperation with a variety of health care facilities throughout the region. Upon completion of the program, students receive an Associate of Applied Science degree, at which time they are eligible to take the National Board for Respiratory Care exams and apply for state licensure.

This program is located on the Lincoln Campus and online.

For more information contact:

Special Program Requirements:
1. A current Healthcare Provider CPR card (contact Program Chair for specific requirements) is required.
2. Students must maintain a GPA of 2.75 in the Program Prerequisites and a GPA of 2.5 in the General Education classes.
3. All RESP courses must be passed with a minimum grade of (C+) to progress through the program. If a C- is not achieved, the student will be dropped from the program. The student may reapply to the program the following year if space is available.
4. A criminal background check will be required of each student in this program. Based on the outcome of the background check, a student may be prevented from taking certain courses, accessing certain laboratory experiences, or completing the program. A non-refundable fee of $45 will be assessed for this CBC.
Misdemeanor or felony convictions may prevent a graduate from acquiring a state license. Contact the State Licensing Board if there are questions.

General Education Requirements:
Contact your program advisor to select general education course/s from each category which will meet your program’s graduation requirements. See page 16 for complete list.

Surgical Technology

Lincoln Campus and Online

Associate of Applied Science Degree

Types of jobs available:
Surgical technologists are allied health professionals who are an integral part of the surgical team. The surgical technologist’s primary responsibilities are maintaining the sterile field, handing instruments, providing sterile items, anticipating the needs of the team, and assisting the surgeon during surgery.

The job outlook for the surgical technologist remains positive. Their main role is to work in the operating room of a hospital, surgery center, specialty center or doctor’s office. Other jobs may include surgery scheduler, materials manager, clinical preceptor, education coordinator, tissue/organ procurement technologist, private scrub for a surgeon, sterile processing manager, medical sales representative, surgical first assistant, traveling surgical technologist, clinical instructor, program director, and labor and delivery surgical technologist.

Program overview
This program is located on the Lincoln Campus and online. Online students who live outside of Lincoln can work in conjunction with the local community college in their area to complete the prerequisite, General Education, and other required courses. With prior approval, a Lincoln face-to-face student may take the didactic portion of courses online.

New program students enter every third quarter. Contact the college admissions office for entry dates.

National Certification Examination will be administered before graduation. Upon verification of graduation from the program chair, each student passing the NCE will receive the official certification certificate from the National Board of Surgical Technologists. The exam is administered through Applied Measurement Professionals Inc.

For more information contact:
Sharon Rehn, Program Chair
402-437-2785, 800-642-4075 ext. 2785, skrehn@southeast.edu

or the College Admissions Office
Lincoln 402-437-2600, 800-642-4075 ext. 2600

This program is accredited by the Commission on Accreditation of Allied Health Education Programs, www.caahep.org ARC-ST, 6 West Dry Creek Circle, Suite 210, Littleton, CO 80120-8031, 303-694-9262.

Program Admission Requirements:
1. Application to the Program
2. Self-Advising Sheet
3. Completed Health Statement
4. High School and/or College Transcripts

Credit Hours Required for Graduation:
105.0

General Education Requirements:
*One course Required from each of the following areas:
Oral Communications
Written Communications
Mathematics
Social Science
Sciences – (3 courses required)
Biology of Microorganisms (Microbiology), Human Anatomy, Human Physiology (Human Anatomy & Physiology I, Human Anatomy & Physiology II also works as a substitute for Human Anatomy and Human Physiology courses).

Additional Required Courses:
MEDA1101 Medical Terminology 1
MEDA1407 Medical Calculations
(MEDA1407 can be taken in Quarter 1 to make that quarter full time if needed.) 3.0 hours

Special Program Requirements:
1. All Prerequisite, General Education, and other required courses must be completed with a grade of C or higher before enrolling in SURT1600.
2. A current Healthcare Provider CPR card (contact Program Chair for specific requirements) is required.
3. All SURT courses must be passed with a minimum of a C+.
4. A criminal background check will be required of each student in this program. Based on the outcome of the background check, a student may be prevented from taking certain courses, accessing certain laboratory experiences, or completing the program. A non-refundable fee of $45 will be assessed for this CBC.
Welding Technology

Lincoln and Milford Campuses

Associate of Applied Science Degree, Diploma, Certificate

Types of jobs available:

- Welding technician
- Welding specialist
- Production welder
- Welding fitter
- Supervisor
- Inspector
- Welding machine operator
- Sales representative

Program overview

This program is located on the Lincoln and Milford campuses and includes classroom instruction and extensive hands-on training. Some of the welding and cutting processes utilized include shielded metal arc, gas metal arc, gas tungsten arc, flux cored arc, submerged arc, plasma arc and oxy-fuel. Blueprint reading, layout, inspection and quality control skills also are widely utilized.

The program meets AWS, API and ASME standards. The curriculum focuses on current welding practices and procedures, metallurgy, destructive and nondestructive testing, inspection and principles of fabrication and design.

For more information contact:

Mark Hawkins, Program Co-Chair-Lincoln
402-437-2694, 800-642-4075 ext. 2694,
mhawkins@southeast.edu

Dan Zabel, Program Co-Chair-Lincoln
402-437-2692, 800-642-4075 ext. 2692,

Milford 402-761-8243, 800-933-7223 ext. 8243

Credit Hours Required for Graduation:

- Certificate: 36.0
- Diploma: 77.0
- Associate of Applied Science: 121.0

The Welding Technology program provides students with comprehensive training in current welding practices and procedures. Course offerings will be determined by each program location. Not all courses will be available at each location. Contact your program advisor for more information.

General Education Requirements:

Contact your program advisor to select general education course/s from each category which will meet your program’s graduation requirements. See page 16 for complete list.

(One class from each area below).

- Oral Communications 4.5
- Written Communications 4.5
- Mathematics 4.5
- Science 4.5
- Social Science 4.5
- Humanities 4.5
- Computer Technology 9.0

Certificate: 22.5 hours

Diploma:

Requires 68.0 credit hours of welding courses, and two General Education courses for a total of 77.0 hours. See program advisor.

A.A.S. Degree:

Requires 98.5 credit hours of welding courses and five General Education courses (22.5), for a total of 121.0 hours. See program advisor.
On the following pages are the descriptions (alphabetical by prefix) for credit courses offered at Southeast Community College.

Each course is identified with a lettered prefix and a course number, followed by the course title and campus where the class is taught, class hours, lab/clinical/Co-op/practicum hours (when applicable) and credit hours.

Following that is any prerequisite needed before taking the course and a brief description.

Prerequisite: ENGL1010 or permission of instructor.

Introduction to the major genres and conventions associated with literature. Includes fiction, poetry, drama, and memoir. By employing critical reading/thinking skills and analytical and creative writing skills, students will understand literature more fully.

Exposure to a range of authors representing a variety of cultural and ethnic backgrounds.

*Please note that those courses with a zero (0) as the first digit of the course number are designated as developmental and may not be used to fulfill degree requirements. Example ENGL 0810.

* A computer icon is visible for courses available online.

Special and Individualized Courses

Special Topics Course (numbered 2799 with program prefix), are one-time course offerings that cover a specific topic that cannot be offered on a consistent basis. The course will need to be approved through the SCC approval process and follow all guidelines associated with a regular course, i.e. course syllabus and outline.

Individual Special Topic (numbered 2999 with program prefix), are courses listed in various programs in which a student will be required to do an individual project. The course will be an elective course only, and will also require a course syllabus and outline for the student enrolled in the course.

**ACFS • Academic Foundations**

ACFS0840 Collegiate Study Skills B/L/M  - 30  1.5
A general information course to help students develop skills for study, research, and test preparation. Includes computer aided instruction and personal tutoring. Instructional time is arranged to accommodate students class and work schedules. Excellent course for students returning to school who are needing to upgrade skills in the use of computers for school work.

ACFS0860 Student Success B/L/M 30  - 3
This course offers students an array of strategies to help them succeed in college.

ACFS0890 Freshman Seminar B/L 15  - 1.5
This course is a basic introduction to college life including academic and personal skills needed for success. It includes a review of study skills, test taking strategies, time and stress management. A portion of the class is devoted to responsible money management and use of credit. Students will develop a personalized college budget plan aimed at minimizing debt at graduation.

ACFS1010 Academic & Career Development L 15  - 1.5
(Recommended to be taken during the first term of the Academic Transfer program-Lincoln Campus)
Insight into career satisfaction and selection, understanding of self, full scope of career exploration, development and personal relationships, overview of the A.A. and A.S. degrees, and development of an academic plan to help achieve career goals. Designed to foster a positive adjustment to college and work environments.

ACFS1020 Academic and Career Skills for Success L 45  - 4.5
This course is designed to assist students in making decisions about academic and career goals based on their personality, interests, skills, and values. The course will also focus on an array of skills the college student needs to be successful.

ACFS2020 Career Development L/M 25  - 2.5
Overview of career development with emphasis on the skills necessary for a job search, interpersonal skills, and communication.

**AGRI • Agriculture**

**Business & Management Technology**

AGRI1000 Introduction to Agriculture and Horticulture Technologies B 45  - 4.5
Introduction to the fundamental skills and knowledge-base necessary to succeed in the agriculture industry.

AGRI1116 Electric & Gas Welding B 15  30 2
Introduction to all types of welding, basic to advanced, for use in maintenance and repair of machinery. Electric and gas welders including stick, MIG, TIG, hard-facing, brazing, aluminum and stainless steel.

AGRI1123 Agribusiness Careers B 45  - 4.5
Overview of occupations in the field of agribusiness. In-depth exploration of several broad occupational areas and personal interview of at least two agribusiness management level employers.

AGRI1124 Basic Ag Leadership B 45  - 4.5
This course will help students become more successful in life and the workplace through learning and enhancing personal development and communication skills; attaining desired leadership positions both in their careers and community.

AGRI1131 Crop & Food Science B 45  - 4.5
Principles and practices of production of the major agronomic crops of the high plains.

AGRI1135 Basic Fertilizer Management B 28  20 3
Methods of evaluating soil fertility, prescribing and formulating fertilizer blends, and calibration and operation of application equipment. Forms of fertilizer, uses, storage and plant processes and operations.

AGRI1141 Livestock Management & Selection B 42  54 6
Management of livestock production. Work with the school’s sow herd in farrowing and nursery, and with sheep during lambing. Basic production systems and methods for beef, sheep and swine.

</table>
About the history, organization and modern applications of the Cooperative structure. This course is intended for those students with an interest in Ag business. The students will participate in the College Conference on Cooperatives of a similar activity to learn about the history, organization and modern applications of the Cooperative structure.

AGRI2253 Grain Harvesting & Management
Prerequisite: AGRI1131.
Methods of cereal grain crop storage. Maintenance of grain quality in farm and agribusiness storage facilities. Operation and adjustment of grain drying and handling equipment.

AGRI2254 Advanced Swine Production
Prerequisite: AGRI1141.
Study of profitable swine production. Consolidates swine production, marketing, meat processing and sales to consumers of pork products.

AGRI2255 Advanced Sheep & Goat Production
Prerequisite: AGRI1141.
Study of profitable sheep production. Issues facing sheep producers and lamb feeders as a national industry working toward common goals.

AGRI2256 Advanced Beef Cattle Production
Prerequisite: AGRI2231.
Study of beef cattle and the interrelationship in the beef production chain.

AGRI2258 Livestock Ultrasound Technology
Prerequisites: AGRI2231 and AGRI1257.
Principles and technology of the use of ultrasound and supporting computer analysis software as it pertains to livestock.

AGRI2265 Irrigation & Water Management
Prerequisite: AGRI1153.
Principles of irrigation, soil, water and plant relationships, and operation of irrigation equipment. Irrigation scheduling, chemigation, and management of water to prevent erosion and maintain surface and groundwater quality.

AGRI2267 Advanced Marketing
Prerequisite: AGRI1211.
Study and application of commodity marketing strategies in a market plan in conjunction with other market alternatives. Use of indicators through fundamental and technical analysis for pricing and timing to market ag commodities.

AGRI2279 Precision Technology
Prerequisite: AGRI1171 or permission.
Study of precision agriculture technology using hardware and software applications.

AGRI2280 Advanced Crops
Prerequisites: AGRI1131, AGRI1135, AGRI1153.
Study of crop production, including the major elements of growth and development, seed formation, fertilization, insect and disease control of crops grown on the high plains.

AGRI2282 Livestock Selection 4
Prerequisite: AGRI1257.
Introduction in methods of livestock evaluation and oral reasons, presentations including beef, swine, sheep, and horses. Includes fieldwork in selection.

AGRI2283 Livestock Selection 5
Prerequisite: AGRI1257.
Introduction in methods of livestock evaluation and oral reasons, presentations including beef, swine, sheep and horses. Includes fieldwork in selection.

AGRI2284 Livestock Selection 6
Prerequisite: AGRI1257.
Introduction in methods of livestock evaluation and oral reasons, presentations including beef, swine, sheep and horses. Includes fieldwork in selection.

AGRI2291 Agribusiness Sales
Prerequisite: Completed 60 credit hours or permission.
Exploration of agribusiness sales. Functions and role of sales representatives. Productive relationships between consumers and sales representatives.

AGRI2795 Special Topics - Cooperatives
Prerequisite: Permission of instructor.
This course is intended for those students with an interest in Ag business. The students will participate in the College Conference on Cooperatives of a similar activity to learn about the history, organization and modern applications of the Cooperative structure.

AGRI2901 Agribusiness Cooperative Experience
Prerequisite: Must have completed AGRI2204 or instructor permission.
Instructor supervised on-the-job training to gain experience in an agribusiness occupation. Apply skills and principles learned and acquire additional skills for growth and advancement.

AGRI2999 Individual Special Project
Prerequisite: AGRI2204 or instructor permission.
Selected educational experiences that provide intensive study in a topic area above and beyond the regular curriculum. Credit hours will vary. Must have permission of instructor and program chair.

AGST • Diesel-Ag Equipment Service Tech

AGST1120 Basic Electrical / Electronics
Prerequisites: AGST1121 and AGST1123.
Basic principles and applications of electronic circuits, magnetism, electromagnetism, and the safe use of a Digital Multi-meter when measuring Volts, Amperes, and Ohms. Circuit theory exercises with basic math skills will be used to understand Ohm’s Law for Series, Parallel, and Series Parallel circuits. The Design, Construction, safe operation and testing of Lead Acid Storage Batteries.

AGST1121 Electrical / Electronic Circuit Diagnostics
Prerequisites: AGST1120
Basic principles and applications of the safe operation and testing of Cranking, Lighting, and Accessory Circuits and Components. Emphasis is placed on OEM Diagnostic Tools and On-Board Diagnostic procedures used for identifying and repairing faults with CAN BUS Controllers, Sensors, Actuators, Wiring, and Connections in a manner which is safe for the technician and the equipment.

AGST1122 Electrical Charging Systems
Prerequisites: AGST1120
Basic principles of operation and safe procedures for testing and repair of electrical charging circuits. Emphasis will be placed on the diagnosis, testing, and repair of alternators, wiring, connections, gauges, sensors, and controls.

AGST1123 Shop Safety/Shop Tools
Prerequisites: AGST1123
General Shop Safety, Hazard Communication, and Forklift Operator Training with Certification. Learn how to safely clean and properly use power tools, hand tools and common measuring instruments used in the equipment repair shop.

AGST1124 Power Trains I
Prerequisites: AGST1123
Theory of power transmission from engine to drive wheels, power take off and auxiliary drives. Includes power train effects on engine output, levers, gears, chains, clutches, transmissions, final drives, drive lines, differentials. Procedures for safe disassembly, inspection, adjustment, and reassembly of standard mechanical shift transmissions and differentials will be practiced in the Laboratory.

AGST1125 Theory of Agricultural Equipment Engine Fuel Systems
Prerequisites: AGST1121 and AGST1123
Theory of operation, construction, safe testing and repair of Diesel Engine Fuel Systems and Air Induction and Exhaust Systems, valve timing and injection timing. Physical and Chemical properties of distillate fuels as well as alternative fuels used in current internal combustion engines. Safe procedures for storage, use and testing of Diesel fuels.

AGST1126 Theory of Engine Operation
Prerequisites: AGST1125
Theory of operation, design and construction of four stroke cycle engines. Safe and proper operation of engine test equipment; including Dynamometer setup and operation, Cylinder compression, cylinder balance and cylinder leakage testing. Theory of operation, design, construction and safe procedures for repair and maintenance of cooling systems for Ag equipment engines.

AGST1128 Valve Trains
Prerequisites: AGST1126
Theory of operation, design and construction of engine valve trains. Safe and proper use of valve train service tools for disassembly, inspecting, measuring, reconditioning, and adjusting diesel engine cylinder heads and valve operating mechanisms.

**Course Descriptions**

**AGST1230 Diesel Engine Overhaul and Inspection**
Complete out-of-frame Diesel Engine overhaul to include the safe and proper use of service methods for disassembly, inspection, measuring, reconditioning, reassembly, adjusting, and performance testing of AG Equipment Diesel engines.

**AGST1342 Heating, Ventilation & Air Conditioning I**
- Prerequisites: AGST1123
- Heating, ventilation, and air conditioning fundamentals, safety and service procedures. Diagnosing, system evaluation, repairing, reclaiming, evacuating, and recharging are exercises in the lab. Certification for handling refrigerant is required as part of this course. The student will be responsible for a fee to receive the certification.

**AGST1344 Ag Equipment Fuel Systems**
- Prerequisites: AGST1125.
- Theory and design of diesel fuel injection including fuels, pumps, nozzles, governors, fuel flow, filtering, handling and storage. Diagnostics, testing, repair of pumps and nozzles, and common rail (hydraulic) and electronic operated systems. Fundamentals of safety while servicing and repairing fuel systems is emphasized.

**AGST1901 Ag Equipment Cooperative Experience**
- Prerequisites: AGST1346
- On-the-job experience with the student’s sponsoring Cooperative Experience employer. Application of skills and concepts learned in previous quarters. Safety is emphasized throughout the work experience. Supervised by Southeast Community College-Milford Campus AG Equipment Service Tech Instructors.

**AGST2554 AG Equipment Electricity**
- Prerequisites: AGST1901
- Review of electrical fundamentals and introduction to basic electronics plus procedures and use of digital multimeter in electrical circuits. An introduction to combine and tractor electrical systems is included as well as troubleshooting techniques for circuit diagnosis using electrical schematics. Function, operation, and testing of semiconductors and transistors. Microprocessor operation, including inputs and outputs. Can BUS theory of operation and testing is included. Testing of tractor circuits including lighting, accessory, safety, instrumentation and gauges is included in the lab exercises.

**AGST2556 AG Equipment Power Trains**
- Prerequisites: AGST1124
- Advanced study of power trains. Safety, theory, design, construction, diagnosis, repair, and testing of farm equipment power trains, particularly those transmissions classified as ‘on-the-go’ shift types. AG equipment CVT/IVT systems included. Lab projects are accepted.

**AGST2662 Planting, Seeding, Precision Guidance & Control Systems**
- Prerequisites: AGST2534, AGST2536, & AGST2558
- Theory, design, principles of operation, setup, adjustments, diagnostics and repair of row-crop planting and seeding equipment. Theory, testing and repair of precision guidance and electronic monitoring and control systems. Safety as related to planting and seeding equipment is applied.

**AGST2663 Harvesting, Precision Guidance and Control Systems**
- Prerequisites: AGST2534, AGST2536, & AGST2558
- Theory, design, principles of operation, setup adjustment diagnostics, and repair of hay and forage harvesting equipment. Theory, design, principles of operation, diagnostics and repair of combine, headers, and attachments. Safety and safe operation while servicing equipment is emphasized.

**AGST2664 Spraying Equipment, Precision Guidance & Control Systems**
- Prerequisites: AGST2554, AGST2556, & AGST2558
- Spraying equipment safety, theory, design, principles of operation, set-up, operation, calibration, troubleshooting and repair is included. Precision guidance and control systems are included.

**AGST2901 AG Equipment Cooperative Experience**
- Prerequisites: AGST2662, AGST2663, & AGST2664
- On-the-job experience with the student’s sponsoring Cooperative Experience employer. Application of skills and concepts learned in previous quarters. Safety is emphasized throughout the work experience. Supervised by Southeast Community College-Milford Campus AG Equipment Service Tech Instructors.

**ANTH • Anthropology**

**ANTH1020 Introduction to Cultural Anthropology**
Intro to the general topics and theoretical perspectives of cultural anthropology including ethnology, linguistics, applied anthropology, ethnicity, race, political organization, gender, kinship and descent, marriage, and religion.

**ANTH1120 General Anthropology**
A survey of the study of the races, their characteristics, customs, social relationships and work; the cultural and linguistic diversity of living people.

**ARCH • Architectural-Engineering Technology**

**ARCH1103 Materials of Construction**
Fundamental aspects of modern construction materials. Manufacturing, sizes, and application of materials.

**ARCH1107 Heating & Air Conditioning Systems I**
Methods of calculating heat loss and heat gain for residential buildings according to ACCA Manual J.

**ARCH1115 Light Construction Principles**
- Corequisite: ARCH1158
- Fundamentals of light construction on wood frame and masonry structures. Theory of architectural drafting with emphasis on lettering, line work and the procedures related to producing architectural working drawings.

**ARCH1150 Computer Aided Drafting I (CAD)**
- Corequisite: ARCH1115
- Instruction on computer operating system. AutoCAD menus, AutoCAD settings and drawing set up. Draw and Edit commands, AutoCAD coordinate systems.

**ARCH1158 Basic Architectural Drafting**
- Corequisite: ARCH1115
- Techniques and fundamental skills of architectural drafting. Lettering, line work and basic technical drawing. Schedules, details, framing drawings and construction assembly methods used by drafters.

**ARCH1208 Heating & Air Conditioning Systems II**
Methods of sizing residential duct work systems according to ACCA Manual D. Equipment selection is also covered.

**ARCH1210 Elementary Structural Design**
- Prerequisite: MATH1080
- Basic structural design. Study of mathematics and trigonometry used in determining strength of materials. Wood, concrete, and steel reactions to varying loads.

**ARCH1224 Plumbing Systems Drafting**
- Prerequisites: ARCH1158 and MATH1100.
- Production of drawings of waste, vent and water piping systems that are acceptable to industry standards.

**ARCH1225 Plumbing Systems Theory**
- Prerequisites: ARCH1158 and MATH1100.
- Methods of design, layout and sizing of waste, vent, and water piping systems as required on commercial building projects.

ARTS1120 Beginning Drawing II 
Prerequisite: ARTS1110.
Continuation of Beginning Drawing I with an emphasis on advanced studio problems, techniques, materials, and creative solutions.

ARTS1210 2-Dimensional Design
Introduction to the principles of design and composition. Skills, techniques and basic ideas necessary to artistic planning. Development of sensitivity and creativity.

ARTS1220 3-Dimensional Design
This is a foundation course in three-dimensional design. We will explore problems that help develop understanding of and sensitivity to the use of three-dimensional design fundamentals. Additionally, we will focus on the analysis of concepts as a basis for sculpture, ceramics, architecture, and industrial design.

ARTS1330 Beginning Ceramics I
Introduction to the construction of pottery and sculptural clay forms. Hand building, wheel-throwing, and glaze application.

ARTS1340 Beginning Ceramics II
Prerequisite: ARTS1330.
Continuation of Beginning Ceramics I with an emphasis on advanced studio problems, techniques, materials and creative solutions.

ARTS2510 Beginning Painting I
Prerequisite: ARTS2510.

ARTS2520 Beginning Painting II
Prerequisite: ARTS2510.
Continuation of ARTS2510. Emphasis on advanced studio problems, materials, techniques, and creative solutions.

ARTS2650 Introduction to Native American Art
Survey of Native American art of North America from prehistory to the present, emphasizing the art of indigenous peoples as a fine art form. History, cultural environment, special issues, art methods and materials.

ARTS2750 Women In Art
Survey of the lives and achievements of women artists from prehistory to the present in Europe and America. History, cultural environment, and special issues will be covered.

ARTS2799 Special Topics in Art
The purpose of this class is to explore a specific topic in studio art in greater detail, to provide students with a deeper understanding and appreciation of a given medium.

ARTS2804 Arts Practicum
Prerequisite: ARTS2510.
Under a cooperative experience, students will earn credit by working a minimum of 30-45 hours per quarter in conjunction with staff at an art gallery and/or museum. This practical experience will include, but not be limited to, the selection process, sales, installation, and promotion.

ARTS2850 History of Photography
An introduction to the history of photography, with special attention paid to its many applications, interpretations, meanings, and values as a visual medium.

ARTS2999 Individual Special Topics in Art
The purpose of this class is to explore a specific topic in studio art in greater detail, to provide individual students with a deeper understanding and appreciation of a given medium.

ASEP • General Motors
Automotive Service Educational Program (ASEP)

ASEP1170 GM Shop Orientation & Safety
Introduction to automotive shop procedures, shop safety. Proper use service manuals and service information. Thread repair, tube flaring and fasteners.

ASEP1173 GM Fundamentals
Introduction to warranty flat rate manuals, daily time ticket, vehicle identification numbers and repair order completion. Proper use of hand tools, power tools and other equipment used by the automotive technician.

ASEP1175 GM Electrical & Electronic Principles
Specialized Electronics Training Part 1. Principles and concepts of GM electrical systems. Study of operation and testing of batteries, charging and starting systems, ignition systems principles, body wiring and components for power windows, seats and doorlocks, windshield wipers, cruise control and theft deterrent systems.

ASEP1177 GM Brake Systems
Theory, diagnosis, and repair procedures of disc and drum brake systems on current General Motors vehicles.

ASEP1360 GM Powertrain Electronic Systems
Specialized Electronics Training, Part 2. Operation of solid state automotive electrical components. Study of operation of basic computer operation, input and output devices. Also GM ignition systems, fuel delivery systems, emission control systems and diagnostic routines.

ASEP1363 GM Engine Repair
Prerequisite: ASEP1901.
Operation and construction of General Motors gas and diesel engines. Techniques and skills for testing and diagnosis of engine mechanical condition, cylinder head reconditioning, complete disassembly, inspection, measurement and reassembly of GM gas and diesel engines. Accuracy of measurements, repair decisions and procedures involving correct and safe engine removal and installation.

ASEP1379 GM Heating & Air Conditioning
Prerequisite: ASEP1901.
Study of theory, operation, diagnosis and repair of late model GM air conditioning, heating and ventilation systems. Includes manual and automatic systems. Refrigerant recovery and recycling procedures.

ASEP1901 Dealer Cooperative Experience
Prerequisites: ASEP1170, ASEP1173, ASEP1175, & ASEP1177.
Coordinated work experience from General Motors dealer in accordance with program schedule. Work experience supervised by Southeast Community College-Milford and ASEP coordinator.

ASEP1902 Dealer Cooperative Experience
Prerequisites: ASEP1360, ASEP1363, and ASEP1379.
Coordinated work experience from General Motors dealer in accordance with program schedule. Work experience supervised by Southeast Community College-Milford and ASEP coordinator.

ASEP2528 GM Steering & Suspension Systems
Prerequisite: ASEP1902.
Principles of operations, disassembly procedures, and repair of General Motors steering and suspension systems. Power and manually controlled Integral and Rack and Pinion steering gears. Conventional and McPhearson Strut suspensions. Techniques and procedures for four wheel alignment and computer wheel balancing, both on and off the vehicle.

ASEP2529 GM Manual Transmission, Transaxles, Clutch & Transfer Case
Prerequisite: ASEP1902.
Operating principles and service of General Motors manual transmissions and related drive train components. Diagnosis and repair procedures.

ASEP2537 GM Rear Axle Service
Prerequisite: ASEP1902.
Operation, diagnosis, and repair of drive shafts, universal joint axles, axle bearings, seals, and differentials used on late model General Motors vehicles.

ASEP2538 GM Advanced Powertrain Electronic Systems
Prerequisite: ASEP1902.
Advanced study of GM ignition systems, fuel delivery systems, emission control systems and diagnostic routines.

ASEP2561 GM Diesel Fuel & Emission Control System
Prerequisite: ASEP1902.

ASEP2743 GM Powertrain Electronic Systems & Drivability Diagnosis
Prerequisite: ASEP2901.
Diagnosis, adjustments and repair procedures using electrical meters, oscilloscopes and GM approved diagnostic test equipment.

### Course Descriptions

**AUTB1160 Welding Theory**  
M 20 - 2  
Study of welding processes used in the auto collision repair industry including oxyacetylene fusion welding, brazing, G.M.A.W., aluminum processes, plasma arc cutting and resistance spot welding. Safety factors and equipment selection, application of the theory of expansion and contraction, and the effects of distortion and its control. Heavy emphasis on the MIG welding and structural spot welding used in structural unibody and non-structural panel replacement because of the heavy use of high strength steels used in the modern automobile following I-CAR (Inter-Industry Conference on Auto Collision Repair) welding certification standards.

**Prerequisites:** AUTB1155.

**AUTB1165 Collision Repair Lab**  
M - 105 3.5  
Practice in basic metal repair fundamentals as it relates to the repair of non-structural automobile body panels. Repair on non-structural automobile body panels is done to replicate real world repairs. Automobile body panel alignment on vehicles to ensure quality repairs required according to collision repair industry standards.

**Prerequisites:** AUTB1160.

**AUTB1170 Welding Lab**  
M - 30 1  
Practical experience in oxyacetylene welding, brazing, MIG welding, aluminum welding, gas and plasma cutting techniques used in collision repair following I-CAR (Inter-Industry Conference on Auto Collision Repair) welding qualification standards.

**AUTB1175 Paint Finishes Theory**  
M 20 - 2  
Study of the sequence of surface preparation operations needed to acquire a durable, high quality, long lasting topcoat. Paint gun care, troubleshooting and proper usage in applying primer surfacer.

**AutT1002 Engine Theory and Inspection**  
L/M 45 35 5.5  
The study of equipment, preparation, materials, topcoat selection, and application to an overall painting operation will be emphasized. Techniques of spot painting repairs to include color matching and application.

**Prerequisites:** AUTB1155 – AUTB1260.

**AUTB1250 Collision Repair Theory II**  
M 45 - 4.5  
Application of replacing parts, use of materials, and operating hydraulic external pump equipment. Identification and repair procedures for composites and plastics using the latest repair procedures currently used in the collision repair industry.

**Prerequisites:** AUTB1150 through AUTB1175.

**AUTB1255 Collision Repair Lab II**  
M - 210 7  
Projects will be assigned to students that will include basic metal repair, plastic repair, composite repair, as well as corrosion protection and priming operations with care of vehicle to be taken to ensure customer satisfaction.

**Prerequisites:** AUTB1150 through AUTB1175.

**AUTB1260 Electrical Repair I**  
M 15 - 1.5  
Theory of the automobile electrical storage and wiring system. Wiring troubleshooting processes and automobile lighting.

**Prerequisites:** AUTB1150 – AUTB1175.

**AUTB1350 Paint Finishes Theory II**  
M 30 - 3  
The study of equipment, preparation, materials, topcoat selection, and application to an overall painting operation will be emphasized. Techniques of spot painting repairs to include color matching and application.

**Prerequisites:** AUTB1150 – AUTB1260.

**AUTB1355 Estimating Theory**  
M 15 - 1.5  
Estimating principles and procedures of cost accounting. Emphasis is based on present day business practices and operations of the automobile collision repair field.

**Prerequisites:** AUTB1150 – AUTB1260.

**AUTB1360 Electrical Repair II**  
M 15 - 1.5  
Introduction to proper usage of diagnostic procedures including flow charts, wiring diagrams, scan tools, digital and analog multimeters. This will include identification of programmable electrical, electronic components, including servicing precautions of body electronic and body computers.

**Prerequisites:** AUTB1150 – AUTB1260.

**AUTB1365 Refinishing Lab I**  
M - 165 5.5  
Lab experience will include analyzing condition and type of existing finish and determining the sequence of preparation for a high quality, durable finish. The proper use of various refinishing systems and clear top-coatings to perform overall and spot painting tasks will be covered.

**Prerequisites:** AUTB1150 – AUTB1260.

**AUTB1370 Collision Repair Lab III**  
M - 45 1.5  
Practical on the job experiences in the proper repair of sheet metal damages on current model vehicles. Some weld-on and bolt-on panel replacement will be included.

**Prerequisites:** AUTB1150 – AUTB1260.

**AUTB1450 Structural Repair Theory**  
M 30 - 3  
Prerequisites: AUTB1150–AUTB1365. This course will cover the study of conventional frame and unitized body construction, body alignment, steering components and how it relates to frame and unitized body construction of modern day vehicles. The proper identification of structural damages and measurement techniques will be covered. Methods of repair and operation of equipment, safety is stressed at all times.

**AUTB1455 Safety Restraint Systems**  
M 15 - 1.5  
Prerequisites: AUTB1150–AUTB1365. Introduction to active and passive restraint systems, operation and basic troubleshooting of restraint systems including air bag supplemental restraint systems.

**AUTB1460 Collision Repair Lab IV**  
M - 105 3.5  
Assigned training projects will include following repair estimates being evaluated by the quality of work and the time taken to complete assigned training projects.

**AUTB1465 Refinishing Lab II**  
M - 120 4  
Prerequisites: AUTB1350, AUTB1365, and AUTB1370. Advanced practical experiences in spot painting with the concentration on correct color matching and problem solving.

**AUTB2550 Suspension & Alignment Theory**  
M 20 - 2  
Prerequisites: AUTB1150–AUTB1465. Evolution and theory of front and rear suspension design. Transaxle and four wheel alignment and its relationship to collision damaged vehicles.

**AUTB2555 Automotive Heating & Air Conditioning**  
M 10 - 1  
Prerequisites: AUTB1150–AUTB1465. Operation of the automotive cooling system and theory of air conditioning systems, and the repair of damaged components after a collision. Refrigerant recovery and recycling is covered.

**AUTB2560 Brake Systems**  
M 15 - 1.5  
Prerequisites: AUTB1150–AUTB1465. Introduction to drum, disc, manual, power-assisted braking systems, theory and operation of the anti-lock brake systems.

**AUTB2565 Collision Repair Lab V**  
M - 225 7.5  
Prerequisites: AUTB1150–AUTB1465. Laboratory on collision repair with comprehensive practice in problem solving in structural analysis and repair of collision damaged vehicles. Estimating, structural alignment, major body repair, panel replacement, refinishing, glass installation, wheel alignment, mechanical and electrical repairs on a production basis.

**AUTB2650 Collision Repair Lab VI**  
M 15 255 10  
Prerequisites: AUTB1150–AUTB2565. Practice in major structural repair operations including body, frame, unitized construction, major panel replacement, mechanical repairs, electrical repairs, paint refinishing, suspension alignment, all of which is based on a production basis following damage reports as used in the collision repair industry. Repairs to vehicles including analysis, through all processes including detailing prior to delivery of the vehicle and will also include delivery to the customer.

### AUTT • Automotive Technology

**AUTT1000 Shop Procedures**  
L/M 20 - 2  
Introduction to automotive shop procedures and repair. This course deals with the many basic elements of automotive repair and the proper use of hand and power tools.

**AUTT1001 Shop Procedures /Safety**  
L 45 35 5.5  
Prerequisite: High school students only. Proper use and care of hand and power tools. Safety practices and procedures. Use of precision measuring instruments.

**AUTT1002 Engine Theory and Inspection**  
L 45 35 5.5  
Prerequisite: High school students only. AUTT1001. Basic construction, physical principles and operation of two- and four-cycle engines as applied to single and multiple-cylinder engines. Ignition systems, fuel system, lubrication systems, cooling systems and valve trains are covered.
### AUTT1003 Small Engines
This course covers all aspects of the small gas engine including: safety, hand tools, electrical, fuel system, engines. The class also covers small engine overhaul and preventive maintenance. Available only to Skilled and Technical Sciences Teaching Options or current UNL Students or by permission of the Dean.

### AUTT1100 Shop Safety and Repair
This course deals with shop safety, OSHA hazard communication standards/hazard chemical right-to-know. Thread repair, tube flaring, fasteners, micrometers and other equipment used by the professional automotive technician.

### AUTT1103 Drive Trains
Theory and principle of power train operation from the engine to the drive wheels on automotive systems.

### AUTT1106 Electrical Concepts
Basic electrical and electronic principles, Ohm’s law, magnetism and electromagnetism as applied to automotive systems are covered. The use of DVOM meters along with the practical use of them is covered. The design of storage batteries used in automotive systems is covered.

### AUTT1107 HVAC I
Theory and operation of automotive HVAC systems is covered including diagnosis and repair of all manual heating and air conditioning systems.

### AUTT1108 Automotive Fuel and Control Systems
Theory, design and operation of the automotive fuel system are covered. This includes fuel gauges, tanks, pumps and fuel injection components. A study of fuel manufacturing, testing, and fuel reaction as it applies to emission systems is covered. The use of service equipment to diagnose, evaluate and repair components of the fuel system are covered.

### AUTT1200 Informational Systems
Introduction to automotive electronic informational systems.

### AUTT1202 Steering & Suspension Theory
Theory of automotive steering and suspension components, wheels and tires, balancing and wheel alignment. Class includes active suspension and tire pressure monitor systems.

### AUTT1203 Manual Transmission/Transaxle Theory
Theory, diagnosis, evaluation and repair of manual transmissions, clutches, drive lines, transfer cases and 4WD components.

### AUTT1205 Brake Systems Theory
Theory of automotive disc and drum brake systems including anti-lock, traction and stability control applications.

### AUTT1206 Automotive Electricity
Starting and charging systems theory, design and operation are covered. Starting and charging systems diagnosis and repair are also covered.

### AUTT1207 HVAC II
Advanced theory, operation, and diagnosis of the HVAC systems including automatic HVAC system diagnostics and repair.

### AUTT1212 Steering & suspension Lab
Diagnosis and practical experience of automotive steering and suspension applications. This class includes the replacement of suspension components and 4-wheel alignment.

### AUTT1215 Brake Lab
Diagnosis and practical experience of automotive brake system applications. This class includes diagnosis and repair of brake systems, R & R of brake pads and shoes and the proper method of bleeding of standard and anti-lock brake systems.

### AUTT1221 Engine Theory
Basic construction, physical principles and operation of two and four cycle engines as applied to single and multiple-cylinder engines. Ignition systems, fuel system, lubrication systems, cooling systems and valve trains are covered.

### AUTT1222 Engine II
Advanced automotive engine coursework on removal, disassembly, and machining operations for complete major engine overhaul.

### AUTT1306 Automotive Ignition Systems
Theory, operation and testing of automotive ignition systems is covered. This will include individual component testing, inspection and repair with the use of DVOM meters.

### AUTT1406 Automotive Electronics I
This course is an advanced auto electronics course covering the automotive wiring and accessories. Emphasis is placed on procedures, testing, diagnosing and repairing automotive systems.

### AUTT1408 Advanced Engine Performance
Advanced engine performance includes fuel injection systems, ignition systems and vehicle driveability. Practical experience is gained through the inspection, service and repair of computer engine control systems using state-of-the-art equipment.

### AUTT1506 Automotive Electronics II
Advanced interpretation and use of wiring diagrams, electronic component testing and repair. The use of advanced test equipment is covered.

### AUTT1712 Introduction to Hybrid Vehicles
Theory, operation and basic servicing of automotive hybrid vehicles is covered. Students will learn the functions of basic components and the safety precautions required to work on this technology.

### AUTT2102 Automatic Transmission/Transaxle
Theory of operation, basic design, components, disassembly diagnosis and reassembly of automatic transmissions/transaxles is covered. Disassembly, reassembly and dyno-testing of transmissions / transaxes.

### AUTT2303 Manual Transmission/Transaxle Lab
Diagnosis, evaluation and repair of manual transmissions/transaxles, rear axles, transfer cases, drive lines and front axles.

### BIOS • Bioscience

#### BIOS1000 Structure and Function of the Human Body
Overview of the normal structure and function of the human body systems and their interrelationships. No lab.

#### BIOS1010 General Biology
Investigates the fundamental processes of cells and organisms, cell structure, genetics, evolution, classification of life, biodiversity, and interactions of organisms at the molecular, cellular, organismic, ecosystem, and biosphere level. Designed for both non-majors and as a foundation for those planning additional work in biology. The general biology laboratory portion of this course incorporates an interactive approach which allows students to conduct experiments and observe processes which will complement lecture subject material. Lab is required concurrently.

#### BIOS1010 Environmental Biology
Environmental Biology is in essence a study of human ecology. It provides the student with an understanding of the earth’s living and non-living resources and the effects that an ever-increasing human population has imposed on the planet by exploiting those resources. The course will also incorporate the role that humans play in uncovering solutions to environmental problems. This course integrates biological sciences such as biology and ecology with socio-economic fields of study such as sociology, political science, philosophy, ethics, and economics. No lab class is offered or required for this course.

#### BIOS1090 General Botany
Survey of the plant kingdom with a study of representative plants from each of the major plant groups. Structure, relationships, economic importance and natural history of major plant groups. Lab is required concurrently.

#### BIOS1110 Biology of Microorganisms
Comparative study of microorganisms, principles and applications. Structure, function, development and control of pathogenic organisms. Laboratory includes isolation, culturing and staining techniques plus identification of unknown organisms. Lab is required concurrently.

#### BIOS1120 Introduction to Zoology
Provides a survey of the animal kingdom. There is an emphasis on animal form and function, taxonomy, developmental biology, and the diversity of animal life. Laboratory exercises include observations and dissections of selected specimens. Lab is required concurrently.

#### BIOS1140 Human Anatomy & Lab
Study and identification of anatomical structures of the human body. Includes a detailed study of: tissues that make up the various body systems, integument, skeletal structures, joints, muscles (origin, insertion, action), peripheral and cranial nerves, brain structures, major blood vessels, heart structures, respiratory, digestive, reproductive, endocrine, and urinary systems. Lab complements the material presented in lecture. Utilize the knowledge in a laboratory setting by studying with a “hands-on” approach using models, dissected tissues, and pictures. Lecture concurrent with lab.
**COURSE DESCRIPTIONS**

**BSAD • Business Administration**

### BIOS1210 Human Anatomy & Physiology I
- B 45 30 6
- Introduction to anatomy and physiology for students in biological medical and health related programs. Relationships between structure and function. Chemical, cellular and tissue levels of organization. Introduction to principal systems of the human body. Structure and function of the integumentary skeletal, muscular and nervous systems of the body. Important physiology experiments and structural identification experiments. Lab is included in the class.

### BIOS1220 Human Anatomy & Physiology II
- B 45 30 6
- Continuation of the study of BIOS1210. Relationships between structure and function. Detailed study of the major systems of the human body including cardiovascular, respiratory, digestive, urinary, reproductive, endocrine and lymphatic systems. Special senses, immunity, fluid, electrolyte and acid-base dynamics. Important physiology experiments and structural identification experiments. Lab is included in the class.

### BIOS2130 Human Physiology & Lab
- L 45 30 6
- Study of the functions of the various human body systems including the study of cells, chemical reactions in the body (metabolism), bone growth, muscle contraction, digestive processes, functions of various blood components, nerve impulses, urinalysis, endocrinology, reproduction, and immunology. Lab complements the material presented in lecture. Utilize the knowledge in a laboratory setting by studying with a “hands-on” approach using a variety of instruments that are required in hospital settings. Lab concurrent with lecture.

### BSAD2410 General Genetics
- B/L 45 30 6
- Prerequisites: 1000 level Biology course and one year of high school algebra or instructor permission.

**BSAD1010 Microsoft Applications I**
- B/L/M 45 - 4.5
- Prerequisite: Keyboarding skills and prior computer experience recommended.

**BSAD1020 Microsoft Applications II**
- B/L/M 45 - 4.5
- Prerequisite: BSAD1010.

**BSAD1050 Introduction to Business**
- B/L 45 - 4.5
- An introductory study and overview of the role of business in society as well as a discussion of the various disciplines of business including an overview of business organization, management, marketing, human resource management, and finance. Also, a study and discussion of various strategies for success of specific public and private firms as well as small business. Business vocabulary used to understand and interpret business news and information.

**BSAD1070 Customer Service**
- B/L 45 - 4.5
- Students will learn the skills necessary to build and maintain good relationships with internal and external customers and the role the customer service team plays in developing, evaluating, and improving customer service systems. The course will cover basic customer service principles of assessing customer expectations and satisfaction and providing quality service. Problem-solving, challenges of customer service, communication, and customer retention will be covered.

**BSAD1090 Business Law I**
- B/L 45 - 4.5
- Prerequisite: ENGL1010

### BSAD1100 Business Law II
- B/L/M 45 - 4.5
- Prerequisite: BSAD1090

**BSAD1220 Visual Merchandising and Promotion**
- L 45 - 4.5
- Focus on using visual elements and design for marketing purposes. Application of design principles in window displays, logos and signage, point-of-purchase displays, special events, and other visual promotions. Course includes hands-on construction of window displays, store layout and design planning, individualized visual marketing projects, and field experience.

### BSAD1730 Quality Management
- M 25 - 2.5
- Introductory course covering current workplace issues, the rationale for a continuous improvement process, the use of problem-solving tools to make decisions and report data, and the development of leadership and team building skills.

### BSAD2270 Professional Selling
- B/L/M 45 - 4.5
- Development of selling principles and concepts used in a wide variety of selling situations including specialty, wholesale and retail. Necessary personality traits, ethics, and negotiation techniques required for successful selling are stressed and applied through the use of sales presentations and demonstrations.

### BSAD2310 Business Ethics
- B/L/M 45 - 4.5
- Prerequisite: Writing/English Competency recommended.

**BSAD2345 Introduction to Business**
- L 200 - 5
- This course provides students with hands-on experience in leadership, managerial decision-making, and professional communication including project management, team building, training and development, cultural competencies and social responsibility. Students will learn to plan, forecast, organize events and resources, lead, delegate, and motivate others. It is an interactive course that integrates all aspects of formal business education and training through service learning in collaboration with the international student organization, Students in Free Enterprise (SIFE). Students will be required to take a significant leadership role in SIFE and contribute to the annual written report and visual presentation for SIFE competition as part of this upper division credit class.

### BSAD2370 Human Resources Management
- B/L/M 45 - 4.5
- Study the functions of Human Resources: recruiting, selection, assessment, training, development, compensation, benefits and safety. Emphasis placed on planning, communications, leadership, and the regulatory environment.

### BSAD2390 Small Business Management
- B/L/M 45 - 4.5
- Prerequisites: ACCT1210.

### BSAD2400 Principles of Retailing
- B/L 45 - 4.5
- Introduction to retailing principles in major retail areas. Policies and practices, marketing and business systems of small and large retailers are studied.

**BSAD2430 Marketing Communications**
- B/L/M 45 - 4.5
- Focus on planning for the optimal use of all communication elements: advertising, personal selling, sales promotions, public relations. Combination of these elements must be tightly interwoven for successful management of brand equity, coordinating all aspects to achieve the same goals.

**BSAD2460 Electronic Commerce Marketing**
- B/L/M 45 - 4.5
- Application and management techniques in utilizing electronic commerce in the workplace. Strategies for businesses that may initiate or reassign the overall effectiveness and value of the digital elements of doing business to their overall corporate goals. Ethical and societal implications of e-commerce on the marketplace, customer base and employee commitment.

**BSAD2470 International Marketing**
- B/L/M 45 - 4.5
- Focus on theory and strategy involved in the effective development and implementation of marketing strategies in the global business arena. Emphasis on managerial aspects of import and export marketing and of US products and services relating to the following areas: demand, competition, economics, social-cultural, political-legal, and technology. Special attention placed on the following details: culture, consumer behavior, distribution and trade agreements.

## CHEM • Chemistry

**CHEM0950 Pre-Chemistry**  
Summer session. Designed for student who does not have background necessary for success in college chemistry. Formula writing, naming compounds, balancing equations, chemical computations. Does not fulfill science requirement for A.A. or A.S. degree.

**CHEM1050 Chemistry and the Citizen**  
Prerequisite: MATH1100. Designed for the non-science major. Survey of principles of chemistry, stressing concepts and qualitative understanding along with problem solving and technical skills. This course not only introduces inorganic chemistry but also includes an introduction to organic chemistry and biochemistry. Lab must be taken concurrently.

**CHEM1090 General Chemistry I**  
Prerequisite: MATH1100. Introduction to the principles of chemistry. States of matter, atomic and molecular structures and bonding, Periodic Law, gas laws, and kinetic molecular theory, solutions and their properties.

**CHEM1100 General Chemistry II**  
Prerequisite: CHEM1090 with a grade of “C” or higher. A continuation of CHEM1090. Topics include the nature of solutions, chemical equilibrium, chemical kinetics, acids and bases, solubility product, qualitative analyses of ions, oxidation and reduction, and electrochemistry.

**CHEM2510 Organic Chemistry I**  
Prerequisite: CHEM1100. The chemistry of compounds of carbon, hydrogen, oxygen and other elements. Alkanes; alkenes, petroleum products; alcohol; ethers; acids, fats, and oils; aldehydes and ketones; amino acids and proteins; carbohydrates; and applications to biochemistry.

**CHEM2520 Organic Chemistry II**  
Prerequisite: CHEM2510. Continuation of CHEM2510. Benzene and related compounds, nitro compounds, sulfonic acids, amines, diazonium compounds, phenols, alcohol, acids, dyes, stains and indicators, heterocyclic compounds and applications to biochemistry.

**Note**: Computer Aided Design Drafting— see DRAFT  
Computer Information Technology & Computer Programming— see INFO

## CNST • Building Construction Technology

**CNST1121 Concrete & Masonry Tools & Material**  
Prerequisite: MATH1040. Theory designed to acquaint the student with materials and techniques for planning, estimating and constructing masonry and concrete structures including foundations. Demonstrations, videos, and clinics emphasizing the best practices in concrete and form work.

**CNST1122 Concrete & Masonry Applications**  
Prerequisite: CNST1121. Laboratory application in proper use of concrete and masonry tools, materials. Experience in block and brick laying, fireplace construction, concrete forming, and reinforcing and finishing. Safety habits.

**CNST1222 Residential Blueprint Reading**  
Prerequisite: MATH1040. Introduction to blueprint reading, residential drawings, reproduction processes of drawings, scale reading, terms, abbreviations, symbols and basic sketching. Estimating procedures for some aspects of construction are covered. The course emphasizes layout and design of a basic residential floor plan with reading specifications and understanding of the International Dwelling Code Book. The student completes a preliminary floor plan with schedules to be utilized in CNST1326, Residential Construction Drafting Lab. Coincides with CNST1225, Tools and Materials.

**CNST1224 Construction Processes & Practices**  
Prerequisite: MATH1040. Introduction to hand tools, construction safety, machine woodworking, modern practices and processes used in the building construction industry. Carpentry techniques, competency in blueprint reading, proper layout practices, parts cutting and assembly procedures.

**CNST1225 Tools & Materials**  
Prerequisite: MATH1040 and CNST1223. Introduction to care, use and maintenance of hand tools, portable power and stationary lab equipment. New construction methods, materials and concepts. Origin, manufacturing processes, and characteristics and application of materials used in residential and light commercial construction today.

**CNST1300 Energy Construction**  
Prerequisite: CNST1100 and CNST1200. Analyze the systems, components, and theory related to the building science of a residential home. Demonstrate the weatherization and daily and seasonally maintenance for the home. Learn about the Key Components of a Green Home.

**CNST1326 Residential Construction Drafting Laboratory**  

**CNST1327 Residential Construction Drafting Theory**  
Prerequisite: CNST1223. Architectural drafting for beginners including drafting and detailing techniques and methods, lettering, standard symbols and drafting equipment. Concepts for door and window schedules. Floor plans, basement/foundation plan, stair calculations and construction details.

**CNST1328 Residential Construction Estimating Laboratory**  
Prerequisite: CNST1223 and BSAD1010. Application of skills acquired in CNST1329. Using standardized forms and information, student develops lists of construction materials and prices for residential construction. Emphasis on accuracy, organization, and completeness.

**CNST1329 Residential Construction Estimating Theory**  
Prerequisite: CNST1223. Concepts of estimating quantities of residential construction materials. Interpretation of residential construction drawings and an introduction to quantity survey techniques and formulas. Decision making and materials estimate organization.

**CNST1331 Commercial Construction Communications**  
Prerequisite: CNST1223. Fundamentals of commercial blueprint reading, contractor responsibilities, project specifications and an introduction to LEED construction practices.

**CNST1430 Cabinetry & Carpentry Laboratory**  
Prerequisites: CNST1223, CNST1224 and CNST1225. Companion course to CNST1432. Application of classroom instruction to job situations through the use of mock-up training aids, cabinets and other projects.

**CNST1433 Carpentry Theory**  
Prerequisites: CNST1225. Fundamentals of carpentry, emphasizing the process of home building through the study of blueprints and construction texts and references. Site layout, foundations, framing, roofing, exterior trim, interior trim and cabinet making. Prerequisite to house project in the fifth quarter.

**CNST2532 Residential Construction Applications**  
Prerequisites: CNST1430 and CNST1433. Application of theory and technical courses to practical situations including residential framing, exterior finish, interior trim, cabinet making, and roofing. Primary project is a frame residence which provides experiences in all aspects of framing through exterior and interior trim work. Includes short information briefing daily.

**CNST2537 Residential Construction Principles**  
Prerequisites: CNST1430 and CNST1433. Acceptable methods of home construction as established by federal, state and local building codes. Work procedures and practices for home construction. Includes daily briefing for the house construction.

<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course provides an overview of modern border and transportation security challenges, as well as different methods employed to address these challenges. The course covers a time period from post 9-11 to the present. The course explores topics associated with border security and security for transportation infrastructure, to include: seaports, ships, aircraft, airports, trains, train stations, trucks, highways, bridges, rail lines, pipelines, and buses. The course will include an exploration of technological solutions employed to enhance security of borders and transportation systems. Students will be required to discuss the legal, economic, political, and cultural concerns and impacts associated with transportation and border security. The course provides students with a knowledge level understanding of the variety of challenges inherent in transportation and border security.</td>
<td></td>

DENT • Dental Assisting

The clinical track portion of the program begins two times each year during the Fall and Spring quarters. The Fall Quarter intakes day and online students, and the Spring Quarter intakes only day students. In order to register for a dental assisting course (DENT), the advisor must sign the registration form first.

DENT1103 Oral Sciences I L 20 - 2
Prerequisite: Declared clinical track students only.
Understanding basic structures of anatomy and physiology of the human body, oral embryology and oral histology with emphasis on relating to dentistry.

DENT1110 Preclinical Concepts L 40 75 6.5
Introduction to the history of the profession of dental assisting, the legal and ethical responsibilities of the dental assistant in the practice of dental assisting, professional terminology, state and national regulations governing dentistry, education of the dental team, and the requirements for obtaining certification (CDA) through the Dental Assisting National Board, Inc. Basic skills learned in dental health care worker protocol, patient care, communication with diverse population, equipment and instrument identification, high velocity evacuation, four-handed instrument exchange, manipulation of temporary cement, and occupational exposure protocol techniques.

DENT1211 Dental Assisting Foundations I L 30 45 4.5
Continuation of basic skills, manipulation of specific types of dental materials, rubber dam placement, assembly of matrix retainers, basic treatment setups, techniques for control of disease-producing blood-borne pathogens, professional equipment (PPE), standard precautions, and hazard protection as required by OSHA guidelines for health care providers. Laboratory experiences in the UNMC College of Dentistry and at SCC Lincoln Campus.

DENT1212 Oral Hygiene L 20 30 3
Study methods and supplemental aids for the control of dental disease and demonstration of oral hygiene instructions to a patient. Coronol polish is taught to clinical competency level and pit and fissure sealants is taught to preclinical competency level.

DENT1214 Clinical Concepts L 30 20 3.5
Recognition and management of medical and dental emergencies, assisting with dental examination data gathering, oral pathology and overview of pharmacology and pain control.

DENT1311 Dental Assisting Foundations II L 30 30 4
Principles of the foundation of clinical dentistry are taught. Clinical and dental laboratory infection control practices (OSAP standards) with further development in specialized technical skills including special patient care practices.

DENT1312 Dental Materials I L 15 45 3
Introduction to physical properties, principles of manipulation and storage of materials, manipulation of specific types of dental materials, laboratory projects pertaining to diagnostic impressions, and casts on a manikin and human patient.

DENT1313 Oral Radiography I L 35 30 4.5
Extensive study in oral radiography including: legal and ethical responsibilities, recognizing a diagnostic quality radiograph, production of radiographs, biological effects of radiation, processing of films, patient education and management. Laboratory emphasis on DXTTR manikin.

DENT1314 Clinical Education I L 15 150 6.5
Clinical education is scheduled throughout quarters two, three and four. Under supervision, students will care for patients applying specialized technical skills and principles previously learned in the classroom and laboratory settings while in the dental clinical environment.

DENT1410 Practice Management Skills L 20 30 3
Principles of dental office procedures, resume writing, letter of application, and inventory control. The integration of a current dental software program is utilized throughout the entire course.

DENT1411 Dental Assisting Foundations III L 35 15 4
Principles and techniques associated with the specialties in dentistry.

DENT1412 Dental Materials II L 15 45 3
Continuation of Dental Materials I course with laboratory emphasis on human patient diagnostic impressions, casts and other specific laboratory projects.

DENT1413 Oral Radiography II L - 45 1.5
Laboratory projects including intra-oral panoramic radiographic exposure, intra-oral exposures using both traditional radiographs and digital imaging techniques. Emphasis placed on quality control, infection control practices and patient management.

DENT1414 Clinical Education II L 15 150 6.5
Adaptation to a variety of new clinical environments, with higher-level development of chairside and business office skills.

Please Note • Diesel Ag Equipment Service Tech — See AGST

DESL • Diesel Technology

DESL1201 Electrical Systems I-Truck M 23 18 2.5
Basic electrical and electronic principles and applications of magnetism, electromagnetism, and the practice of electrical measurements with analog and digital meters.

DESL1211 Batteries & Cranking Motors-Truck M 23 30 3
Prerequisite: DESL1201.
Purpose, theory, construction, operation, and testing of lead acid batteries. Theory of cranking motor operation and its application to modern cranking systems. Lab activities include component and circuit testing with analogue and digital meters. Review of conventional ignition systems.

DESL1221 Electronic Ignition & Charging Systems-Truck M 22 34 3
Prerequisite: DESL1201.
Theory, operation, and testing of electronic ignition systems. Theory of AC type charging systems and their application to modern vehicles. Lab work in charging system diagnosis, proper disassembly procedures, alternator component testing, reassembly, and complete system testing with results compared to specifications.

DESL1231 Power Trains I-Truck M 30 26 3.5
Prerequisite: DESL1261.
Theory of power transmission from engine to rear wheels. Engine measurements and performance, levers, gears, chains, clutches, transmissions, planetary gears, drive lines, differentials, rear axles, and disassembly, inspection, adjustments and reassembly of standard transmissions and differentials.

DESL1251 Theory of Engine Operation-Truck M 25 15 3
Prerequisites: DESL1261
Basic physical operation and construction of two and four stroke cycle, single, and multiple cylinder engines. Ignition timing of four stroke cycle engines to factory specifications balance, compression, and cylinder leakage tests; type of internal combustion engine cooling systems, components and coolants.

DESL1261 Hand & Precision Measuring Tools-Truck M 20 46 3.5
Proper use and care of power and hand tools. Micrometers, dial indicators, torque wrenches, twist drills, taps, dies, screw extractors, thread restoration, tube flaring, fittings, and fasteners. Students project utilizing hand tools and measuring instruments.
Study of fuel fundamentals, testing, octane and cetane numbers, additives, and how fuels react during compression and combustion in gasoline and diesel applications. The use of alternate fuels in gasoline and diesel engines including a discussion of the pros and cons. Theory, construction, and operation of fuel tanks, fuel gauges, fuel lift pumps, air and fuel filtering systems, fuel lines and intake/exhaust manifold systems. Includes theory, construction, and operation of heat exchangers. Theory, construction, operation, servicing, and troubleshooting of turbochargers is covered.

Basic theory, construction, and operation of engine valve trains. Valves, valve seats, camshafts, cam followers, valve springs, rocker arm assemblies, push rods, and related parts. Valve timing and adjustments will be judged for proficiency by actual engine operation. Basic procedure and operation of valve and seat reconditioning is performed and proficiency evaluated.

Design, construction, operation, and servicing of the following engine components: crankshaft, pistons, piston rings, connecting rods, and bearings. It also covers lubricants, lubrication systems, and filtration systems. Activities include disassembly, inspection, measurements, reassembly, and adjustments. Performance exhibited by assembly and adjustments of engine.

Theory of operation and construction of diesel/gasoline fuel injection system nozzles and injectors. Electronic injectors are covered. Lab work consists of testing and service procedures for nozzles/injectors. Theory of operation and service procedures for emission control devices used on diesel and gasoline applications included.

Principles, components, operation, service, repair, adjustment and troubleshooting of the air brake system used on today's trucks, including safety, brake balance and anti-lock brakes.

Theory of operation, troubleshooting, diagnosis, and repair of truck cab/chassis and trailer wiring/lighting systems. Instruments, gauges, and electrical accessories are also covered. Engine/vehicle electronic sensors and computers included.

Principles, components, operation, service, repair, adjustment and troubleshooting of the steering and suspension system used on today's trucks tractor and trailer alignment, use of equipment and shop safety.

Principles, components, operation, service, repair, adjustment and troubleshooting of the hydraulic brake system used on today's trucks, including safety, brake balance and anti-lock brakes.

Principles and application of theory design, construction, and testing of hydraulic systems including pumps, actuators, reservoirs, accumulators, lines, fittings, filters and fluids.

Principles and application of theory design, construction, components, operation, service, repair, adjustment and troubleshooting of the air conditioning and heating systems used on today's trucks, use of equipment and shop safety.

Lecture, demonstration and laboratory course encompassing the principles, design, construction, operation, repair and adjustment of five through eighteen speed manual shift transmissions. Clutch removal, troubleshooting, repair, installation and adjustment plus PTO installation and adjustment are also covered.

Lecture, demonstration and laboratory course encompassing principles, design, construction and repair of truck final drives and related components. Phasing and angularity of drivelines is covered along with operation, inspection and replacement of U-joints.

Lecture, demonstration, and laboratory course for the entry level technician designed to introduce the student to correct procedures and practices of vehicle preventative maintenance and inspection.

Study of advanced mobile air conditioning to include heat exchange, diagnosing, evacuating, charging, leak testing, adjusting and proper handling of required service tools in the laboratory.

Principles, design, and construction of Allison automatic truck transmissions. Lab work in disassembly, inspection, reassembly, adjustment, repair, and testing of the automatic transmission.

Electrical principles and concepts, semiconductors and microprocessors. The use of digital multi-meters and wire repairing including weather pack service techniques. Bench and on-vehicle diagnostic procedures for present and future diesel electronic systems.

On-the-job experience in a diesel repair shop. Practice of skills and knowledge acquired in previous quarters.

A study of the application of communication and documentation of basic design skills using industry accepted standards and practices.

A study of commonly used materials and accepted methods of commercial construction.

On-the-job experience in a diesel repair shop. Practice of skills and knowledge acquired in previous quarters.

A study of the application of communication and documentation of basic design skills using industry accepted standards and practices.

ECED • Early Childhood Education

ECED1010 Introduction to ECED Professional Portfolio Development  L  5  -  .5
Class must be completed within the first year as a declared student in the ECED Program. This introduction will identify the purpose and benefits of developing and maintaining a professional portfolio in the field of early childhood education. Instruction will include use of the electronic portfolio materials and effective methods of collecting information.

ECED1020 Home Visitor/Family Advocate Portfolio  L  5  -  .5
Class must be completed the first quarter of the Certificate program. This introduction will identify the purpose and benefits of developing and maintaining a professional portfolio in the area of home visitation. Instruction will include portfolio requirements and effective methods of collecting and compiling relevant content.

ECED1050 Expressive Arts  L  45  -  4.5
This course focuses on the selection, construction and use of materials, activities and experiences that encourage the young child’s creativity and aesthetic appreciation through the visual arts, music, body movement, and dramatic play. Curriculum designed for child ages 3 through 8 years.

ECED1060 Observation, Assessment and Guidance  L  45  -  4.5
This course introduces a variety of observation, assessment and guidance strategies used in an early childhood education setting birth through age 8.

ECED1110 Infant and Toddler Development  L  45  -  4.5
This course focuses on typical / atypical development of children in the prenatal period of development through age two. Planning curriculum in the domains of physical growth and motor skills, cognition, language, and social / emotional development are examined.

ECED1112 Advanced Infant and Toddler Concepts  L  30  -  3
Prerequisite: ECED1110.
A continued and in-depth study and application of typical growth and development of the child from birth through age two. Infusion of exceptionalities into course work to prepare the student to work with children with disabilities. Developmentally appropriate practices and curriculum are examined. Emphasis on supporting partnership with the family as a crucial factor in the child’s development and learning. Required class for Coop students working in an Infant/Toddler setting.

ECED1120 Preschool Child Development  L  30  -  3
This course focuses on typical / atypical development of the child ages 3 through 5 years, in the domains of physical growth and motor skills, cognition and language, and social/emotional development.

ECED1130 Social-Emotional Development and Behavior Guidance  L  45  -  4.5
Study the stages of development and the multiple influences that impact social and emotional development of children birth to age eight. Gain an understanding of the adult role in the child’s life and a wide range of effective techniques for supporting healthy development. Explore effective methods of guiding behavior and determining appropriate intervention.

ECED1150 Introduction to Early Childhood Education  L  45  -  4.5
An overview of early childhood education, history, trends and the philosophies of various programs, diversity, inclusion, licensing standards, current legislation, professionalism and advocacy are examined.

ECED1160 Early Language and Literacy  L  45  -  4.5
This course focuses on the development of literacy and language skills for children from birth through age 8. Students will plan and prepare developmentally appropriate literacy and language activities.

ECED1220 Pre-Practicum  L  15  -  1.5
This class is a pre or corequisite for first ECED practicum.
This course is designed to provide an orientation to practicum experiences in the early childhood education program. Students will understand practicum expectations and responsibilities, methods of evaluation, and the importance of professionalism in the work place. Students will review the process for setting up a practicum, forms used during the practicum, understand child care licensing requirements for their state, and have their names cleared through appropriate background checks.

ECED1221 Infant / Toddler Practicum  L  90  -  3
Pre/Corequisites: ECED1110, 1060. Co-enrolled in ECED1220 if this is the first practicum.
This course is designed to provide an understanding of the developmental stages of children six weeks through two years in participating in hands-on learning experiences in selected child care settings. Students will develop an awareness of appropriate adult/child interaction while developing positive employee skills. Basic skills in planning and implementing a daily routine and curriculum activities for infants and toddlers are also presented. Students are required to complete a minimum of 90 clock hours of practical work experience. Attendance at discussion orientation sessions is required. A nominal fee will be assessed for liability insurance coverage.

ECED1224 Preschool Math, Science and Social Studies Curriculum  L  30  -  3
This course focuses on typical / atypical development of the child ages 5-12 years in the domains of physical growth and motor skills, cognition and language, and social/emotional development.

ECED1230 School Age Child Development  L  30  -  3
This course focuses on typical / atypical development of the child ages 5-12 years in the domains of physical growth and motor skills, cognition and language, and social/emotional development.

ECED1240 Preschool/School Age Practicum  L  90  -  3
Pre/Corequisites: ECED1220, 1230, 1060. Co-enrolled in ECED1220 if this is the first practicum.
This course is designed to provide an understanding of the developmental stages of children from three to eight years of age by participating in hands-on learning experiences in selected child care settings. Students will develop an awareness of appropriate adult/child interactions while developing positive employee skills. Basic skills in planning and implementing a daily routine and curriculum activities for children 3-5 years of age are also presented. Students are required to complete a minimum of 90 clock hours of practical work experience. Attendance at discussion/orientation sessions is required. A nominal fee will be assessed for liability insurance coverage on each student.

ECED1260 Early Childhood Health, Safety and Nutrition  L  45  -  4.5
This course focuses on typical / atypical development of the child ages 5-12 years in the domains of physical growth and motor skills, cognition and language, and social/emotional development.

ECED1270 Integrated Curriculum; Ages 3-8 years  L  60  -  6
Prerequisite: ECED1170, 1120, 1220, 1060, 1260.
This course will combine the learning domains of language and literacy, math/science/social studies and expressive arts along with the fundamental elements of curriculum design to provide an application based learning experience of children’s learning experiences and instructor curriculum design.

ECED1340 How Children Learn  L  30  -  3
Theory, methods, and planning techniques for teaching the young child in relation to thinking patterns and learning styles.

ECED1401 Displays in the Early Childhood Classroom  L  5  -  .5
Selection, construction and use of materials, activities and experiences that encourage creative displays and bulletin board design. Curriculum designed for three to eight-year-olds.

ECED1402 Effective Technology in the Early Childhood Classroom  L  5  -  .5
Introducing students to skills and techniques of incorporating computers and other forms of technology into the classroom.

ECED1403 ECED Professional Portfolio Development  L  5  -  .5
Prerequisite: ECED1010
This course is designed to provide an understanding of the developmental stages of children six weeks through age two by participating in hands-on learning experiences in selected child care settings. Students will develop an awareness of appropriate adult/child interaction while developing positive employee skills. Basic skills in planning and implementing a daily routine and curriculum activities for infants and toddlers are also presented. Students are required to complete a minimum of 90 clock hours of practical work experience. Attendance at discussion/orientation sessions is required. A nominal fee will be assessed for liability insurance coverage.

ECED1404 Understanding Diversity in the Early Childhood Classroom  L  10  -  1
Focuses on assisting the early childhood educator with beginning the process of developing and assembling a personal/professional portfolio to be used throughout their professional career.

ECED1405 Portfolio Assessment in the Early Childhood Classroom  L  5  -  .5
Focuses on helping the early childhood educator understand the importance of this alternative method of assessment and ways to incorporate it into the classroom curriculum and environment.
ECED1406 Effective Transitions in the Early Childhood Classroom  
L 5  -  .5
Fun and effective ways to make transitions work in an early childhood setting.

ECED1407 Creative Group Times in the Early Childhood Classroom  
L 5  -  .5
This course focuses on the awareness of using creative techniques during group times in early childhood settings infant through age eight.

ECED1408 Effective Home Visits for the Early Childhood Educator  
L 5  -  .5
Focuses on how to establish a stronger relationship with parents by planning and conducting positive, successful home visits.

ECED1409 PPST Preparation  
L 5  -  .5
This course is designed to help you prepare for the Pre-Professional Skills Test. It will include an overview of the Praxis format, various test taking strategies, test myths and facts, and a pre/post test analysis.

ECED1475 Professional In-Home Care  
L 45  -  4.5
Skills and requirements specifically for the person working in a home setting as a professional nanny or a family child care provider. Discussion of business plans, development of a parent handbook, selection of employment agencies, contract negotiations and interviewing of prospective clients and employers. Activity planning and scheduling for children of diverse ages and abilities.

ECED1520 Preschool Practicum  
L  -  45  1.5  
Pre/Corequisites: ECED 1120, 1060. Co-enrolled in ECED 1220 if this is the first practicum.
This course is designed to provide an understanding of the developmental stages of children from three to five years of age by participating in hands-on learning experiences in selected child care settings. Students will develop an awareness of appropriate adult/child interactions while developing positive employee skills. Basic skills in planning and implementing a daily routine and curriculum activities for children 3-5 years of age are also presented. Students are required to complete a minimum of 45 clock hours of practical work experience in a two day per week format. Attendance at orientation sessions is required. A nominal fee will be assessed for liability insurance coverage on each student.

ECED1521 Infant Practicum  
L  -  45  1.5  
Pre/Corequisites: ECED 1110, 1060. Co-enrolled in ECED 1220 if this is the first practicum.
This course is designed to provide an understanding of the developmental stages of children from six weeks through eighteen months of age by participating in hands-on learning experiences in selected child care settings. Students will develop an awareness of appropriate adult/child interactions while developing positive employee skills. Basic skills in planning and implementing a daily routine and curriculum activities for infants are also presented. Students are required to complete a minimum of 45 clock hours of practical work experience in a two day per week format. Attendance at orientation sessions is required. A nominal fee will be assessed for liability insurance coverage on each student.

ECED1522 Toddler Practicum  
L  -  45  1.5  
Pre/Corequisites: ECED 1110, 1060. Co-enrolled in ECED 1220 if this is the first practicum.
This course is designed to provide an understanding of the developmental stages of children from eighteen months through thirty-six months of age by participating in hands-on learning experiences in selected child care settings. Students will develop an awareness of appropriate adult/child interactions while developing positive employee skills. Basic skills in planning and implementing a daily routine and curriculum activities for toddlers are also presented. Students are required to complete a minimum of 45 clock hours of practical work experience in a two day per week format. Attendance at orientation sessions is required. A nominal fee will be assessed for liability insurance coverage on each student.

ECED1545 School Age Practicum  
L  -  45  1.5  
Pre/Corequisites: ECED 1230, 1060. Co-enrolled in ECED 1220 if this is the first practicum.
This course is designed to provide an understanding of the developmental stages of children from five to eight years of age by participating in hands-on learning experiences in selected child care settings. Students will develop an awareness of appropriate adult/child interactions while developing positive employee skills. Basic skills in planning and implementing a daily routine and curriculum activities for toddlers are also presented. Students are required to complete a minimum of 45 clock hours of practical work experience in a two day per week format. Attendance at orientation sessions is required. A nominal fee will be assessed for liability insurance coverage on each student.

ECED1550 Home Visit Practicum  
L 5  45  2
Prerequisites: Program Permission. Open only to declared students graduating with the Home Visitor/Family Advocate Certificate or with program permission. Prerequisites: ECED1060, 1110, 1120, and 2070.
Supervised experience as a home visitor or family advocate using advanced skills and techniques. Presentation and discussion of child development topics and practicum experiences.

ECED1560 Comprehensive Family Child Care Practicum  
L  -  45  1.5  
Open only to declared ECED students. Prerequisites: Program permission required. Current First Aid/CPR certification. ECED1110, 1120, 1230, 1060, 1260, 1270. Pre-OR Corequisite: ECED1475. Co-enrolled in ECED1220 if this is the first practicum.
Supervised experience as an in-home provider using advanced skills and techniques. Presentation and discussion of child development topics and practicum experiences.

ECED1570 Comprehensive Professional Nanny Practicum  
L  -  45  1.5  
Open only to declared ECED students. Prerequisites: Program permission required. Current First Aid/CPR certification. ECED1110, 1120, 1230, 1060, 1260, 1270. Pre-OR Corequisite: ECED1475. Co-enrolled in ECED1220 if this is the first practicum.
Supervised experience as a professional nanny using advanced skills and techniques. Presentation and discussion of child development topics and practicum experiences.

ECED1575 In-Home Child Care Professional Practicum  
L 10  150  6  
Prerequisites: Program Permission. Open only to declared students graduating with the In-Home Child Care Professional diploma or with program permission. Must have taken or be taking ECED1475. Current first aid/CPR certification. ECED1110 and ECED1120.
Designed to provide an understanding of the role and duties of an in-home child care provider / nanny. Various areas will include good communication skills, professional practices, planning skills, parental needs and knowledge of business practices. Student will spend 75 hours working in a private home (nanny) setting and 75 hours working in a family child care home I or II. 10 seminar / lecture hours will be arranged with the instructor/supervisor.

ECED2050 Children with Exceptionalities  
L 40  15  4.5  
This course focuses on the awareness of the theory, development and philosophy of early childhood education programs serving children with exceptionalities. Topics include working with families, legislation, role of the interventionist, interdisciplinary teams, and inclusion of children with special needs in natural environments. 9-15 additional clock hours observing children in an inclusive setting are required.

ECED2055 Inclusion in the Early Childhood Classroom  
L 45  -  4.5  
This course focuses on the practical application of including children with special needs in natural environments. Topics include: inclusion, high incidence disabilities, appropriate adaptations, communicating with parents, and resources available for children with disabilities.

ECED2060 Early Childhood Education Curriculum Planning  
L 45  -  4.5  
Students will be withdrawn from this class if they have not completed ECED1120, 1230, 1240 and three of the following methods classes: ECED 1050, 1160, 1224, 1260. The fourth methods class must be taken prior to or as a corequisite with this class.
This course prepares students to plan a developmentally appropriate curriculum and environments for children ages 3-8 years of age. Topics include environment design, writing goals and objectives, lesson plans, daily schedules, working with parents, and inclusionary practices.

ECED2065 Child Care Head Teacher Practicum  
L 30  150  8
ECED2066 Child Care Head Teacher Practicum (E-Focus)  
L 15  105  5
Open only to declared ECED students. Prerequisites: Program Permission. Current first aid/CPR certification. ECED1050, 1060, 1110, 1120, 1130, 1160, 1220, 1221, 1224, 1230, 1240, 1260, 2060.
Experience as a teacher in a cooperating childcare facility using advanced skills and techniques. Presentation and discussion of child development topics and practicum experiences.

ECED2070 Family and Community Relationships  
L 45  -  4.5  
This course focuses on the development of skills, techniques, and attitudes needed to form successful collaboration with diverse family systems and communities. Ten hours of volunteer service learning required.
ECON 1200 Personal Finance B/L/M 45 - 4.5
Prerequisite: Math competency recommended.
Survey of principles and methods of managing personal finance resources. An introduction to how economic concepts and functions impact personal financial decisions. Topics include: economic concepts, banking, saving and investment, credit, major purchases (home/auto), risk management (home, life, health, auto), tax strategies and retirement planning.

ECON 2110 Macroeconomics B/L/M 45 - 4.5
It is recommended that students have a strong college level math and accounting background before taking this class.
A study of the "big ideas" of macroeconomics such as GDP, inflation, unemployment, labor productivity, and rational economic decision making using the marginal principle and diminishing returns. A look at public policy decisions using fiscal and monetary policies, globalization and the economic challenges facing our economy.

ECON 2120 Microeconomics B/L/M 45 - 4.5
It is strongly recommended to complete Macroeconomics ECON 2110, and have a strong college level math and accounting background before taking this class.
A study of basic economic principles such as elasticity of demand, consumer choice, profit maximization, types of competition and asymmetric markets. A microeconomic focus on the behaviors on individual households and firms.

EDUC 1110 Introduction to Professional Education B/L 45 - 4.5
An overview of education in the United States viewed in terms of history, philosophy, finance and governance. Encourages critical thought regarding the role of education in our multicultural society, the role of the teacher, and educational practices in schools. The course is designed to help students explore education as a prospective career.

EDUC 1700 Professional Practicum I B/L 15 30 2.5
Prerequisite/Concurrent enrollment: EDUC 1110
Designed to acquaint the student with the classroom situation and atmosphere by participation in the teaching-learning process. Includes observation and assistance in classroom-related activities under supervision of an experienced teacher.
### EDUC 2971 Professional Practicum Experiences III

Prerequisites: EDUC 1110, EDUC 2970. 
Guided participation and/or observation in schools and/or agencies offering programs for children and/or youth. Includes seminar component.

### EDUC 2970 Professional Practicum Experiences II

Prerequisites: EDUC 1700 and EDUC 1110. 
Guided participation and/or observation in schools and/or agencies offering programs for children and/or youth. Includes seminar component.

### ELEC 1219 AC Electronics

Prerequisite: ELEC 1129. 
AC circuits containing resistors, inductors, and capacitors in series and parallel combinations, including resonant and non-resonant circuits; single phase transformers, rectification and filtering. Uses of oscilloscope and familiarization with function generator, frequency counter, and DMM.

### ELEC 1227 Digital Circuits

Prerequisite: ELEC 1227. 
Truth tables, Boolean algebra and number systems to explain the operation of AND, OR, and INVERTER functions. Flip-flop registers and arithmetic operations. Lab work includes wiring of pre-designed circuits using ICs.

### ELEC 1336 CAD & Electrical Estimating

Corequisite: ELEC 1365. 
Introduction to computer based drafting systems for electrical applications followed by the design of electrical distribution system and computerized cost estimating.

### ELEC 1474 Predictive Maintenance Principles

Prerequisite: ELEC 1217. 
Orientation, planning, and practical application of setting up a predictive maintenance program for inspection, testing, cleaning, fabricating, and adjusting of equipment.

### ELEC 1482 Advanced Digital Circuits

Prerequisite: ELEC 1227. 
Digital registers, counters, multiplexers, demultiplexers, encoders, decoders, arithmetic logic circuits, AD and DA conversion, and memory. Lab work includes circuit construction and measurement.

**Course Descriptions**

**ELET • Electrician Construction – IBEW Option**

**ELET1714** DC Circuits and Blueprint Reading 120 60 14
Prerequisite: Successful completion of SCC and IBEW entrance requirements.
Corequisite: ELET1715.
A first course in electricity and electronics. Covers physical and electrical safety principles, DC electrical circuits, magnetism and blue print reading. Includes the interpretation and application selected articles of the National Electrical Code (NEC).

**ELET1715** Electrical Wiring Applications I 200 5
Corequisite: ELET1714.
On the Job Training (OJT) to apply construction electrician principles covered in ELET1714.

**ELET1719** AC Circuits and Wire Sizing 120 60 14
Prerequisite: ELET1714, Corequisite: ELET1720.
Alternating Current (AC) circuits are analyzed. Proper use of test equipment is stressed during lab. Study of the NEC is continued. Wire sizing for branch circuits is discussed. Conduit bending is introduced.

**ELET1720** Electrical Wiring Applications II 200 5
Corequisite: ELET1719.
On the Job Training (OJT) to apply construction electrician principles covered in ELET1719.

**ELET1724** Electronic Devices and Electrical Grounding 120 60 14
Prerequisite: ELET1719, Corequisite: ELET1725.
Diodes, transistors, silicon controlled rectifiers, triacs, and other active devices used in amplifier and switching circuits. NEC article 250 is covered. Proper electrical system grounding is stressed. Electrical load calculations are introduced.

**ELET1725** Electrical Wiring Applications III 200 5
Corequisite: ELET1724.
On the Job Training (OJT) to apply construction electrician principles covered in ELET1724.

**ELET1729** Logic Circuits and Electrical Motors 120 60 14
Prerequisite: ELET1724, Corequisite: ELET1730.
Logic devices and functions such as AND, OR, NAND, NOR and Boolean algebra are introduced. General principles of AC and DC motors and their control are studied. Power factor and power quality are discussed.

**ELET1730** Electrical Wiring Applications IV 200 5
Corequisite: ELET1729.
On the Job Training (OJT) to apply construction electrician principles covered in ELET1729.

**ELET1734** Process Controllers and Special Electrical Circuits 120 60 14
Prerequisite: ELET1729, Corequisite: ELET1735.
Logic circuit input, output, timing and sequencing are studied. Programmable logic controllers (PLC’s) are explored in theory and lab. Alarm and security systems, phone systems, air conditioning and other special control and instrumentation circuits are covered.

**ELET1735** Electrical Wiring Applications V 200 5
Corequisite ELET1734.
On the Job Training (OJT) to apply construction electrician principles covered in ELET1734.

**EMTL • Emergency Medical Services**

**EMTL1265** Emergency Medical Responder L 44 22 5
Prerequisite: Minimum 18 years of age, high school diploma or GED current AHA Healthcare Provider CPR or ARC Professional Rescuer CPR card.
Emergency procedures and skills appropriate for the first person at a medical or trauma emergency. Especially appropriate for rescue squad members, law enforcement and fire personnel and persons needing advanced first aid skills.

**EMTL1301** EMT Part I L 54 27 6
Prerequisites: 18 years of age or older, or require special permission; have a current AHA Healthcare Provider CPR or ARC Professional Rescuer CPR card; Proof of current immunizations needed two weeks after the start of class.
This course is part one of the required training for any person seeking to become a Nebraska state-certified Emergency Medical Technician. The EMT curriculum is divided into seven modules.
- Module 1 – Preparatory
- Module 2 – Airway Management
- Module 3 – Patient Assessment
- Module 4 – Medical Emergencies
- Module 5 – Trauma Emergencies
- Module 6 – Special Populations
- Module 7 – Operations

**EMTL1302** EMT Part II L 48 40 6
Prerequisite: EMT Part I (EMTL1301) and completed Student Health Statement prior to registering.
This course is part two of the required training for any person seeking to become a Nebraska state-certified Emergency Medical Technician. The EMT curriculum is divided into seven modules.
- Module 5 – Trauma Emergencies
- Module 6 – Special Populations
- Module 7 – Operations

**ENER • Energy Generation Operations**

**ENER1100** Introduction to Energy Generation and Distribution M 45 - 4.5
Introduction to the history of electric and fluid power in the U.S. including deregulation. Investor-owned and public utilities are discussed. Methods of commercial power generation including fossil fuels, nuclear power and renewable energy generation. Includes overview of electrical transmission and distribution systems. System reliability and governance are covered.

**ENER1110** Operator Safety M 25 15 3
Basic operator-based safety topics including: OSHA 10-hour, Personal Protective Equipment, ladders, body harnesses, confined space, lockout/tagout, MSDS, and fire extinguishers. Students will perform a supervised climb with fall-arrest-protection to above 20 feet.

**ENER1115** Mechanical and Fluid Fundamentals M 35 20 4.5
Prerequisite(s): ENER1110
This course will give the student a basic understanding of pumps, valves, compressors, and heat exchangers. It will explain the proper procedure on how to start, operate and shut down pumps. Troubleshooting common operating problems of various pumps will be discussed. Functions and characteristics of reboilers, cooling towers, and condensers will be covered in detail.

**ENER1210** Electrical Power Theory M 25 15 3
Prerequisite: ENER1100, MFTG143
This course introduces the student to the electrical power produced at an electrical generating station. Topics include the study of three-phase generation and transmission, power factor and correction, DC transmission, rectification, inverter systems, and grid transfer. The student will also learn about generator control, protection, and fault management.

**ENER1220** Process Dynamics M 42 8 4.5
Prerequisite(s): ENER1235, PHYS1017, ENER1235
The practical application of flow, temperature, pressure, heat, gases, liquids, solids, fluid systems, process dynamics and heat transfer are explored in detail. Automatic and manual control processes.

**ENER1230** Data Acquisition and Control (SCADA) M 10 - 1
Prerequisite(s): ENER1235, PHYS1017
This course introduces the student to the process of data collection as it applies to energy generation and industrial process systems. SCADA (Supervisory Control And Data Acquisition) is used as the primary model of data collection and control.

**ENER1235** Technical Diagrams M 40 20 4.5
Prerequisite(s): ENER1100
This course will cover the symbols and diagrams commonly used on Piping and Instrumentation Diagrams (P&ID) and Process Flow Diagrams (PFD). Focus will be on identifying the types of diagrams, identifying instrument symbols and line symbols used on P&ID’s, understanding the types of information typically found on a legend, using a P&ID to locate the components of a system, and reading a PFD to trace the flow paths of a system.

<td></td>
</tr>
</tbody>
</table>
ENER2420 Plant Operations and Troubleshooting  M 30 - 3  
Prerequisite(s): ENER1120, ENER2100 and ENER2105  
A systems-approach to troubleshooting practical and realistic problems operators can expect to encounter in a typical electrical power plant fueled by fossil fuels. Critical and non-critical examples are practiced as students learn to quickly analyze and resolve system failures. Divide and conquer techniques are taught.

ENER2500 Biofuels Process Fundamentals  M 30 - 3  
Prerequisite(s): ENER2125  
Covers the history, rationale, and overall fundamental processes of Biofuels production. A Process Flow Diagram (PFD) of a typical Ethanol Plant will be used to examine the sequence of operation including resident time, pressures, and temperatures seen in various stages of production. This course will explain the rationale for feedstock and additives used in Ethanol processing as well as product and co-product production and use.

ENER2510 Distillation and Evaporation  M 45 - 4.5  
Prerequisite(s): ENER2125  
This course covers the theory behind distillation and evaporation. Students will learn the operating parts in a distillation system and how to interpret normal operating conditions. Students will learn how to troubleshoot common operational problems in a distillation and evaporation system. Students will become familiar with safety procedures in starting, cleaning, operating and shutting down a distillation system. Students will become familiar with the evaporative process and its role in processing plants. A distillation simulator will be available for laboratory use.

ENER2520 Microbial Ecology  M 30 45 4.5  
Prerequisite(s): ENER2125  
Introduces students to structure, classification, and ecology of microorganisms, especially as it relates to a Biofuels processing plant. Will include experience in microbiological laboratory practices and techniques as well as study of the enzymes supporting microbial ecology in Ethanol processing facilities.

ENER2530 Process Plant Chemistry  M 30 - 3  
Prerequisite(s): ENER2125  
This course explores the relationship of science, technology, and process management in regards to the operation and optimization of processing plant operations. The course has an emphasis on the science and technology that affect process operations, measures of product quality assurance and control, identify operational deviations, and incorporate process troubleshooting.

ENER2540 Ethanol Process Operations  M 30 45 4.5  
Prerequisite(s): ENER2125  
This advanced process course pulls together the various concepts involving a typical biofuels processing plant. Real-life case studies will be presented as we explore control models used in this business. Topics include feedback, cascade, PID, PIP, CIP (Clean In Place), start-up, shut-down and feed-forward. Process troubleshooting concepts will be taught and practiced by students to emulate real-world failures and how to deal with those.

ENER2700 Introduction to Wind Turbine Systems  M 10 - 1  
Prerequisite(s): Permission  
This course is an introduction to the basic concepts and terminology for how wind energy is captured and transformed into electrical power. Topics covered include mechanical physics, electricity and magnetism, fluid dynamics, and aerodynamics. A basic description of wind towers, and electrical generators is included. Small and large wind turbine systems will be included.

ENER2710 Rotor Systems  M 20 - 2  
Prerequisite(s): Permission  
This course introduces students to the construction of rotor blades used in small and large wind turbine systems. Materials used and inspection methods are discussed. The theory of aerodynamics, pitch and yaw systems are explained as they relate to a wind turbine power plant.

ENER2720 Wind Farm Management  M 45 - 4.5  
Prerequisite(s): Permission  
This course focuses on methods used to evaluate land opportunities for developing wind farms, and managing a wind farm in both a field and an office setting. Students learn how to read and analyze topographic and wind maps as a means to assessing the viability of developing wind farms on newly acquired land. Other topics covered include cranes and rigging methods, non-destructive materials testing, networking, and basic meteorological forecasting.

ENER2730 Wind Turbine Electrical and Fluid Systems  M 45 - 4.5  
Prerequisite(s): Permission  
This course presents the fundamentals of wind turbine construction. Emphasis is placed on mechanical and electrical systems in a complete utility-sized wind turbine from fasteners used to propellers, shafts and bearings. Basic alignment is covered with regard to wind turbine structural stability. Classical mechanical physics is used to demonstrate how wind energy is transmitted from propeller to electric generation. The importance of lubrication in maintaining gears and other movable parts is stressed.

ENER2735 Wind Turbine Safety  M 20 30 3  
Prerequisite(s): ENER2115  
This course provides climbing, rigging and rescue training specific for wind turbine technicians. Students will be exposed to high-altitude climbing apparatus, methodologies for safe, competent climbing and rescue skills training.

ENGL • English

Placement in English courses will be determined by a placement examination. Your advisor will register you for the appropriate English course.

ENGL0830 Reading Skills Tune-up  B 5 30 1.5  
A developmental reading course to prepare students to succeed in college course work. Course work includes computer aided instruction and personal tutoring. Instructional time is arranged to accommodate students’ class and work schedules. May be taken along with college courses not requiring high levels of reading skill. (NOTE: Credit is institutional credit and does not apply toward graduation or for transfer.)

ENGL0840 Language Skills Tune-up  B 5 30 1.5  
A developmental course to upgrade students’ language and writing skills to be successful in college courses. Includes computer aided instruction and personal tutoring. Instructional time is arranged to accommodate students’ class and work schedules. (NOTE: Credit is institutional credit and does not apply toward graduation or for transfer.)

ENGL0845 Language Skills  B/L 45 - 4.5  
Prerequisite: Appropriate placement score.  
This course provides foundational grammar and writing strategies for effective college writers. A focus on sentence-level instruction is emphasized, as well as organizational methods for paragraphs and entry into essays. Some basic computer/internet skills and keyboarding are expected of students entering the course. Based on student progress, the instructor may strongly recommend a student take ENGL0846 Language Skills II prior to ENGL0950 Beginning Writing. (NOTE: Credit is institutional credit and does not apply toward graduation or for transfer.)

ENGL0846 Language Skills II  B/L 45 - 4.5  
Prerequisite(s): Grade of “C” or higher in ENGL0845  
This course is designed to improve students’ language and writing skills beyond ENGL0845 and to prepare them to be successful in college courses. An instructor may strongly recommend a student take this course prior to ENGL0950. (NOTE: Credit is institutional credit and does not apply toward graduation or for transfer.)

ENGL0850 Reading Strategies I  B/L 45 - 4.5  
Prerequisite: Appropriate placement score.  
This course is designed to improve students’ reading and to prepare them to be successful in college courses. The course covers reading comprehension and speed, vocabulary building, and study skills. The course includes traditional classroom activities, sustained silent reading, and individualized, self-paced, computer-based instruction. Reliable internet connection required. Students will work toward the benchmark level of reading skill established by the College. Only students with appropriate placement scores are eligible for this course. (NOTE: Credit is institutional credit and does not apply toward graduation or for transfer.)

ENGL0880 Reading Strategies II  B/L 45 - 4.5  
Prerequisite: Grade of “C” or higher in ENGL0850 or instructor permission.  
This course is designed for students who are continuing beyond Reading Strategies I to work toward the benchmark level of reading skill established by the College. The course covers reading comprehension and speed, vocabulary building, and study skills. The course includes traditional classroom activities, sustained silent reading, and individualized, self-paced, computer-based instruction. Reliable internet connection required. (NOTE: Credit is institutional credit and does not apply toward graduation or for transfer.)
ENGL0900 Reading Brush-Up  
Prerequisite: Appropriate placement score and instructor permission.
This is a self-paced, computer-assisted, independent study course designed for students whose placement scores in reading are high but still indicate the need for improvement of reading skills in order reach the benchmark reading level established by the College and be best prepared for college-level courses. Students must have a reliable internet connection.

ENGL0950 Beginning Writing  
Prerequisite: A grade of "C" or higher in ENGL0840 or ENGL0845 or appropriate placement score.
This course is designed to help students develop their writing skills. Within the context of their own essays, students learn how to improve the structure of their sentences and the expression of their ideas. The integration of thinking, reading, and writing is also emphasized. (NOTE: Credit is institutional credit and does not apply toward graduation or for transfer.)

ENGL0980 Intermediate Writing  
Prerequisite: Grade of "C" or higher in ENGL0950 or appropriate placement score.
This is a developmental English course that prepares students to succeed in college-level composition. ENGL0980 does not fulfill the written communications general education requirement in any program. (NOTE: Credit is institutional credit and does not apply toward graduation or for transfer.)

ENGL0999 College English Studies L 75 - 7.5
Prerequisite: Appropriate placement scores and permission.
This is a developmental English course that covers reading and writing along with skill-building in the areas of technology, study skills, awareness and resources. (NOTE: Credit is institutional credit and does not apply toward graduation or for transfer.)

ENGL1010 Composition I  
Prerequisite: Appropriate placement score OR grade of "C" or higher in ENGL0980.
ENGL1010 is designed to develop writing skills. Students write short papers and essays based upon their personal experience and/or assigned readings. The course emphasizes the clear written expression of ideas and importance of organization, word choice, logic, and sentence construction. The process of planning, writing, revising, and editing essays for a particular audience is also emphasized.

ENGL1015 Composition and Literature  
Prerequisite: Appropriate placement score OR grade of "C" or higher in ENGL0980.
ENGL1015 focuses on the study and practice of college composition with special emphasis on literature as a source of shared experience, topics, and models for expository writing.

ENGL1020 Composition II  
Prerequisite: A grade of "C" or higher in ENGL1010 or ENGL1015 or equivalent.
ENGL1020 students engage in both written work and critical reading to acquire skills in researching, evaluating sources, citing sources appropriately, and recognizing elements of arguments. This course prepares students for professional, academic, and civic engagement beyond the classroom.

ENGL1510 Introduction to Creative Writing  
Prerequisite: A grade of "C" or higher in ENGL1010 or ENGL1015 or permission of instructor.
Study and practice of the techniques of creative writing of both fiction and poetry.

ENGL2050 Modern Fiction  
Prerequisite: A grade of "C" or higher in ENGL1010 or ENGL1015 or permission of instructor.
Exploration of short fiction and novels from 1900 to the present. Consideration of major literary critical theories and trends through the study of both American and international authors.

ENGL2100 Introduction to Literature  
Prerequisite: A grade of "C" or higher in ENGL1010 or ENGL1015 or permission of instructor.
Introduction to the major genres and conventions associated with literature. Includes fiction, poetry, and drama. By employing critical reading/thinking skills and analytical and creative writing skills, students will understand literature more fully. Exposure to a range of authors representing a variety of cultural and ethnic backgrounds.

ENGL2140 Introduction to Shakespeare  
Prerequisite: A grade of "C" or higher in ENGL1010 or ENGL1015 or permission of instructor.
This course provides an introduction to the times and art of William Shakespeare through the study of a selection of major plays. Focus is placed on context of his time and society, themes that speak to a modern audience, and making Shakespeare's language accessible.

ENGL2150 Introduction to Women's Literature  
Prerequisite: A grade of "C" or higher in ENGL1010 or ENGL1015 or permission of instructor.
An examination of women's writing within the contexts of history, culture, environment, and media. Through critical reading, analysis, and writing, students will more fully understand the relevance of women's perspectives to literature and society.

ENGL2160 Children's Literature  
( Cross-listed as EDUC2160) Prerequisite: A grade of "C" or higher in ENGL1010 or ENGL1015 or permission of instructor.
Survey of the various genres of children's literature with an emphasis on methods of critically evaluating, analyzing, and sharing both traditional and recent selections.

ENGL2165 Young Adult Literature  
( Cross-listed as EDUC2165) Prerequisite: A grade of "C" or higher in ENGL1010 or ENGL1015 or permission of instructor.
Survey of the various genres of adolescent literature. Emphasis on evaluation of quality, thematic study and the inter/cross-disciplinary uses of young adult literature.

ENGL2440 African American Literature  
Prerequisite: A grade of "C" or higher in ENGL1010 or ENGL1015 or permission of instructor.
This course provides an introduction to African American poetry, short fiction, essays and autobiographical writings. With an emphasis on historical and social contexts, the course focuses on literature as a means for reseeing the past and, consequently, understanding the present.

ENGL2450 Native American Literature  
Prerequisite: A grade of "C" or higher in ENGL1010 or ENGL1015 or permission of instructor.
Introduction to the study of Native American prose, poetry, literature, oral-tradition, and culture through reading, discussions, journals, writing.

ENGL2460 Latino/a & Latin American Literature  
Prerequisite: A grade of "C" or higher in ENGL1010 or ENGL1015 or permission of instructor.
A study of the relationships and parallel aspects between Latin American and Latino literature in the United States. The course provides a general chronological, and thematic introduction to verse, fiction, travels and memoirs written by Latin American writers and U.S. citizens of Latin American descent and their contribution to U.S. literature. Social, historical, and political backgrounds that have given rise to the literature are also emphasized along with an analysis of the literary techniques and motifs that authors employ in their aesthetic productions.

ENGL2470 Asian American Literature  
Prerequisite: A grade of "C" or higher in ENGL1010 or ENGL1015 or permission of instructor.
Introduction to literature by major Asian American authors studied in its historical and cultural context.

ENGL2520 Fiction Writing  
Prerequisite: A grade of "C" or higher in ENGL1010 or ENGL1015 or permission of instructor.
Designed to teach the fundamentals of writing fiction, both theory and application.

ENGL2530 Poetry Writing  
Prerequisite: A grade of "C" or higher in ENGL1010 or ENGL1015 or permission of instructor.
Designed to teach the fundamentals of writing poetry, both theory and application.

ENGL2540 Technical Writing  
Prerequisite: A grade of "C" or higher in ENGL1010, or ENGL1015, equivalent, or permission of instructor.
Introduction to design principles, style, and strategies for technical writing. Communication formats and styles for various audiences, purposes, and situations are practiced.

ENGL2980 Special Topics in Literature  
Prerequisite: Grade of "C" or higher in ENGL1010, ENGL1015 or permission of instructor.
Topics vary each term. The purpose of this class is to explore a specific topic or period of literature.

FIRE1212 Structural Firefighter IB  
Prerequisite or Corequisite: FIRE 1211  
Second of two courses preparing students to perform basic fire fighting functions. Includes ground ladders, water supply, fire streams, fire hose, sprinkler systems, salvage and overhaul, preserving evidence, communications, fire prevention, public education and live fire fighting. Addresses requirements of NFPA 1001 Standard for Fire Fighter Professional Qualifications Firefighter I. Upon successful completion of FIRE1212 and FIRE1312, students are eligible to apply for Firefighter I certification through the Nebraska State Fire Marshal.

FIRE1220 Structural Firefighter II  
Prerequisites: FIRE 1212 or FIRE 1247 or Firefighter I Certification  
Prepares students to perform advanced fire fighting functions. Addresses the requirements of NFPA 1001 Standard for Fire Fighter Professional Qualifications Firefighter II. Upon successful completion students are eligible to apply for Firefighter II certification through the Nebraska State Fire Marshal.

FIRE1230 Structural Firefighting Operations  
Prerequisites: FIRE1220 or FIRE1249 or Firefighter II certification  
Applies Firefighter I and II skills to fireground company operations. Includes flammable gas fire fighting, vehicle fire fighting, interior and exterior structural fire fighting, flat roof ventilation, pitched roof ventilation, hose lays, search and rescue operations, and self-rescue techniques.

FIRE1240 Interior Firefighting Survival  
Prerequisites: FIRE 1212 or FIRE 1247 or Firefighter I Certification  
Provides awareness of firefighter safety and survival during interior firefighting operations. Enables students to conduct self-rescue and work as a member of a rapid intervention team. Topics include firefighter survival needs, fire ground planning and coordination, SCBA emergencies, entanglement hazards, emergency escape maneuvers and rapid intervention team operations.

FIRE1311 Hazardous Materials Operations I  

FIRE1312 Hazardous Materials Operations II  
Prerequisite or Corequisite: FIRE1311  
Second of two courses preparing students as hazardous materials first responders. Includes analysis, planning, implementing and evaluating the response to a hazardous materials incident. Addresses requirements of NFPA 472 Standard for Competence of Responders to Hazardous Materials/Waste of Mass Destruction Incidents and the United States Department of Occupational Safety and Health Administration for Operations Level Responder. Upon successful completion students are eligible to apply for Hazardous Materials First Responder Operations certification through the Nebraska State Fire Marshal.

FIRE2110 Fire Behavior and Combustion  
L 45  -  4.5  
Explores the theories and fundamentals of how and why fires start, spread and are controlled. Addresses physical and chemical properties of fire and thermal dynamics. Explains characteristics of water and other fire extinguishing agents.

FIRE2120 Building Construction for Fire Protection  
L 45  -  4.5  
Explores how features of building construction influence fire behavior and how fire impacts the integrity of structural components. Explains how building design and construction are related to firefighter and life safety, building/fire codes and firefighting tactics.

FIRE2130 Fire Prevention  
L 45  -  4.5  
Provides an overview of fire prevention and protection. Describes the interrelationship of fire codes, plans review, fire safety inspections, fire and life safety education and fire investigation. Explores the role of fire prevention in control of the national fire problem.

FIRE2140 Fire Protection Systems  
L 45  -  4.5  
Provides information relating to the features of design and operation of building fire alarm systems, water-based fire suppression systems, special hazard fire suppression systems, water supply for fire protection and portable fire extinguishers. Addresses requirements of automatic sprinkler systems, standpipe systems and fire pumps.

FIRE2150 Fire and Emergency Services Safety and Survival  
L 45  -  4.5  
Introduces students to the national firefighter life safety initiatives. Based upon the “Everyone Goes Home” initiative of the National Fallen Firefighters Foundation. Includes the 16 Firefighter Life Safety Initiatives, the “Courage to be Safe” program and the “Leadership, Accountability, Culture and Knowledge” concept.

FIRE2220 Fire Protection Hydraulics and Water Supply  
Prerequisite: MATH1090 or MATH1100  
Introduces the principles of hydraulics related to water supply systems, fire pumps and conduits. Applies hydraulic principles to firefighting hoses, appliances and nozzles. Prepares students to analyze and solve fire protection water supply problems.

FIRE2230 Fire Investigation I  
Prerequisites: FIRE1100, FIRE1110 and FIRE1220  
Provides the fundamentals and techniques for initial fire scene investigation. Includes fire scene interpretation, identification of point of origin, fire cause determination, detection and preservation of evidence, scene security, and motives of fire setters.

FIRE2250 Structural Firefighting Strategy and Tactics  
Prerequisite: FIRE 1220 or FIRE1249 or Firefighter II certification or program chair approval  
Explains the development and implementation of an initial action plan for structure fires. Provides an in-depth analysis of the principles of fire control through utilization of personnel, equipment, and extinguishing agents on the fire ground. Includes decision making and actions necessary to achieve life safety, incident stabilization and property conservation goals in a safe and effective manner.

FIRE2310 Hazardous Materials Technician  
Prerequisite: FIRE1312 or Hazardous Materials Operations certification  

FIRE2410 Fire Apparatus Driver Operator - Pumper  
Prerequisites: FIRE1311 or FIRE2220 and FIRE1212, FIRE 1247 or Firefighter I Certification  
Introduces driving and operating fire department pumping apparatus. Includes pumping apparatus inspection, preventative maintenance, routine driving and emergency response driving. Includes hands-on pumping to provide effective water supply for hand lines, master streams, foam appliances, standpipes and automatic fire sprinkler systems. Addresses requirements of NFPA 1002 Standard for Fire Apparatus Driver/Operator Professional Qualifications for apparatus equipped with a fire pump.

FIRE2510 Fire Inspector I  
Prerequisites: FIRE1220, FIRE1230 and FIRE1240  
Prerequisite: FIRE1220, FIRE1230 and FIRE1240  

FIRE2520 Fire and Life Safety Educator  
Prerequisite: FIRE1210  
Introduces the coordination and delivery of public fire and life safety education presentations. Includes planning, preparation, presentation and evaluation of public education activities. Addresses requirements of NFPA 1035 Standard for Professional Qualifications for Fire and Life Safety Educator.

FIRE2700 Fire and Emergency Services Instructor I  
Prerequisites: FIRE 1212 or FIRE 1247 or Firefighter I Certification  
Prepares students to deliver fire and emergency services instruction. Includes planning for instruction, student preparation, lesson delivery, reinforcement through application, student evaluation and summarizing a lesson. Addresses the requirements of NFPA 1041 Standard for Fire Service Instructor Professional Qualifications for Fire Service Instructor I. Upon successful completion students are eligible to apply for Fire Instructor I certification through the Nebraska State Fire Marshal.

FIRE2711 Fire Company Officer IA  
Prerequisite: FIRE1113 or FIRE2700 or Fire Instructor I certification; and FIRE 1220 or FIRE1249 or Firefighter II Certification  
First of two-part delivery to prepare senior firefighters for promotion to company officer. Includes human resource management, administrative duties, and health and safety considerations. Addresses requirements of NFPA 1021 Standard for Fire Officer Professional Qualifications for Fire Officer I.

| FIRE2720 | Fire Company Officer II | L 40 - 4 | | | |
| Prerequisite: FIRE1118 or FIRE2712 |
| Prepares company officers for promotion to second level management and supervision responsible for multiple companies. Includes evaluation of company officers, creation of professional development plans, development of a policy or procedure, development of a budget, preparation of reports, conducting a post-incident analysis and analysis of an employee injury incident. Addresses requirements of NFPA 1021 Standard for Fire Officer Professional Qualifications for Fire Officer II. |

| FIRE2750 | Fire and Emergency Services Administration | L 45 - 4.5 | | | |
| Prerequisites: FIRE1100 |
| Explores the organization and management of a fire and emergency services organization. Discusses the relationship of government agencies to emergency and fire protection services. Emphasis on ethics and leadership from the perspective of the company officer. |

| FIRE2900 | Fire Protection Internship | L - 200 5 | | | |
| Prerequisite: Program chair approval |
| Structured temporary work-related (on-the-job training) experience. Provides an understanding of employee expectations within an emergency medical, fire protection or public safety agency or organization. |

| FIRE2999 | Individual Special Projects | L - 90 3 | | | |
| Prerequisite: Program chair approval. |
| Study of selected topic in fire protection technology by doing additional research and development in an area of interest. |

## FSDT • Food Service/Hospitality

<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

| FSDT1102 | Sanitation & Safety | L 30 45 4.5 | | | |
| Lecture will focus on sanitation as it relates to the food service industry. Covers microbiology of foodborne illnesses, their causes and preventative measure; personal hygiene in food service; establishing a food safety system, such as HACCP; creating a clean and sanitary facility; safety practices; and overall sanitation management. Students will complete projects/assignments relating to foodborne illnesses, HACCP, cleanliness, sanitation of equipment, and developing an innocence of a sanitation topic. |

| FSDT1104 | Food Preparation Fundamentals I | L 20 - 2 | | | |
| Corequisite: FSDT1105 |

| FSDT1105 | Food Preparation Fundamentals I Lab | L - 60 2 | | | |
| Corequisites: FSDT1102 and FSDT1104 or with special permission. |
| Learning knife skills, basic cooking skills and techniques, stocks, soups, sauces, meat, poultry and fish cookery, making food for basic food preparation techniques and prepare products in quantity to sell as take-home products to customers. |

| FSDT1108 | Food Service Concepts | L 15 - 1.5 | | | |
| Introduction to different types of food service operations and employment opportunities. Field trips. |

| FSDT1110 | Food Preparation Fundamentals II | L 20 - 2 | | | |
| Prerequisite: FSDT1102, 1104 & 1105. Corequisites: FSDT1111 |
| Science of foods: vegetables, eggs and breakfast, starches, fruits, hons d oeuvres, salads, baking techniques, quick breads, pastry, cakes, cookies and yeast breads. Bakery items will be made in quantity to sell. Increased application of work-improvement techniques. |

| FSDT1111 | Food Preparation Fundamentals II Lab | L - 60 2 | | | |
| Prerequisites: FSDT1102, FSDT1104 and FSDT1105. Corequisite: FSDT1110 or with special permission. |
| Learn basic cooking skills and techniques for vegetables, eggs and breakfast, starches, fruits, hons d oeuvres, salads, baking techniques, quick breads, pastry, cakes, cookies and yeast breads. Bakery items will be made in quantity to sell. Increased application of work-improvement techniques. |

| FSDT1114 | Meal Service | L 15 - 1.5 | | | |
| Prerequisites: FSDT1102, FSDT1104. Corequisite: FSDT1115. |
| A study of the server’s job, types of establishments, and different types of service, including French, Russian, English, American, Banquet, Family-Style, Buffets, and more. Current issues such as embracing diversity, preventing harassment and maintaining a good work place environment, taking reservation, preparing the dining room, greeting and serving the guests to presentation of the check and how to troubleshoot potential problems. |

| FSDT1115 | Meal Service Lab | L - 15 .5 | | | |
| Prerequisites: FSDT1102, FSDT1104. Corequisite: FSDT1114. |
| Serving dinners/luncheons for Food Production II, catering events, and utilizing public relation skills. |

| FSDT1118 | Food Purchasing | L 40 - 4 | | | |
| Prerequisite: FSDT1104, FSDT1110 or related work experience. |
| Corequisite: FSDT1119. |
| Study of the principles of purchasing and quantity purchasing of fresh fruits and vegetables, dairy products, cereal products, fish, poultry, meat, convenience foods, beverages. Pricing of all food products and recipes. |

| FSDT1119 | Food Purchasing Practices | L 15 - 1.5 | | | |
| Prerequisites: FSDT1104, FSDT1110 or related work experience. |
| Taken simultaneously with FSDT1118. |
| Awareness of quantity food purchasing including field trips to various purveyors and speakers. |

| FSDT1122 | Beverage Selection & Management | L 20 - 2 | | | |
| Prerequisite: FSDT1115. |
| Instruction given in responsible alcohol service techniques and to enhance the knowledge of liquor laws. Discussion on how to taste or drink wine, food with wine, proper maintenance of wine, different varietals, production of wine, beer and spirits, maintenance of alcohol inventories, cost control and profitability. |

| FSDT1126 | Food Operations and Management | L 30 - 3 | | | |
| Prerequisites: FSDT1102, FSDT1104, FSDT1105, FSDT1110, FSDT1111, FSDT1118 and FSDT1119. Corequisite: FSDT1127. |
| Course work in menu planning, menu descriptions, recipe writing, waste studies, portion and production controls, forecasting, and pricing. Preparation for Food Production II. |

| FSDT1127 | Food Operations and Management Lab | L - 60 2 | | | |
| Prerequisites:FSDT1102, FSDT1104, FSDT1105, FSDT1110, FSDT1111, FSDT1118 and FSDT1119. Corequisite: FSDT1126. |
| Applying principles of management function, including menu planning, inventory, purchasing, forecasting, pricing, marketing, cashing, and food sales for the cafeteria production. |

| FSDT1130 | Food Service Management | L 30 - 3 | | | |
| Corequisite: FSDT1131. |
| Application of management principles to food service operations, regulations governing the operation of a food service establishment and role and function of a leader in food service. |

| FSDT1131 | Food Service Management Lab | L - 45 1.5 | | | |
| Corequisite: FSDT1130. |
| Application of management techniques including orientation, job descriptions and schedules, evaluations, marketing techniques and other management related principles. |

| FSDT1138 | Food Cost Control | L 40 - 4 | | | |
| Prerequisite: FSDT1130. |
| Application of accounting and record keeping. Teaches the necessity of controlling costs in all facets of an operation. Overview of food, beverage and labor control. Detailed look at food costs, controlling operation and sales. Operation costs and sales, discussion of labor cost control. |

| FSDT1150 | Selection of Protein Products | L 30 - 3 | | | |
| Prerequisites: FSDT1104 |
| Coursework in identification, selection and cooking techniques of primal and retail cuts of meat, poultry, and fish. |
FSDT1204  Artistry for Baker  L 10 20 1.5
Prerequisite: FSDT1105. Corequisite: FSDT1111.
Cake decorating using basic techniques, butter-cream frosting and royal icing.

FSDT1208  Advanced Culinary Fundamentals I  L 20 - 2
Prerequisites: FSDT1104, FSDT1105. Corequisite: FSDT1110, 1111 and 1209.
Knife skills, sharpening techniques, French terminology, herb and spice identification, garnish, fabrication of poultry, game, seafood, cheese classification, and origins, leading sauces, soups, tableside cooking.

FSDT1209  Advanced Culinary Fundamentals I Lab L - 30 1
Prerequisites: FSDT1104, FSDT1105. Corequisite: FSDT1110, 1111 and 1208.
Practice in preparation of specialty food products related to topics discussed in FSDT1208.

FSDT1214  Advanced Culinary Fundamentals II  L 20 - 2
Prerequisites: FSDT1104, and FSDT208, FSDT1208 or related work experience. Corequisite: FSDT1110, 1111, 1209 and 1215.
Beef identification, moist/dry heat and combination cooking. Derivative sauces, pan sauces, vegetables, starch and grains, liquors origins and flavors, braising and stewing, mystery baskets, ice carving.

FSDT1215  Advanced Culinary Fundamentals II Lab L - 30 1
Prerequisites: FSDT1104, 1105, 1110, 1111, 1208 and 1209. Corequisite: FSDT1214.
Advanced practicum preparation of specialty food products related to topics discussed in FSDT1214.

FSDT1218  Baking/Pastry Fundamentals I  L 10 30 2
Prerequisites: FSDT1104 and FSDT1110.
Formulas and techniques for American, European and Artesian breads, laminate doughs, quick breads, yeast and cake doughnuts, pies, cake mixing and assembling and fancy cookies.

FSDT1219  Baking/Pastry Fundamentals II  L 10 30 2
Prerequisite: FSDT1218.
Students will learn various techniques for pastries and prepare quality finished products Comparable to those done by professional Pastry Chefs in the industry.

FSDT1304  Introduction to Medical Nutrition Therapy  L 15 - 1.5
Prerequisites: FSDT1350.
Introduction to medical nutrition therapy and its importance. Includes working with the healthcare team, nutrition screening and education, continuous quality improvement and menu planning.

FSDT1305  Introduction to Medical Nutrition Therapy Practicum  L - 15 .5
Prerequisite: FSDT1350. Corequisite: FSDT1304.
Introduction of basic principles of medical nutrition therapy, community-based food and nutrition and the practice of dietetics.

FSDT1308  Nutrition II for Dietetics  L 30 - 3
Prerequisite: FSDT1350.
Study of the chemistry of nutrients, digestion, absorption and the relationship of food to health throughout the lifecycle, including community nutrition and cultural diversity.

FSDT1309  Nutrition II for Dietetics Practicum  L - 30 1
Prerequisite: FSDT1350. Corequisite: FSDT1308 or special permission.
Application of nutrition of various age groups. Develop awareness of community services for nutrition, including religious, cultural and legislative concerns.

FSDT1312  Medical Nutrition Therapy I  L 20 - 2
Prerequisites: FSDT1330, FSDT1304, FSDT1305, FSDT1308 and FSDT1309.
Corequisite: FSDT1313.
MNT emphasizing the nutrition care process, techniques for interviewing clients, nutrition screening, nutrition support, and MNT concerns related to obesity, diabetes, trauma and cultural/religious diversity.

FSDT1313  Medical Nutrition Therapy I Practicum  L - 30 1
Prerequisites: FSDT1330, FSDT1304, FSDT1305, FSDT1308, FSDT1309.
Corequisite: FSDT1312.
Patient interview, diet history, nutrition screening, medical record interpretation and team approach to MNT. Emphasis on long-term care facilities.

FSDT1350  Basic Nutrition  B/L 45 - 4.5
The study of nutrients, digestion, absorption, metabolism, fitness, consumer concerns, food safety, nutrition throughout the life cycle, including cultural influences on food selection. The relation of nutrition in relation to disease and world hunger is explored.

</table>
COURSE DESCRIPTIONS

GDMA • Graphic Design | Media Arts

GDMA1118 Introduction to Graphic Communication  L  25  15  3
This course provides overview of the components / areas of Graphic Communication, including design processes and communication principles.

GDMA1119 The Structure of Graphic Communication  L  40  60  6
The Structure of Graphic Communication explores graphics as it applies to graphic communication with an emphasis on demonstrating the use of the grid and contrast, hierarchy, repetition, alignment and placement.

GDMA1120 Drawing/Illustration I  L  40  60  6
Prerequisite: Program permission.
This course provides a foundation in basic perceptual, expressive and compositional aspects of drawing with an emphasis on perception and realistic rendering (learning to see with accuracy). A variety of black and white drawing media will be explored.

GDMA1121 Photoshop  L  30  45  4.5
This course provides an introduction to basic image manipulation for print and web using Photoshop Elements. Topics will include file formats, layers and layer techniques, non-destructive editing, and saving for screen and print media.

GDMA1122 Introduction to Graphic Design  L  40  15  4.5
Prerequisite: Program permission.
This course is concerned with the basic principles of graphic design. Emphasis is placed on basic design processes and communication principles. Development of creative ideas, evaluation of diverse methods used to produce functional graphic translations will be explored. An introduction to basic technical procedures will also be studied.

GDMA1123 Page Layout  L  40  15  4.5
This course provides an introduction to page layout using software commonly found in office environments such as Microsoft Word and Publisher with an emphasis on grid structure and aesthetics.

GDMA1124 Introduction to Typography  L  40  15  4.5
Introduction to Typography provides the fundamentals of typography and the use of type as well as demonstration of the effective use of typographic elements.

GDMA1126 Typography I  L  40  15  4.5
Prerequisite: Program permission.
This course provides a comprehensive introduction to effective type usage. The course builds upon the extensive language and practice of typography and its application. Typographic principles are combined with a general history, both aesthetic and technical. The impact of legibility and readability will be investigated in relation to a student’s choice of selecting and applying type and integration with related design elements.

GDMA1136 Computer Graphics I  L  40  60  6
Prerequisite: Program permission.
Computer Graphics I begins with an introduction to the Macintosh computer and operating system, then moves to the basics of working with Adobe InDesign, Adobe Photoshop, and Adobe Illustrator. This course teaches page layout, methods of formatting and controlling type, working with raster-based and vector-based images, plus methods for efficient file management and production.

GDMA1230 Typography II  L  40  15  4.5
Prerequisite: GDMA1126.
This course examines typographic issues which emphasize the basic typographic areas of: historical, technical, and formal. Students study letterform and typographic usage as well as research and writing about typographic design. Project content includes typographic history, letterform development, and changing technology. This course provides students with a fundamental working knowledge of effective typographic methodology.

GDMA1234 Computer Graphics II  L  40  60  6
Prerequisite: GDMA1136.

GDMA1238 Drawing/Illustration II  L  40  60  6
Prerequisite: GDMA1230.
This course examines way to incorporate drawings and illustrations into graphic design work by exploring various media including pencil, ink, watercolor, and experimental materials alongside with conversion to vector art. Projects will include studies of the human form, portraiture, expressive line making, and hand lettering.

GDMA1240 Publication Design  L  40  15  4.5
Prerequisite: GDMA1126.
The aesthetics of type and image is the core of graphic design. Virtually all aspects of the printed word and image are investigated and considered. The class focuses on the process by which visual communication ideas are developed, edited, and presented. Projects include magazine, newsletter, brochure, poster and financial/annual report design with an emphasis on the structure of layout, typography and image.

GDMA1343 Video Production/Editing  L  40  15  4.5
Prerequisite: GDMA1124.
This course introduces students to the basic principles of video shooting and techniques of video production and editing using “Final Cut” with an emphasis on video use for the Internet.

GDMA1354 Color Theory  L  30  45  4.5
Prerequisite: GDMA1234.
This course is a study of color beginning with the color theories of Munsell, Albers, and others. Exercises to develop a sensitivity to color phenomena and color characteristics are studied. Mixing and matching of pigmented color as well as other sources of color are explored. Emphasis is placed on color as a tool for use in RGB and CMYK color applications for the graphic designer.

GDMA1356 Photography & Digital Imaging  L  40  60  6
Prerequisite: GDMA1136.
This course is an introduction to photography as a creative medium. An exploration of the technical issues related to camera operation, control of light, lenses, film/recording and digital learning will be emphasized. In addition to learning photographic skills, the focus of the course will be devoted to the wide variety of creative image making strategies employed by photographers over the past 180 years using digital methods. A portion of this course will include the use of Photoshop as an image manipulation tool.

GDMA1455 Design Portfolio Development  L  40  60  6
Prerequisite: GDMA1230.
In this course students will study and explore plan strategies for the development of their personal design portfolios. An emphasis will be placed on development of creative problem solving and demonstrating effective visual communication in unique and personal ways. Pro bono design projects will be an important element of this course.

GDMA1456 Environmental Design  L  40  15  4.5
Prerequisite: GDMA1230.
In this course students will use the environmental sign to explore the aesthetics of sign and symbol. Students will explore and create applications in 2D and 3D environmental and exhibition design with an emphasis on effective communication. An emphasis will be placed on function and craft (execution).

GDMA1457 Interactive Design  L  40  15  4.5
Prerequisite: GDMA1485.
Interactive Design focuses on development of strong concepts for interactive applications such as kiosks, DVD menus, and portable device applications. This will include the process of developing and effectively communicating an idea through sketches, storyboards, illustrations, and presentations.

</table>

**Course Descriptions**

**GEOG • Geography**

**GEOL • Geology**

**GERM • German**
GLST • Global Studies

GLST2980 Global Studies L 45 - 4.5
This Study-Abroad course will consist of interdisciplinary lecture topics designed to address areas of cultural, historical, and major political concepts and controversies that have developed in the target country (ies). The course is under the guidance of the global studies coordinator. Students will read literature, and original documents from the target country and will visit actual sites of historical and cultural significance. Students will be exposed to national, comparative, and international culture and politics.

HIMS • Health Information Management Systems

HIMS1102 CPT Coding L 45 - 4.5
Prerequisites: The following courses must be passed with a minimum grade of C+: BIOS1140 or BIOS1220 and MEDA1201 and MEDA1404. (or permission)
Study and application of the HCPCS coding systems and their uses in various reimbursement schemes. Practical application of coding principles provided throughout by use of exercises and patient records.

HIMS1103 ICD-9-CM Coding L 60 - 6
Prerequisites: C+ or higher, MEDA1101, BIOS1140 or BIOS1220 or MEDA1404 (or by permission)
Student will study and apply ICD9-9-CM principles in both the inpatient and outpatient setting. Study of the prospective payment system and the coder’s role in that system. Practical experience provided through the use of exercises and patient records.

HIST • History

HIST1000 Western Tradition I B/L 45 - 4.5
Development of Western civilizations from the origins of the human race to the Renaissance, and the discovery of America, including examination of the political, social, economic, cultural, and religious components.

HIST1010 Western Tradition II B/L 45 - 4.5
Development of Western civilizations from the Reformation to the present, including examination of the political, social, economic, cultural, and religious components.

HIST1810 Survey of Russian History B/L 45 - 4.5
Study of the four major periods of Russian history — the Kievan era, the rise of Moscow, the Romanov period and Soviet Russia. Emphasis on political, social, cultural and economic characteristics.

HIST1820 Survey of Asian History B/L 45 - 4.5
Survey of Asian history. Political, social, cultural and economic development of China, Japan and Southeast Asia from ancient to modern times.

HIST2010 American History I (Early America) B/L 45 - 4.5
Survey of American history from the age of discovery through the Civil War. Emphasis on political, economic, and social problems in the growth of the American nation.

HIST2020 American History II (Late America) B/L 45 - 4.5
Survey of major political, social, cultural and economic developments since 1877. Industrialization and urbanization, the rise of the United States as a world power, the New Deal and World War II, the postwar years, civil rights struggles, the Vietnam era and contemporary America.

HIST2100 World History to 1500 CE B/L 45 - 4.5
Survey of the major political, social, cultural and economic developments of African, American, Asian, European, and Middle Eastern societies from the origins of civilization to the Early-Modern era (1500). Emphasis is placed on the comparison, interaction, and diversity of the world’s major regions.

HIST2110 World History since 1500 CE B/L 45 - 4.5
Survey of the major political, social, cultural and economic developments of African, American, Asian, European, and Middle Eastern societies from the Early-Modern era to the present. Emphasis is placed on the comparison, interaction, and diversity of the world’s major regions.

HIST2799 Special Topics in History B/L 45 - 4.5
Topics vary each term. The purpose of this class is to explore a specific topic or period in history in greater detail, to provide students with a deeper understanding and appreciation of historical events.

HIST2960 Survey of African American History L 45 - 4.5
Overview of the major political, social, cultural, and economic themes in the African American experience from the origins of the Atlantic Slave Trade into the late twentieth century.

HLTH • Health

HLTH1010 Introduction to Health B 45 - 4.5
Survey of major health problems, diseases and their prevention; drug and alcohol abuse; family planning and birth control; mental health; consumer protection and physical fitness. Issues of individual health choices.

HMRS • Human Services

HMRS1101 Human Services Concepts L 45 - 4.5
Introduction to the Human Services field including definitions, team planning, community resources, worker roles, and social role valorization.

HMRS1102 Counseling Theories & Techniques L 35 30 4.5
Study of functional theories, principles, and techniques of counseling: active listening and problem-solving. Practice in techniques and theories.

HMRS1105 Critical Thinking in Human Services L 45 - 4.5
Study of critical thinking in verbal and non-verbal problems, using photographs, cartoons, descriptive assignments, report assignments, analyses, and arguments. Course will use reading and writing assignments to connect critical thinking concepts to everyday problems. A practical application of materials will be presented.

HMRS1109 Pre-Practicum Education L 20 75 4.5
Prerequisites: HMRS1102 and HMRS1105.
Screening course for entry into practicum education. Methods of approaching clients, basic communication, and employee values and skills.

HMRS1110 Practicum and Seminar 1 L - 135 4.5
Prerequisites: HMRS1109, Current AHA Healthcare provider CPR, First Aid, Human Services declared and permission.
Practicum education scheduled throughout the program. Under supervision and independently, work with selected clients and demonstrate acquired skills and principles studied in the classroom. A required seminar meets five times per quarter. Student and faculty will discuss the application of theory to practice, share resources and discuss trends in the field.

HMRS1201 Health Foundations L 45 - 4.5
Health concerns of the Human Services profession. Body systems, functional aids, activities of daily living, seizure management and medications.

HMRS1202 Behavior Therapy L 45 - 4.5
Behavioral techniques in the Human Services field. Skills needed for developing, implementing, and monitoring behavioral programs.

HMRS1210 Practicum and Seminar 2 L - 135 4.5
Prerequisites: HMRS1110, Current AHA Healthcare provider CPR, First Aid, Human Services declared and permission.
For course description, refer to HMRS1110 Practicum and Seminar 1.

HMRS1302 Crisis Intervention L 45 - 4.5
Prerequisite: HMRS1102.
Models for understanding people and their problems including crisis counseling.

HMRS1310 Practicum and Seminar 3 L - 135 4.5
Prerequisites: HMRS1110, HMRS1210, Current AHA Healthcare provider CPR, First Aid and Human Services declared and permission.
For course description, refer to HMRS1110 Practicum and Seminar 1.

HMRS1311 Practicum A & D and Seminar 1 L - 150 5
Prerequisites: HMRS1110, HMRS1210, Current AHA Healthcare provider CPR, First Aid, Human Services declared and permission.
Intensive counseling experience in the field of alcoholism/drug abuse. Under supervision of a certified Alcohol and Drug Abuse counselor, students perform all twelve core functions required for State of Nebraska certification. Seminars will be held every two weeks. Students and faculty will discuss the application of theory to practice, share resources, and discuss trends in the field.
HMRS1320 Multicultural Competency  
**Prerequisite:** HMRS1105  
Understanding of self in viewing culture, including dominant and non-dominant culture, power, and privilege. Overview of various culture and groups.

HMRS1355 Strategies for Relaxation  
**Prerequisite:** HMRS1102 and 1320.  
Methods used to increase relaxation, reduce muscular tension, and alleviate stress. Techniques are adaptable to personal or client use. Includes progressive relaxation, imagery, visualization, meditation, rational emotive, and self hypnosis strategies.

HMRS1357 Multicultural Counseling  
**Prerequisites:** HMRS1102 and 1320.  
Understanding of cultural sameness and differences, and effect on human experience. Historical, political, social, and economic influences. Special counseling techniques applicable to minority groups and variations from traditional counseling.

HMRS1402 Group Theory & Process  
**Prerequisite:** HMRS1102 or basic counseling skills.  
Small group process dynamics and theory in an effort to better understand the workings of small groups.

HMRS1403 Assessment, Case Planning/Management & Professional Ethics for A & D  
**Prerequisites:** HMRS1102 and 1320.  
Case work skills of assessment, interview techniques, treatment decisions, case presentation, and referral and follow-up for those in alcohol and drug fields. Use of computers in record keeping. Professional ethics and issues.

HMRS1404 Introduction to Social Work  
**Prerequisite:** HMRS1102  
Introduction to fields of professional social work, including roles, philosophy, ethics, values, and competencies. Career expectations and diversity issues.

HMRS1405 Case Management & Ethics for Human Services  
**Prerequisite:** HMRS1102  
Case work skills of assessment, interviewing, case presentation and referral, and follow-up. Use of computers in record keeping. Professional ethics and issues. For general Human Services field.

HMRS1410 Practicum A & D and Seminar  
**Prerequisites:** HMRS1110, HMRS1210, HMRS1310, Current AHA Healthcare provider CPR, First Aid, Human Services declared and permission.  
For course description refer to HMRS1110 Practicum and Seminar 1.

HMRS1411 Practicum A & D and Seminar  
**Prerequisites:** HMRS1110, HMRS1210, HMRS1311, Current AHA Healthcare provider CPR, First Aid, Human Services declared and permission.  
For course description refer to HMRS1131, Practicum A & D Seminar 1.

HMRS2360 Women’s Issues in Human Services  
**Prerequisites:** HMRS1102 and 1320.  
Needs and expectations of women as clients and service providers in Human Services agencies. Philosophy, socialization, self image, equity, child care, alcohol and drug, and other addictive disorders, minority women, and health and legal issues.

HMRS2361 Domestic Abuse  
**Prerequisite:** HMRS1102  
Recognition of signs of domestic abuse (physical, emotional or sexual), the cycle of violence, and community interventions.

HMRS2362 Child Abuse  
**Prerequisite:** HMRS1102  
Definitions of child maltreatment (emotional, physical, sexual), cultural factors, recognition of abuse/neglect, family dynamics, reporting obligations, treatment interventions and community resources.

HMRS2363 Death, Dying, Grieving & Loss  
**Prerequisites:** HMRS1102 and 1320.  
Process of loss and grief from the perspective of the Human Service provider/client relationship. Recognizing loss, stages of grieving, support groups, and letting go and going on.

HMRS2365 Mental Illness & Family Issues  
**Prerequisite:** HMRS1102  
Scope and magnitude of mental illness, specifically schizophrenia, major depressive disorder, and bipolar disorder. Historical review of mental illness, cultural issues, stigma, and discrimination. Specific focus on the symptoms, interventions and treatment as well as effects on the sense of self and the family.

HMRS2501 Developmental Disabilities  
**Prerequisite:** HMRS1102  
Nature, causes, and factors which influence the delivery of services for a select group of developmental disabilities (cerebral palsy, autism and learning disabilities). Nature, causes, and factors which influence the delivery of services for a select group of developmental disabilities: attention deficit hyperactive disorder, cerebral palsy, autism, learning disabilities, oppositional defiant disorder, conduct disorder, and Tourette’s Syndrome.

HMRS2502 Leadership, Activities & Recreation in Human Services  
**Prerequisites:** HMRS1110, HMRS1210, HMRS1310, Current AHA Healthcare provider CPR, First Aid, Human Services declared and permission.  
For course description refer to HMRS1110 Practicum and Seminar 1.

HMRS2510 Practicum and Seminar  
**Prerequisites:** HMRS1110, HMRS1210, HMRS1310, HMRS1410, Current AHA Healthcare provider CPR, First Aid, Human Services declared and permission.  
For course description refer to HMRS1110 Practicum and Seminar 1.

HMRS2511 Practicum A & D and Seminar  
**Prerequisites:** HMRS1110, HMRS1210, HMRS1311, HMRS1411, Current AHA Healthcare provider CPR, First Aid, Human Services declared and permission.  
For course description refer to HMRS1311, Practicum A & D Seminar 1.

HMRS2516 Family Systems  
**Prerequisite:** HMRS1105  
A look at family dynamics including co-dependency, family strategies, models of family functioning and family developmental stages. Evaluation and assessment, treatment, and self-help groups will be discussed.

HMRS2517 Medical & Psychosocial Aspects of Alcohol/Drug Use, Abuse & Addiction  
**Prerequisite:** HMRS1102  

HMRS2518 Clinical Treatment Issues in Chemical Dependency  
**Prerequisites:** HMRS1102 and 1320.  
Study of treatment issues specific to alcohol/drug abuse. Diagnosis, adult children of alcoholics, denial, family disease concepts, cultural dimensions. Treatment issues with adolescents, women, elderly, gay/lesbian/bisexual clients. Treatment modalities, strengths, and weaknesses. Selection of appropriate modality.

HMRS2521 Applied Behavior Analysis  
**Prerequisite:** HMRS1102  
Review of Behavior Therapy application includes exposure therapy, modeling and skills training, cognitive restructuring, behavioral medicine, and psychological disorders.

HMRS2523 Human Sexuality  
**Prerequisite:** HMRS1102  
Introduction to human sexuality and sexual function/dysfunction. Attitudes and values about sexuality.

HMRS2610 Practicum and Seminar  
**Prerequisites:** HMRS1110, HMRS1210, HMRS1310, HMRS1410, HMRS2510, Current AHA Healthcare provider CPR, First Aid, Human Services declared and permission.  
For course description refer to HMRS1110 Practicum and Seminar 1.

HMRS2611 Practicum A & D and Seminar  
**Prerequisites:** HMRS1110, HMRS1210, HMRS1311, HMRS1411, HMRS2511, Current AHA Healthcare provider CPR, First Aid, Human Services declared and permission.  
For course description refer to HMRS1311, Practicum A & D Seminar 1.

**HORT • Horticulture**

HORT1130 Introduction to Horticulture  
**Prerequisite:** HMRS1105  
Introductory course designed to feature basic aspects and techniques of the horticulture industry. Emphasis will be placed on making the student aware of the different fields with the industry and the proper growing environment for indoor and outdoor horticulture crops.

HORT1132 Horticulture Plant Identification & Selection  
**Prerequisite:** HMRS1105  
Study and identification of a variety of horticulture plants used in landscape design, greenhouses, and nurseries in the Midwest.

HORT1136 Plant Propagation  
**Prerequisite:** HMRS1105  
Introductory study of plant propagation and reproduction. Areas of focus include vegetative reproduction, cross pollination and grafting procedures.

HORT1154 Greenhouse Management  
**Prerequisite:** HMRS1105  
Study of greenhouse operations including ventilation, lighting, and temperature control. Focuses on economic considerations of operating and maintaining a greenhouse.

**HUMS • Humanities**

**HUMS1100** Introduction to the Humanities  
B/L 45 - 4.5  
Prerequisite: Eligible for ENGL1010 or instructor's approval.  
Survey course focusing on art, music, theatre, film, dance, architecture, and philosophy which examines the unfolding of the humanistic traditions of the West through the landmarks of Western cultural traditions in order to reawaken our sense of wonder and curiosity about the meaning of life. Criteria to evaluate our own times and situation and in addition enriches our historical perspectives. Shows how the various arts intersect, influence and are influenced by their times.

**HUMS1200** Contemporary Arts & Ideas  
B/L 45 - 4.5  
Prerequisite: Eligible for ENGL1010 or instructor's approval.  
Global and multicultural survey of the fine arts of architecture, drama, music, painting, and sculpture through the 21st century. Emphasis on the effect of revolutionary artistic styles on society. Includes attendance at live performances and art galleries.

---

**HVAC • Heating, Ventilation, Air Conditioning & Refrigeration Technology**

**HVAC1109** Electrical Fundamentals  
M 42 8 4  
Study of basic electricity for use in the HVAC/R trades, including DC fundamentals, focusing on AC electrical theory, understanding AC electrical circuits, interpreting AC electrical wiring schematics, and usage of test instruments.

**HVAC1131** Refrigeration Theory I  
M 50 - 5  
Basic refrigeration fundamentals with emphasis on heat energy, heat transfer, temperature, pressure, refrigerants, refrigerant oils, stratospheric ozone, greenhouse effect, and EPA guidelines.

**HVAC1132** Piping Practices  
M - 100 3  
Study of materials and methods used in the installation and service of refrigeration, air conditioning and plumbing equipment. Copper and steel pipe soldering, brazing, copper-tube bending, and installation procedures performed by students. Industrial safety, hazard communications, HVACR standards, and material safety data sheets are studied.

**HVAC1133** Plumbing Theory/Print Reading  
M 50 - 5  
Introduction to blueprint reading, plumbing tools, materials, and practices for residential applications.

**HVAC1226** Refrigeration Laboratory I  
Prerequisite: HVAC1109, HVAC1131 AND HVAC1132.  
Basic refrigeration fundamentals with emphasis on physically constructing, leak checking, evacuating, electrical wiring, start up and performing system checks on a basic refrigeration system. Assembly of an electrical lab trainer also offered.

**HVAC1230** Electrical Principles & Practices  
Prerequisites: HVAC1109 and HVAC1131.  
M 10 40 2  
Study of controls and their application. This includes series and parallel circuits, electrical symbols and electrical schematics, ohms law, Kirchhoff's voltage and current laws, and control transformers as applied to residential and light commercial air conditioning.

**HVAC1234** Plumbing Code  
Prerequisite: HVAC1133.  
M 50 - 5  
Study of uniform plumbing code. Piping practices, pipe fittings and plumbing fixtures. Drains waste and vent systems are designed and applied to residential structures.

**HVAC1237** Refrigeration Theory II  
Prerequisites: HVAC1109 and HVAC1131.  
M 50 - 5  
Study of basic mechanical components used in the operation of basic refrigeration systems.

**HVAC1251** Hydronic Theory  
M 35 15 4  
Study of the classifications and descriptions of hydronics systems and the component parts which make up a hydronic heating system including a description of each part, its function and how it is rated.

**HVAC1330** Residential HVAC Systems & Controls I  
Prerequisite: HVAC1230.  
M 40 10 4  
Emphasis on control circuits and electrical schematics, HVAC sensors, furnace components and central air conditioning components. Basic HVAC system installation, maintenance and operating sequences are discussed. Safety rules for HVAC technicians are also presented.

**HVAC1331** Manual J/Manual D  
M 40 60 6  

**HVAC1336** Sheet Metal Lab  
M - 100 3  
Introduction to pattern development and fabrication of fittings used in the heating/air conditioning industry. Layout techniques include radial line development and triangulation.

**HVAC1343** Refrigeration Theory III  
Prerequisites: HVAC1226, 1230, & 1237.  
M 35 15 4  
Emphasis on commercial refrigeration controls, electrical wiring schematic, theory application of different refrigeration systems, methods of defrost, basic operation of cuber and flaker ice machines.

INFO2697 Networking Capstone  
Prerequisites: INFO2631 and INFO2695.
Project-based course implementing and maintaining network infrastructures.

INFO2698 Programmer Portfolio Development  
Prerequisite: INFO2594.
Using previous course training, students develop a capstone portfolio of programs to present to potential employers. Students will be expected to document and defend their portfolio content.

INFO2800 Advanced Technologies  
Prerequisite: Permission of Program Chair.
Study of advanced technology topics in computers.

INSU • Insurance

INSU1100 Fundamentals of Insurance I  
Focuses on the basic concepts in risk management and insurance to include: legal principles in risk and insurance, life, health, property and liability insurance; annuities, retirement and financial services.

INSU1120 Principles of Underwriting and Claims  
Prerequisite: INSU1100
This course is designed to provide a knowledge foundation about insurance underwriting and claims. Students will learn to evaluate information for usefulness and profitability of risk and to select proper underwriting techniques for implementing, monitoring, and correcting decisions. Students will learn the claims investigation process and dispute resolution techniques.

INSU1150 Fundamentals of Insurance II  
Prerequisite: INSU1100
Focuses on the advance concepts in risk management and insurance to include: employee group life, health and retirement plans and commercial property and liability insurance, financial services and insurance company operations and regulations.

JDAT • John Deere Tech

JDAT1140 John Deere Fundamentals & Safety  
The proper use and care of power and hand tools. Encompasses micrometers, dial indicators, torque wrenches, twist drills, tap, dies, screw extractors, thread restoration, tube fittings, and fasteners. Safety, product labels and material safety data sheets, and handling of hazardous materials will be explained. Safe forklift operation will be covered.

JDAT1142 John Deere Orientation  
This course provides an introduction to the John Deere product line, manuals, time management, engine classifications, and serial numbers. Warranty, shop tickets, and John Deere service department policy and procedures are explained as well as an introduction to John Deere Service ADVISOR.

JDAT1146 John Deere Electrical/Electronics I  
Basic electrical principles and applications of magnetism, electromagnetism, and the theory of power transmission from engine to traction wheels. Complete disassembly, construction, and safe operation and testing of lead acid batteries is part of this class. Principles of operation, testing, and repair of ignition systems, crankcase systems, and charging systems are included.

JDAT1242 John Deere Engine Repair  
Prerequisites: JDAT1140 through JDAT1146 & WELD1185.
This course deals with basic physical principles, operation and construction of two- and four-stroke cycle engines. It includes ignition timing of four-stroke cycle engines to factory specifications. Basic diagnostic engine test procedures will be practiced on spark and compression ignition engines. This course also covers the types of internal combustion engine cooling systems, lubrication systems, air intake systems, and exhaust systems. Also covered is the basic theory, construction and operation of the engine valve train and the cylinder head, including valve timing and adjustments of actual John Deere engines. Basic repair procedures and operation of valve and seal reconditioning will be performed on actual cylinder heads. Also included are design, construction, operation, and service methods for the following engine components: crankshafts, connecting rods, piston assemblies, cylinder liners, bearings, and related engine accessories. Lab activities include disassembly, inspection, measurements, reassembly, and adjustments performed on John Deere engines. Shop safety is stressed during lab activities.

JDAT1244 John Deere Fuel Systems  
Prerequisites: JDAT1140 through JDAT1146 & WELD1185.
Operation, theory, testing, and repair methods for spark ignition engine fuel system along with normal and abnormal combustion theory. Fuel production, testing, storage, and handling are also covered. The theory of diesel fuel injection system includes injection pump and nozzle components, fuel flow, and fuel filtering systems. Maintenance procedures including proper removal, installation, and timing of fuel injection pumps is also covered.

JDAT1246 John Deere Tractor Performance  
Prerequisites: JDAT1140 through JDAT1146 & WELD1185.
This course deals with proper performance of John Deere agricultural tractors. Techniques and procedures for determining percentage of tractor slippage and ballast are covered. Engine performance test equipment, procedures, results, and corrections will be covered.

JDAT1440 John Deere Heating/Air Conditioning  
Prerequisites: JDAT1140 through JDAT1370.
Theory, operation, and repair of John Deere air conditioning, heating, and ventilation systems including operation of recovery/recycling equipment. Retrofit procedures for converting equipment from R-12 to R134A refrigerant is also covered. Operation and repair of Climate Control Systems as used on John Deere Agricultural Equipment is included.

JDAT1442 John Deere Electrical/Electronics II  
Prerequisites: JDAT1140 through JDAT1370.
Review of electrical fundamentals and safe operation of meters is included. An introduction to combine and tractor electrical systems are included as well as troubleshooting techniques for circuit diagnosis using electrical schematics. Testing electrical circuits with meters is part of the lab exercises. Basic CAN BUS and AMS components are included.

JDAT1446 John Deere Hydraulics I  
Prerequisites: JDAT1140 through JDAT1370.
Introduction to basic hydraulic concepts, principles, symbols, and safety. Theory and construction of open-center and closed-center systems, pumps, valves, cylinders, motors, accumulators, and testing equipment as used on Waterloo built row-crop tractors.

JDAT1448 John Deere Power Trains I  
Prerequisites: JDAT1140 through JDAT1370.
Theory, function, and operation of gears, chains, clutches, planetary gears, drive lines, differentials, and transmissions. Design, construction, operation, and service methods of bearings, seals, and shafts.

JDAT1901 Dealer Cooperative Experience  
On-the-job experience in a John Deere agricultural dealership. Application of skills and concepts learned in previous quarters. Supervised by Southeast Community College-Milford Campus John Deere Tech Instructors.

JDAT2540 John Deere Hydraulics II  
Prerequisites: JDAT1140 through JDAT1448.
John Deere row-crop tractor theories of operation of low pressure, high pressure, and control systems. Theory and function of load sense systems, cooling lube circuits, and pilot oil. Diagnostic testing and repair of hydraulic components and systems.

JDAT2542 John Deere Power Trains II  
Prerequisites: JDAT1140 through JDAT1448.
Theory of power transmission from engine to traction wheels. Complete disassembly, inspection, and reassembly of John Deere clutches, 2-speed planetary, differentials, final drives, mechanical front-wheel drive, power takeoffs, and transmissions as used in Waterloo built row-crop tractors. Syncro-range, quad-range, and powershift transmission, repair, adjustment, and diagnostics.

JDAT2740 John Deere Hydraulics III  
Prerequisites: JDAT1140 through JDAT2670.
Principles, function, and application of low and high pressure systems as used in four wheel drive, 6000, and 7000 series John Deere tractors. Construction, fluid flow and testing of hydraulic components and systems.

Theory of function and operation of power trains as applied to the four wheel drive, 6000, and 7000 series tractors. Two speed planetary, quad-range, and power dividers. Function, repair, and adjustment of the 12 and 24 speed mechanical transmissions, auto-quad, powr-quad, and the 12 speed, 18 speed, and 19 speed powershifts.

Prerequisites: JDAT1140 through JDAT2670.

Study of basic physical principles, operation and construction of two- and four-stroke cycle engines. Ignition timing of four-stroke cycle engines to factory specifications. Basic diagnostic engine test procedures will be practiced on spark and compression ignition engines. This course also covers the types of internal combustion engine cooling systems, lubrication systems, air intake systems, and exhaust systems. This course also deals with the performance of Deere engines. Engine performance test equipment, procedures, results, and corrections will be covered. Safety is stressed.

JDCE1341 | Deere Fuel Systems                    | M        | 30          | 18        | 3.5          |

Operation, theory, testing, and repair methods for spark ignition engine fuel systems along with normal and abnormal combustion theory. Fuel production, testing, storage, and handling are covered. The theory of diesel injection systems is included. The injection pump, nozzle components, fuel flow, and fuel filtering systems. Maintenance procedures including proper removal, installation, and timing of fuel injection pumps is also covered. Safety is stressed.

JDCE1342 | Deere Engine Repair                | M        | 50          | 112       | 8.5          |

Basic theory, construction, and operation of engine valve train and cylinder head. Valve timing and adjustments of Deere engines. Design, construction, operation, and service methods for the following engine components: crankshafts, connecting rods, piston assemblies, cylinder liners, bearings, and related engine accessories. Crankshaft lubricants, lubrication systems, and oil filtration systems. Disassembly, inspection, measurement, reassembly, and adjustments performed on Deere diesel engines.

Safety is included.

JDCE1441 | Deere Advanced Fuel Systems & Engine Diagnostics | M        | 40          | 60        | 6            |

Review of Deere fuel injection systems including the theory, operation, fuel flow, diagnostics, repair procedures and adjustments of the common rail fuel system. Correct procedures for the diagnosis of engine malfunctions are discussed in the classroom. Lab projects are utilized to allow the student to experience engine problems and make the necessary repairs and/or adjustments to correct these malfunctions. Safety training is included.

JDCE1901 | Dealer Cooperative Experience            | M        | -           | 480       | 12           |

On-the-job experience in a John Deere agricultural dealership. Application of skills and concepts learned in previous quarters. Supervised by Southeast Community College-Milford Campus John Deere Tech Instructors.

JDCE2550 | Deere Mechanical Power Trains          | M        | 60          | 40        | 7            |

Theory of power transmission from engine to traction wheels. Function and operation of gears, clutches, planetary gears, drive lines, differentials, and transmissions. Lab exercises will include disassembly, inspection, adjustment, and reassembly of clutches, differentials, final drives, mechanical front-wheel drive, power takeoffs, mechanical, and power shift transmissions. Safety training will be included.

JDCE2551 | Deere Hydraulics                       | M        | 50          | 30        | 6            |

Principles and application of theory, construction, fluid flow, operation, testing, disassembly, inspection, repair, reassembly, and testing of hydraulic components and systems as used in Deere construction equipment. Safety is stressed.

JDCE2552 | Deere Hydrostatic Drives                | M        | 50          | 40        | 6            |

Principles and application of theory, construction, fluid flow, operation, testing, disassembly, inspection, repair, reassembly, and testing of hydrostatic components and systems as used in Deere construction equipment. Safety is stressed.

JDCE2760 | Deere Back Hoes/Landscape Loaders       | M        | 30          | 16        | 3.5          |

Theory, design, uses, principles of operation, adjustments, troubleshooting, and repair of Deere Back Hoes/Landscape Loaders utilizing Service ADVISOR. Students will experience actual operation of equipment as available. Safety training will be included.

JDCE2761 | Deere Excavators                      | M        | 30          | 16        | 3.5          |

Theory, design, uses, principles of operation, adjustments, troubleshooting, and repair of Deere Excavators utilizing Service ADVISOR. Students will experience actual operation of equipment as available. Safety training will be included.
JOUR2880 Multimedia Editing

Advanced study of news writing, photography, and print and online page composition to be published in the campus news source and/or other new media publications as assigned. Intended to be a capstone course for journalism students. Includes assigned work in news writing, photography, audio production, video production and print and online page design. Emphasis is on publishable work. May be taken more than once for credit.

JOUR2900 New Media/Journalism Internship

Internship in new media field or location where new media knowledge and skills are the primary requirements. Guidance from professional staff in employment simulation.

JOUR2980 New Media/Journalism Special Topics

Topics vary. The purpose of this course is to explore a specific topic in new media/journalism. Examples might include advanced photojournalism techniques, community journalism, and social media marketing.

LBST • Laboratory Science Technology

LBST1121 Analytical Chemistry for Technicians I

Prerequisites: LBST1421 and LBST1422 or equivalent. Introduction to classical quantitative chemical analysis emphasizing gravimetric and titrimetric analysis. Sampling and sample preparation, statistical analysis, chemical equilibrium, acid/base and complex ion chemistry, and oxidation-reduction.

LBST1131 Analytical Chemistry Laboratory I

Laboratory course to accompany LBST1121. Practice of concepts learned in LBST1121.

LBST1205 Introductory Biology

Basic biology course emphasizing cellular and molecular biology. Cell structure and function, the nature of heredity and metabolism.

LBST1215 Introductory Biology Laboratory

Laboratory course to accompany LBST1205. Practice of concepts learned LBST1205.

LBST1221 Introduction to Microbiology

Survey course introducing students to various types of microorganisms. Cell structure, history, and growth of microorganisms. Microscopic examination and handling of cultures.

LBST1231 Introduction to Microbiology Laboratory

Laboratory course to accompany LBST1221. Practice of concepts learned in LBST1221.

LBST1421 Survey of Chemistry

Corequisite: LBST1422. A survey course in basic chemistry principles. Topics include properties and structure of matter, names and formulas of inorganic compounds, significant figures and the metric system, moles and equations, solutions, chemical equilibrium, acids and bases, and organic chemistry.

LBST1422 Survey of Chemistry Laboratory

Corequisite: LBST1421. Laboratory course to accompany LBST1421. Practice of concepts learned in LBST1421.

LBST2125 Instrumental Analytical Chemistry

Introduction to instrumental analytical chemistry emphasizing molecular spectroscopy, atomic spectroscopy, gas chromatography, high performance liquid chromatography and potentiometry. Fulfills requirement of Medical Laboratory Technician program only.

LBST2135 Instrumental Analytical Chemistry Laboratory

Laboratory course to accompany LBST2125. Practice of concepts learned in LBST2125.
### COURSE DESCRIPTIONS

#### LSCE • Land Surveying/ Civil Engineering Technology

**This is a course to review basic mathematics and learn algebraic, geometric and trigonometric concepts as they apply in the land surveying field. Topics covered include: 1) geometric definitions and calculations of perimeter, area, and volumes of various basic and composite figures, 2) solving linear equations and systems of equations, 3) graphing linear and quadratic equations, 4) right triangle trigonometry and solving oblique triangles using Law of Sines and Cosines.**

LSCE1324  Concrete Inspection  M  35  15  4
Prerequisite: LSCE1320 and MATH1080 or higher.
Study based on the fundamental principles of cement and concrete. Understanding of cement, concrete, and concrete products as applied to the job. Reasons behind the “why” of cement and concrete. Study of ingredients, placement, and other factors which affect the quality of pavement and structures. Role of the inspector in maintaining quality control of concrete construction projects. Includes Concrete Field Testing Technician Grade I certification through the American Concrete Institute.

LSCE1326  Civil CAD III  M  50 100 8
Prerequisite: LSCE1326 and MATH1080 or higher.
This course introduces Land Desktop software, drawings of subdivision plats and computer aided drafting projects. This course provides the applications of design and layout of a basic plan set. Using Land Desktop surface information, design cross section templates and apply to road design. Determine cut and fill projections. Applying and interviewing for placement, basic preparation for the on-the-job experience, and the explanation of the process used for school supervision and evaluation of the cooperative experience. Unit in basic first aid and CPR training along with certification.

LSCE1900  Internship  M  480 12
Prerequisites: LSCE1320, LSCE1324, LSCE1326, and ENGL1010.
On-the-job experience doing surveying, drafting, or materials testing/inspection with employers. Application of skills and knowledge acquired in previous quarters.

LSCE1901  Cooperative Experience  M  480 12
Prerequisites: LSCE1320, LSCE1324, LSCE1326, and ENGL1010.
On-the-job experience doing surveying, drafting, or materials testing/inspection with employers. Application of skills and knowledge acquired in previous quarters.

LSCE2520  Geodetic Surveying  M  90 60 11
Prerequisite: LSCE1320.
Study of control surveys, state plane coordinates, Photogrammetry, and Global Positioning Systems. Application of field work using GPS for construction staking. Applications of trigonometry are used to solve surveying problems. Continuation of study and application of surveying mathematics.

LSCE2526  Principles of Land Development  M  20 30 3
Prerequisite: LSCE1326.
Principles of land use and development with application to the fields of surveying and civil engineering. Theory and calculations cover transportation, the environment, utility projects, plans and specifications. Includes a study of bridge plan reading.

LSCE2546  Civil CAD IV  M  40 60 6
Prerequisite: LSCE1326.
Study and application of AutoDESK Land Development Desktop engineering software including Civil Drafting Design, Land Desktop, Survey, and Map workspaces. Includes a full cycle of field surveying to finish drawing projects. Study and application of ArcGIS desktop software.

LSCE2620  Boundary Control & Legal Principles  M  40 40 5
Prerequisite: LSCE2520 and SPCH1090, 1110 or 2010.
Study of the advanced methods and equipment for making surveying measurements. Property description, students conduct a record history search at the courthouse. Field search for locating surveying points is completed.

LSCE2626  Civil CAD V  M  20 30 3
Prerequisites: LSCE2546, LSCE2526, and SPCH1090, 1110 or 2010.
Using Land Desktop software, complete drawings using survey field notes, legal descriptions, and city plat drawings. Draw up a mortgage survey. Continuation in the use of the Survey Pro RECON software. Continuation of hand-lettering projects.

LSCE2646  Advanced Land Development Desktop  M  25 75 5
Prerequisite: LSCE2546 and SPCH1090, 1110 or 2010.
Study of advanced computer aided design. Use of engineering software, Autodesk Land Desktop Civil Design, survey map, and Land Desktop work space settings. Surveying field projects in electronic data collection are downloaded into the computer using LDT.

LSCE2667  Land Survey Systems  M  40 30 5
Prerequisite: LSCE2520 and SPCH1090, 1110 or 2010.
Study of the Public Land system of division and the legal descriptions of plots of land, and methods for describing boundaries and locating property. Using a property description, students conduct a record history search at the courthouse. Field search for locating surveying points is completed.
COURSE DESCRIPTIONS

MAAP • Major Appliance Professional Technology

MAAP1110 Electricity for Major Appliances M 50 80 7.5 Overview of magnetism, electricity and electronic fundamentals for the appliance technician including the application of Ohm’s Law in both DC and AC electrical circuits. Interpretation of electrical symbols found in home appliance diagrams, and the use of digital and analog multimeters in troubleshooting problems in series and parallel electrical circuits.

MAAP1112 In Home Customer Relations M 30 - 3 Understanding the concepts of in-home customer service from both the customer’s viewpoint as well as the service company’s viewpoint including standards for the treatment of customers, appliances, the area surrounding the appliance and equipment in the home. Interpersonal skills with regard to customers and co-workers are practiced.

MAAP1114 Electrical Dryer Technology M 30 30 4 The theory and operating principles involved with different brands of residential electric dryers. Advanced troubleshooting techniques of both electrical and mechanical systems will be practiced.

MAAP1118 Gas Dryer Technology M 20 30 3 Prerequisite: MAAP1110. The theory and operating principles involved with different brands of residential gas dryers. Advanced troubleshooting techniques of electrical, mechanical and gas burner systems will be practiced.

MAAP1120 Dishwasher Technology M 40 30 5 Prerequisite: MAAP1110. Theory and operating principles of the electrical, mechanical, soap and water systems involved with different brands of dishwashers, disposers & compactors. Diagnosis and repair of residential dishwashers.

MAAP1124 Top-Loading Washing Machine Technology M 40 57 5.5 Prerequisite: MAAP1110. Washability, soaps, water temperatures, types of clothing, washer designs and water systems. Effective diagnosis and repair of electrical, mechanical and water systems on top-loading machines.

MAAP1126 Front-Loading Washing Machine Technology M 47 71 6.5 Prerequisite: MAAP1110. Washability, soaps, water temperatures, types of clothing, washer designs and water systems. Effective diagnosis and repair of electrical, mechanical and water systems on front loading machines.

MAAP1128 Electric Range Technology M 40 45 5.5 Prerequisite: MAAP1110. Basics of heat cycles, their effect on food items and microwave theory and applications. Diagnosis and repair of conventional residential electric ranges and microwaves.

MAAP1132 Gas Range Technology Prerequisite: MAAP1110. Operation and servicing of gas ovens and cooktops including both LP and natural gas systems. Venting and ventilation and the measurement for carbon monoxide. Burners, control valves and flame ignition systems.

MAAP1136 Domestic Refrigerator Technology M 15 - 1.5 Prerequisite: MAAP1110. Residential refrigerator theory of design and operation as applied to top-mount, side-by-side and built-in household refrigerators. Also covering freestanding ice machines, window air conditioners and portable dehumidifiers for residential households and light commercial applications.

MACH • Machine Tool Technology

MACH1100 Basic Machine Tool L/M 25 60 4.5 Prerequisite: Current declared Academic Transfer – STS option or currently enrolled at UNL in AG or STS education focus. Note: this class does not meet program requirements for Machine Tool.

MACH1121 Manufacturing Processes L/M 50 - 5 Theory and safe operation of machine and hand tools. Covers metrology, five basic machining techniques (drilling, turning, boring, milling, and grinding), tool geometry, speeds, feeds, and cutting fluids.

MACH1122 Machine Tool Lab II L/M 10 190 7 Prerequisites: MACH1110, MACH1121 and MACH1172. Practice using machine tools. Drill press, lathe, milling machine, surface grinder and cylindrical grinder.

MACH1125 Materials of Industry L/M 50 - 5 Introduction to materials (steel, irons, etc.) used in industry. Properties, uses, specifications, availability, heat treatment and tool steel.

MACH1241 Machinery’s Handbook L/M 50 - 5 Introduction to technical area handbooks and problems of design. Use of Machinery’s Handbook for measurement, circle, geometry, allowance and tolerance, keys and keyseats, gearing problems, cutting speeds, and threads and bearing problems.

MACH1250 Computer Aided Drafting (CAD) L/M 20 30 3 Fundamentals of Computer Aided Drafting using AutoCAD computer operating system, AutoCAD menus, AutoCAD settings and drawing setup, draw and edit commands, AutoCAD coordinate system, practice drawings, symbols, prototype drawings and plotting.

MACH1324 Machine Tool Lab III L/M 10 190 7 Prerequisite: MACH1222. Practice using machine tools. Lathe, milling machine, surface grinder, cylindrical, and cutter grinder. Projects for lab work. Introduction to die and mold construction.

MACH1349 Basic CNC L/M 65 35 7.5 Basic theory and laboratory work in basic programming, operation and maintenance of CNC machines. Operation and maintenance of Coordinate Measuring Machines (C.M.M.).

<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>MACH2530</td>
<td>Die Design I</td>
<td>L/M</td>
<td>10</td>
<td>40</td>
<td>2</td>
</tr>
<tr>
<td>Prerequisites: MACH1110 through MACH1454. Study of the design of piercing and blanking dies. Laboratory work in developing and preparing working drawings for a die which the student will construct during the fifth quarter.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>MACH2532</td>
<td>Die Making Lab I</td>
<td>M</td>
<td>10</td>
<td>190</td>
<td>7</td>
</tr>
<tr>
<td>Prerequisites: MACH1110 through MACH1454. Practical experience in construction of metal dies. Two types of dies are built, one from the student's own blueprint designed in Die Design I. Use of form ground and wire EDM (electric discharge machine) construction methods.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>MACH2535</td>
<td>Mold Theory</td>
<td>M</td>
<td>50</td>
<td>-</td>
<td>5</td>
</tr>
<tr>
<td>Prerequisites: MACH1110 through MACH1454. Fundamental processes and basic construction of plastic molds (compression, transfer, and injection), molds for die casting (pressure molding of nonferrous alloys) and rubber molds.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>MACH2537</td>
<td>Injection Mold Design I</td>
<td>M</td>
<td>10</td>
<td>40</td>
<td>2</td>
</tr>
<tr>
<td>Prerequisites: MACH1110 through MACH1454. Basic principles and design of injection molds, gating methods, and runner systems. Study of mold making materials and standard mold bases and components. Use of basic principles and designs in developing plans for a single cavity mold that will be constructed as a laboratory project.</td>
<td></td>
<td></td>

MATH0965 Accelerated Math Brush-Up for MATH1100/B/L/M 20 - 2
Prerequisites: Appropriate placement score and advisor recommendation.
This is a self-paced, computer-assisted, independent study course designed for students whose placement scores in mathematics are high but still indicate the need for improvement of algebra skills in order to be best prepared for MATH1100 Intermediate Algebra, MATH1080 Algebra & Trigonometry, MATH1040 Business Math, MATH1300 Precalculus, or PHYS1150 Descriptive Physics. Students may register for this course at any time, and have until the end of the term during which they register to reach the reading benchmark established by the College.

MATH0980 Geometry B/L 45 - 4.5
Prerequisite: Grade of “C” or higher in MATH0950 or equivalent.
Development of spatial awareness and critical thinking skills. Through use of coordinate geometry, proofs, discovery of properties of lines, angles, polygons, and circles. With the use of Cartesian, coordination of the relationship between algebra and geometry.

MATH0985 Accelerated Math Brush-Up for MATH1150 B/L/M 20 - 2
Prerequisites: Appropriate placement score and advisor recommendation.
This is a self-paced, computer-assisted, independent study course designed for students whose placement scores in mathematics are high but still indicate the need for improvement of algebra skills in order to be best prepared for MATH1150 College Algebra or MATH1180 Elementary Statistics. Students may register for this course at any time, and have until the end of the term during which they register to reach the reading benchmark established by the College.

MATH0999 College Prep Mathematics L 75 - 7.5
Prerequisite: By permission only.
This is an accelerated foundational math course. It will cover key mathematics topics to prepare students for first-year college-level mathematics courses. Topics include foundational-algebra skills and critical math-thinking skills.

MATH1040 Business Math B/L/M 45 - 4.5
Prerequisites: Grade of “C” or higher in MATH0950 or appropriate score on the math placement test.
This course is for the student who needs specific math skills to address financial problems and/or applications. Students will learn mathematics as it relates to retail, payroll, financial analysis, interest earned, and money management. Students may use a calculator and computer to solve a variety of applications.

MATH1050 Thinking Mathematically B/L/M 45 - 4.5
Prerequisite: Grade of “C” or higher in MATH0950 or appropriate score on the math placement test
This course is designed to help student think mathematically. It will cover various topics including critical thinking, logic, geometry, advanced algebra skills, basic trigonometry, statistics and other contemporary topics.

MATH1080 Algebra & Trigonometry B/L/M 45 - 4.5
Prerequisites: Grade of “C” or higher in MATH0950 or appropriate score on the math placement test.
This course will cover a variety of algebra and trigonometry skills. Topics will include: order of operations; powers, exponents, engineering and scientific notation, polynomials, metric prefixes, and logarithms; factoring, quadratic equation; solving absolute value equations, solving two equations/two unknowns; transposing formulas; solving complex fractional equations; word problems involving direct and inverse variation; and formulas from geometry involving perimeter, area, volume, Pythagorean Theorem, and right triangle trigonometry including special triangles; oblique triangle formulas and graphing equations of lines. Relevant applications will be discussed.

MATH1100 Intermediate Algebra B/L 45 - 4.5
Prerequisite: Grade of “C” or higher in MATH0950 or appropriate score on the math placement test.
Study of 2nd year algebra at a college level with emphasis on: Techniques for simplifying algebraic expressions, and solving algebraic equations and inequalities, functions their properties and graphs, complex numbers, graphs of quadratic functions, and systems of equations. May not fulfill the math requirement for associate degrees - check with transfer institution.

MATH1150 College Algebra B/L 45 - 4.5
Prerequisites: A grade of “C” or higher in MATH1100 or appropriate score on the math placement test.
A study of college algebra with emphasis on functions in preparation for advanced math and science coursework. Topics include solving equations and inequalities, graphing and modeling using polynomial, rational, exponential, and logarithmic functions; systems of equations, and analytic geometry. A graphing calculator may be required.

MATH1180 Elementary Statistics B/L/M 45 - 4.5
Prerequisite: “C” or higher in MATH1100 or appropriate score on the math placement test.
Study of descriptive statistics, collection of data, correlation and regression, probability and probability distributions and statistical control. Topics from inferential statistics such as estimates, sampling, hypothesis testing and inferences. Contingency tables. Use of some statistical software packages.

MATH1200 Trigonometry B/L 45 - 4.5
Prerequisite: “C” or higher in MATH1150 or appropriate score on the math placement test.
A study of trigonometry in preparation for advanced math and science coursework. Use of trigonometric functions to establish properties, create graphs, establish identities and formulate, and define inverse trigonometric functions. Use trigonometric functions and their inverses to solve trigonometric equations, and applications. Graphing in polar coordinates, and vector arithmetic.

MATH1300 Precalculus B/L 75 - 7.5
Prerequisites: “C” or higher in MATH1100 or appropriate placement exam score and one year high school geometry, and two years high school algebra.

MATH1400 Applied Calculus B/L 45 - 4.5
Prerequisite: “C” or higher in MATH1150 or appropriate score on the math placement test.
Fundamentals of differential and integral calculus with emphasis on applications from business, economics and the life sciences. Not open to pre-engineering or pre-architectural majors.

MATH1600 Calculus & Analytic Geometry I B/L 75 - 7.5
Prerequisites: A grade of “C” or higher in MATH1150 and MATH1200 or MATH1300 or equivalent, or appropriate score on the math placement test.
Review of functions, introduction to limits, differentiation of algebraic and trigonometric functions, applications, anti-differentiation and the definite integral. A graphing calculator is required.

MATH1700 Calculus & Analytic Geometry II B/L 75 - 7.5
Prerequisite: A grade of “C” or higher in MATH1600 or equivalent.
Continuation of MATH1600. Study of antiderivatives, methods of integration; numerical methods, coordinates and conics, differential equations, Taylor series, and an introduction to differentiation and integration of vector valued functions. A graphing calculator or use of mathematical software may be required.

MATH2020 Contemporary Mathematics B/L 45 - 4.5
Prerequisites: A grade of “C” or higher in MATH1100 and one year of geometry and appropriate score on math placement test.
Applications of quantitative reasoning and methods to problems and decision making in the areas of management, statistics, social choice, and size and growth. Topics include networks, critical paths, sampling, central tendency, inference, voting methods, power indices, fair division, growth and form, symmetry and patterns, and tiling.

MATH2030 Calculus & Analytical Geometry III B/L 60 - 6
Prerequisite: MATH1700.
Study of calculus and analytic geometry for functions of two or more variables. Coordinates, three-dimensional vectors, three-dimensional analytic geometry, differentiation and integration of functions of many variables, and integration in vector fields. Use of some mathematical software may be required.

MATH2200 Differential Equations B/L 45 - 4.5
Prerequisite: MATH2080.
Introduction to the theory and applications of differential equations using differential equations to model physical problems and techniques to solve linear differential equations, elementary existence theorems, solving systems of linear differential equations, and using Laplace transforms to solve initial value problems.
### MEDA • Medical Assisting

**MEDA1101 Medical Terminology 1**  
L 20 - 2  
*Prerequisite:* Introduction to medical terminology pertaining to body systems. Will describe directional terms, quadrants, cavities, define, spell and pronounce medical terms and abbreviations used in health care.

**MEDA1102 Administrative Medical Assisting**  
L 20 - 2  
*Prerequisites:* Must be a declared Medical Assisting Program student. The following courses must be passed with a minimum grade of C+; BIOS1000, MEDA1101, ENGL1010, and BSAD1010.

An introduction into the career of Medical Assisting. Provides general knowledge and practical application of administrative procedures.

**MEDA1201 Medical Terminology 2**  
L 30 - 3  
*Prerequisite:* A minimum grade of C+ in MEDA1101.

A continuation of MEDA 1101. Terminology relating to body systems and disorders. Intended to increase medical vocabulary. A continuing system for building a medical vocabulary with emphasis on anatomy, physiology and diseases. Will continue to define, spell and pronounce medical terms and abbreviations used in health care.

**MEDA1202 Communication in Allied Health**  
L 45 - 4.5  
*Prerequisites:* For Medical Assisting students and Pharmacy Technician students (or by permission). The following courses must be passed with a minimum grade of C+; ENGL1010, MEDA1101, BSAD1010, BIOS1000.

For students in the healthcare field to identify effective communication skills, including verbal and nonverbal communication, threats and barriers to communication, and effective communication with health care peers and professionals. Communication differences related to multicultural differences, life stage development and life altering illness will be explored.

**MEDA1203 Medical Law & Ethics**  
L 30 - 3  
*Prerequisite:* A minimum grade of C+ in ENGL1010, acceptance into Medical Assisting program or Office Technology program, or permission.

Study of medical law, ethics and bioethics for the medical office employee. Business management and general liability for the medical office included.

**MEDA1204 First Aid**  
L 20 - 2  
First aid and emergency care developed by the American Academy of Orthopedic Surgeons (AAOS) and the American College of Emergency Physicians (ACEP).

**MEDA1205 Exam Room 1**  
L 20 15 2.5  
*Prerequisites:* The following courses must be passed with a minimum grade of C+; MEDA1101, BIOS1000 (or BIOS1140 or BIOS1220), BSAD1010 and ENGL1010.

Introduction to the laboratory procedures performed in a physician’s office; includes laboratory tests and their acronyms, medical asepsis, and venipuncture techniques. This course must be taken in the quarter just prior to MEDA1301.

**MEDA1301 Exam Room 2**  
L 55 60 7.5  
*Prerequisites:* The following courses must be passed with a minimum grade of C+; MEDA1101, MEDA1102, MEDA1201, MEDA1202, MEDA1203, MEDA1204, MEDA1205, MEDA1406, MEDA1407, BSAD1010, ENGL1010 and OFFT1710. Concurrent with MEDT1161, MEDT1171, MEDT1181, and MEDT1191.

Provides the knowledge and skills for assisting in the physician’s office. Skills included are vital signs, EKG, medication administration, pulmonary function testing and handling of instruments for minor surgery. Provides an introduction to physical therapy and radiology.

**MEDA1401 Practicum**  
L - 240 8  
*Prerequisites:* The following courses must be passed with a minimum grade of C+; MEDA1101, MEDA1102, MEDA1201, MEDA1202, MEDA1203, MEDA1204, MEDA1205, MEDA1406, MEDA1407, MEDA1301, MEDT1161, MEDT1171, MEDT1181, MEDT1191, BSAD1010, OFFT1710, OFFT2650, OFFT2440, ENGL1010 BIOS1000; Concurrent with MEDA1402.

An unpaid, supervised practicum of 240 hours in an ambulatory healthcare setting, performing psychomotor and affective competencies.

**MEDA1402 Senior Seminar**  
L 30 - 3  
*Prerequisites:* The following courses must be passed with a minimum grade of C+: MEDA1101, MEDA1102, MEDA1201, MEDA1202, MEDA1203, MEDA1204, MEDA1205, MEDA1406, MEDA1407, MEDA1301, MEDT1161, MEDT1171, MEDT1181, MEDT1191, BSAD1010, OFFT1710, OFFT2650, OFFT2440, ENGL1010 BIOS1000; Concurrent with MEDA1401.

An informal course which includes: reviewing and critiquing clinical procedures with correlation of classroom theory, a review of the certification exam course content, completion of the CMA (AAMA) exam, preparation of a cover letter, résumé, and participation in a mock job interview. Includes integration of pharmacological principles, basic nutrition, and safety and emergency practices to the medical office setting.

**MEDA1404 Medical Diseases**  
L 45 - 4.5  
*Prerequisites:* The following courses must be passed with a minimum grade of C+: MEDA1101 and BIOS1000 (or BIOS1140, or BIOS1220) (or by permission).

Introduction to etiology, signs and symptoms, diagnosis and treatments of disease as related to the body systems. Includes introduction to immunity, infectious diseases, neoplasm, heredity and nutrition as they relate to the disease process.

**MEDA1405 Insurance for the Medical Office**  
L 30 - 3  
*Prerequisites:* C+ or higher in MEDA1101, BIOS1000, (or BIOS1140, or BIOS1220/BIOS1210 or BIOS1230), (or by permission).

Apply third party guidelines and managed care policies and procedures. Demonstrate basic knowledge of national diagnosis and procedure coding systems. Demonstrate accurate completion of insurance claim forms.

**MEDA1406 Basic Pharmacology**  
L 20 - 2  
*Prerequisite:* The following courses must be passed with a minimum grade of C+: BIOS1000 (or BIOS1140 or BIOS1220/BIOS1210 or BIOS1230), (or by permission).

An introduction to legal aspects, state and federal regulations, medication resource material, abbreviations and measurements, classifications of medications including desired effects, side effects and adverse reactions, including the relationship between body systems and medications used for treatment in each system.

**MEDA1407 Medical Calculations**  
L 10 - 1  
*Prerequisites:* ACT score of 18 or appropriate math assessment.

Medical dosage calculations with metric, apothecary and household systems, conversions between systems and dosage preparation.

### MEDT • Medical Laboratory Technology

**MEDT1100 Procedures in Phlebotomy**  
L 20 10 2.5  
*Prerequisite:* Admission to the Medical Laboratory Technology Program.

Introduction to the principles and skills needed to safely perform venipuncture and capillary blood collection techniques and special collection procedures. Quality assurance procedures pertaining to collection and transport of specimens, laboratory safety, ethical and legal issues pertaining to phlebotomy, and anatomy and physiology of cardiovascular system included. Supervised instruction and experience in collection techniques in lab.

**MEDT1101 Medical Laboratory Procedures**  
L 15 30 2.5  
*Prerequisite:* Admission to medical laboratory procedures.

Introduction to medical laboratory procedures. Basic laboratory techniques and skills required in the field of medical laboratory technology. Laboratory safety, equipment, quality control, and basic techniques used in the clinical laboratory.

**MEDT1161 Basic Urinalysis & Microbiology for the Office Laboratory**  
L 10 - 1  
*Prerequisite:* Concurrent with MEDA1301.

Study of routine medical office procedures: urine and throat cultures, wet preps, and complete UA with microscopic and serology tests. Specimen collection, handling, quality control methods, and laboratory safety.

**MEDT1171 Basic Urinalysis & Microbiology Laboratory**  
L - 30 1  
*Must be taken concurrently with the lecture. Laboratory which accompanies MEDT1161.

Demonstration and practice of basic skills and laboratory techniques corresponding to theoretical information presented in the lecture.
MEDT1181 Basic Hematology for the Office Laboratory  
**Prerequisites:** Concurrent with MEDT1301.
Study of hematology tests required in medical offices: automated cell counts, hematocrit, hemoglobin, PT/INR, ESR, and basic chemistry tests. Theoretical background for procedures. Blood collection techniques, specimen collection and handling, quality control, and laboratory safety.

MEDT1191 Basic Hematology Laboratory  
**Must be taken concurrently with the lecture. Laboratory which accompanies MEDT1181.**
Demonstration and practice of basic skills and laboratory techniques corresponding to theoretical information presented in the lecture.

MEDT2101 Medical Laboratory Measurements  
**Prerequisites:** MATH1150 and MEDT1101.
Mathematical applications used in the medical laboratory. Use of the Metric system and S.I. units. Laboratory calculations and use of statistical data.

MEDT1312 Medical Microbiology I  
**Prerequisites:** LBST1221, LBST1231, MEDT1101.
Study of routine procedures in medical microbiology, emphasizing the isolation and identification of common pathogenic bacteria. Skills and laboratory techniques corresponding to theoretical information presented in the lecture. Laboratory is concurrent with lecture.

MEDT1332 Hematology I  
**Prerequisites:** MEDT1101 or by permission.
Study of routine laboratory procedures of the hematology laboratory. Identification of normal cellular constituents of the blood. Quality control in the hematology laboratory. Skills and laboratory techniques corresponding to theoretical information presented in the lecture. Laboratory is concurrent with lecture.

MEDT1412 Medical Microbiology II  
**Prerequisites:** MEDT1312 or by permission.
Advanced study of medical microbiology theory and procedures; culturing, isolating, and identifying microorganisms from human specimens, utilizing microscopic, biochemical and serological techniques. Antibiotic susceptibility testing of pathogenic bacteria. Skills and laboratory techniques corresponding to theoretical information presented in the lecture. Laboratory is concurrent with lecture.

MEDT1432 Hematology II  
**Prerequisites:** MEDT1332
Study of advanced hematology procedures, disease states, and the identification of abnormal cellular constituents of the blood. Skills and laboratory techniques corresponding to theoretical information presented in the lecture. Laboratory is concurrent with lecture.

MEDT2512 Urinalysis  
**Prerequisites:** MEDT1432
Study of normal and abnormal chemical and cellular constituents of urine. Skills and laboratory techniques corresponding to theoretical information presented in the lecture. Laboratory is concurrent with lecture.

MEDT2532 Immunohematology I  
**Prerequisites:** MEDT1432
Study of the basic theories and procedures of routine blood bank testing. Blood grouping and antibody detection and identifying the genetics of the clinically important blood groups, and functions of the immune system. Skills and laboratory techniques corresponding to theoretical information presented in the lecture. Laboratory is concurrent with lecture.

MEDT2552 Medical Laboratory Chemistry I  
**Prerequisites:** LBST2125, LBST2135, and MEDT1201.
Study of theory and application of medical chemistry procedures. Manual and automated testing, disease states and quality control. Skills and laboratory techniques corresponding to theoretical information presented in the lecture. Laboratory is concurrent with lecture.

MEDT2561 Immunology  
**Prerequisites:** MEDT1412, or by permission.
Introduction to Immunology; Immune system, antigens, antibodies, complement, and reactions of antigens and antibodies. Relationships to diseases that are immunologically involved.

MEDT2581 Hemostasis  
**Prerequisite:** MEDT1432
Principles of blood coagulation and basic coagulation procedures.

MEDT2582 Immunology/Hemostasis Laboratory  
*Must be taken concurrently with the lectures. Laboratory which accompanies MEDT2561 and MEDT2581.*
Skills and laboratory techniques corresponding to the theoretical information presented in the lectures.

MEDT2612 Parasitology  
**Prerequisites:** MEDT2561 and MEDT2582

MEDT2632 Immunohematology II  
**Prerequisites:** MEDT2532
Continuation of immunohematology, including theory and application of blood banking procedures and techniques. Compatibility testing, transfusion reactions, and special testing procedures. Skills and laboratory techniques corresponding to theoretical information presented in the lecture. Laboratory is concurrent with lecture.

MEDT2652 Medical Laboratory Chemistry II  
**Prerequisites:** MEDT2552
Advanced study in the theory and application of clinical chemistry procedures. Manual and automated testing, disease states and quality control. Skills and laboratory techniques corresponding to theoretical information presented in the lecture. Laboratory is concurrent with lecture.

MEDT2681 Orientation I  
*Prerequisite: 6th quarter standing*
Introduction to the hospital and clinic laboratories where the students might receive their clinical experiences. Professional ethics, patient confidentiality, laboratory safety, and phlebotomy skills reviewed.

MEDT2690 Clinical Education I  
**Corequisite:** MEDT2681
Phlebotomy experience and additional learning opportunities within a clinic and/ or hospital laboratory. Application of theory and skills acquired in classroom and laboratory courses. Experience with LIS (Laboratory Information Systems).

MEDT2701 Clinical Education II  
*Prerequisite:** MEDT2690.
Continuation of laboratory experience and training opportunities within a hospital and clinic laboratory. Rotation throughout departments of the clinical laboratory. Application of theory and skills acquired in classroom and laboratory courses.

MEDT2702 Seminar I  
*Must be taken concurrently with MEDT2701.*
Group interaction, participation, and presentation relating to various aspects of the clinical laboratory.

MEDT2703 Orientation II  
**Prerequisites:** MEDT2681 and MEDT2690.
Review of clinical laboratory theory and technical skills for Clinical Education II and III. Requirements and clinical rotation schedules are presented.

MEDT2801 Clinical Education III  
*Prerequisite:** MEDT2701.
Continuation of laboratory experience and training opportunities within a hospital and clinic laboratory. Rotation throughout clinical laboratory. Application of theory and skills acquired in classroom and laboratory courses.

MEDT2802 Seminar II  
*Must be taken concurrently with MEDT2801.*
Group interaction, participation, and presentation relating to various aspects of the clinical laboratory.

**Course Prerequisites:**
- MFGT1250, MFGT1350
- MATH1050, MFGT1250, MFGT1350
- MATH1050, MFGT1350
- MATH1050, MFGT1250, MFGT1413
- MATH1050, MFGT1250, MFGT1350
- MATH1050

**Course Description:**
- **MFGT1125 Materials of Industry:** Introduction to materials (steel, iron, etc.) used in industry. Properties, uses, specifications, availability, and heat treatment. Special attention given to tool steel.
- **MFGT1144 Engineering Drawing & Design I:** Basic industrial drafting; Drawing instruments, lettering, geometric construction, orthographic projections, dimensioning and sectioning, auxiliary views, detail and assembly drawings.
- **MFGT1250 Engineering Drawing & Design II:** Continuation of MFGT1144 covering precision dimensioning, an introduction to geometric dimensioning and tolerancing, pictorial drafting, sheet metal layout, threads and fastening devices, welding symbols and drawings, and a team approach to product design.
- **MFGT1333 Fluid Power for Manufacturing:** Theory and operation of automation components, and automation design. Electro-mechanical items such as relays, solenoids, and actuators and many of the fluid power and mechanical devices that are common to automated equipment will be explored. Schematics for fluid power systems will be studied and how to design, build, and control an automated device.
- **MFGT1350 AutoCAD for Manufacturing:** Fundamentals of the proper use of the AutoCAD software using current American Society Mechanical Engineers (ASME) standards; AutoCAD menus, AutoCAD settings and drawing setup, draw and edit commands, AutoCAD coordinate system, practice drawings, symbols, prototype drawings and plotting. Students will learn to use the AutoCAD software to explore, document and validate their designs before they are built.
- **MFGT1354 Die Design:** Design of shearing, blanking, piercing, cutoff, bending, and forming dies. Study of the parts and components used in these dies. Punch presses and die sets are also covered.
- **MFGT1362 Lean Facilities Planning:** Study of time and motion, manufacturing flow, material handling, just-in-time manufacturing, best practices for use of available facilities and equipment, packaging, shipping, receiving, and employee protective equipment.
- **MFGT1413 Electrical Fundamentals:** Fundamental concepts of electricity. Energy, basic electrical fundamentals, and circuits and devices. Application of Ohm’s Law, power and efficiency formulas to problems involving basic circuits. Sources and effects of electric current, magnetism, electromagnetism, generators, and motors.
- **MFGT1421 Manufacturing Processes I:** Theory and safe operation of machine and hand tools. Covers metrology, five basic machining techniques (drilling, turning, boring, milling, and grinding), tool geometry, speeds, feeds, and cutting fluids.
- **MFGT1429 CNC for Automation:** Basic programming of Computer Numerical Control Machines is studied. Manual programming and programming with Mastercam X are covered.
- **MFGT1456 Manufacturing Processes II:** Basic operation of the lathe, milling machine and grinder. Laboratory experience with hand tools, metrology, metal sawing, drilling and tapping.
- **MFGT1458 Electrical Drafting:** Study of graphical methods of describing industrial electrical controls and control circuits. Elementary or schematic diagrams, connection and block diagrams, and printed circuit drawings using computer aided drafting techniques. Use of American Standard Association and National Electrical Component Association Standards.
**MSTT • Motorcycle, ATV and Personal Watercraft Technology**

### MUSC2260 Class Piano III  
Prerequisite: MUSC2270 or permission of instructor.  
Preparation of repertoire for performance. Continue working on piano fundamentals, and playing by ear. Additional chords and scales presented.

### MUSC2270 Class Piano IV  
Prerequisite: MUSC2260 or permission of instructor.  
Preparation of solo repertoire as well as accompaniments from vocal/instrumental literature. Improvisation, harmonizing, sight-reading and transposition stressed.  
Review of scales and chords.

### MUSC2520/2530, 2540/2550, 2580/2590 Individual Instruction in Piano  
B 15 - 1.5  
Study and performance of standard literature in various styles; includes a combination of private and small group instruction. Lab hours consist of required individual practice time. At the instructor's discretion, students may perform in both informal and formal recital settings.

### MUSC2521/2531, 2541/2551, 2581/2591 Individual Instruction in Guitar  
B 15 - 1.5  
Study and performance of standard literature in various styles; includes a combination of private and small group instruction. Lab hours consist of required individual practice time. At the instructor's discretion, students may perform in both informal and formal recital settings.

### MUSC2720 Music History & Literature I  
B/L 45 - 4.5  
Tracing the historical development of music from Middle Ages through end of Baroque. Comprehensive survey with emphasis on styles and characteristics of Gregorian Chant, early polyphony, and music of the Renaissance and Baroque periods.

### MUSC2730 Music History & Literature II  
B/L 45 - 4.5  
Tracing the historical development of music from Classical period to present day. Survey presentation with emphasis on styles and characteristics of the classical, romantic, impressionistic and modern schools.

### MUSC2750 Introduction to American Music  
B/L 45 - 4.5  
Survey of the various types of American music including jazz, popular, folk and musical theatre. Discussion centers on the relationship between the music and its historical and cultural context. Includes music of African Americans, European, African, Asian, Hispanic and American Indian descent.

### MUSC2800 Introduction to World Music  
B/L 45 - 4.5  
Survey various world cultures through a study of their musical systems. Discussion centers on the relationship between the music and its social and cultural context. Content includes music of India, the Middle East, Japan, China, Indonesia, Sub-Saharan Africa, Latin America, and Native America.

### MUSC2870 History of Rock Music  
B 45 - 4.5  
Explores how cultural, social, political and economic conditions have shaped rock music's evolution. Familiarizes the student with the history of rock music from its origins in Blues through contemporary rock styles. Prominent players and groups of each era will be covered, as well as sociological, economic and cultural factors that shaped the many styles of rock music. Extensive classroom listening will enhance the student’s learning experience.
**NDTT2040  NDTT Mathematics**  
M 45  -  4.5  
Introduction to advanced math skills. Common and natural logarithms, industrial application, angles and triangles. Angular measurement, right triangle and oblique triangle trigonometry and vectors. Polar and rectangular coordinates. Capabilities, functions and use of scientific calculators.

**NDTT2569  Radiography II & Film Interpretation**  
M 50  100  8  
Prerequisites: NDTT1446 and NDTT1470.  
Study of industrial radiography with major emphasis on developing skills in technique and procedure development. Code requirements, film interpretation, control of film processing, film reviews and audits, radiation safety administration, and special radiographic techniques. Including lab projects related to interpreting and evaluating radiography of welds, castings, forgings, electrical components and composite materials.

**NURS1206  Introduction to Professional Nursing**  
L 20  -  2  
Prerequisites: BIOS1140, BIOS1110, SOC1010, BIOS2130, MATH1150, and CHEM1050.  
Overviews the current nursing organizations, development of the nursing profession, and the health care system. An overall introduction to the philosophy, objectives, and curriculum framework of the associate degree program is presented. Caring is introduced as an integral concept of nursing. Discussions of the concepts of health/illness continuum, health care delivery, basic human needs, professional behavior, communication, legal/ethical issues, and multicultural diversity.

**NURS1207  Introduction to Nursing Pharmacology**  
L 20  -  2  
Prerequisites: BIOS1140, BIOS1110, MATH1150, BIOS2130, CHEM1050.  
Students are introduced to pharmacology and math concepts required to provide safe and effective care for individual clients with common disease conditions along the health/illness continuum. Nursing process is applied to pharmacotherapy. Legal aspects, state and federal regulations of drugs are introduced. Pharmacokinetics, pharmacotherapy, pharmacodynamics and drugs as they affect various body systems are discussed.

**NURS1208  Pathophysiology**  
L 10  -  1  
Prerequisite: BIOS1110, BIOS1140, BIOS2130, CHEM1050, ENGL1015 or ENGL1011, FSDT1350.  
Pathophysiology is designed for students pursuing a career in nursing or other health related fields. Students are introduced to common disease conditions, terminology such as etiology, prognosis, and signs and symptoms. Concepts such as inflammation, immunity, allergy, and neoplasia are explained. General diagnostic and treatment procedures for each system are included. Physiologic adaptation, clinical and treatment procedures for each body system are explained.

**NURS1209  Transition to Associate Degree Nursing**  
L 30  90  6  
Prerequisites: BIOS1110, BIOS1140, BIOS2130, CHEM1050, and ENGL1015.  
The nursing process as a method of problem solving is discussed and related to a nursing care plan framework. Emphasis is placed on the identification and interpretation of basic human needs as it relates to the nurse patient interaction. Nursing techniques taught in this course are based on scientific principles and applied in the clinical setting. Basic pharmacological principles and drug classification are included when administration is introduced. Clinical experiences are provided to apply nursing process, assess patient care, and introduce the nurse and client role in a variety of health care settings.

**NURS1304  Associate Degree Nursing**  
L 30  90  6  
Prerequisites: BIOS1110, BIOS1140, and BIOS2130.  
Focuses on the acquisition of skills used in the comprehensive health assessment of children and adults in the nursing process. Emphasis on well clients with the identification of some deviations from the normal. Introduction to communication skills and the assessment of the person in his/her physical, developmental, psychological and sociocultural and multicultural diversity.

**NURS1305  Basic Nursing Concepts I**  
L 30  90  6  
Prerequisites: NURS1206, NURS1207, PSYC2960, ENGL1010 or ENGL1015, and FSDT1350.  
The course is designed for students pursuing a career in nursing or other health related fields. Students are introduced to the principles and skills needed to care for individual clients with common disease conditions along the health/illness continuum. Pathophysiology, diet therapy, diagnostic tests and pharmacology are correlated with the nursing process when identifying common health problems and planning care. Clinical experiences are correlated with theory in a variety of health care settings.

**NURS1306  Pathophysiology**  
L 45  -  4.5  
Prerequisites: BIOS1140, BIOS2130, CHEM1050, and BIOS1110.  
Students are introduced to the principles and skills needed to care for individual clients with common disease conditions along the health/illness continuum. Pathophysiology, diet therapy, diagnostic tests and pharmacology are correlated with the nursing process when identifying common health problems and planning care. Clinical experiences are correlated with theory in a variety of health care settings.

**NURS1307  Pathophysiology through the Lifespan**  
L 60  -  6  
Prerequisites: BIOS1110, BIOS2130, CHEM1050, BIOS1110.  
This course is designed for students pursuing a career in nursing or other health related fields. Students are introduced to concepts related to mechanisms of the disease process. Foundational concepts of inflammation, immunity, infection and neoplastic alterations are applied to each body system. The relationships of signs and symptoms to specific diseases are discussed. Students will become familiar with terminology directly associated with disease process, i.e., etiology, diagnosis, prognosis, etc. Disease concepts will include specific applications throughout the lifespan, including developmental and genetic alterations. Effects of aging are explained. Students will identify common diagnostic and treatment modalities.
NURS2501 Nursing Concepts Related to the Childbearing Family

Prerequisites: Declared students only. OFFT1110 or OFFT2120 or HIMS1103 or LTCA1040 or VPPB1130 or VPPB1134. This class should be taken immediately before Cooperative Experience and graduation for associate degree or diploma students.

Development of techniques and skills necessary for students to be successful in seeking or retaining employment within career area.
OFFT2060 Voice Recognition/Transcription

Prerequisites: OFFT1710 and eligible for ENGL1010.
Utilizes current technology tools to effectively transcribe and produce business documents. Includes application of proper grammar and punctuation rules while both composing and editing business documents, use of speech recognition software, and use of machine transcription equipment.

OFFT2120 Business Communication Strategies

Prerequisites: ENGL1010 or ENGL1015 or OFFT1110. Recommend BSAD1010 or INFO1121.
Study of principles of effective written and oral business communication. Communication strategies used in business disciplines.

OFFT2130 Medical Machine Transcription

Prerequisites: MEDA1201 or OFFT1120 and OFFT2060.
Practice using medical abbreviations, terminology, and phrases; transcription of basic hospital cases from recorded dictation using Microsoft Word.

OFFT2210 Legal Processes I

Prerequisite: OFFT1710. Recommend OFFT2060.
Provides students with the basic knowledge and skills needed to work in a variety of law-related settings, such as private law firms, government agencies, corporations, and banks. Study of legal terminology and its application in various areas of the law. Preparation of legal documents, pleadings, and correspondence using Word. Topics covered include ethics, confidentiality, calendaring, billing, client relations, and specific duties for the legal office.

OFFT2220 Legal Processes II

Prerequisite: OFFT2210.
Continuation of Legal Processes I. Further study of the knowledge and skills needed to work in a variety of law-related settings, such as private law firms, government agencies, corporations, and banks. Study of legal terminology and its application in various areas of the law. Preparation of legal documents, pleadings, and correspondence using Word. Topics covered include ethics, confidentiality, calendaring, billing, client relations, and specific duties for the legal office. An introduction to basic legal research and citation rules is provided.

OFFT2310 Financial Computer Applications

Prerequisites: ACCT1200 and BSAD1020.
Excel spreadsheet projects from a financial perspective, accounts receivable and accounts payable with subsidiary ledgers, payroll concepts, and computerized accounting software.

OFFT2340 Records and Information Management

Prerequisite: BSAD1020.
Introduction to records management. Rules of alphabetic, geographic, numeric, subject, and chronological methods of filing according to the Association of Records Managers and Administrators (ARMA) rules. Utilize Microsoft Access to complete database projects and integration activities.

OFFT2410 Administrative Procedures I

Prerequisite: OFFT1710.
Comprehensive coverage of relevant skills and procedures in the performance of office duties including the role of the administrative assistant, communication skills, and reference sources. Provides the student with the opportunity to apply relevant skills for today’s automated work environment.

OFFT2420 Administrative Procedures II

Prerequisite: OFFT2410.
Continued coverage of office procedures including information processing procedures, travel and conference arrangements, mail processing procedures, organizational skills, and decision making. Provides students with a strong background in administrative skills and knowledge.

OFFT2440 Medical Office Procedures

Prerequisites: MEDA1101 or OFFT1120, and OFFT1710 or by permission; OFFT2060 recommended.
Integration of relevant medical office skills and procedures in the performance of modern medical office duties. Simulations included.

OFFT2460 Office Simulation

Prerequisites: ACCT1200 or OFFT1310, MATH1040, OFFT2110, OFFT2440, OFFT2410, and PSYC1250 or by permission. Corequisite: OFFT2420.
Uses previously learned office, procedures, and soft skills in an interactive work-flow environment. Students run a simulated business and work as managers, human resource specialists, accountants, order analysts, inventory specialists, and service representatives.

OFFT2650 Computerized Medical Management

Prerequisites: OFFT1710
Computerized application of records management, insurance forms, patient database, and financial reports.

OFFT2720 Microsoft Office Integration

Prerequisites: BSAD1020, OFFT2310, and OFFT2340.
Create documents integrating Microsoft Office applications. Project-based class requires advanced technology and critical-thinking skills. Ability to work independently and in teams will be necessary as students apply skills and knowledge acquired in previous courses to initiate and complete Microsoft integration projects.

OFFT2900 Internship

Prerequisite: OFFT2000.
Under the guidance of a internship coordinator, unpaid practical work experience for development of marketable skills in an office position. Open to Office Professional students only with a minimum GPA of 2.0.

OFFT2901 Cooperative Experience

Prerequisite: OFFT2000.
Under the guidance of a cooperative experience coordinator, paid practical work experience for development of marketable skills in an office position. Open to Office Professional students only with a minimum GPA of 2.0.

OFFT2999 Special Projects

Prerequisites: Completion of at least 55 credit hours; a minimum 2.5 GPA; and permission of advisor and program chair.
Study of a particular area in the office technology field, arranged with the student’s advisor and approved by the program chair.

PARM • Paramedic

PARM1111 Pathophysiology for the Paramedic

Prerequisite: Enrollment in Paramedic program or by instructor approval.
This course is a correlational approach to pathophysiology incorporating both physical assessment skills and a basic cellular understanding to the various disease entities and trauma process encountered in emergency medicine.

PARM1112 Introduction to Paramedic

Prerequisite: Enrollment in Paramedic program or by instructor approval.
This interactive course will discuss foundational aspects of EMS, while presenting foundational aspects of EMS with the health care system. Ethics, medical-legal issues, roles and responsibilities of the Paramedic, healthcare policy and the role of research with EMS will also be discussed.

PARM1113 Basic ECG Interpretation

Prerequisite: Enrollment in Paramedic program or by instructor approval.
This introductory ECG course will instruct in the anatomy and physiology of the conduction system of the heart, the electrical system, electrocardiography, abnormal ECG patterns and distinguishing between life-threatening & non-life threatening dysrhythmias. An introduction to dysrhythmia management will be discussed.

PARM1114 Airway Management & Assessment

Prerequisite: Enrollment in Paramedic program or by instructor approval.
This course will present basic patient assessment concepts, review of basic airway management and introduction to advanced airway management and ventilation.

PARM1117 Paramedic Lab I

Prerequisite: Co-requisites PARM1113 & PARM1114.
This course is designed to teach, integrate and complement content from concurrent Paramedic lecture courses, specifically PARM1113 & PARM1114.
site rotations may be added or substituted as determined by the program agencies. In addition, students shall complete a PALS Provider course. Other clinical rotations at various clinical settings including: Emergency Departments, Operating Room and EMS ride-along with various EMS/Fire agencies.

PARM1139 Practicum I
Prerequisite: Enrollment in Paramedic program or by instructor approval.
This observational-only practicum supports the didactic elements of the Paramedic course. This course includes rotations at various clinical settings including: Emergency Departments, Operating Room and EMS ride-along with various EMS/Fire agencies.

PARM1121 Pharmacology for the Paramedic
Prerequisite: Enrollment in Paramedic program or by instructor approval.
This course is a fundamental pharmacology course that focuses on the pharmacodynamics and pharmacokinetics of drug therapy, drug calculations, and the pharmaceutical interventions of common EMS medications. The course will also cover roles and responsibilities and ethical considerations of drug administration, as well as acid-base imbalance.

PARM1122 Advanced ECG Interpretation
Prerequisite: Enrollment in Paramedic program or by instructor approval.
An introductory 12-lead ECG interpretation course that will include topics such as intraventricular conduction delays, myocardial ischemia, injury and infarction, axis deviation, syndrome bundle branch blocks, ectopic and advanced dysrhythmia interpretation.

PARM1123 Medical Emergencies for the Paramedic
Prerequisite: Enrollment in Paramedic program or by instructor approval.
This course instructs in the recognition and treatment of medical diseases involving the cardiac, respiratory, neurologic, endocrine, abdominal, hematologic, behavioral disorders, toxicology and renal systems. Treatment modalities shall include pharmacological intervention, ECG interpretation, basic and advanced airway interventions and maintenance.

PARM1127 Paramedic Lab II
Prerequisite: PARM1117 Corequisites: PARM1112, PARM1122, PARM1123
This course is designed to teach, integrate and complement content from concurrent Paramedic lecture and laboratory courses, specifically PARM1112, PARM1122, PARM1123. Previously learned material shall be reviewed, reinforced and evaluated as necessary to maintain competency.

PARM1129 Practicum II
Prerequisite: Enrollment in Paramedic program or by instructor approval.
This course supports the didactic elements of the Paramedic course. This course includes rotations at various clinical settings including: Emergency Departments, Operating Room, ICU/CCU, Crisis Intervention/Psychiatry and EMS ride-along with Various EMS/Fire agencies. In addition, students shall complete an ACLS Provider course. Other clinical site rotations may be added or substituted as determined by the program.

PARM1131 Family Medicine for the Paramedic
Prerequisite: Enrollment in Paramedic program or by instructor approval.
A comprehensive approach to the pediatric patient from birth to adolescence. The course shall also include an introduction to obstetrics and gynecology.

PARM1132 Geriatrics
Prerequisite: Enrollment in Paramedic program or by instructor approval.
An introductory course in gerontology, to address issues such as lifespan development, cultural diversity, polypharmacy, pathological changes and treatment variations associated with an aging population.

PARM1133 Advanced Emergency Care
Prerequisite: Enrollment in Paramedic program or by instructor approval.
An introductory course that focuses on the education and integration of skills associated with advanced airway management, renal dialysis, venous access & pharmacological delivery systems.

PARM1137 Paramedic Lab III
Prerequisite: Enrollment in Paramedic program or by instructor approval.
Corequisites: PARM1131, PARM1132, PARM1133
This course is designed to teach, integrate and complement content from concurrent Paramedic lecture and laboratory courses, specifically PARM1131, PARM1132 and PARM1133. Previously learned material shall be reviewed, reinforced and evaluated as necessary to maintain competency.

PARM1139 Practicum III
Prerequisite: Enrollment in Paramedic program or by instructor approval.
This course supports the didactic elements of the Paramedic course. This course includes rotations at various clinical settings including: Emergency Departments, Operating Room, Pediatrics, Labor and Delivery and EMS ride-along with various EMS/Fire agencies. In addition, students shall complete a PALS Provider course. Other clinical site rotations may be added or substituted as determined by the program.

PARM1141 Traumatic Emergencies for the Paramedic
Prerequisite: Enrollment in Paramedic program or by instructor approval.
This course shall teach a comprehensive approach to assessment, injury recognition and management of the trauma patient. An introduction of trauma systems, injury prevention, kinematics and aeromedical use and integration shall also be discussed.

PARM1142 Rescue Operations for the Paramedic
Prerequisite: Enrollment in Paramedic program or by instructor approval.
An introductory course to include: ambulance operations, rescue and extrication techniques, incident command and hazardous materials. The accompanying laboratory portion many be taught in seminar format as necessary.

PARM1147 Paramedic Lab IV
Prerequisite: PARM1137. Corequisites: PARM1141, PARM1142.
This course is designed to teach, integrate and complement content from concurrent Paramedic lecture and laboratory courses, specifically PARM1141 and PARM1142. Previously learned material shall be reviewed, reinforced and evaluated as necessary to maintain competency.

PARM1149 Practicum IV
Prerequisite: Enrollment in Paramedic program or by instructor approval.
This course supports the didactic elements of the Paramedic course. This course includes rotations at various clinical settings including: Emergency Departments, Operating Room and EMS ride-along with various EMS/Fire agencies. In addition, students shall complete a PHILS Provider course. Other clinical site rotations may be added or substituted as determined by the program.

PARM2900 Paramedic Internship
Prerequisite: Enrollment in Paramedic program or by instructor approval.
This capstone course incorporates an educational approach to assist the student in the application and demonstration of the knowledge and skills learned in the Paramedic program within the EMS field setting. Students shall be placed on an ambulance or rescue under the direct supervision of an approved field preceptor and will be required to demonstrate the ability to perform as a competent team leader, demonstrate thorough patient assessment skills and formulate proper treatment plans for each situation encountered.

PDSM • Parts Marketing & Management

PDSM1120 Nomenclature I
Function, composition, life expectancy, and nomenclature of the commonly requested parts. Identification of those parts most often in demand. Also, the principles of diesel and gas engines, electrical system components, fuel systems. Students will disassemble and reassemble these components.

PDSM1131 Aftermarket Catalogs & Obsolescence I
Introduction to jobber parts catalog indexing and use. Location of parts on shelves, charging out items on counter tickets and first level return of parts, use of price sheets and classifications. The course includes the computerized parts systems.

PDSM1221 Nomenclature II
Continuation of commonly requested parts, their function, composition, life expectancy, and nomenclature. Also the principles of transmissions, differentials, steering, suspension, brakes, and air conditioning.

PDSM1222 Dealership Cataloging, & Obsolescence II
Study and use of General Motors, Ford, and Chrysler parts cataloging and the various levels of pricing retail, wholesale, and dealer goods. There will be a continued learning of nomenclature by using these references.

PDSM1223 Service Writing, Warranty Policies, & Tools
Knowledge and experience needed to become a service writer in today’s dealerships. Study of warranties and how parts under warranty are returned to the supplier, time limits which apply, and what is acceptable under warranty. Basic tools and equipment used in and sold from a parts department including proper use and care.

PDSM1226 Counter Sales & Operations
Introduction to inventory control, computerized systems, and other functions performed in the typical parts store, i.e., shipping and receiving inventory, counter sales, posting invoices, telephone skills, purchasing warehouse inventory, and customer relations are performed in the college parts store.
PHED • Physical Education

PHED1000  Lifetime Fitness  L  45  15  4.5
Theoretical and practical information on the relationship of life-style habits to productivity, quality of life and one’s potential. Topics include life-style related risks, nutrition, physical fitness, and stress management encompassing the mind-body health perspective of wellness.

PHED1010  Golf  B  -  30  1.5
Basic skills and fundamentals of golf. Scoring, selection and care of equipment for the beginning golfer.

PHED1030/2030/2035/2040  Physical Fitness Activities  B/L  -  30  1.5
Study of and participation in chosen activities, such as weight training, cardiovascular conditioning, flexibility, basketball, volleyball and weight control. Planning and participating in an individualized program for development.

PHED1050/2050  Recreational Sports  B  -  30  1.5
Participation in recreational sports for the student with a disability who is unable to participate in a regularly scheduled required program. Credit can be earned by nonathletic participation in the intercollegiate athletic program such as keeping statistics, videotaping, care and handling of equipment, and game site management. Other options include managerial involvement in school’s intramural or physical education programs.

PHED1060  Fitness Throughout Life  B  15  30  3
Study and application of theories which promote wellness throughout the life cycle. Emphasis on cardiovascular conditioning, flexibility, muscular strength, endurance, body composition, and nutrition maintenance programs.

PHED1600  Introduction to Recreation  B  45  -  4.5
Principles, history and philosophy of recreation and leisure. Introduces recreation as a profession. Explores recreation and leisure studies throughout the life cycle.

PHED1610  Standard First Aid  B  45  -  4.5
Principles and techniques for administration of first aid. Legal aspects of emergency care, cardiopulmonary emergencies, hemorrhage control, wound maintenance, shock control, poisoning, heat and cold injuries.

PHIL • Philosophy

PHIL1010  Introduction to Philosophy  B/L  45  -  4.5
Introduction to the components of philosophy through readings from the history of philosophy (ancient, modern, and contemporary) combined with the examination of topics such as metaphysics, logic, ethics, epistemology, aesthetics, philosophy of religion, freedom, and self-identity. Exposure to a range of ideas and readings representing a variety of cultural and ethnic backgrounds.

PHIL1060  Applied Ethics  B/L  45  -  4.5
Introduction to different approaches to moral decision-making and how to tell the difference between good and bad reasoning in applied ethics. Includes some of most recent philosophical writings on a variety of issues.

PHIL1150  Introduction to Logic & Critical Thinking  B/L  45  -  4.5
Designed to increase critical (convergent thinking) and creative (divergent thinking) thinking skills. Explores the use of logic and perception to analyze ideas, construct and evaluate arguments, and draw logical conclusions. Raise level of problem identification, idea-generation, solution finding and implementation. Exposure to a range of ideas and readings representing a variety of cultural and ethnic backgrounds.

PHIL2110  Introduction to Modern Logic  B/L  45  -  4.5
Introduction to deductive logic, emphasizing symbolic logic. Arguments, language and meaning, informal fallacies, traditional logic, sentence logic and predicate logic. May be used as math credit.

PHIL2130  Bioethics  B/L  45  -  4.5
Philosophical study of moral problems in the health care industry. Exploration of issues that include the allocation of scarce medical resources, patients’ rights, biomedical research and transplants, abortion, maternal-fetal conflict, death and dying, socialized medicine, and the right to health care.

Intercollegiate Athletics

The following courses will allow student athletes to earn credit through participation in intercollegiate athletics. Regular attendance and participation in all squad activities required.

PHED1300/2300, 1310/2310, 1311/2311  Intercollegiate Golf  B  -  -  1.5
PHED1320/2320, 1330/2330, 1331/2331 (men)  Intercollegiate Basketball  B  -  -  1.5
PHED1340/2340, 1350/2350, 1351/2351 (women)  Intercollegiate Basketball  B  -  -  1.5
PHED1360/2360, 1370/2370, 1371/2371  Intercollegiate Volleyball  B  -  -  1.5
PHED1380/2380, 1390/2390, 1391/2391  Intercollegiate Baseball  B  -  -  1.5
PHED1385/2385, 1395/2395, 1396/2396  Intercollegiate Softball  B  -  -  1.5

The focus of this course is to orient the student to the general and specific tasks, as well as responsibilities involved in the practice of pharmacy in an institution as well as community setting. This lab course must be taken in person on campus.
POLS • Political Science

**POLS1000 American Government**  
B/L 45 - 4.5  
Study of the functioning of the political system through an analysis and application of its underlying theories.

**POLS1040 Comparative Politics**  
L 45 - 4.5  
Focus on the description and analysis of modern political systems and their respective ideologies. First half of course focuses on broad structural features of government. Second half of course looks at several individual nation states. Final part of course analyzes problems facing modern political systems.

**POLS1080 Introduction to Political Science**  
L 45 - 4.5  
Introduction to Political Science will address major political concepts and controversies that have developed in the world: liberty, equality, democracy, human nature, among others. The course will provide students with an overview of basic principles, approaches and methods of the discipline representing the social scientific mode of inquiry. Students will be exposed to national, comparative, and international politics as well as political thought.

**POLS1600 Introduction to International Relations**  
L 45 - 4.5  
Introductory survey of the actors, institutions, processes, and theories of international relations - including a study of contemporary global issues.

**POLS2020 State & Local Government**  
B/L 45 - 4.5  
Prerequisite: POLS1000 or permission of instructor.  
Study of the structure and operation of state and local government with special attention to the direct impact on the individual citizen.

**POLS2300 Political Parties**  
Prerequisite: POLS1000 strongly recommended.  
L 45 - 4.5  
Comprehensive review of party politics and elections in the United States. Emphasis on the historical development of the American party system; political party organization in America; voting and elections; and the activity of parties in government.

**POLS2900 Internship**  
L 45 - 4.5  
Students will acquire the skills necessary to understand the interaction of legislators, political parties, interest groups, and media. Students will learn practical application of political concepts while observing a real world arena in which this interaction occurs.

Note: Practical Nursing — See LPNS  
Note: Professional Truck Driver Training — See TRUK

---

**PSGT • Polysomnographic Technology**

Please note: Students must be a graduate from an associate-degree health-related program, an Advanced-Level Respiratory Care program, or associate degree or higher nursing school to enter this program of study. Students are required to attend a two-day conference at Southeast Community College-Lincoln Campus. Students are responsible for travel and lodging for the two days.

**PSGT1000 Polysomnography I**  
L 20 - 2  
This course provides entry-level didactic and laboratory training in polysomnography and recording and monitoring techniques, pressure and oxygen therapy applications and patient to technologist interactions.

**PSGT1010 Polysomnography Lab**  
L 90 - 3  
This course provides the hands-on application of patient preparation, instrument setup and calibration, recording and monitoring techniques, pressure and oxygen therapy applications and patient to technologist interactions. Lab compliments the material presented in PSGT1000 and PSGT1020.

**PSGT1020 Polysomnography Fundamentals**  
L 40 - 4  
This course introduces the student to sleep medicine. Topics will include the history of sleep medicine, patient evaluation, Epworth sleepiness scores, diagnosis and treatment of various sleep disorders, insurance reimbursement, patient education, and the role of the technologist as a sleep advocate.

**PSGT2000 Polysomnography II**  
Prerequisites: PSGT1000 through PSGT1020  
L 20 - 2  
This course provides advanced-level didactic training in polysomnography. Emphasis will be placed on the knowledge and skills needed to score sleep studies. Additional methods used to assess excessive day time sleepiness, (e.g. MSLT, MWT, actigraphy, in-home testing) including how to perform and analyze data, will be addressed. Varniances in performing and scoring pediatric and infant polysomnograms compared to adult polysomnograms will be discussed. The effects of various diseases on sleep will also be reviewed. Upon completion students should be able to demonstrate competence in concepts and procedures through testing.

**PSGT2010 Polysomnography II Lab**  
Prerequisites: PSGT1000 through PSGT1020  
L 30 - 1  
This course emphasizes the application of AASM scoring rules to adult sleep studies. The variance in scoring rules for pediatrics and infants will be identified. The identification of waveform variances due to pharmacotherapy and disease states will also be addressed. Upon completion students should be able to demonstrate competence in scoring, report generation and interpreting adult polysomnograms.

**PSGT2020 Seminar Review**  
L 10 - 1  
This course provides an opportunity to review and prepare for the polysomnography credentialing exam. Emphasis is placed on case management and review for the Registered Polysomnographic Technologist Exam.

**PSGT2030 Clinical Education**  
L 150 - 5  
This course provides practical application of theories covered in previous PSGT courses. Emphasis is placed on polysomnography testing and procedures.

**PSYC • Psychology**

**PSYC1250 Interpersonal Relations**  
B/L/M 45 - 4.5  
Personal development and adjustment, self-esteem building, values clarification and decision-making, interpersonal communication skills, appreciation of diversity, development of healthy personal and professional relationships.

**PSYC1810 Introduction to Psychology**  
B/L/M 45 - 4.5  
Introduction to the science of psychology including the study of learning theory, memory, personality, growth and development, neurological aspects, abnormal behavior therapies, intelligence, motivation, emotion, sensation, perception and theoretical perspectives.
PSYC2799  Special Topics in Psychology  B/L/M  45  –  4.5
Prerequisite: Grade of "C" or higher in PSYC1810.
This course will allow students to develop more depth-of-understanding in specific areas of psychology, such as domestic violence, sexuality, psychology of gender, history of psychology, health psychology.

PSYC2870  Psychology of the Personality  B/L  45  –  4.5
Prerequisite: PSYC1810 or permission of the instructor.
Systematic study of personality theories, the factors influencing personality development and the dynamics of personal adjustment.

PSYC2880  Social Psychology  B/L  45  –  4.5
Prerequisite: PSYC1810 or SOC1101 or permission of the instructor.
Exploration of human social behavior including development and understanding of the self as a social being; social perception; attitudes and persuasion; social influence; attraction, interactions, and relationships; prosocial and antisocial behavior; and group behavior.

PSYC2900  Adolescent Psychology  B/L  45  –  4.5
Prerequisite: PSYC1810 or permission of the instructor.
Study of developmental approach to normal adolescence from puberty to young adulthood. Impact of social factors on psychological behavior development.

PSYC2960  Life-span Human Development  B/L  45  –  4.5
Prerequisite: PSYC1810 or SOC1101.
Integration of the basic concepts and principles of physical, cognitive and psychosocial development at each major stage of life. Provides an essential background for students in psychology, nursing, education, social welfare and home economics; for workers in community service; and for parents and prospective parents.

PSYC2980  Abnormal Psychology  B/L  45  –  4.5
Prerequisite: PSYC1810 or permission of instructor.
Course covers etiology, treatment and prevention of abnormal behavior, use of DSM IV as diagnostic tool, effects of labeling.

**PTAS • Physical Therapist Assistant**

Please note: Students must be admitted into the program and have completed all prerequisites and additional required courses with a minimum grade of C+ before taking any PTAS courses. Each PTAS course must be taken in sequence and completed with a minimum grade of C+ to continue in the program. Anatomy and Physiology must be taken within five years.

PTAS1100  Intro to Physical Therapy  L  40  15  4.5
This course introduces the student to the profession of physical therapy, the role of the physical therapist assistant with the healthcare team and patient observation time. Basic patient care, assistive devices and adaptive equipment, patient positioning and transfers, safety, communication and body mechanics will be discussed.

PTAS1101  Kinesiology for PTA  L  45  45  6
This course focuses on the movement of the musculoskeletal and nervous systems of the body including muscle origins, insertion, actions and nerve innervations. In addition, motion and the effects of forces and levers relative to the body, manual muscle testing and goniometry will be studied.

PTAS1102  Pathophysiology for PTA  Prerequisites: PTAS1100, 1101
L  45  –  4.5
An exploration of pathogenesis, prognosis and therapeutic management of the diseases and abnormalities of structure and function and how they affect rehabilitation. Emphasis is placed on conditions most commonly encountered in physical therapy.

PTAS1103  Physical Therapy Skills and Exercise I with Lab  L  35  30  4.5
Prerequisites: PTAS1100, 1101
This course includes instruction in the theory and clinical application of therapeutic exercise interventions (range of motion, stretching, resistance and aerobic exercise) for common impairments of the spine and upper and lower extremities, gait training strategies and basic skills of orthotic and supportive devices, adaptive and assistive equipment.

**PTAS1104  Therapeutic Modalities I with Lab**  L  35  30  4.5
Prerequisites: PTAS1100, 1101
Study of physical agents and therapeutic modalities including massage, cryotherapy, thermal agents, electromagnetic radiation, ultrasound and traction.

**PTAS1202  Physical Therapy Skills and Exercise II with Lab**  L  35  30  4.5
Prerequisites: PTAS1102, 1103, 1104
This course covers further development of therapeutic exercise and skills related to rehabilitation and function.

**PTAS1203  Therapeutic Modalities II with Lab**  L  35  30  4.5
Prerequisites: PTAS1102, 1103, 1104
A continuation of studying principles and clinical application for therapeutic modalities and physical agents including electrotherapeutic, hydrotherapy, wound care, edema and compression therapy interventions.

**PTAS1204  Documentation in Clinical Services**  L  30  –  3
Prerequisites: PTAS1101, 1103, 1104
An in depth practice of documentation in addition to effective verbal communication and ethical and legal issues with documentation are practiced.

**PTAS1205  Advanced Procedures with Lab**  L  35  30  4.5
Prerequisites: PTAS1202, 1203, 1204
Acquaints the student with more advanced rehabilitation techniques for complex patient diagnoses and specialty areas of physical therapy.

**PTAS1206  Health Systems and Issues**  L  30  –  3
Prerequisites: PTAS1202, 1203, 1204
This course familiarizes students with the core values of the profession, communication, conflict resolution and preparation for employment.

**PTAS1207  Professional Issues**  L  40  –  4.0
Prerequisites: PTAS1202, 1203, 1204
This course focuses on various topics related to the clinical practice of a physical therapist assistant including data collection and therapeutic intervention employed, equipment utilized, reimbursement considerations and members of the healthcare team.

**PTAS1301  Clinical Education I**  L  120  –  4
Prerequisites: PTAS1102, 1103, 1104
A three-week integrated clinical experience where the student will have the opportunity to apply classroom theory and laboratory practice learned to date to direct patient care in a selected clinical setting. The intent is for the student to provide quality patient care with a high degree of guidance, cueing and assistance from the clinical instructor.

**PTAS1302  Clinical Education II**  L  150  –  5
Prerequisite: PTAS1301
A four-week clinical experience where the student will have the opportunity to apply classroom theory and laboratory practice to direct patient care in a selected clinical setting. The intent is for the student to provide quality patient care with guidance, cueing and assistance from the clinical instructor. The level of guidance needed will depend on the complexity of the patient and the environment.

**PTAS1303  Clinical Education III**  L  400  –  13.5
Prerequisite: PTAS1302
A 10-week clinical experience where the student will have the opportunity to apply classroom theory and laboratory practice to direct patient care in a selected clinical setting. The intent is for the student to provide quality patient care consistently and efficiently for simple or complex patients with consultation from the clinical instructor (entry-level performance).

**RADT • Radiologic Technology**

Please note: Students must be admitted into the program and have completed all prerequisites with a minimum grade of C+ before taking any RADT courses. Each RADT course must be taken in sequence and completed with a minimum grade of C+ before continuing.

**RADT1100  Introduction to Diagnostic Imaging**  L  20  –  2
Prerequisite: Introduction to the Radiologic Technology Program. Orientation to the hospital and clinic settings; patient care and transfers; overview of radiology equipment and imaging procedures, radiation safety.
COURSE DESCRIPTIONS

RADT1111 Diagnostic Imaging Concepts
- Essentials of radiographic exposure formulation. Elements contributing to radiographic quality in the areas of density, contrast, recorded detail and distortion. Basic concepts of digital imaging and patient dose.

RADT1112 Radiographic Procedures I
- Anatomy and positioning of the chest and abdomen. Image evaluation and critique of these procedures. Application of procedural terminology and clinical data. Application of infection control, ethics, and pharmacology in the radiography practice.

RADT1119 Clinical Education I

RADT1123 Radiographic Procedures II
- Radiographic anatomy and positioning of the abdominal contents with contrast media, upper extremity, and shoulder girdle. Image evaluation / critique of these procedures.

RADT1124 Diagnostic Imaging Theory
- Continuation of the study of fundamental physical principles from mechanics to electromagnetism. Application of these principles to the construction and operation of fundamental x-ray equipment. Analysis of basic x-ray circuit. Construction and operation of tomographic, mobile and fluoroscope equipment. Comparison of conventional and digital radiology. Overview of PACS system.

RADT1129 Clinical Education II
- Supervised clinical practice. Rotating shifts and assignments. Competency evaluations of advanced chest and abdomen exams, upper extremity, and GI system.

RADT1133 Radiographic Procedures III
- Anatomy and positioning of lower extremity, pelvic girdle, urinary system, and the vertebral column. Image evaluation / critique of these procedures.

RADT1134 Radiation Biology

RADT1139 Clinical Education III
- Supervised clinical practice. Rotating shifts and assignments. Competency evaluations of advanced chest and abdomen exams, upper extremity, GI system, and lower extremity.

RADT1143 Radiographic Procedures IV
- Anatomy and positioning of the bony thorax, cranial, facial bones, sinuses, and other skull exams. Image evaluation / critique of these procedures. Critical thinking and imaging of trauma patients and various advanced radiographic procedures.

RADT1147 Specialized Imaging
- Overview of equipment, procedures, techniques, anatomy, and imaging protocol of specialty areas such as sonography, MRI, nuclear medicine, radiation therapy, cardiovascular/interventional, and mammography.

RADT1149 Clinical Education IV
- Supervised clinical practice. Rotating shifts and assignments. Performance of venipuncture and vital signs. Competency evaluations of advanced chest and abdomen exams, upper extremity, GI system, and lower extremity.

RADT2253 CT Imaging
- Study of computed tomography with emphasis on equipment, procedures, techniques, anatomy, and imaging protocol.

RADT2254 Advanced Patient Care Management
- Critical thinking and imaging of the pediatric patient. Psychosocial, social, and economic needs of the elderly. Overview of various cultural groups and cultural competencies.

RADT2259 Clinical Education V
- Critical practice with less assistance to foster increased proficiency and responsible decision-making in a variety of situations. Introduction to new rotational sites. Advanced modality rotation. Competency evaluations of spine, bony thorax, cranial exams, surgical exams, pediatric, trauma, mobile, and advanced contrast procedures.

RADT2265 Pathophysiology
- Review of human anatomy and physiology. Pathologies and congenital abnormalities of all systems. Application of critical thinking and technical factors.

RADT2269 Clinical Education VI
- Critical practice with less assistance to foster increased proficiency and responsible decision-making in a variety of situations. Increase proficiency at rotational sites. CT rotation. Competency evaluations of spine, bony thorax, cranial exams, surgical exams, pediatric, trauma, mobile, and advanced contrast procedures.

RADT2276 Diagnostic Imaging Applications
- Exploration of advanced concepts of radiographic production, radiographic processing, conservative use of equipment and quality assurance techniques. Application of critical thinking.

RADT2279 Clinical Education VII
- Critical practice with less assistance to foster increased efficient and responsible decision-making in a variety of situations. Advanced modality rotation. Rotational sites. Competency evaluations of spine, bony thorax, cranial exams, surgical exams, pediatric, trauma, mobile, advanced contrast procedures, and CT exams.

RADT2288 Senior Seminar
- Review of course materials to prepare for National Board exam.

RADT2289 Clinical Education VIII
- Critical practice with less assistance to foster increased efficiency and responsible decision-making in a variety of situations. Overnight shifts. Competency evaluations of spine, bony thorax, cranial exams, surgical exams, pediatric, trauma, mobile, advanced contrast procedures, and CT exams. Complete all ARRT required competencies.

RELCS • Religious Studies

RELCS2610/ PHIL2610 Comparative Religions
- Prerequisite: Reading/writing skills at ENGL1010 or ENGL1015.
- This course will offer a cross-cultural introduction to the world’s major religious/philosophical traditions or faith systems through a comparison of historical origins, rituals, beliefs, practices, and sacred texts and sources.

RESP • Respiratory Care

Please note: Students must be admitted into the program AND have completed all program prerequisites with a GPA of 2.75; general education courses with a GPA of 2.5. Each RESP course builds on previous course content and must be completed with a minimum grade of C+ before continuing in the Respiratory Care program.

RESP1111 Respiratory Anatomy & Physiology
- An in-depth study of the cardiopulmonary system including anatomy, ventilation, diffusion of pulmonary gases, hemodynamic measurements, ventilation/perfusion relationships, oxygen and carbon dioxide transport, acid-base balance with an emphasis on clinical application.

RESP1113 Respiratory Pharmacology
- Study of drugs affecting the cardiopulmonary and autonomic nervous systems. Includes drug dosage calculation, administration, and clinical side effects.

RESP1114 Patient Care Principles
- Development of assessment skills in regards to patient history, physical exam and laboratory studies with emphasis on proper charting of assessment.

RESP1121 Cardiopulmonary Pathology
- Study of concepts and theory of basic cardiopulmonary diseases to include etiology, pathology, diagnosis, clinical manifestations, radiological and laboratory findings; prevention, prognosis and treatment.

RESP1122 Respiratory Care Procedures
- Theory and practice of the fundamentals of medical gases, humidity, bland and therapeutic aerosol application, oxygen monitoring, lung volume expansion therapy, bronchial pulmonary hygiene techniques, basic and advanced airway management. Lab is concurrent with lecture. Lab complements the material presented in lecture and RESP1121 as well as material learned in previous courses.
RESP1126 Respiratory Care Professions I
- Study of moral responsibilities of health care as well as an overview of the Respiratory Care profession expectations. Role playing, case studies and critical thinking are used to address patient interaction, decision making and professionalism.

RESP1129 Clinical Education II
- An orientation to the clinical sites, infection control and record-keeping, observation of therapy, and under direct supervision, the student may complete some respiratory care procedures.

RESP1131 Cardiopulmonary Diagnostics & Lab
- Theory, application and equipment for diagnosing cardiopulmonary pathologies through the diagnostic concepts used in respiratory care. Including techniques utilized for basic pulmonary function testing, sleep studies, arterial blood gas monitoring, ECG monitoring and recording. Lab is concurrent with lecture. Lab complements the material presented in lecture.

RESP1132 Mechanical Ventilation
- Study of adult mechanical ventilators, ventilation techniques with critical care monitoring and management. Lab complements the material presented in lecture. Utilizing the knowledge in a laboratory setting by practicing the set-up, application, monitoring of various adult ventilators used in the hospital setting. Lab is concurrent with lecture.

RESP1139 Clinical Education III
- Practice of basic respiratory care procedures to include medical gas, aerosol/humidity therapy, aerosolized drug therapy, resuscitation, airway management, lung volume expansion therapy, and bronchial hygiene therapy. Includes clinical conferences and case studies.

RESP1143 Neonatal & Pediatric Respiratory Care
- Study of neonatal and pediatric physiology, pathology, clinical situation management, infant and pediatric mechanical ventilation. Includes simulated practice with procedures and equipment.

RESP1144 Respiratory Rehabilitation & Home Care
- Overview of pulmonary rehabilitation, subacute care, and home care principles and practices.

RESP1147 Ventilator Management II Lab
- Extended lab study of advanced mechanical Ventilation from RESP1132 Mechanical Ventilation. Lab includes advanced patient assessment, advanced modes of ventilation, high frequency ventilation, and advanced therapies. Extensive use of case studies, patient scenarios and ventilator interaction will be utilized.

RESP1148 Critical Care Management
- Study of respiratory management of patients in critical care settings with emphasis on critical thinking skills in patient assessment and monitoring, and recommending alternative therapies. Extensive use of case studies, patient scenarios and ACLS algorithms.

RESP1149 Clinical Education IV
- Practice in adult critical care, basic pulmonary function testing, arterial blood gases, EKGs, mechanical ventilation, and emergency airway management. Includes clinical conferences and student case study presentations.

RESP2251 Cardiovascular Physiology
- Study of the cardiovascular system with emphasis on hemodynamic monitoring of the critically ill and pharmacologic control of cardiac output.

RESP2255 Respiratory Care Professions II
- Study of the professional aspects of Respiratory Care. Includes an overview of the process of finding a job, obtaining licensure as well as the requirements for board exams.

RESP2257 Cardiopulmonary Procedures Lab
- Includes detailed examination of cardiovascular anatomy, non-invasive and invasive hemodynamic monitoring.

RESP2259 Clinical Education V
- Includes rotations in neonatal and adult critical care, subacute and home care, cardiac and pulmonary rehabilitation, physician rounds, invasive and non-invasive lab. Students will also present a case study.

RESP2263 Patient Education
- Study of a wide variety of physical, psychological and social factors that impact the development of and recovery from disease. Includes an awareness development of a number of patient education programs in health care agencies and the community.

RESP2267 Clinical Simulations Lab
- Practice in information gathering and decision making in a variety of selected respiratory care scenarios.

RESP2268 Seminar Review
- Preparatory course for the NBRC exam. Self-assessment exams for the CRT and RRT will be utilized.

RESP2269 Clinical Education VI
- A continuation of Clinical Education V.

SIGN • Sign Language

SIGN1010 Beginning American Sign Language I
- Beginning course in American Sign Language (ASL). Development of vocabulary and grammatical structures of ASL. Receptive and expressive skill development. Basic ASL video literature.

SIGN1020 Beginning American Sign Language II
- Continuation of beginning course in American Sign Language (ASL) Development of vocabulary and grammatical structures of ASL. Receptive and expressive skill development. Basic ASL video literature.

SIGN2010 Second Year American Sign Language I (ASL)
- Conversational American Sign Language (ASL) idiomatic uses of ASL for creative expression. Extensive viewing and discussion of videotaped ASL conversations and literature.

SIGN2020 Second Year American Sign Language II (ASL)
- Conversational American Sign Language (ASL) idiomatic uses of ASL for creative expression. Extensive viewing and discussion of videotaped ASL conversations and literature.

SOCI • Sociology

SOCI1010 Introduction to Sociology
- Introduction to the basic principles of sociology including the study of culture, socialization, social structure, social institutions, investigative behavior, deviance, inequalities, and theoretical perspectives.

SOCI1020 Diversity in Society
- An overview of minority groups and majority-minority relations in the United States. Topics include awareness of similarities and differences, prejudice, discrimination, and the benefits of a diverse society.

SOCI2000 Women in Contemporary Society
- Interdisciplinary examination of the contributions of women to society, gender issues, and the progress toward equality.

SOCI2150 Issues of Unity and Diversity
- Increases awareness and sensitivity of commonalities and differences among people. Promotes positive exchange in our diverse and global society.
### SPAN • Spanish

<td></td>
<td>The study of communication to function successfully with others in the workplace. Focus on the basic processes of communications including: communication and cultural diversity, developing interpersonal relationships, interviewing techniques, working in small groups and teams, managing effective meetings, and various types of presentations (including individual and group). Students will perform at least three research-based oral presentations before an audience.</td>

</table>
SURT • Surgical Technology

SURT1600 Orientation to Surgical Technology  L  20  -  2
Prerequisite: Admission to the Surgical Technology Program.
Introduction to the surgical technology program, the health care system, effective
communication, multicultural diversity, legal/ethical issues, infection control, and basic
skills necessary to effectively function as a health care team member.

SURT1601 Techniques in Surgical Asepsis  L  20  30  3
Prerequisite: Admission to the Surgical Technology Program.
Introduction to instrumentation decontamination, preparation, packaging,
stereilization, and/or disinfection of supplies, instruments and equipment. Principles of
aseptic technique are applied in laboratory setting related to the sterile and unsterile.

SURT1603 Fundamentals of Surgical Technology  L  40  -  4
Prerequisite: Admission to the Surgical Technology Program.
Study of instruments, supplies, and equipment used in the perioperative process
of surgery.

SURT1604 Concepts of Surgical Procedures  L  20  -  2
Prerequisite: Admission to the Surgical Technology Program.
Study of the resection concept, abdominal incisions, commonly used instruments,
sutures and needles required for basic surgical procedures, including wound healing,
classifications and complications.

SURT1701 Clinical Orientation  L  25  45  4
Prerequisite: SURT1601.
Introduction to the specific duties of the surgical team including lab practice in
prepping, draping, positioning, catheterizing, back table set-up and organization. Main
course focus is aseptic techniques and critical thinking skills practiced to prepare the
student for clinical rotation.

SURT1704 Surgical Procedures & Techniques I  L  60  -  6
Prerequisite: SURT1604.
The introduction of surgical procedures to include: concepts, techniques, anatomy,
procedural sequence, definitions, purpose, etiology, supplies and equipment
relating to basic general surgery, gastrointestinal, biliary, rectal, gynecologic and
orthopedic systems.

SURT1705 Principles of Surgical Technology  L  40  -  4
Prerequisite: SURT1603.
Introduction to the perioperative care of the surgical patient and the patient with
special needs, perioperative pharmacology, anesthesia, special patient monitoring,
hemostasis, blood loss and replacement, and surgical robotics.

SURT1803 Fundamentals of Surgical Technology II  L  20  -  2
Prerequisite: SURT1603.
Introduction to specialized modalities in surgery including endoscopy, orthopedic
implants, power equipment, fixation devices for bone fractures, basic physics and
electricity theories, special surgical equipment, bone fracture, bone healing and casting
materials that are used in surgery to promote optimum patient care.

SURT1804 Surgical Procedures & Techniques II  L  50  -  5
Prerequisite: SURT1704.
The advanced surgical procedures to include: concepts, techniques, anatomy,
procedural sequence, definitions, purpose, etiology, supplies and equipment
relating to thoracic, neurological, vascular and transplant surgery.

SURT1810 Clinical Education I  L  -  210  7
Prerequisite: SURT1701.
Clinical practice with application of the student’s basic skills, aseptic technique, and
instrument knowledge to operative procedures in the hospital.

SURT2904 Surgical Procedures & Techniques III  L  50  -  5
Prerequisite: SURT1804.
The continued study of specialized surgical procedures to include: concepts, techniques,
anatomy, procedural sequence, definitions, purpose, etiology, supplies and equipment
relating to thoracic, neurological, vascular and transplant surgery.

THEA • Theatre

THEA1010 Introduction to Theatre  B/L  45  -  4.5
Introduction to the forms and functions of the dramatic arts within an
historical perspective, including theatre skills, dramatic literature and analysis.

THEA1140 Basic Acting  B  45  -  4.5
Introduction to the techniques and history of acting through individual and group
exercises, study and discussion of text and professional example. Develops the
students’ appreciation of the theatre and the craft of acting. Allows students to build
connections between life and acting through lecture, discussion, observation, theatre
games, improvisation and scene work. Familiarizes the student with the history and
development of acting theories using selected examples of its various cultural contracts.

THEA1850/1860/2850/2860/2880 Theatre Production  B  30-60-90  -  1.5-3-4.5
Prerequisite: By permission of play director.
Introduction to theory and principles of theatre production. Public performance
produced. Repeat this class for additional credit.

THEA1851/1861/1871/1881, THEA2851/2861/2871/2881 Theatre Practicum  B  45-90-135  -  1.5-4.5
Prerequisite: Permission of instructor.
Practicum is a learning experience in selected areas of theatre production.
Under a cooperative educational agreement with the College and
an outside theatre production, students are able to earn credit for practical theatre
production experience. Experience may include but will not be limited to design,
construction and promotion. Students will work a minimum of 15/30/45 hours per
quarter in conjunction with community acting group and its staff. Repeat this class for additional
credit.
THNC • Intelligent Machine Integration

THNC2100 Manufacturing Windows Operating Systems M 45 30 5.5
Prerequisite: Associate of Applied Science degree in Machine Tool Technology or Manufacturing Engineering Technology.
This course looks at the theory and operation of PCs and other manufacturing devices that use Microsoft Windows as an operating system. The course deals with some of the administrative elements of operating and maintaining a Windows-based PC, machine tool, or other manufacturing device.

THNC2110 Manufacturing Automation and Integration Theory M 40 10 4
Prerequisite: Associate of Applied Science degree in Machine Tool Technology or Manufacturing Engineering Technology AND permission of program chair.
This course examines the theory and operation of automation components and automation design, including pneumatic and mechanical devices such as solenoids, actuators, valves and limit switches. Many other devices common to automated equipment will be explored. Students will be working with fluid power schematics, as well as learning the theory and implementation of designing, controlling, and building an automated device.

TRUK • Professional Truck Driver Training

TRUK1100 Professional Truck Driver Training I L 40 96 7
Prerequisites: Student must meet minimum entrance requirements.
Intensive training course for tractor/trailer drivers. Vehicle inspection and preventative maintenance; hands–on defensive driving; skills development in coupling and uncoupling, backing, and shifting; and city and highway driving.

TRUK1120 Professional Truck Driver Training II L 60 164 11
Prerequisites: Student must successfully complete TRUK1110 (Professional Truck Driver Training I)
Intensive training course for tractor/trailer drivers. Accident procedures, daily driver’s log, trip planning, hazard perception speed management, extreme driving conditions, hands–on defensive driving, skills development in shifting, and city and highway driving.

WELD • Welding

WELD1060 Theory of OA/SMAW L 40 - 4
Prerequisite: Current declared Academic Transfer – STS option or currently enrolled at UNL in AG or STS education focus.
Theory, safety, equipment, application and operation of Oxy-Acetylene welding and Shielded Metal Arc Welding. Note; this class will not meet welding program criteria and is not available to students wishing to enter the welding program.

WELD1070 OX/SMAW Lab L 20 90 5
Prerequisite: WELD1060
Laboratory exercises with Oxy-Acetylene and Shielded Metal Arc Welding equipment and processes. Note; this class will not meet welding program criteria and is not available to students wishing to enter the welding program.

WELD1080 GMAW/GTAW Theory & Lab 1 L 50 60 7
Prerequisite: Current declared Academic Transfer – STS option or currently enrolled at UNL in AG or STS education focus.
Theory, safety, equipment, application and operation of GMAW/GTAW welding processes. Laboratory exercises in the use of equipment for GMAW/GTAW. Note; this class will not meet welding program criteria and is not available to students wishing to enter the welding program.

WELD1090 GMAW/GTAW Lab 2 L - 60 2
Prerequisite: WELD1080
Laboratory exercises in the use of equipment for GMAW/GTAW. Note; this class will not meet welding program criteria and is not available to students wishing to enter the welding program.

WELD1100 Welding Orientation L/M 10 - 1
Orientation to the college philosophy, goals, objectives within the welding program area.

VPUB • Visual Publications

VPUB1130 Pre-Production Techniques L 30 45 4.5
Prerequisites: VPUB1132 or permission of program chair.
Students learn to recognize problems in files prepared for printing. This course explores the many facets of electronic prepress focusing on preflight, fonts, text, and graphic requirements. Providing useful applications that will assist them in creating quality and efficient files. PDF file creation will be emphasized.

VPUB1134 Web Design I L 25 60 4.5
Prerequisites: VPUB1121 and VPUB1122 or permission of program chair.
Introduction to basic Internet functions. How to design an effective and efficient Web page. Students learn a beginning web page layout and tools using Dreamweaver.

Milford 402-761-8202 or 800-933-7223 ext. 8202
Pre-Admission Advising and Testing

All applicants for admission are provided opportunities for pre-admission basic skills assessment/placement testing, advising and career planning. Applicants who desire pre-admission basic academic skills testing and/or career advising should contact the appropriate Admissions Office for arrangements. Southeast Community College promotes the philosophy that all applicants should possess certain levels of academic ability in order to succeed in their selected Program of Study. Applicants required to complete COMPASS/ASSET basic skills testing will be notified by the appropriate campus. Students may be required to complete developmental course work before advancing to certain program courses. Specific information about developmental course work is available through campus Admissions and Career Advising staff.

Admission Requirements

All students who are accepted for admission to a Program of Study must demonstrate the "ability to benefit" from instruction by having graduated from an accredited or approved high school or college, or having completed the requirements for a GED certificate. The student who has not graduated from high school or who does not have a GED certificate must take an independently administered assessment/placement test and must achieve specified test scores in order to demonstrate an “ability to benefit.” The ASSET/COMPASS assessment/placement used by SCC are tests used to determine a student’s ability to benefit.

Federal financial aid will not be available to students who have not graduated from high school or completed a GED and are admitted under ability to benefit guidelines.

Transcript and/or testing requirements may be waived under certain circumstances. Contact the College Admissions Office for more information.

Any person 16 years of age or older who is not enrolled in a regular secondary school program is eligible to enroll in SCC classes provided they meet any stated class prerequisites. Eligible high school students in good standing may enroll in college credit classes with written permission from their high school principal or counselor. Students under 16 years of age will not be accepted for admission into Programs of Study. Students under 16 may enroll in credit classes with special permission from the College campus Dean of Student Services. Contact an SCC Student Services Office to obtain a permission form.

Students under 16 years of age may enroll in special non-credit classes which are offered by the Continuing Education division.

These special classes usually are designed for youth and adults who register and attend classes together. Other special enrollment opportunities for students under 16 will be identified in the course description and/or advertisement.

High school students enrolling in distance learning classes must meet all of the College course prerequisites prior to the start of class. Contact the campus Registration and Records Office for additional information.

Some programs offered by the College may require completion of prerequisite courses, physical examinations and other special requirements such as CPR training or a certified copy of their driving record. Additional program requirements are determined by staff within the program.

Some Programs of Study will require a criminal background check.

All special requirements for admission are available in the campus Admissions Offices.

Developmental course work and high school equivalency programs are available at SCC to students who do not meet College admission requirements.

Re-Admission Steps

Former SCC students who were declared and enrolled in a Program of Study, and who have not been enrolled for one or more years, must reapply for admission to be eligible to register for program classes. Returning former students must complete an Application for Re-admission form and submit the completed application to the appropriate campus Admissions Office.

Re-admission is subject to available space and current requirements established by the College and the Program of Study.

Student Status - based on enrollment in three of four terms (quarters) during a continuous 12-month period.

- Full time = 12 or more credit hours per term
- Part time = fewer than 12 credit hours per term
- 3/4 time = 9 through 11.5 credit hours per term
- 1/2 time = 6 through 8.5 credit hours per term
- Less than 1/2 time = Fewer than 6 credit hours per term

Contact the campus Registration and Records Office for specific student enrollment history.
Application for Admission

All requests for information regarding admission to any program and all completed application forms should be obtained from and submitted to the Admissions Office of the campus selected by the student. SCC has the right to deny admission or continued enrollment to persons who have misrepresented their credentials or background.

Steps for Admission into a Program of Study

I. Complete And Submit An Application Form

A. Application Form
1. All students seeking admission to a Program of Study at SCC must complete an Application for Admission form indicating the campus to which they are applying.
2. Application for Admission forms are available in the Student Services Offices on each campus and at www.southeast.edu.

B. Students Applying For Admission To More Than One Program Of Study

1. LIKE PROGRAMS OFFERED ON MORE THAN ONE CAMPUS
   a. For like programs offered on more than one campus (i.e. Welding, Practical Nursing, Academic Transfer), a student can only be admitted to the program at one location for a given year and term.
   b. Current students desiring to transfer from their current Program of Study on one campus to the same program on a different campus must contact the program chair at the second location to determine if an opening is available. If an opening is not available, the student must complete the steps for admission to a Program of Study in order to reserve a place for a future term in the program at the second location.

2. DIFFERENT PROGRAMS IN SAME YEAR AND TERM
   Unless there is a conflict in scheduling, a student can be admitted into two different programs on the same or different campuses for the same year and term. (Contact the campus Admissions Office for additional information.)

3. DIFFERENT PROGRAMS IN DIFFERENT YEARS AND/OR TERMS
   A student can be admitted into two or more different programs in different years and terms. (Contact the campus Admissions Office for additional information.)

C. Effects on Financial Aid if Applying for Admission to More Than one Program of Study

Students planning/expecting to receive financial aid are subject to federal restrictions that may limit their options. To receive financial aid, federal regulations require that a student:

- Be enrolled in a Program of Study leading to the completion of a diploma or associate degree at SCC
- Has received aid for no more than one Program of Study at a time
- Can receive financial aid only for a limited period of time
- Make satisfactory academic progress toward completing a Program of Study
- Intends to complete his/her Program of Study
- Register only for courses required for the completion of their declared Program of Study at SCC. (Contact the campus Financial Aid Office for additional information.)

II. Submit Transcripts

A. High School or GED Transcripts
1. Request that a copy of your high school, GED or College transcript be sent directly to the SCC Admissions Office at the appropriate campus.
2. High school transcripts provide evidence of high school graduation and credit by participation in Tech Prep. High school transcripts and College transcripts identify specific courses taken in high school and college that may affect the courses that students register for in their SCC college Program of Study.
3. Prior to entering a Program of Study, students who have NOT completed a high school diploma or a GED program must demonstrate the ability to benefit from college classes by achieving a minimum score on the SCC assessment/placement exam. The ASSET/COMPASS assessment/placement used by SCC are tests used to determine a student’s ability to benefit. Federal financial aid will not be available to students who have not graduated from high school or completed a GED and are admitted under ability to benefit guidelines. (Contact the campus Testing and Assessment Office for additional information.)
4. Students must have a high school diploma or equivalent to receive an Associate Degree, Diploma or Certificate from SCC. A GED program is available at SCC for students who have not graduated from high school and who do not have a GED certificate. (Contact the Continuing Education Division for additional information.)
5. Home-schooled students must submit a typed transcript of all courses completed, signed by the school administrator and a copy of the letter from the Nebraska State Department of Education that confirms your school has filed the appropriate paperwork to be recognized with “exempt status.”

B. Postsecondary Transfer Credit

Copies of official transcripts from all postsecondary institutions must be sent directly from the institution to the College Admissions Office at the appropriate campus.
III. Complete An Assessment/Placement Test
Applicants for admission will complete course placement testing to assess readiness in basic reading, written expression and mathematics to determine whether their skill level is consistent with program requirements. Applicants can request help from the career advising staff to determine the entrance requirements for specific programs.

Students may be required to complete developmental course work before advancing to certain program courses. Specific information about developmental course work is available through campus Admissions and Career Advising staff.

A. Initial Assessment/Placement Testing Required
All students entering SCC programs MUST demonstrate readiness through at least one of the following basic skill assessment/placement tests:

1. Achieve appropriate ACT scores in each of the areas of language, reading and math as required by a specific program. These scores may be sent directly by ACT to SCC, be reported on the high school transcript, or be brought in by the student;
2. Provide evidence of three (3) hours or more of transfer credit from an accredited postsecondary institution with a grade of “C” or better in each of the areas of English, math and a course which indicates reading ability, e.g., social studies, psychology;
3. Achieve COMPASS/ASSET placement scores as required by the specific Program of Study for which the individual is applying. The first COMPASS/ASSET basic skills assessment/placement is available at each campus free of charge.

COMPASS testing is required when an individual has taken a prerequisite in English or mathematics and the course is older than 5 years or the necessary ACT score is older than 5 years.

A student who cannot fulfill any one of these criteria should discuss the alternatives available with a College Career Advisor.

B. Retesting
Retesting is possible for individuals who believe their course placement test scores do not reflect their current skill levels in reading, written expression and mathematics. If the student has previously taken the COMPASS or ASSET test, a $15 re-take fee is required (in advance) per testing session regardless of whether the individual is taking the entire test (3 parts) or subtests. If individuals want to take one section at a time, they have five (5) business days to complete that testing.

1. Current high school students may test and retest at no charge.
2. Individuals having any test scores older than 5 years will be asked to retake the COMPASS test but will not be charged for retesting. Additional retests are $15.
3. When an SCC instructor in English, writing or math, or an SCC Testing/Assessment Center staff person requests a retest, there will be no fee assessed.
4. Individuals who wish to retake the COMPASS test must have completed additional study in the test area(s) that they did not pass the first time, and be able to demonstrate that additional study to SCC Testing Center staff before they will be allowed to retest. Individuals must wait 30 days between the first and second testing to allow adequate time to study in the problem areas and prepare for the second test. Individuals will not be permitted a second retest (third time of testing) until 30 days after the first retest (second time of testing).

IV. Submit any Additional Information Required for Your Chosen Program of Study.
Applicants requesting admission to a specific Program of Study will be notified by the College Admissions Office of any additional information required by their chosen Program of Study.

V. Students Will Receive Written Notification by Mail as Soon as Possible About Their Admission Status.

NOTE: Students admitted to a program of study are expected to abide by the rules and regulations of the program and the complete courses required by that program. A student may be withdrawn from a program of study if not following these guidelines.

Nebraska Residency Requirements
To be eligible to register at resident tuition rates at SCC, Nebraska residency must be established according to the provisions of Nebraska revised statute Section 85-502.

An individual will qualify as a resident of the state of Nebraska for tuition purposes at SCC if the standards set forth in any one of the following eight (8) categories are met:

1. An individual who is a graduate of an accredited Nebraska senior high school, or has previously been enrolled at SCC as a resident student.
2. An individual who has married a resident of Nebraska.
3. A person of legal age who is dependent for federal income tax purposes on a parent or guardian who has established a home in Nebraska.
4. A minor whose parent(s) or guardian who for a period of six months have established a home in Nebraska where such parent(s) or guardian are habitually present with the bona fide intention of making Nebraska their permanent place of residence.
5. A person of legal age or an emancipated minor who for a period of six months shall have established a home in Nebraska where he/she is habitually present, and shall verify by documentary proof that he/she intends to make Nebraska his/her permanent residence. (Examples that may satisfy Nebraska residency: voter registration, Nebraska driver’s license, vehicle registration, payroll records, apartment lease agreement.)
6. An individual who is an alien and who for a period of at least two years has established a home in Nebraska he/she is habitually present with the bona fide intention of becoming a permanent resident alien of the United States and making Nebraska his/her permanent residence.
7. An individual who is a member of the armed forces and stationed in Nebraska, or one of the other technical community college areas.
8. An individual on active duty with the armed services of the United States who has been assigned a permanent duty station in Nebraska, or a dependent of an individual who is a member of the armed services assigned to a permanent duty station in Nebraska.

Any student who has been classified as a non-resident and believes he/she may qualify as a resident must file a residency application form with the Dean of Student Services before the end of the fourth week of the quarter for which the tuition fee was charged. Residency application forms, as well as further
The College requires a student’s Social Security number as a condition for enrollment for all students registering for classes at SCC (See Family Educational Rights and Privacy Act - FERPA) with the exception of individuals who are documented to be “lawfully admitted aliens.” For those registering students who are documented as “lawfully admitted aliens,” independent of their eligibility to obtain a Social Security number, an alternate number will be assigned to distinguish their student records from others.

Registration forms are processed by the Registration and Records Office. The office is responsible for collecting and maintaining all student records and grades, is in charge of registrations, and receives all drop/add forms.

After registering, payment of tuition and fees must be made no later than the beginning of a term, or within the established payment deadline. Failure to meet established payment deadlines will result in debt collection activity. The student is responsible for all unpaid balances. All outstanding balances must be paid before a student can register for courses on any SCC campus.

Students may enroll in the eCashier monthly payment plan. (See Payment Policy - Financial Planning)

**Course Repeat Procedure**

Students may not take an academic/vocational course more than two times, whether to improve a passing grade or to repeat a course in which the grade was “W,” “I,” “F,” “AU,” without prior approval. Prior to a student registering for a course for the third time, a plan of action (repeat course form) must be completed and approved by the student’s advisor and Program Chair of the course.

Declared students must meet with a program advisor. Undeclared students must meet with a Career Advisor. If a student retakes a course, the highest grade earned will be used in the computation of the cumulative grade-point average and for satisfying degree requirements. Any request to take a course more than three times must be documented, by completion of a Course Repeat Form, and presented to the Program Chair and Division Dean for their approval.

Appeals to this policy must follow established grievance policy procedures. The Vice President for Instruction’s decision shall be final on this matter. (Other Federal/Program Guidelines may supersede this policy.)

**Auditing a Course**

Students planning to audit a course must complete a “Request to Audit a Course” form. This form must be completed prior to the first class session. The student must pay the regular tuition and fees for the course, but will not receive college credit. Tuition and fees paid for Audit courses are nonrefundable. A grade of AU is assigned and cannot be changed without re-taking the course for college credit. Students receiving financial aid or Veterans’ benefits cannot count audited courses toward to minimum credit hour requirement.

**Prerequisites**

A student may be prohibited from registering for some programs/courses which have specific program prerequisites if the student fails to meet those program/course prerequisites.

**International Students**

The following requirements apply for students applying to SCC requesting an I-20 (F-1 Visa).

1. Completed Application for Admission.
2. Certified copies of academic records, plus English translations where necessary.
3. International version of TOEFL (Test of English as a Foreign Language) with a total score of 500 or higher if paper based, 173 if computer-based, or 61 for Internet version. Scores must be sent directly to the College by using institutional code 6795. The TOEFL requirement may be waived by the Dean of Students when the international student comes from a predominantly English-speaking country.
4. Signed Financial Resource Statement showing resources sufficient to cover course of study and transportation expenses to and from the home country. A minimum of $10,000 for one year is required.

Contact the Admissions Office at the campus where you are applying for admission for specific information assistance and required forms.

F-1 Visa students authorized to attend another college can register for concurrent classes at SCC. Tuition is non-resident rate. Enrollment status is with the school the student is authorized to attend. Check with your authorized school to remain in status.

**Undeclared Students**

Students may take courses at the College in an undeclared status. There are two categories of undeclared students:

1. Those waiting acceptance into a Program of Study, and
2. Those not planning to pursue a Program of Study but who are taking credit classes for transfer, job advancement, or other purposes.

Undeclared students may register for classes during general registration. College staff are available for assistance.

Undeclared students may not register for more than 20 credits in a term unless permission is granted by the Dean of Student Services.

**Registration Procedures**

It is recommended that prior to registration, students consult with advisors or instructors. Registration dates are published and available in the Student Services Office prior to each registration period.

Additional information also will be made available by faculty and program advisors.

General registration information is distributed each term by the Registration and Records Office on each campus. It is each student’s responsibility to become familiar with registration schedules, deadlines, completion of registration forms, and any required signatures. Students who are declared in a Program of Study are allowed to register before general registration.

Students may be limited to the number of credit hours they can register for in any one term.
Student Criminal Background Checks

If a Criminal Background Check or a student’s self-disclosure indicates that the student has a criminal history, he or she may be prohibited from participating in designated Programs of Study. For purposes of this procedure, a student has a criminal history if he or she:

1. has been convicted of a criminal offense;
2. has pled guilty to a criminal offense;
3. has entered a plea of no contest to a criminal offense;
4. has entered into a program of pre-trial diversion; or
5. has criminal charges pending.

The existence of a criminal history will not automatically disqualify a student from participating in a designated Program of Study. A criminal history which involves one or more felony offenses will generally be disqualifying.

A criminal history which involves only misdemeanor offenses will generally be disqualifying only if the offense(s) involve a crime of violence; sexual assault; the abuse of a child, elderly person with a disability, or person under the care of the student in any type of medical or mental health setting; the unlawful use, possession or sale of narcotics or controlled substances; or if the offenses are so numerous or of such a character to indicate that the student may pose a threat to the employees, clients, or property of the designated program or the College.

Subject to the foregoing, the following criteria will be considered in determining whether an affected student will be permitted to participate in a designated program:

1. The date, nature and number of arrests and convictions;
2. The relationship which the arrest or conviction bears to the duties and responsibilities of the affected student in a clinical setting;
3. Successful efforts toward rehabilitation;
4. Rules and regulations of the clinical program;
5. Other criteria which are determined by College administrators to be relevant.

A CBC is required for all students in the following programs and continuing education courses:

- Associate Degree Nursing
- Criminal Justice
- Dental Assisting
- Early Childhood Education
- Emergency Medical Services
- Human Services
- Medical Assisting
- Medical Laboratory Technology
- Nursing Assistant
- Paramedic
- Practical Nursing
- Pharmacy Technician
- Physical Therapist Assistant
- Polysomnographic Technology
- Radiologic Technology
- Respiratory Care
- Surgical Technology

Students must be continuously enrolled in the College for a CBC to be considered valid. Additional CBCs may be required if a student’s enrollment lapses beyond one year from the date of enrollment.

Licensure Requirements

Licensure is a requirement for employment after graduation from several College programs. Specific licensure requirements may be obtained from the agency or authority responsible for issuing licensure. The College does not grant licensure or ensure an individual’s eligibility to obtain licensure after graduation. It is each student’s responsibility to know and understand these requirements.

Drop/Add Classes

Student-Initiated Drop

Students may initiate a drop from a class/es prior to the deadline for dropping classes (see deadline dates and refund information.)

To drop a class(es), a student must

a.) submit an “Official Drop/Add Form For Credit Classes” to the Registration and Records Office located in the Student Services Office

OR

b.) drop the class online using WebAdvisor.

Failure to attend classes does not constitute a drop.

Students must submit an official drop form prior to the refund deadline to be eligible for a tuition and student services fee refund. Failure to attend classes does not absolve the student from making complete payment for all tuition and fees associated with the student’s registration.

NOTE: Students who have failed a class due to academic integrity or other disciplinary reasons are not eligible to drop or withdraw.

Important Deadline Dates

The date on which 12.499% of time has elapsed since the first day of the term will be

1. The last date a student is allowed to register for a class for that term.
2. The last date a student can drop a class to get a refund of tuition and student services fee for that term. Specific dates for individual classes are included in the printed credit class schedule each term.
3. The date that all instructors are required to report students who have never attended class (“No Show” Students)

“No Show” Students

1. Under federal rules, the College cannot pay financial aid to students who never attend class. Financial aid will not be distributed to students who have been reported as never having attended class (“No Show” students).
2. “No Show” students will be billed and held responsible for full payment of tuition and fees for classes they do not drop within the designated refund period. (See Drop/Add)
3. “No Show” students will be removed from the class rosters and no grade will appear on a student’s transcript.
Last Date a Student is Allowed to Start a Class

If a student is registered for a class, the instructor must allow the student to start class prior to 12.499% of the time elapsed.

After 12.50% of the time has elapsed since the first day of class, the instructor may allow a student to start a class “ONLY” with special permission from the Program Chair and Division Dean.

All 12.499% and 12.500% time elapsed calculations are based on calendar days, including Saturdays, Sundays, holidays and weekdays, from the first day of the class.

Specific dates will be posted in the Student Handbook and Credit Class Schedule.

Adding Courses After Initial Registration

To add a course(s) prior to 12.499% of the time elapsed since the first day of the start of class, a student must do the following:

1. Complete an official drop/add form
2. Have the course instructor or program designee sign the form to approve the add, if after the second day of the term.
3. Submit the form to the Campus Registration and Records Office no later than 12.499% of the time elapsed since the first day of the start of class.
4. To add a course or courses after the first 12.499% of the time elapsed since the first day of the start of class a student must follow the procedure above, but must have both the Program Chair and Division Dean signature on the add form.

The same procedures listed above apply to courses that vary in length from the regular term dates and can be added within the first 12.499% of the time elapsed since the first day of the start of class. Specific dates for individual classes are included in the printed credit class schedule each term.

Some courses are taught on an individualized basis and offer continuous enrollment if space is available. If those courses are added after 12.499% of the time elapsed since the first day of the start of class, the signature of the both the Program Chair and Division Dean are required prior to being submitted to the Campus Registration and Records Office.

Wait-Listing a Course

When a course section reaches its maximum capacity, it is possible for students to add themselves to a waitlist via WebAdvisor.

Email Address

Students must have a current email address on file at Southeast Community College before adding themselves to a waitlist. To verify the email address is accurate, go to WebAdvisor and from the main menu select: Student -> Address Change. Email addresses are listed at the bottom of the page. If the address is incorrect, make the necessary changes and click->Submit. Corrections are sent directly to the Registration & Records Office, however, they are not immediately seen on WebAdvisor.

Waitlisting a course

Students can add or remove themselves from a course waitlist through WebAdvisor. After selecting a class which is full, on the registration screen select Action->Waitlist->Submit.

Note: Students cannot waitlist themselves for classes if any of the following conditions apply: prerequisites are not complete, the student is currently registered for another section of the class or tuition is owed to the College. Also, students cannot waitlist themselves for multiple sections of the same course.

Permission to register

When there is an opening in a class, the first student on the waitlist will be notified via email. The student can register for the section online by going to WebAdvisor -> Students -> Registration -> Manage My Waitlist -> Action -> Register -> Submit.

One (1) day to register

When given permission to register, the student will have one day to register. At the end of this time, if a student fails to register for the designated class, the student is removed from the waitlist and the next student is notified.

Removal from the Waitlist

Go to WebAdvisor -> Students -> Registration -> Manage My Waitlist -> Action -> Remove -> Submit.

Tuition

Students are not charged tuition for courses in which they are waitlisted. Tuition charges will not be posted to the student account until the registration process is complete.
Refunds for Classes

Calendar Days/Automatic Computer Calculations

Calendar Days: All days are included in the computation of calendar days, including Saturdays, Sundays, holidays, and weekdays.

Automatic Computer Calculations: Percent of time elapsed is automatically calculated by the College computer and based on calendar days from the first day of class.

Last Date To Drop A Credit Class And Receive A Refund

The student is entitled to a 100% refund for any credit class officially dropped prior to 12.499% of the time elapsed since the first day of the start of class, including Saturdays, Sundays, holidays, and weekdays.

“NO” refund is allowed after 12.500% of time has elapsed since the first day of the start of class, including Saturdays, Sundays, holidays, and weekdays. A student’s transcript will not show any registration data if the student drops prior to 12.499% of the time elapsed since the first day of the start of class, including Saturdays, Sundays, holidays, and weekdays.

Refunds are not automatic. To obtain a refund or adjustment on your account, you must
a.) drop the class online using WebAdvisor or
b.) submit an “Official Drop/Add Form For Credit Classes” prior to the deadline for dropping and receiving a refund. Refunds will not be granted after these deadlines.

Refunds for classes cancelled by the College are automatically processed and students are not required to submit a drop form.

Electronic Refunds

Electronic payment of refunds is the FASTEST, safest and most convenient method for students to receive refunds. Students can sign up on WebAdvisor for an electronic payment option. The College recommends that students sign up to have refunds transferred electronically to their existing bank account. If a student does not currently have a bank account, the College has made arrangements with Union Bank and Trust Company of Lincoln for the student to open a Simply Free Checking account or a Union Bank Savings account. The student may start the process of opening a Union Bank account via WebAdvisor or they may stop at any Union Bank branch office to open an account.

If a student does not sign up for electronic payment of refunds, a check will be processed at the same time that funds are electronically transferred to other students. Depending upon the day of the week, holidays, and the speed of mail delivery, paper checks may take up to 10 days or more to reach the student. Checks will be processed off site and will not be available for pickup by students. Paper checks will be mailed to the student’s current address.

If you are having your check deposited electronically, please check your bank account online, if your bank provides online access, to verify when your refund was deposited.

If you are receiving your refund by paper check, please wait a week after paper checks are mailed before inquiring about your refund.

(Please refer to the Financial Planning section for further information on tuition and refunds.)

To determine a student’s eligibility for a refund, all 12.499% and 12.500% time elapsed calculations are automatically calculated by the College computer and based on calendar days from the first day of the start of class, including Saturdays, Sundays, holidays, and weekdays.

Last Date To Drop A Non-Credit Class And Receive A Refund

The student is entitled to a 100% refund for any non-credit class if the class is dropped the day before class begins. If a student drops a class the day class begins or after, there will be no refund.

Deadline For Dropping Class(Es) And Receiving A Grade Of “W”

The deadline for dropping a class and receiving a grade of “W” is two (2) days prior to the 60% point. Student-initiated drops which occur between the 12.499% of the time elapsed since the first day of the class and prior to the drop deadline will receive a grade of “W.” Students may request a drop (awarding of a grade of “W”) after the drop deadline for dropping classes, only if extenuating circumstances exist. Personal problems such as illness, job change or a move out of town may be considered by individual instructors and approved by the Division Dean.

A student is entitled to a refund computed on the following formula and tables:

Formula:

\[
\frac{(\text{Drop Date}) - (\text{Course Start Date})}{(\text{Course End Date}) - (\text{Course Start Date})} = \% \text{ Elapsed}
\]

Credit class Table:

<table>
<thead>
<tr>
<th>% elapsed</th>
<th>% of refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>0.000 - 12.499</td>
<td>100</td>
</tr>
<tr>
<td>12.5 and over</td>
<td>0</td>
</tr>
</tbody>
</table>

Non-Credit class Table:

<table>
<thead>
<tr>
<th>% elapsed</th>
<th>% of refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>day before</td>
<td>100</td>
</tr>
<tr>
<td>start day or after</td>
<td>0</td>
</tr>
</tbody>
</table>

All days are included in the computation, including Saturdays, Sundays, holidays, and weekdays.
The cost of a quality education at SCC is very affordable. However, to determine if you will need assistance, please visit with our financial aid staff. Loans, scholarships, grants, and work study programs are available to qualified persons. Remember, the key to obtaining financial assistance is to apply early.

Financial Aid Programs

Southeast Community College believes that qualified students who wish to attend the College should not be prevented from doing so for financial reasons. Although the Department of Education expects students and families to have primary responsibility for funding their education, the College will make every effort to assist those who need help. Through extensive financial aid programs, we seek to put educational costs within the reach of every prospective student enrolled in an eligible program at the College.

More than 80 percent of the student body receives some form of financial assistance. Financial assistance is given through scholarships, grants, loans, and part-time employment. The amount is determined on the basis of need and/or scholastic achievement. “Demonstrated financial need” is defined as the difference between the amount it costs to attend the College and the amount the Department of Education says the student or student’s family can reasonably contribute toward those costs.

Costs include education-related expenses such as tuition and fees, books and supplies, room and board, transportation, and personal expenses.

SCC participates in FEDERAL and STATE financial aid programs, as well as INSTITUTIONAL FINANCIAL AID. Students are advised to complete necessary forms early, by the posted “Priority Filing Deadline Dates,” to avoid delays in receipt of a financial aid award. Institutional Financial Aid is awarded on a first-come, first-served basis.

---

**Priority filing deadline dates for completing necessary financial aid forms are as follows:**

- April 1 for summer term
- July 1 for fall term
- October 1 for winter term
- January 1 for spring term
SCC participates in the following financial aid programs:

**Federal Financial Aid**

**Pell Grant**
The Pell Grant is a grant from the federal government that does not have to be paid back. The grant may only be awarded to undergraduate, degree-seeking students who have not already obtained a bachelor's degree. The award amount is based on a student’s financial need as determined by the Free Application for Federal Student Aid (FAFSA) application.

**Federal Supplemental Educational Opportunity Grant**
SEOG awards are made to undergraduate students with exceptional financial need. SCC has a limited amount of funds to award to eligible Pell Grant recipients with the lowest estimated family contribution.

**Federal College Work-Study Program**
SCC participates in the Federal College Work-Study Program. FCWS funds are awarded to students on the basis of financial need. Students seeking FCWS need to complete and return a Work-Study Application for consideration. Forms can be picked up at the SCC Placement or Financial Aid Office on the campus where you will be completing your Program of Study.

**Federal Direct Stafford Loan**
The Federal Stafford Loan program enables students to borrow from the U. S. Department of Education. The loan amount is limited to the cost of education minus EFC, and in some instances minus other financial aid the borrower is expected to receive for the loan period.

Dependent, first-year students may borrow a maximum of $5,500 per school year. Dependent, second-year students may borrow a maximum of $6,500 per school year (subject to other restrictions per federal regulations). Independent, first-year students may borrow a maximum of $9,500 per school year. Independent, second-year students may have a loan limit of $10,500.

**Federal Direct Parent Loan (PLUS)**
The Federal PLUS is for parent borrowers of dependent students and provides additional funds for educational expenses. Federal PLUS loans enable parents with good credit histories to borrow for each dependent child who is enrolled at least halftime. Federal PLUS loans are made by the U. S. Department of Education.

Applicants do not have to show financial need, but must undergo a credit analysis. Repayment begins within 60 calendar days of disbursement, and deferments are available under certain conditions. Federal PLUS loans cannot exceed the College’s estimated cost of education minus other financial aid.

**Nebraska State Financial Aid**

**Nebraska Opportunity Grant**
NOG funds are awarded to Nebraska residents on the basis of financial need eligibility. Students apply by completing the FAFSA. Eligibility is determined by state guidelines.

**Institutional Financial Aid**

**SCC Tuition Grant**
The SCC Tuition Grant is a waiver of tuition, or a portion thereof, for one or more terms and is not a cash award. Students apply by completing the FAFSA. This institutional grant is awarded on the basis of financial need.

---

**Scholarships**

SCC’s scholarship program was established to promote and encourage interest in education for students planning to enroll, to reduce the student’s financial obligation and to recognize outstanding academic achievement in course work already completed at SCC. Scholarships are considered “gift aid” and do not require repayment unless the donor has clearly indicated repayment procedures in the scholarship announcement.

Scholarships are awarded on the basis of academic achievement and/or financial need. Applicants are evaluated on criteria specified by the scholarship donor. Selection is made by the SCC Scholarship Committee or the scholarship donor. Students applying for scholarships awarded on the basis of financial need must file a FAFSA.

Scholarships are added to the student’s aid package. In case aid is terminated or a student withdraws or is academically suspended, unused funds are returned to the appropriate fund including, but not limited to, NOG, SEOG and SCC Tuition Grant.

Scholarships available include those provided through the SCC Educational Foundation and others designated by contributors for specific categories.

For more information and a listing of available scholarships by campus, contact the campus Financial Aid Office or visit us online.

**Applying Online For SCC Scholarships**
The SCC Educational Foundation was organized in 1975 with the sole intent of maintaining, developing and extending services to the College and to further educational opportunities to students, staff and the residents of the area which it serves. The mission of the Foundation is to support the vitality and growth of SCC to benefit students, staff and communities it serves.

The SCC Scholarship application is available ONLINE and has open enrollment during the following calendar days:

- **Nov 1 – Nov 22**
  - Current and new SCC students who plan to attend Winter Quarter (January - March).
- **Dec 1 – Feb 22**
  - Current and new SCC students who plan to attend “Spring Quarter” (April - June).
- **May 1 – May 22**
  - Current and new SCC students who plan to attend “Summer Quarter” (July - September).
- **Aug 1 – Aug 22**
  - Current and new SCC students who plan to attend “Fall Quarter” (October – December).

Note: To be considered for scholarships based on financial need, the applicant must complete the FAFSA for the appropriate school year.

*For the academic year beginning July 2012, applicants will need to complete the new 2012-2013 FAFSA (www.fafsa.ed.gov) to be considered for need-based scholarships being offered during that academic year.*

If a student is unable to apply online, he/she may contact the Financial Aid Office with an explanation of extenuating circumstances and may receive assistance with the application process.

**Other Sources of Assistance**

Financial aid for educational expenses also is available from the:
- Veterans’ Administration
- Nebraska National Guard
- Army and Navy Reserves
- Bureau of Indian Affairs
- Professional Development
- Vocational Rehabilitation
- Nebraska Department of Labor

Contact the respective agency for information.
Financial Aid Awards
SCC issues an ONLINE Financial Aid Award Letter which informs students of the financial aid they are eligible to receive. Priority Filing Deadline Dates have been established to prevent delays in processing financial aid awards. Complete information will be processed and an online Financial Aid Award Letter will be generated indicating financial aid eligibility for the academic year.

Applying For Veterans’ Benefits
Students applying for veterans’ benefits need to complete an “Application for Veterans’ Educational Benefits.” These forms are available online from the Veterans’ Administration or SCC. The completed application, along with other required documents, should be submitted to SCC approximately two months prior to enrollment. If the student previously attended another college or school, an academic transcript from each school also must be submitted to SCC within 30 calendar days after initial enrollment for review. Transcripts are required even if no credits were earned. Students receiving veterans’ benefits cannot count audited courses in determining course load. Soon after enrollment, SCC will certify the students’ credit hour load. This certification initiates the payment process, and students should receive their first payment approximately 30 business days after enrollment is approved.

Satisfactory Academic Progress
All students receiving federal financial aid and/or Veterans’ Benefits are subject to certain policies regarding eligibility and satisfactory academic progress toward an educational goal. Failure to make satisfactory progress could result in the student being placed on financial aid warning and suspension. Detailed information on specific satisfactory progress policies and requirements is provided to all students who participate in federal financial aid and Veterans’ Benefit programs.

Minimum Standards for Maintaining Satisfactory Academic Progress
1. Must have a cumulative grade-point average of 2.0 or higher
2. Must pass at least 66% of the credit hours attempted.
3. Must not exceed 120% of the minimum number of credit hours required for completion of the student’s specific Program of Study

Financial Aid Status
Financial Aid Warning
A review of the student academic transcript indicates that satisfactory academic progress has not been made according to federal financial aid regulations in one or more of the following areas: Successful completion of at least 66% of all credits attempted; Minimum cumulative grade point average of 2.0; Requirements for degree must be completed within a specified time frame. This time frame cannot exceed 120% of the program as measured in credit hours attempted. While on warning status, students may continue to be eligible for financial assistance. However, satisfactory academic progress requirements must be achieved by the end of the next enrollment/payment period in order to continue to receive aid. Failure to do so will result in the loss of eligibility for future terms.

Financial Aid Suspension
Students who were previously on “warning” status and continue to not meet one or more of the above criteria are placed on financial aid suspension. While on suspension status, students are ineligible to receive financial aid from any program administered through the College. This denial includes institutional and state funds, as well as funds from the Federal Pell Grant, Federal SEOG, Federal Work-Study, Federal Subsidized and Unsubsidized Stafford Loans, and Federal PLUS Loans. Financial Aid suspension does not prevent students from enrolling at the College. However, until satisfactory academic progress is achieved, students must enroll at their own expense.

Applying for Financial Aid
To ensure timely receipt of a financial aid award, specific steps must be followed. SCC recommends completion of both Steps 1 and 2 below at the same time. Also, meeting the Priority Filing Deadline Dates will ensure timely processing of aid.

1. Be accepted for Admission to SCC.
   Students must be accepted for admission to the College and must enroll in an eligible Program of Study.

2. Have a high school diploma or GED.

3. Complete the FAFSA form.
   The Financial Aid Office encourages completion of the FAFSA online upon completion of your tax return. Access to the FAFSA link online can be obtained by going directly to www.fafsa.ed.gov.
   Paper applications (FAFSA) are available through the Financial Aid Office or your high school guidance office. Carefully complete all questions, not leaving any blank, and submit it as early as possible.
   Important: It is very important to list the Title IV Code for SCC on the FAFSA form.
   Title IV code for SCC = 007591
   PROCESSING TIME FOR THE FAFSA WILL BE APPROXIMATELY TWO TO FOUR WEEKS.
   The U.S. Department of Education will mail the student a Student Aid Report or email a notice if the student applied online, when processing is complete. This form should be reviewed for accuracy upon receipt. At the same time the SAR is received by the student, all schools listed to receive processed FAFSA results will be sent information electronically (called an ISIR).
   In some cases the College will be required to verify the information reported on the FAFSA.
   The student whose application is selected for verification will be sent a letter requesting (1) copies of the student’s/spouse’s and/or parent’s signed federal income tax return, if applicable, and (2) the completion of a Verification Worksheet.
   Students having previously attended SCC must be in compliance with Satisfactory Academic Progress policies to be eligible to receive financial aid.
   The SCC Financial Aid Office staff is available to assist students with completing the FAFSA. Students also can make an appointment with EducationQuest.
   EducationQuest is open Monday through Friday, 8:30 a.m. to 5 p.m. To schedule an appointment with EducationQuest, call the location nearest you.
   Lincoln: 1300 O St., Lincoln, NE 68508, 402-475-5222, 800-303-3745
   Omaha: Rockbrook Village (108th & W. Center Road) 11031 Elm Street, Omaha, NE 68144, 402-391-4033, 888-357-6300
   Kearney: 3712 Second Ave., Kearney, NE 68847, 308-234-6310, 800-666-3721
4. New students wanting to be considered for a Stafford Student Loan

Many students rely on federal government loans to finance their education. These loans have low interest rates and do not require credit checks or collateral. Student loans also provide a variety of deferment options and extended repayment terms. Student loans include Federal Direct Stafford Loans.

All Stafford Loans are either subsidized (the government pays the interest while you’re in school) or unsubsidized (you pay all the interest, although you can have the interest payments deferred until after graduation). To receive a subsidized Stafford Loan, you must be able to demonstrate financial need.

With the unsubsidized Stafford loan, you can defer the payments until after graduation by capitalizing the interest. This adds the interest payments to the loan balance, increasing the size and cost of the loan. All students, regardless of need, are eligible for the unsubsidized Stafford Loan.

Repayment begins six months after the student graduates or drops below half-time enrollment. The standard repayment term is 10 years.

Failure to maintain attendance in at least 6 credit hours CANCELS any future loan disbursements. Please notify the Financial Aid Office when returning to school after a break in attendance.

New students must complete a master promissory note and complete loan entrance counseling at www.studentloans.gov.

5. Students interested in Federal Work-Study

Students interested in FWS need to complete and return a Work-Study Application form, available at any campus’s Placement or Financial Aid Office.

Return of Title IV Refund Information

A recipient of federal Title IV financial aid who withdraws from school during a payment period or period of enrollment in which the student began attendance, will have the amount of Title IV funds he/she did not earn calculated according to federal regulations. This calculation will be based on the student’s last date of attendance.

The period of time in which Title IV financial aid is earned for a payment period or period of enrollment is the number of calendar days the student has been enrolled for the payment period or period of enrollment up to the student’s last date of attendance, divided by the total calendar days in the payment period or period of enrollment.

The percentage is multiplied by the amount of Title IV financial aid for the payment period or period of enrollment for which Title IV financial aid was awarded to determine the amount of Title IV financial aid earned. The amount of Title IV financial aid that has not been earned for the payment period or period of enrollment and must be returned is the complement of the amount earned.

The amount of Title IV financial aid earned and the amount of Title IV financial aid not earned will be calculated based on the amount of Title IV financial aid that was disbursed for the payment period or period of enrollment upon which the calculation was based.

A student will have earned 100% of the Title IV financial aid disbursed for the payment period or period of enrollment if the student last attended after completing 60% of the payment period or period of enrollment.

If the amount of unearned Title IV financial aid disbursed exceeds the amount that is returned by the school, the student (or parent, if a Federal Plus loan) must return or repay, as appropriate, the remaining grant and loan funds.

The College will notify the student if repayment is required and will provide the student with instructions for repayment. The student will not qualify for further federal aid nor be able to register for classes at SCC until the repayment is satisfied.

Institutional Tuition Refund Policy

Federal regulations require that an institution’s refund/repayment policy be available to all students. The following information is provided in compliance with federal regulation 34CFR682.606 (a) (2).

The amount of time the student attends as a percent of the total course length will be the method of the computation.

The DROP DATE will be the date the student drops the course online by utilizing WEBADVISOR or provides the College’s Registration and Records Office with an “OFFICIAL DROP/ADD FORM FOR CREDIT CLASSES.”

Oral notification to the Registration and Records Office is allowed ONLY when the student is dropping all classes and withdrawing from the College.

Failure of the student to attend a class does not constitute an official drop/withdrawal.

A student’s failure to attend classes does not dismiss a student’s responsibility to pay unpaid account balances owed to the College on courses not officially dropped.

Forms titled “OFFICIAL DROP/ADD FORM FOR CREDIT CLASSES” are available at the campus Registration and Records Office.

The College will apply any eligible financial aid transmitted to the student’s account toward tuition, fees and applicable book charges incurred by the student.

If a balance owed remains, it is the responsibility of the student to pay this balance before they would be allowed to register for future courses at SCC.

A student is entitled to a refund computed on the following formula and tables:

**Formula:**

\[
\text{% Elapsed} = \frac{(\text{Drop Date}) - (\text{Course Start Date})}{(\text{Course End Date}) - (\text{Course Start Date})} \times 100
\]

**Credit class Table:**

<table>
<thead>
<tr>
<th>% elapsed</th>
<th>% of refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>0.000 - 12.499</td>
<td>100</td>
</tr>
<tr>
<td>12.5 and over</td>
<td>0</td>
</tr>
</tbody>
</table>

**Non-Credit class Table:**

<table>
<thead>
<tr>
<th>% elapsed</th>
<th>% of refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>day before</td>
<td>100</td>
</tr>
<tr>
<td>start day or after</td>
<td>0</td>
</tr>
</tbody>
</table>

All days are included in the computation, including Saturdays, Sundays, holidays, and weekdays.
Electronic Refunds

Electronic payment of refunds is the FASTEST, safest, and most convenient method for students to receive refunds. Students can sign up on WebAdvisor for an electronic payment option. The College recommends that students sign up to have refunds transferred electronically to their existing bank account. If a student does not currently have a bank account, the College has made arrangements with Union Bank and Trust Company of Lincoln for the student to open a Simply Free Checking account or a Union Bank Savings account. The student must start the process of opening a Union Bank account via WebAdvisor or they may stop at any Union Bank branch office to open an account.

If a student does not sign up for electronic payment of refunds, a check will be processed at the same time that funds are electronically transferred to other students. Depending upon the day of the week, holidays, and the speed of the Post Office, paper checks may take up to 10 days or more to reach the student. Checks will be processed off site and will not be available for pickup by students. Paper checks will be mailed to the student’s current address.

If you are having your check deposited electronically, please check your bank account online, if your bank provides online access, to verify when your refund was deposited.

If you are receiving your refund by paper check, please wait a week after paper checks are mailed before inquiring about your refund.

(Please refer to the Enrollment section for further information on tuition and refunds.)

Credit Class Refund

The student is entitled to a 100% refund for any credit class officially dropped prior to 12.499% of the time elapsed since the first day of the start of class. “NO” refund is allowed after 12.500% of time has elapsed since the first day of the start of class. Specific drop dates for individual classes are published each term in the credit class schedule.

Non-credit Class Refund

The student is entitled to a 100% refund for any non-credit class officially dropped prior to the start date of the class. “NO” refund is allowed if the class is dropped on or after the start date of the class.

Official Withdrawals

When a student officially withdraws from ALL classes, before the end of the sixth week of classes for the term in which Title IV federal financial aid is awarded, the campus Financial Aid Office will calculate how much of a student’s financial aid must be returned to the U.S. Department of Education and/or to a Stafford/Plus loan lender. Students called to non-training active military duty should provide documentation to the campus Dean of Student Services.

Unofficial Withdrawals

A student who receives all “F” grades or a combination of all “F,” “W,” or “NP” grades is considered to have UNOFFICIALLY withdrawn from classes. A student receiving Title IV financial aid funds who drops out without notifying the College is considered to have made an unofficial withdrawal. Students who make unofficial withdrawals are considered to have withdrawn at the MID-POINT of the term, unless the College documents a date later than the mid-point of the term.

The College will use 50% for unofficial withdrawals as the unearned percentage to determine the amount of federal funds that must be returned. The Financial Aid Office will perform the following steps to determine the amount of Title IV federal funds to be returned:

**Step 1: Determine how much Title IV financial aid the student is entitled to use or the amount “earned” by attending classes.**

The date that the student officially drops all classes is the official date that is used to calculate the percentage of time the student was enrolled in the term and how much aid the student was entitled to receive or “earned.”

The amount of financial aid includes funds actually disbursed, plus funds that had been authorized but not yet disbursed by the date the student withdrew. If the student withdraws prior to the Pell census date (the 10th day of the quarter), the only Title IV federal aid which may have been disbursed would have been Stafford loans the student received.

If the student withdraws prior to the 10th day of the term (and the student was eligible for a Pell Grant), the Pell fund may be used to pay a portion of institutional costs UNLESS the student withdraws during the 100% tuition and student services fee refund period.

**Step 2: Determine how much of the Title IV federal aid must be returned to the U.S. Department of Education and/or the student/parent loan lender.**

The “earned” percentage is subtracted from 100% to determine the “unearned” amount of Title IV federal aid.

**Step 3: Determine who must return the unearned aid.**

This may be the College, the student, or in some cases, both the College and the student. The unearned percentage also is used to determine, if necessary, how much the College must return of the federal funds which were received as payment for tuition, fees, books, room and board, and other approved institutional charges. The difference between the Total Unearned Title IV aid and the amount of Unearned Aid due from the school is the amount of Unearned Title IV aid due from the student.

Once it is determined how much Title IV aid must be returned, the federal funds must be returned in the order specified by the law. This priority order is as follows:

- Unsubsidized Federal Stafford Loan
- Subsidized Federal Stafford Loan
- PLUS Loan
- Pell Grant
- SEOG Grant

NOTE: Federal Work-Study earnings are exempt from the calculations.
Cafeteria/Residence Halls Contract Refund Policy

1. Termination: If a student wishes to terminate a cafeteria (Milford) or residence hall contract (Beatrice or Milford), he or she must secure approval of termination before a refund can be made. Detailed information regarding refunds of housing deposits or fees can be found in the housing contract or by contacting the Housing Office.

2. Disciplinary action: No refund will be made if a student is suspended from the residence hall and/or cafeteria due to disciplinary action.

3. Residence hall/cafeteria refunds for those who pay, enter and withdraw from the College will follow this specific refund schedule.
   - During the first week (5 days, not including Saturdays, Sundays and holidays) of the term, 80% will be refunded.
   - During the second week (6-10 days, not including Saturdays, Sundays and holidays) 60% will be refunded.
   - During the third and fourth week (11-20 days, not including Saturdays, Sundays and holidays) 40% will be refunded.
   - After the fourth week, there will be no refund. Residents moving out for reasons not stipulated in the housing contract terms or in the HALL handbook also forfeit their deposits.

Payment Policy

Full payment of tuition, student services fees and room and board charges are due no later than the beginning of a term, or according to established campus payment deadlines. Payment is due immediately for class registrations that occur after the beginning of the term. Non-payment of tuition and fees may affect enrollment status. SCC accepts VISA, Mastercard and Discover credit cards for payment.

Debts

All financial obligations to the College must be paid before a student may register for any future courses and before transcripts, awards and credentials may be released. Financial obligations include, but are not limited to, tuition and fees, college loans, library and parking fines. The College will charge $30 for every insufficient funds check.

FACTS eCashier Monthly Payment Plan

Students may enroll in the “FACTS” eCashier monthly payment plan. “FACTS” eCashier provides an option for budgeting tuition and other educational expenses. Contact the campus Student Accounts Office for a “FACTS” eCashier brochure which includes a copy of the Automatic Tuition Payment Agreement.

Other Charges

Students should expect costs for books, tools, supplies, uniforms, travel and other items. Costs will vary depending on the requirements of each program and the needs of the individual.

Cost estimate sheets are available for the Programs of Study. Check out the Expense Sheets available online or contact your campus Student Services Office for more information.

**Address Change**

Students must advise Student Services of any address change to facilitate sending correspondence to the students’ correct address. Address changes can be submitted online via WebAdvisor or a paper form may be obtained from the Registration and Records Office.

**Attendance**

Regular, punctual attendance is required in all credit courses. Each instructor will inform students by means of a syllabus of attendance requirements at the first class meeting. Any class or lab session missed, regardless of cause, reduces the opportunity for learning and may affect achievement. Students are responsible for all instruction missed, regardless of the reason for the absence. The student will be held responsible for notifying the instructor of any anticipated absences. The instructor has the prerogative to decide whether the student will be permitted to make up work missed during the absence.

The College reserves the right and has the responsibility to obtain a doctor’s release when it is determined that a student’s absence has been the result of a serious medical problem that might jeopardize the health of the student or other students. Programs involving clinical or off-campus assignments may require telephone notice of all absences. The College has no leave of absence policy for students. Only currently registered students are allowed to attend class.

**Military Reserve and Guard Training**

The College recognizes the need for military reserve and National Guard training and will cooperate with the military in arranging for such absences. The College strongly recommends that military reserve and National Guard training be completed during the summer break. Absences during the regular term usually cause hardships, since a great amount of classroom time is lost. Some laboratory and practicum experiences are impossible to accomplish either ahead of schedule or away from the campus. Please contact the Dean of Student Services if there is a conflict with school and military training. The College will assist you in requesting a change in your annual training to minimize conflict with your College classes.

**Graduation**

**Graduation Awards/Honors**

Southeast Community College awards the following:

- **Associate of Applied Science Degree (A.A.S.):** Awarded upon successful completion of a minimum of 90 quarter credit hours and the requirements of a prescribed Program of Study.
- **Associate of Arts Degree (A.A.):** Awarded upon successful completion of a minimum of 90 quarter credit hours of a prescribed Program of Study. This degree is usually awarded to a student who completes the first two years of the Academic Transfer program.
- **Associate of Science Degree (A.S.):** Awarded upon successful completion of a minimum of 90 quarter credit hours and the requirements of a prescribed Program of Study in the Academic Transfer Program.
- **Diploma:** Awarded upon successful completion of a minimum of 45 quarter credit hours and the requirements of a prescribed Program of Study.
- **Certificate:** Awarded for successful completion of a prescribed course of study that requires fewer credit hours than a diploma program.

**Graduation Rates**

Graduation completion rates are available at the campus Student Services Office upon request.

**Graduation Requirements**

All students are required to meet certain requirements before they are permitted to graduate from any program at SCC. The number of credit hours required for graduation is based on specific program credit hour requirements.

Students must meet the following criteria to be approved for graduation:

1. A student must meet all graduation requirements for a Program of Study and all other campus graduation requirements. A student must have a high school diploma or equivalent to receive an Associate Degree, Diploma or Certificate from SCC.
2. The minimum cumulative grade-point average (CGPA) for graduation purposes is 2.0. Extenuating circumstances, involving GPA or other requirements, may be considered by the Vice President for Instruction.
3. Students who have been continuously enrolled in a Program of Study will be permitted to graduate under the program requirements in effect at the time of their initial enrollment (except, students will be required to complete curriculum and course changes implemented after a student starts his/her program as long as the change does not extend the student’s time to complete the program) or students may elect to satisfy revised graduation requirements approved and initiated during their continuous enrollment. Students who have not maintained continuous enrollment, but return within 3 years of when they last attended, will be allowed to graduate under the catalog of their initial enrollment with the approval of the division dean.
4. Students will not be eligible for graduation if a grade of “F” (Failure), “I” (Incomplete), or “NP” (No Pass) in a required course remains on the student’s transcript.
5. Students must be free of any financial responsibility to the College prior to graduation.
6. All students must complete an Application for Graduation form and submit the required fee with the application to the campus Registration and Records Office by the end of the second week of the term in which they expect to graduate. Graduation fees are not refundable. Forms may be obtained in the campus Student Services Office.
7. To receive a second degree, the student must meet all requirements of the College and the program in which the second degree will be obtained.
8. A minimum of one-third of the credit hours required for a degree must be completed at SCC for SCC to be the degree-granting institution. See “Advanced Standing.”
9. Certain Programs of Study may require specific assessment activities as a graduation requirement.
10. Please note that those courses with a zero as the first digit of the course number are designated as developmental and may not be used to fulfill degree requirements. Example ENGL 0810.
Advanced Standing

The three methods the College has established for students to gain advanced standing are: transfer credit, credit by waiver and credit by examination.

To be granted advanced standing credit:

1) A student must be accepted for admission to a College degree program.
2) A minimum of one-third (1/3) of the credit hours required for a degree must be completed at SCC, the degree-granting institution, except under statewide or college partnership agreements with the division deans’ approval.
3) Up to two-thirds (2/3) of the credit hours required for a Program of Study may be waived through the three methods established for advanced standing; (credit by transfer, waiver and examination).
   a. Up to two-thirds (2/3) of the credits for advanced standing may be transfer credits, except under statewide or college partnership agreements with the division deans’ approval.
   b. Credit hours granted by waiver or examination or by any combination of waiver and examination may be awarded up to limits established by each department but may not exceed one-third (1/3) of the total credit hours required for a program award.

Exceptions to #2, #3, #3a or #3b must be approved by the Vice President for Instruction.

Please refer to the specifications listed in each of the following three (3) advanced standing methods.

Transfer Credit

Transfer credit from other accredited postsecondary institutions may be awarded for advanced standing. Transfer credit may or may not apply to SCC programs. Determination will be made by the division dean regarding graduation or satisfaction of program requirements with transfer credit.

SCC recognizes course work completed at military schools, through active duty, National Guard or Reserves. Credits may be applied to military courses with the approval of the appropriate campus division. The Guide to the Evaluation of Educational Experiences in the Armed Services, published by the American Council for Education, is used as a guideline. Courses for which credit is granted by transfer will be recorded with a “TR” grade and will not be included in calculating a student’s grade-point average.

Credit by Waiver

To apply for Credit by Waiver, the applicant must be accepted for admission to a College degree program. Students requesting advanced standing Credit by Waiver must complete an application for Credit by Waiver and supply supportive documents such as competency reports, proficiency certificates or training records.

Credit granted by Waiver and Examination or any combination of Waiver and Examination may be awarded up to limits established by each department of the College but not exceeding one-third (1/3) of the total credit hours required for a program award. The application must be submitted for evaluation to the campus department responsible for teaching the course. Upon successful completion of the evaluation, both the application and evaluation will be submitted to the campus Registration and Records Office for recording credit on the student’s transcript.

Courses in which credit is granted by waiver will be recorded on the transcript with a “CW” grade and will not be included in calculating a student’s grade-point average. Credit granted by waiver is subject to evaluation by other institutions and may not be accepted for transfer credit.

Credit by Examination

Some courses may be completed by examination. Testing devices and evaluation procedures will vary according to the course, division requirements and the amount of credit being advanced. To apply for Credit by Examination, the applicant must have been accepted for admission to a College degree program.

Applications for Credit by Examination are obtained from the campus Registration and Records Office and submitted to the division responsible for teaching the course. An application for Credit by Examination must be completed and submitted to the campus Registration and Records Office for all credit granted as “PX” (Passed by Examination) on the transcript. No grade points will be awarded, and the Credit by Examination will not be included in the cumulative grade-point average. Copies of the certification will be returned to the student and the department in which the student is enrolled.

Credit granted by Waiver and Examination or any combination of Waiver and Examination may be awarded up to limits established by each department of the College but not exceeding one-third (1/3) of the total credit hours required for a program award. Applicants for Credit by Examination must pay 50 percent of the current per credit hour tuition rate for each credit hour attempted by examination, prior to the examination.

College Level Examination Program (CLEP)

Students interested in CLEP testing should contact the Testing/Assessment Center (402-437-2626) for information and testing arrangements. CLEP subject exams cost approximately $70 per examination. Some colleges do not accept CLEP credits as transfer credits. Transfer students should carefully investigate minimum CLEP scores established by other colleges.

To have CLEP credit posted to an SCC Transcript, a student must have been accepted for admission into a college degree program.

SCC administers the CLEP at the Lincoln Campus, 8800 O Street in the Testing/Assessment Center. Each program has established a list of courses for which CLEP scores will be accepted for credit by examination. Minimum CLEP scores vary from exam to exam; therefore, students should request a list of these minimum scores. Credits granted through a CLEP exam will not apply towards load requirements for extraordinary activities, veteran’s benefits or scholastic honors. Only SCC students may have CLEP scores recorded on their SCC transcripts. Acceptable CLEP credits are recorded as PX (Pass by Examination).

Career Pathways Advanced Placement

Career Pathways is a partnership between high schools and SCC. This partnership helps prepare high school students for technical careers. Pathways of courses to prepare students for college level work are laid out. Career Pathways Advanced Placement means the student may apply for Credit by Waiver for approved courses taken at the high school level and avoid duplication in classes.

In order to receive Career Pathways Advanced Placement, a student must:

- Enroll in SCC within one year of high school graduation or as soon as a program waiting list allows following high school graduation.
- Obtain a grade of “B” or better in the high school articulated course.
- Complete and submit a Credit by Waiver form available from the Registration & Records Office with all appropriate signatures.

In order to receive Career Pathways Advanced Placement, a student must:

1. Enroll in SCC within one year of high school graduation or as soon as a program waiting list allows following high school graduation.
2. Obtain a grade of “B” or better in the high school articulated course.
3. Complete and submit a Credit by Waiver form available from the Registration & Records Office with all appropriate signatures.

In order to receive Career Pathways Advanced Placement, a student must:

1. Enroll in SCC within one year of high school graduation or as soon as a program waiting list allows following high school graduation.
2. Obtain a grade of “B” or better in the high school articulated course.
3. Complete and submit a Credit by Waiver form available from the Registration & Records Office with all appropriate signatures.

In order to receive Career Pathways Advanced Placement, a student must:

1. Enroll in SCC within one year of high school graduation or as soon as a program waiting list allows following high school graduation.
2. Obtain a grade of “B” or better in the high school articulated course.
3. Complete and submit a Credit by Waiver form available from the Registration & Records Office with all appropriate signatures.

In order to receive Career Pathways Advanced Placement, a student must:

1. Enroll in SCC within one year of high school graduation or as soon as a program waiting list allows following high school graduation.
2. Obtain a grade of “B” or better in the high school articulated course.
3. Complete and submit a Credit by Waiver form available from the Registration & Records Office with all appropriate signatures.

In order to receive Career Pathways Advanced Placement, a student must:

1. Enroll in SCC within one year of high school graduation or as soon as a program waiting list allows following high school graduation.
2. Obtain a grade of “B” or better in the high school articulated course.
3. Complete and submit a Credit by Waiver form available from the Registration & Records Office with all appropriate signatures.

In order to receive Career Pathways Advanced Placement, a student must:

1. Enroll in SCC within one year of high school graduation or as soon as a program waiting list allows following high school graduation.
2. Obtain a grade of “B” or better in the high school articulated course.
3. Complete and submit a Credit by Waiver form available from the Registration & Records Office with all appropriate signatures.
**Grades & Records**

**FERPA**

SCC has developed policies and procedures in compliance with the Family Educational Rights and Privacy Act (FERPA) of 1974. The rights accorded students shall apply to all students 18 years of age or older, or no longer dependent upon their parents; students in a postsecondary education program, regardless of their age; and parents of eligible dependent students.

Generally, students have the following rights: to inspect and review their educational records; to a hearing to challenge the contents of their records; and to receive copies of all or part of their educational records upon request.

All requests for student records and information must be in writing and directed to the campus Student Services Office. Questions relating to the release of records and information should be directed to the campus Student Services Office. SCC may provide directory lists of graduates to senior institutions that have an articulation agreement with SCC.

Directory information consisting of the items listed below may be released:

- Student Name
- Major field of study
- Dates of attendance
- Enrollment status
- Most recent previous school attended
- Degrees and awards received
- Honors and awards received, including Dean’s List and other academic honors
- Participation in officially recognized co-curricular activities (e.g. music, sports)
- Weight and height of athletic team members
- Parking permit number and auto license number
- Photograph/Video*

When available, the student’s physical address, e-mail address and/or telephone number will be released at the discretion of the Student Services Office.

*Use of Photographs/Video:

Photographers/videographers employed or contracted by SCC regularly take photographs/video of people, either individually or in a group, to illustrate or describe various aspects of the College and campus life. These photographs/video will be taken at public venues such as athletic events and concerts. Or they may be taken in organized campus photo/video shoots where the subjects will have given verbal consent to be photographed/videotaped. Individuals who are photographed/videotaped while attending a public event or who verbally agree to participate in a photo/video shoot will be understood to have authorized SCC to use their likeness in print and electronic materials to promote the College. The College will retain the usage rights to the photographs/video in perpetuity.

To avoid having this information released, the student must submit a written request to the campus Student Services Office within 10 classroom days, not including Saturdays, Sundays, and holidays, after initial enrollment in the College. After the initial 10-day period, any new request for withholding of directory information shall require a 10-classroom day, not including Saturdays, Sundays, and holidays, written notice to the campus Student Services Office to become effective.

The College requires a student’s Social Security number as a condition for enrollment. A student’s Social Security number information constitutes an “educational record” under FERPA. The College will be privileged to redisclose that information only with the consent of the student or in those very limited circumstances when consent is not required by FERPA. Questions regarding FERPA should be directed to the campus Registration and Records Office.

**Retention of Student Records**

The official student academic record, the transcript of credit earned, will be retained permanently at the campus. All other documents (except disciplinary records) which are used to create, update and support a student’s file will be retained for five (5) years. All student financial aid records will be retained for three (3) years following the end of the fiscal year in which funds were awarded. All veterans’ records will be retained in the student’s file for five (5) years from the last date of enrollment. All placement records will be retained for three (3) years following the last date of enrollment.

**Academic Honors**

**Dean’s List:** To be recognized on the Dean’s List, a student must complete at least 6 hours for the term with a minimum GPA of 3.5. (Classes with a grade of “P” [Pass] do not count toward the 6-hour minimum.)

A press release will be sent to newspapers if the student has requested it. Students must fill out a form in the Registration & Records Office. A student is not eligible to be included on the Dean’s List if a “F” (Failure) and “I” (Incomplete), or a “NP” (No Pass) remain on his/her grade report for the given term. It is the campus’ discretion as to whether such a Dean’s List is maintained.

**Graduation with Distinction:** A student must have completed 45 quarter credit hours, and attained a cumulative 3.75 GPA to graduate “With Distinction,” and a 4.0 cumulative GPA to graduate “With High Distinction.”

**Academic Standing**

**Good Academic Standing**

Students must maintain a cumulative grade-point average (CGPA) of 2.0 to remain in good academic standing.

**Academic Warning**

All students have mid-term grades posted on WebAdvisor. Students failing any course at mid-term will be contacted by the Student Retention Office to address the issue of coursework below acceptable academic standards and will be informed of the consequences of entering academic probation or suspension status.

**Academic Probation and Suspension**

SCC believes students should demonstrate consistent progress toward their stated academic goals. In an effort to assist our students in meeting graduation requirements, the College has developed the following minimum academic standards. Students who have earned a minimum of 12 credits (with grades A+ through F) are covered under these standards.

**Academic Probation**

Students who receive a cumulative grade point average (CGPA) of less than 2.00 at the end of a term will automatically be placed on academic probation.

- These students will be notified, by college-assigned SCC email, of their academic probationary status and will be informed about a brief informational webcast. The webcast is available for student viewing, on the Hub and public website, and will further explain the probation/suspension policy, how the cumulative grade point average (CGPA) and term grade point average (GPA) are calculated, and the consequences of academic probation and/or suspension status.
• Upon such notification, students should immediately see their program chair/advisor to determine the necessary course of action to be taken to be removed from academic probation.
• Students who raise their cumulative grade point average (CGPA) to a 2.00 or higher by the end of the probationary term will automatically be removed from academic probation.
• Students will continue on academic probation if they achieve a term grade-point average (GPA) of 2.00 or greater but have a total cumulative grade-point average (CGPA) of less than 2.00.

Academic Suspension
Students who have been on Academic Probation will automatically be placed on Suspension if their cumulative (CGPA) and term grade point average (GPA) are below 2.0. Students will be notified of their academic suspension status by certified letter.
• Academic Suspension Appeals will not be accepted.
• Students placed on Academic Suspension will not be allowed to register or attend classes for the upcoming term.
• Students will not be allowed to register online while on any level of academic suspension.
• Students placed on Academic Suspension may register for credit classes for the term following the suspended term. Students must register with a program advisor, career advisor or academic advisor no later than the second day of the term.
• Students may take ABE, ESL or Continuing Education classes during any level of suspension.

NOTE: Students who have been academically suspended and are on a wait list for a program of study with the Admissions Office will be removed from the wait list. Students who have been removed from a waitlist will be required to re-apply.

Level 1 Suspension (follows Academic Probation)
Students placed on Level 1 Suspension will not be allowed to register or attend classes for the upcoming term.
• Declared students must meet with their program chair/advisor to complete an Academic Reinstatement Form. Undeclared students must meet with Career Advising or Retention staff to complete the form.
• The Academic Reinstatement Form must be submitted to the Registration and Records Office with a signed registration form for the following term.
• A student success class is recommended.
• If, at the end of the term, the cumulative GPA is above a 2.0, the student will return to good academic standing.

Level 2 Suspension (follows Level 1 Suspension)
Students on Level 1 Suspension, whose term and cumulative GPA are below a 2.0 will be placed on Level 2 Suspension. Students on Level 2 Suspension will not be allowed to register or attend classes for the upcoming term. Students follow the same procedures as Level 1 Suspension.
If, at the end of the term, the cumulative GPA is above a 2.0, the student will return to good academic standing.

Level 3 Suspension/Disqualification (follows Level 2 Suspension)
Students on Level 2 Suspension, whose term and cumulative GPA are below a 2.0 will be placed on Level 3 Suspension/Disqualification. Students on Level 3 Suspension/Disqualification will not be allowed to register or attend credit classes for one year.
• Students must reapply to the College, prior to returning.
• Students must meet with their program chair or Career Advising/Retention staff to complete an Academic Reinstatement Form. The Academic Reinstatement Form must be submitted to the Registration and Records Office with a signed registration form for the upcoming term. Students will not be allowed to register online while on academic suspension.

Academic Bankruptcy
Academic bankruptcy permits the removal of credit hours and grades for one or two quarters from a student’s grade-point average to allow for improvement of the student’s cumulative GPA.
A student may be granted academic bankruptcy only one time. A student must have completed 18 quarter credit hours with a minimum GPA of 3.00; or 37.5 quarter credit hours with a minimum GPA of 2.50 following the term(s) for which bankruptcy is sought.
A student may elect to retain courses from the bankrupt term. Any course that is a requirement for graduation from the student’s current Program of Study will be retained and will be included in the student’s cumulative GPA.
Courses and grades which are granted academic bankruptcy will remain on the student’s official transcript, but will be marked with a # symbol. Bankrupt credit hours and grades will not count toward graduation or be included in calculating the student’s cumulative GPA. Courses which have been considered in granting a previous graduation award may not be bankrupt.
Warning – Students who are granted academic bankruptcy may be required to pay back some or all benefits received for those courses and terms for which veterans’ benefits or financial aid was received.
A student may be granted academic bankruptcy only one time and it is not reversible.

End-of-Quarter Grades
Grades are posted to WebAdvisor within one week following the end of the term. Grades become part of the student’s permanent record. It is the student’s responsibility to review his/her grades for accuracy. If there is a question or disagreement with the grade, a student must contact the campus Registration and Records Office.
Students can access their grades online with WebAdvisor using login ID and password. Contact Student Services for more information.

Mid-term Grades
At mid-term, all instructors are required to review students’ academic progress. Instructors enter mid-term grades on WebAdvisor for all students. It is the students’ responsibility to check mid-term grades on WebAdvisor. The purpose of mid-term grades is to advise the students of their current academic progress.
Attempts will be made by the Student Retention Office to contact students and address the issue of coursework being below acceptable standards if students are failing at mid-term. It is the responsibility of each student to seek help from a College Career Services Advisor, Retention Specialist, TRIO Student Support personnel, the instructor or any other person the student feels can assist. Mid-term grades do not become part of the student’s permanent record.
Grade Changes
If a student questions or is in disagreement with the grade issued for a class, the student must contact the instructor. It is the student’s responsibility to review his/her grades for accuracy. Grade disputes must be resolved within 10 classroom days (not counting Saturdays, Sundays, or holidays) after the start date of the next term. On the 11th classroom day of the next term, the grade is considered to be “permanent.”

1. A grade reported and recorded as “permanent” may be changed only in the event of an instructor or institutional error.
2. A grade may be removed from the student’s cumulative GPA by:
   a. repeating the course and receiving a higher grade. All courses will appear on the transcript in their respective session. The course with the lower grade will be indicated as a repeated course and will not be included in the cumulative GPA.
   b. declaring academic bankruptcy.

Grade-Point Average
GPA is determined by multiplying the honor points earned for each course by the credit hours for the course. The sum total of the honor points earned is then divided by the total number of credits attempted.

Example:
Math 4.5 cr. hrs. (B grade) - 4.5 x 3.0 = 13.5 pts.
Comp 2.0 cr. hrs. (A grade) - 2.0 x 4.0 = 8.0 pts.
6.5 total cr. hrs. = 21.5 total pts.
(21.5 points) divided by (6.5 credit hours) = 3.30 GPA earned for these two classes.) (See the Credit Transcript Key)

Transcripts
Issuance of Credit Transcripts
1. SCC issues a transcript upon written request by the student.
   a. The request must include the student’s name (at the time of attendance), Social Security number or SCC student ID number, approximate dates of attendance, and signature, along with the address where the transcript is to be sent.
   b. Telephone requests will not be honored.
   c. SCC will accept FAX requests for transcripts but cannot return the transcript by FAX.
   d. Walk-in (immediate) transcript service is available at a cost of $5 per request.
   e. Students may submit a transcript request via WebAdvisor.
2. There is no charge for issuing a transcript (except walk-in-immediate transcript service at a cost of $5 per request.) However, SCC will not issue a transcript if the student or contracting agency responsible for payment of student tuition has financial obligations to the College.
3. Transcripts may be picked up or mailed as requested after three working days from the date of request.
4. Official transcripts will bear the official seal of the College and are signed by the associate registrar. Official transcripts directed to the student will be stamped “Issued to Student.” All transcripts from an SCC Registration and Records Office are official transcripts.

Transfer Agreements
SCC maintains special cooperative programs and transfer agreements with many colleges and universities.

Any student who has successfully completed the courses identified in the articulated curriculum with an equivalent of a “C” (2.0 on a 4.0 scale) or higher, and is admitted to a participating institution will be:

1. Granted standing comparable to current students who have completed the same number of equivalent credit courses toward an associate/baccalaureate-level degree; and
2. Able to progress toward an associate/baccalaureate degree completion at a rate comparable to that of students who entered the associate/baccalaureate institution as first-time freshmen.

Students are encouraged to visit with a college transfer advisor.

Semester-Hour to Quarter-Hour
CONVERSION CHART

One quarter = 10 weeks.
Each quarter hour equals 2/3 of a semester hour. This table shows the conversion between semester credit hours, that may have been earned under the previous SCC Beatrice semester system or transferred from another college, and quarter credit hours.

---

**Explanation of Transcripts**

# Bankruptcy: A # symbol will appear on the transcript before the grade for a course which has been bankrupt. Bankrupt grades will not count in the cumulative GPA, but are included in the term GPA.

AU Audit: “AU” is assigned when a student registers to audit a course. The student pays the regular tuition and fees, which are nonrefundable, for the course but will not receive college credit for the course. The grade “AU” cannot be changed to another grade at a later time without taking the course for college credit. Students receiving financial aid or Veteran’s benefits cannot count audited courses in determining minimum-credit-hour requirement.

BF Balance Forward: Credit for courses before 7/1/94.

CIP Course In Progress: Currently enrolled classes.

CW Credit by Waiver: “CW” is assigned for advanced placement credit based on evaluation by the appropriate campus department.

F Failure: The letter “F” is assigned when a student has not attained the required level of performance in a course. No credit is granted.

I Incomplete: The letter grade “I” is a designation assigned when course requirements are not completed due to extenuating circumstances as determined by the course instructor. The “I” is considered a temporary letter grade.

1. For removal of the “I”, a “Contract for Removal of Incomplete” must be submitted at the time the Incomplete grade is issued. The deadline for work to be completed is the end of the term immediately following the term in which the Incomplete grade was awarded.

2. The time period of a contract may be extended one additional term with the approval of the division dean. A notice of the extension must be filed with the campus Registration and Records Office.

3. If a student does not initiate and complete a “Contract for Removal of Incomplete,” he/she must reregister and successfully complete that course to receive credit.

4. A student may not drop a course for which he/she has negotiated a “Contract.”

5. The student may progress to the next sequential course only if a “Contract” has been negotiated.

6. It is the student’s responsibility to:
   a. initiate contract negotiations
   b. file the contract with the campus Registration and Records Office
   c. fulfill the contract

7. It is the instructor’s responsibility to:
   a. determine if a grade of Incomplete is appropriate
   b. notify the student and the campus Registration and Records Office that an Incomplete has been given to the student
   c. negotiate the contract
   d. file notice of grade change with the campus Registration and Records Office when appropriate to change the “I” grade to a permanent letter grade.

8. If the student thinks the contract is unfair, he/she has the right of appeal beginning at the program level.

NP No Pass: The letter grade “NP” is assigned when required level of performance in a “Pass/No Pass” course is not attained.

Pass: The letter grade “P” is assigned when credit is granted for successful completion of campus-approved “Pass/No-Pass” course. The pass grade represents a 70%, or a grade of C or higher. Each division will identify the courses which may be taken as Pass/No-Pass. Divisions will also establish the maximum Pass/No Pass hours that may be earned and applied to completion of a prescribed course of study.

PX Pass by Examination: “PX” is assigned when credit is granted for successful completion of a campus-approved examination or evaluation procedure rather than through course enrollment.

W Withdrawal: The letter “W” is assigned when a student drops a course after the census date of the course.

Repeat: The highest letter grade received for a course will be used in computing the cumulative grade-point average when a course has been repeated. Courses which have been repeated are noted with “same as course number” followed by the term date where the highest grade has been earned. Repeated course grades will continue to be included in the calculation of the term grade-point average. A repeated course will be listed with 0.00 credit hours.
GRADES AND RECORDS

Issuance of Non-credit Transcripts

1. SCC issues a transcript upon written request by the student.
   a. The request must include the student’s name (at the time of attendance), Social Security number or SCC student ID number, approximate dates of attendance, and signature, along with the address where the transcript is to be sent.
   b. Telephone requests will not be honored.
   c. SCC will accept FAX requests for transcripts but cannot return the transcript by FAX.
   d. Walk-in (immediate) transcript service is available at a cost of $5 per request.

2. There is no charge for issuing a transcript (except walk-in-immediate transcript service at a cost of $5 per request.) However, SCC will not issue a transcript if the student or contracting agency responsible for payment of student tuition has financial obligations to the College.

3. Transcripts may be picked up or mailed as requested after three working days from the date of request.

4. The transcript request will be kept on file in the Continuing Education Division.

5. Official transcripts will bear the official seal of the College and are signed by the Division Dean. All non-credit transcripts from the Continuing Education Division are official non-credit transcripts.

SOUTHEAST COMMUNITY COLLEGE | CATALOG 2012-2013 www.southeast.edu 179
**Access/Equity/Diversity**

**Disability Services**
Southeast Community College provides reasonable accommodations for students with disabilities to ensure access to educational programs and services. To ensure timely service, students who are requesting an accommodation based on a documented disability are advised to make the request known as soon as possible by contacting the Career Advising Center on the campus they wish to attend.

It is the students’ responsibility to contact the Disability Services provider on campus if they believe they have a disabling condition which may substantially limit their ability to participate in class.

Any student with a documented disability should complete the Student Request for Reasonable Accommodations form and mail, fax, email, or deliver it to the Disability Services providers. Information regarding accommodations for students with disabilities is available (online or from the Disability Services locations).

**Disability Service Providers**

**BEATRICE**  
Career Advising Center, Jackson Hall rm. J406, 402-228-8242

**LINCOLN**  
Career Advising Center, Lincoln campus rm. J2, 402-437-2620

**MILFORD**  
Placement & Assessment Center, 402-761-8202

SCC also has a TDD (Telecommunication Device for the Deaf). The phone number is 402-437-2702. Contact the Student Services Office for more information.

**Presence & Use of Animals at SCC Facilities and Events**

Bona fide service animals may accompany students, employees, and visitors with disabilities to all SCC events, activities, and locations. Local, state, and federal laws regulate the use of service animals at SCC locations and/or events. Animals associated with a college-related Program of Study (e.g. livestock) or research laboratory activity (e.g. livestock, mice) are not covered by these guidelines. Please contact the Dean of Student Services on your campus for the complete administrative guidelines document for clarification and/or additional information regarding the presence and use of animals at SCC locations and events.

**Equity & Diversity**

**Equal Opportunity and Nondiscrimination Policy**
It is the policy of Southeast Community College to provide equal opportunity and nondiscrimination in all admission, attendance, and employment matters to all persons without regard to race, color, ethnicity, religion, sex, age, marital status, national origin, veteran status, sexual orientation, disability, or other factors prohibited by law or College policy. Inquiries concerning the application of Southeast Community College’s policies on equal opportunity and nondiscrimination should be directed to the Vice President for Access, Equity and Diversity, SCC Area Office, 301 S. 68th Street Place, Lincoln, NE 68510, 402-323-3412, FAX 402-323-3420, or jsoto@southeast.edu.

**Harassment/Discrimination Prohibited**
Southeast Community College believes that it is the right of all students to obtain an education in a college environment free from all forms of illegal discrimination or harassment, including sexual harassment. Any student who believes he/she has been the subject of illegal discrimination or harassment should report the incident to a member of the College’s professional staff or one of the campus educational equity representatives listed below:

**BEATRICE**  
Tom Cardwell, Dean of Student Services  
Jan Arnold, Instructor, Academic Education

**LINCOLN**  
Dave Sonenberg, Dean of Student Services  
Susan Kash-Brown, Social Services Coordinator

**MILFORD**  
Robin Moore, Dean of Student Services  
Marcy Hostetler, Career Advisor, Assessment  
Lyle Neal, Campus Director

Southeast Community College recognizes its legal as well as moral obligation to prevent racial and/or ethnic harassment. Therefore, this policy is consistent with federal and state laws.

• **Federal Laws**
  Pursuant to Title VII of the 1964 Civil Rights Act, SCC has a responsibility to maintain a working environment free of racial intimidation and harassment.

• **Nebraska Laws and Policies**
  The declaration of the state policy and purpose in the Nebraska Fair Employment Practice Act, Neb. Rev. Stat. 48-1101 (Reissue 1988) states, in part, the following: “It is the policy of this state to foster the employment of all employable persons in the state on the basis of merit regardless of their race, color, religion, sex, disability, or national origin, and to safeguard their right to obtain and hold employment without discrimination because of their race, color, religion, sex, disability, or national origin. Denying equal opportunity for employment because of race, color, religion, sex, disability, or national origin is contrary to the principles of freedom and is a burden on the objectives of the public policy of this state.”

• **SCC Policies - E-3f(1-3)**
  Southeast Community College is committed to maintaining learning and working environments that are free from all forms of illegal harassment and discrimination. Accordingly, harassment based on an individual’s race, color, ethnicity, religion, sex, age, marital status, national origin, veteran status, sexual orientation, disability, or other factors prohibited by law is prohibited. The College will not tolerate harassment or retaliation in the workplace or educational environment whether committed by faculty, staff, or students, or by visitors to the College while they are on College property or at events conducted, sponsored or sanctioned by the College. Each member of the College community is responsible for fostering civility, for being familiar with this policy, and for refraining from conduct that violates this policy.

Prohibited discriminatory harassment is defined as conduct that is sufficiently severe, pervasive, and objectively offensive as to substantially disrupt or undermine a person’s ability to participate in or to receive the benefits, services, or opportunities of the College, and/or has the effect of creating an intimidating, hostile, or offensive environment.

Harassment when directed at an individual because of his/her race, color, ethnicity, religion, sex, age, marital status, national origin, veteran status, sexual orientation, disability, or other factors prohibited by law may include, but is not limited to: unwanted physical contact; use of epithets, inappropriate jokes, comments or innuendos; obscene or harassing telephone calls, emails, letters, notes or other forms of communication; and, any conduct that may create a hostile working or academic environment. Inquiries concerning the application of Southeast Community College’s policies on equal opportunity and
nondiscrimination should be directed to the Vice President for Access, Equity and Diversity, SCC Area Office.

**Conduct Expectations**

**Student Conduct**

All students enrolled at SCC are expected to conduct themselves as good citizens of an educational community. Students are expected to obey the laws and regulations of the nation, state, and community, and policies of the College.

Students may be dismissed from a Program of Study or from the College when violations occur. Due process is intended and provided; however, immediate suspension or dismissal may be the first course of action when violations are of a serious nature.

Categories of student misconduct which are not compatible with SCC’s standards:

1. Cheating and plagiarism, knowingly furnishing false information to the College, forgery, alteration or misuse of College documents or records. (See Academic Integrity)
2. Disruption or obstruction of teaching, research, administration, disciplinary procedures or other College activities or public service functions.
3. Physical, mental, or verbal abuse to others or self on College owned or controlled property or at College sponsored or supervised functions, or conduct which threatens or endangers the health and safety of such persons. This abuse includes all forms of harassment and discrimination.
4. Participating in or inciting a riot or an unauthorized or disorderly assembly.
5. Seizing, holding, commandeering or damaging any property or facility of the College, or threatening to do so.
6. Refusing to depart from any property or facility belonging to or being used by the College upon a reasonable request of an authorized College official.
7. Unlawful possession, use, distribution, or being under the influence of illicit drugs, alcohol or controlled substance on College owned or controlled property or at any College sponsored event.
8. Obstructing the free movement of persons or vehicles on College premises or at College activities.
9. Possession of dangerous chemicals, explosives, firearms or items used or perceived as a weapon on College owned or controlled property or at any College sponsored event.
10. Littering, defacing, destroying, vandalizing or damaging property owned or being used by the College.
11. Removing College property or property assigned to the College without authorization.
12. Unauthorized entry onto College property or property under the control of the College.
13. Unauthorized use of College equipment or facilities.
14. Violating campus parking and/or driving regulations.
15. Violating College policies, rules or regulations.
16. Discrimination or harassment on the basis of race, color, religion, sex, age, marital status, national origin, ancestry, veteran status or disability.
17. Disorderly conduct or lewd, indecent or obscene conduct on College owned or controlled property or at College sponsored or College supervised functions.
18. Theft of property, money, or other items deemed College/ student possessions/property.

19. Items of Public Display - SCC does not condone the public display of items (e.g., posters, t-shirt designs, paintings, etc.) which are intended and/or deemed racist, sexist, indecent, illegal, inciting, or oppressive in nature. Such materials are disruptive to the learning environment or do not promote an atmosphere of positive encouragement and mutual respect for others. Persons in violation of this expectation will be asked to remove items of this nature, and be subject to disciplinary action.

20. Testing Center Cheating
   a. A student caught cheating in the Testing Center will have the test confiscated immediately.
   b. The instructor will be notified as soon as possible by the Testing Center.
   c. The instructor will address the situation as it is outlined in the course syllabus.
   d. The student will be suspended from use of the Testing Center, for that class, until written notification is received by the Testing Center. The written notification will be from the instructor and must request reinstatement of Testing Center use for that student.
   e. If that student is caught cheating a second time, whether or not it occurs for the same class, that student will be barred from using the Testing Center.

**Academic Integrity**

As you pursue your studies at SCC, be mindful that academic honesty and integrity are fundamental expectations of those who interact with you. Information concerning academic integrity may be obtained by contacting the Dean of Student Services.

**Cell Phones**

Cell phone and hand-held device (pdas, iPods, etc.) use is not allowed in the classroom. Students are to shut off their cell phones prior to entering the classroom.

The use of cell phones is strictly prohibited in all locker rooms. “Locker Room” is defined to include any designated area/room/facility where students or employees can change clothes and which contains lockers or temporary storage for clothing and personal possessions. Violators will be subject to disciplinary action, and may be reported to law enforcement officials. Suspected violators of this ban should be reported immediately to the Campus Director or Dean of Student Services. (See also “Electronic Devices” and “Telephones.”)

**Computer & Electronic Device Usage**

**Computers**

Computers are available for student use at each campus. Computers are located in the computer labs, classrooms, and Learning Resource Centers. SCC welcomes students to use the available computer facilities for completion of school-related projects. SCC provides licensed software on its computers for students’ use and training.

Students are not to use software other than the software installed on the SCC machines and are not to modify the computers’ directory structure in any way. Users will abide by the guidelines regarding the lawful use of computers and software. Students who do not abide by SCC computer use policy will be subject to penalties outlined in the “Computer Use Violations” section.

**Electronic Devices**

Classroom use of cell phones and personal electronic hand-held devices (e.g., laptop computers, pdas, organizers, portable video games, iPods, MP3 players, etc.) that are not pre-authorized by the instructor for instructional purposes is prohibited. Violation of this policy may lead to formal disciplinary action. (See also “Cell Phones” and “Telephones.”)
Software Piracy
Unauthorized duplication, distribution or use of someone else’s intellectual property, including computer software, constitutes copyright infringement and is illegal and subject to both civil and criminal penalties. The ease of this illegal online behavior causes many computer users to forget the seriousness of the offense. As a result of the substantial amounts of money the software industry loses each year from software piracy, the software companies are enforcing their rights through courts and lobbying for and getting stiffer criminal penalties. It is a felony to reproduce or distribute illegal copies of copyrighted software.

Sound Recording Piracy
Another form of copyright infringement is the unauthorized duplication and distribution of sound recordings. Online piracy is increasing as many people use the Internet to illegally distribute digital audio files (e.g. MP3 format). The Recording Industry Association of America (RIAA) monitors the Internet daily and scans for sites that contain music. They have been successful in getting the sound recordings removed from those sites.

Federal copyright law grants copyright owners (typically, a record company) the exclusive rights to reproduce, adapt, distribute and, in some cases, digitally transmit their sound recordings. Therefore, the following activities, if unauthorized by copyright owners, may violate their rights under federal law:
- Making a copy of all or a portion of a sound recording onto a computer hard drive, server or other hardware used in connection with a web site or other online forum. This includes converting a sound recording into a file format (such as a .wav or mp3 file) and saving it to a hard drive or server;
- Transmitting a copy or otherwise permitting users to download sound recordings from a site or other forum; and/or
-Digitally transmitting to users, at their request, a particular sound recording chosen by or on behalf of the recipient.

Pornography:
Viewing pornography on SCC public-access computers, such as those in hallways, computer labs or the Learning Resource Center, is considered sexual harassment and is prohibited. If a class assignment requires any type of research on pornography, students must provide written authorization from the course instructor to the LRC or computer lab staff. Staff will then direct authorized students to a secured location for researching the subject. (See item # 14 below.)

Prohibited Internet Usage:
(Appplies to all computers used by students at Southeast Community College):
1. Sharing copyrighted material such as MP3s and software is strictly prohibited.
2. Students must observe copyright laws, license restrictions and SCC policies when receiving, retransmitting or destroying software or data. Any receipt, retransmission or destruction of software or data must observe copyright laws, license restrictions and SCC policies.

Copying College-owned or licensed software or data for personal or external use without prior approval.
3. Attempting to modify College-owned or licensed software or data without prior approval.
4. Using the SCC Internet connection for gambling, viewing/distributing pornography, or other illegal activities.
5. Attempting to damage or disrupting operation of computing equipment, data communications equipment or data communications lines. Attempting to create or launch viruses or other malicious programs designed to interfere with the SCC or state of Nebraska computing resources including the Internet access system.
6. Altering or extending beyond intended use of in-room connections. No more than one device should be connected to each active network port. Network hubs are prohibited.
7. Using in-room connections to provide access to the Internet or SCC resources to individuals not formally affiliated with the College.
8. Attempting to capture transmissions on the network not addressed to the student’s location. In other words, “sniffing” – the digital equivalent of wire-tapping – is not allowed.
9. Attempting to gain access to any data, software or services, without explicit permission of the owner.
10. Concealing or misrepresenting user’s or another’s identity using network connections. Examples: Sending electronic mail under an assumed name. Sharing a login password with another individual is prohibited.
11. Using SCC computing resources, including in-room connections, for personal profit, business ventures, or for any political purpose. In particular, these resources may not be used to support or oppose the candidacy of any person for political office, or to support or oppose any ballot question.
12. The network is a shared resource. Excessively using network resources that interferes or inhibits the use of the network or Internet access of others is prohibited. This includes but is not limited to applications that use a large amount of bandwidth (for example, Quake, Half-life, downloading MP3s and MPEGs). Sending out mass e-mails and/or spamming also are prohibited.
13. Sending messages that are fraudulent, harassing, obscene, threatening, or other messages that violate applicable federal, state or other law or College policy.
14. Class Assignment Exception to Computer Usage Restriction: In the rare instance that an instructor may include viewing pornography as part of a legitimate research assignment for a class, the following rules must be followed prior to using College-owned computers or College-owned Internet connections to conduct such research.
   - The instructor must provide each student with the specific assignment in writing. This document authorizes a student to access Internet sites that would otherwise be prohibited.
   - To access the restricted sites on a College-owned computer or College-owned Internet connection, the student must first clear such access with the LRC staff or the computer lab attendant in the area where the computer is located. Students must provide the LRC staff their name, SCC ID card, and term of the course.
   - The student who is expected to use a computer for these purposes must do so in a specific location to minimize incidental viewing of restricted sites and materials by others in the immediate area.

NOTE: Failure to comply with these expectations may result in disciplinary action, which may include being suspended or expelled from the College.

Computer Use Violations
Suspected or alleged violation of this policy should be reported immediately.

SCC Computer Helpdesk
402-437-2447 or 800-642-4075 ext. 2447
email: helpdesk@southeast.edu
Administrators have the authority to temporarily suspend network access to a computer that is believed to have been the source of a violation. Attempts will be made to contact users prior to the suspension of a computer’s network access. An incident report will be filed and appropriate action taken. Abuse of network and computing privileges is subject to disciplinary action. The appropriate SCC authorities, beginning with the Vice President for Technology, will handle computer use violations. Disciplinary actions as a result of violations may include the following:

- Loss of access privileges
- SCC judicial sanctions as defined within the code of student conduct
- Monetary reimbursement to the College or other appropriate sources if responsible for malicious damage to the College network of information systems
- Expulsion or suspension from SCC
- Prosecution under applicable civil or criminal laws

**Student Housing Data Network Acceptable Use Policy**

A “Residence Hall Computer Use Policy” agreement must be signed and returned to the dorm manager before Internet service is provided to the student’s room. The Student Housing Data Network provides resident housing students with in-room connections to the campus data network providing Internet access. The Internet access is a privilege that can be revoked if terms of this policy are violated.

Students’ use of the SCC-provided network access indicates their acceptance of this policy, as well as their responsibility to use the connection appropriately and in accordance with applicable laws and regulations. The SCC Residence Services and Information Technology Services reserves the right to modify, change and revise this document as necessary without permission or consent of the users.

NOTICE: Students cannot use their computer or the Internet for any illegal purpose.

Examples of illegal usage include but are not limited to copyright infringement, viewing, producing, peer-to-peer file sharing, downloading or uploading or distributing literature, movies, or other media that are illegal in general such as child pornography; harassing, threatening, or intimidating other individuals or groups.

**Legal Download Options For Residence Hall Students**

SCC does not block legal download sites providing residence hall students the opportunity to purchase audio, video, and/or games using the SCC Housing Data Network. Examples of vendors who sell music or subscriptions to music are: iTunes, Napster, Passalong, Puretracks, f.y.e., URGE, MusicGiants, eMusic, GetMusic, PayPlay.fm, etc. It will be the student’s responsibility to provide evidence of ownership and/or license for anything downloaded using the SCC Housing Data Network. SCC does use bandwidth shaping and traffic monitoring tools to deter peer-to-peer and unauthorized downloads.

**Copyright Law**

The copyright law of the United States (Title 17, U.S. Code) governs the reproduction of copyrighted materials, including publications, computer software, audio music, video, and audiovisual materials. It is the responsibility of the student when using SCC equipment such as photocopy machines and computers, to adhere to these guidelines. For more information on copyright law, visit the LRC.

**Debts**

All financial obligations to the College must be paid before a student may register for any new term and before transcripts, awards and credentials may be released. Financial obligations include (but are not limited to) tuition and fees, college loans, library and parking fines. The College will charge $30 for every insufficient funds check.

**Discrimination**

Students who believe they have been discriminated against should contact the College’s Access/Equity/Diversity Office, 301 S. 68th Street Place, Lincoln, NE 68510, 402-323-3412, FAX 402-323-3420, or jsoto@southeast.edu.

**Drug, Alcohol and Controlled Substance Policy**

SCC’s standards of conduct clearly prohibit the unlawful possession, use, or distribution of illicit drugs, alcohol or controlled substances by students and employees on its property, or as part of any of its officially recognized activities. The laws of the state of Nebraska pertaining to the possession and use of illicit drugs, alcoholic beverages and controlled substances on public property shall be followed. It shall be a violation of the drug, alcohol and controlled substance policy for students or employees to purchase, manufacture, possess, consume or sell such items on SCC campuses, or to be under the influence of drugs, alcohol or controlled substances while on campus.

When cause exists as determined by staff, a student suspected of being under the influence of drugs, alcohol or controlled substance while on campus or at a College activity may be requested to submit to a drug/alcohol test. Arrangements for and expense of such tests will be borne by the College.

**Student violations of the standards as stated in the previous paragraph may result in any one or a combination of the following disciplinary sanctions:**

- Warning
- Disciplinary probation
- Suspension
- Referral to an appropriate drug/alcohol/controlled substance treatment program
- Referral to law enforcement agencies
- Any other action considered necessary by College officials

Students’ rights shall be protected in accordance with due process. Students accused of violating the drug/alcohol/controlled substance policy as established shall have the right to a hearing and appeal as defined within the College grievance policies and procedures.

**Drug and Alcohol Testing Procedures for Students**

The purpose of these procedures is to help ensure compliance with the College’s Drug-Free Environment Policy E-2i.

**Testing requirements:**

The results of any test performed on the body fluid or breath specimen of a student, as directed by the College, to determine the presence of drugs or alcohol shall not be used to deny any continued enrollment or administrative action unless the following requirements are met:

1. A positive finding of drugs by preliminary screening procedures has been subsequently confirmed by a gas chromatography mass spectrometry or other scientific testing technique which has been, or may be, approved by the Nebraska Department of Health; and
2. A positive finding of alcohol by a preliminary screening procedure is subsequently confirmed by either:
   a. gas chromatography with a flame ionization detector or other scientific technique which has been, or may be, approved by the Nebraska Department of Health; or
   b. a breath-testing device operated by a breath-testing device operator.

**Types of tests:**

The College will conduct drug and alcohol tests in circumstances where reasonable cause exists. Arrangements for and expense of such tests will be borne by the College.

**Reasonable cause:**

When cause exists as determined by staff, a student suspected of being under the influence of drugs, alcohol or controlled substances while on campus or at a College activity may be requested to submit to a drug/alcohol test. The staff shall report the fact to the campus Dean of Student Services (or designated representative). If the Dean of Student Services (or designated representative) concurs that reasonable cause exists to believe that a student is under the influence of drugs, alcohol or controlled substance, then the student shall be requested to submit a test of his or her urine for the purpose of determining the presence of illegal drugs. An evidential-breath-test device will be used to determine alcohol content. The testing shall be performed under the supervision of the campus Dean of Student Services, or by such other persons as may be designated by him/her. The student shall also be requested to execute a consent form authorizing the analysis of his or her urine for the purpose of determining the presence of illegal drugs and/or breath tests to determine alcohol content. The form shall authorize the release of the
written results of such tests to the College. The refusal of a student to give a urine specimen, breath-sample test or to execute a consent form when requested to do so shall be grounds for dismissal.

Reasonable grounds for requesting that a student must submit to testing and execute a consent form shall be deemed to exist when the student manifests physical or physiological symptoms or reactions commonly caused by the use of alcoholic beverages or controlled substance, such as the odor of alcohol on the breath, slurred or thick speech, apparent loss of coordination or unsteady gait, or uncharacteristic emotional behavior. Reasonable grounds shall also be deemed to exist whenever a student is involved in an accident while enrolled which results in an injury to himself or herself or any other person, or which causes damage to College property or the property of another individual in excess of $1,000.

The Vice President for Student Services and the campus Dean of Student Services shall be notified when a student has been directed by the College to follow the College’s Drug and Alcohol Testing procedures.

Refusal to test: Refusal to submit to the types of drug and alcohol tests employed by the College will be grounds for dismissal from the College. A refusal to test is defined to be conduct which would obstruct the proper administration of a test. A delay in providing the urine or breath specimen could be considered a refusal. If a student cannot provide a sufficient urine specimen or adequate breath, he/she will be evaluated by a physician of the College’s choice. If the physician cannot find legitimate medical explanation for the inability to provide a specimen (either urine or breath), it will be considered a refusal to test. In that circumstance, the student will be subject to dismissal.

Drug urinalysis: Drug testing will be performed through urinalysis. Urinalysis will test for presence of drugs and/or metabolites of the following controlled substances:
1) marijuana, 2) cocaine, 3) opiates, 4) amphetamines, and 5) phencyclidine (PCP). The urinalysis procedure starts with the collection of a urine sample. Urine specimens will be submitted to and all confirmatory tests shall be performed by a clinic, hospital or laboratory which is licensed pursuant to the federal Clinical Laboratories Improvement Act of 1967, 42 U.S.C. 263a, or which is accredited by the College of American Pathologists for testing. As part of the collection process, the specimen provided would be split into two vials: a primary vial and a secondary vial. A certified laboratory will perform initial screening on all primary vials. In the event that the primary specimen test is positive, a confirmation test of that specimen will be performed before being reported by the laboratory to the Medical Review Officer as a positive.

A written record of the chain of custody of the specimen shall be maintained from the time of the collection of the specimen until the specimen is no longer required.

All laboratory results will be reported by the laboratory to a MRO designated by the College. Negative test results shall be reported by the MRO to the College. Before reporting a positive test to the College, the MRO will attempt to contact the student to discuss the test results. If the MRO is unable to contact the student directly, the MRO will contact the College management official, designated in advance by the College, who shall in turn, contact the student and direct the student to contact the MRO. Upon being so directed, the student shall contact the MRO immediately or, if after the MRO’s customary business hours, then at the start of the next business day. In the MRO’s sole discretion, a determination will be made as to whether a result is positive or negative.

An individual testing positive may make a request of the MRO to have the secondary vial tested. The student may request that the secondary vial be tested by a different certified lab than the one which tested the primary specimen. The individual making the request for the test of the second specimen must prepay all costs associated with the test. Requests for testing of a second specimen is timely if it is made to the MRO within 72 hours of the individual being notified by College of a positive test result.

All specimens, which result in a finding of drugs or alcohol, shall be refrigerated and preserved in a sufficient quantity for retesting for a period of at least 180 calendar days.

Alcohol tests: The College will perform alcohol tests using an evidential breath-testing device. The College will utilize the evidential breath-testing device provided by a vendor or agent. Students shall report to the site of the evidential breath-testing device as directed by the College. The evidential breath-testing device will be operated by the breath alcohol technician. The student shall follow all instructions given by the breath alcohol technician. Students with tests indicating breath alcohol concentration in excess of U.S. Department of Transportation “DOT Regulations” (defined as 0.02 or greater) are considered to have engaged in conduct prohibited by this procedure which may result in disciplinary action up to and including dismissal.

Counseling: The College understands the importance of providing information concerning the locations of available drug counseling, rehabilitation, and student assistance programs. Accordingly, any student who wishes to receive information regarding counseling and rehabilitation may request such information from the Student Services Office.

Confidentiality: The results of any urinalysis conducted under this procedure shall be made available to the student, the Vice President for Student Services, and the campus Dean of Student Services. The results of such tests shall not otherwise be divulged to any other person except when necessary for the conduct of the College’s student affairs. The College shall not be precluded, however, from divulging such test results upon request to agencies of local, state, or federal government; in any administrative or judicial proceeding wherein the results of such a test are relevant to the issues involved; or when the College is required to divulge such test results by subpoena.

Smoking and Chewing Tobacco

The College subscribes to the Nebraska Clean Indoor Air Act. Smoking and chewing of tobacco products are not allowed in any of the SCC buildings or in any College vehicles. Smoking and non-smoking areas on the campuses conform to state law and are clearly marked. Spitting of chewed tobacco products is not permitted within the College facilities.

Use of electronic cigarettes is not allowed in SCC buildings or College vehicles.

Disciplinary Actions and Student Grievances

Student Status Definitions

Students may find themselves in any number of “student statuses” while attending SCC. As such, the following chart illustrates a variety of student status in the Academic, Financial Aid, and Disciplinary areas.

<table>

Definitions:

**Academic Status**

**Academic Warning**

Students failing at mid-term will have a mid-term grade posted on WebAdvisor. The student will be contacted by the Student Retention Office to address the issue of coursework below acceptable academic standards.

**Academic Probation**

Students who receive a cumulative grade-point average (CGPA) of less than 2.00 at the end of a term will automatically be placed on academic probation.

**Academic Suspension**

Students who have been placed on suspension if their cumulative and term grade point average (GPA) are below 2.0. Students will be notified of their academic suspension status by certified letter. Students placed on suspension will not be allowed to register or attend classes for the upcoming term. (See “Academic Standing” for additional details.)
**Disciplinary Status**

**Warning**
An oral or written statement to a student alleging that he/she is violating, or has violated, College rules or regulations, must "cease and desist," and may be subject to more severe disciplinary action in the future for continuing, similar, or additional violations.

**Probation**
A written reprimand and sanctions for alleged violation of specific rules or regulations. The probation notice will specify a period of time for which specific privileges may be withheld or for which the student has the opportunity to exhibit corrective behavior, make restitution, or comply with any other terms and conditions deemed by College Administration to be necessary and appropriate. Violation of any College rule or regulation during the probationary period may be cause for additional disciplinary action.

**Suspension**
Exclusion from attending classes and all student activities. The student will be excluded for a definite period of time not to exceed one year.

**Dismissal**
Termination of student status. Readmission to the College shall not be granted. (See "Disciplinary Procedures" for additional details.)

**Financial Aid Status**

**Financial Aid Warning**
A review of the student academic transcript indicates that satisfactory academic progress has not been made according to federal financial aid regulations in one or more of the following areas: Successful completion of at least 66% of all credits attempted; Minimum cumulative grade point average of 2.0; Requirements for degree must be completed within a specified time frame. This time frame cannot exceed 120% of the program as measured in credit hours attempted. While on warning status, students may continue to be eligible for financial assistance. However, satisfactory academic progress requirements must be achieved by the end of the next enrollment/payment period in order to continue to receive aid. Failure to do so will result in the loss of eligibility for future terms.

**Financial Aid Suspension**
Students who were previously on “warning” status and continue to not meet one or more of the above criteria are placed on financial aid suspension. While on suspension status, students are ineligible to receive financial aid from any program administered through the College. This denial includes institutional and state funds, as well as funds from the Federal Pell Grant, Federal SEOG, Federal Work-Study, Federal Subsidized and Unsubsidized Stafford Loans, and Federal PLUS Loans. Financial Aid suspension does not prevent students from enrolling at the College. However, until satisfactory academic progress is achieved, students must enroll at their own expense. (See “Financial Planning” for additional details.)

**Student Rights & Responsibilities**
The following statements of rights and responsibilities clarify those rights which a student may expect as a student of Southeast Community College, and the obligations and responsibilities which admission to the College places upon the student.

A. Submitting an Application for Admission or a course Registration Form to SCC represents a voluntary decision on the part of the prospective student to participate in the programs offered by the institution pursuant to the policies, rules and regulations of the College. Acceptance for admission, or course registration, in turn represents the extension of a privilege to participate in educational programs and activities and to remain a student as long as the academic and behavioral standards of the College are met.

B. Each student is guaranteed the privilege of exercising his/her rights without fear or discrimination or retaliation. Such rights include:
   1. Freedom to pursue educational goals; appropriate opportunities for learning shall be provided by the College.
   2. Due Process and fairness in the implementation of disciplinary actions.
   3. The right to free inquiry, expression and assembly provided a student’s actions do not interfere with the rights of others, interfere with the teaching-learning process, disrupt the normal operation of the College, and are in accordance with College policy.
   5. Personal safety, security and the continuity of the educational process.

C. The right to inspect and review personal educational records, challenge the contents of records, and receive copies of all or parts of their records.

D. Due Process and fairness in filing and resolving grievances concerning alleged abridgement of rights
(Refer to section Disciplinary Process and Procedure.)

**Disciplinary Procedures**

**Disciplinary Definitions**

**Disciplinary Action** - Action taken by a College staff member in response to a student violation, misapplication or non-application of a College rule or policy.

**Days** - Shall be defined as days that the College is in session (excluding Saturdays, Sundays and holidays.)

**Restitution** - Required payment for damage or misappropriation of property. This obligation may be satisfied by payment of money or other appropriate services. Failure to make restitution could result in a more severe sanction.

**Sanction** - A detriment, penalty, loss of reward or restriction in response to a violation of a College policy as a means of enforcing the policy.

**Disciplinary Process and Procedure**

When a student is suspected of violating a rule or regulation, he/she will be made aware of these suspicions by the Dean of Student Services or designated staff member in a timely manner. The rule or regulation that may have been violated, and the evidence supporting the suspicion, should be thoroughly discussed with the student. The purpose of this discussion is to establish the seriousness of the misconduct and to determine the appropriate sanction (response).

The following sanctions are options which may be considered and imposed:

A. **Warning** - An oral or written statement to a student alleging that he/she is violating, or has violated, College rules or regulations, must “cease and desist,” and may be subject to more severe disciplinary action in the future for continuing, similar, or additional violations.

   A warning is not a grievable sanction.

B. **Probation** - A written reprimand and sanctions for alleged violation of specific rules or regulations. The probation notice will specify a period of time for which specific privileges may be withheld or for which the student has the opportunity to exhibit corrective behavior, make restitution, or comply with any other terms and conditions deemed by College Administration to be necessary and appropriate. Violation of any College rule or regulation during the probationary period may be cause for additional disciplinary action.

   NOTE: Students who violate College policies, rules or regulations generally receive a warning or probation prior to suspension or dismissal from the College. HOWEVER, SUSPENSION OR DISMISSAL MAY BE THE FIRST ACTION TAKEN WHEN THE MISCONDUCT IS DEEMED SERIOUS AND SUCH ACTION IS DEEMED APPROPRIATE AND NECESSARY.

C. **Suspension** - Exclusion from attending classes and all student activities. The student will be excluded for a definite period of time not to exceed one year. The letter of suspension will state the terms of the exclusion and the conditions for readmission to the College, including terms of any restitution and/or service to be rendered by the student. The Dean of Student Services is responsible for administering suspensions and dismissals.

(See “Disciplinary Procedures” for additional details.)
Students have the right to request a hearing prior to a suspension.

D. Dismissal - Termination of student status. Readmission to the College shall not be granted. Restitution may also be required. Students have the right to request a hearing prior to a dismissal. Only students who are considered for Disciplinary Probation, Suspension or Dismissal are entitled to a Disciplinary Hearing. The Formal Grievance Process will be followed when a student requests a hearing. The following guidelines will be adhered to:

NOTE: Students who are scheduled for a Disciplinary Hearing or Appeal involving Suspension or Dismissal from class or College activities will generally be allowed to continue attending classes, remain on campus and attend College events/activities until the Disciplinary Hearing/Appeal is completed. However, when it is determined by College Administration (e.g. Dean of Student Services, a Campus Director, or the President) that continued attendance presents reasonable concerns regarding issues of student/staff safety, health or welfare, attendance will be restricted until after the Committee or the administrator hearing an appeal has rendered a determination and issues a recommendation concerning attendance.

General Information for Student Grievances, Disciplinary Hearings and Appeals
All students have the right of Due Process and fairness in filing and resolving grievances concerning an alleged abridgement or misapplication of College policy, including, but not limited to:
- Disciplinary action
- Student scholastic progress
- Grades
- Financial aid
- Actions or activities of the College
- Americans with Disabilities Act Reasonable Accommodations

Reasonable Accommodations
Students needing reasonable accommodations to access or participate in the grievance process should contact the Dean of Student Services at their campus location for additional information and assistance.

Use of Legal Counsel
Appeal Hearings are administrative in nature and present an opportunity for both sides to present and/or clarify facts. Neither party will be allowed the presence or use of legal counsel at any stage of the Appeal Process. However, if the student is concurrently facing criminal charges generated by the same incident that resulted in the disciplinary action, the student would be allowed the right of passive assistance of counsel during the hearing and appeals procedure.

NOTE: Legal counsel may not speak on behalf of the student or in his/her stead. When the student is allowed to utilize legal counsel to provide passive assistance, the College also retains the right to have legal counsel present to provide passive assistance.

ADA/504 Grievance
These procedures shall also apply to grievances arising from objection to, or dissatisfaction with, actions taken by Southeast Community College with regards to requests for reasonable accommodation. ADA/504 Grievance is defined as an allegation by a student that at least one of the following has occurred. The student has:
- experienced disparate treatment;
- has been discriminated against because of a disability; or
- there has been a failure to provide a requested accommodation.

Grievances/Appeals Involving Suspension OR Dismissal
Students who are scheduled for a Disciplinary Hearing or Appeal involving Suspension or Dismissal from class or College activities will generally be allowed to continue attending classes, remain on campus and attend College events/activities until the Disciplinary Hearing/Appeal is completed.

However, when it is determined by College Administration (e.g. Dean of Student Services, a Campus Director, or the President) that continued attendance presents reasonable concerns regarding issues of student/staff safety, health or welfare, attendance will be restricted until after the Committee or the administrator hearing an appeal has rendered a determination and issues a recommendation concerning attendance.

Grievance/Discipline/Appeals Procedures for Students
The purpose of a Student Grievance procedure is to secure, at the lowest level possible, equitable and timely solutions to problems that may arise. Grievances may be addressed through an informal or formal procedure.

A grievance may be “withdrawn” by the student at any time during the Grievance Process.

Grievance Definitions
Grievance: A grievance is defined to mean an allegation by a student that there has been a violation, misapplication or non-application of College rule or policy.

Grievant: A student who files a grievance. Disciplinary action: Action taken by a College staff member in response to a student violation, misapplication, or non-application of a College rule or policy.

Days: Shall be defined as days that the College is in session (excluding Saturdays, Sundays and holidays.)

Board of Governors: Refers to the Board of Governors of Southeast Community College.

Informal Grievance Process
An attempt should be made by both parties to resolve the grievance in a timely fashion and at the lowest possible level of involvement.

a. The grievance must be raised by the student within five (5) days from the date the grievant could have reasonably gained knowledge of the alleged misapplication or non-application of College rules or policies, but in no event, more than twenty (20) days from the occurrence giving rise to the grievance.

b. The student must communicate with the involved participants, including, but not limited to, instructor, program chair, the division dean, and the involved support staff as a first attempt to resolve the grievance informally.

NOTE: Students are encouraged to seek resolution of the grievance through the informal process. If the grievance is not resolved at this level, the Formal Grievance Procedure may be initiated.

Formal Grievance Procedure
The Formal Grievance Procedure is available to all currently enrolled students of the College in an attempt to provide equitable solutions to concerns and problems that may arise. The Formal Grievance must be raised within five (5) days from the date the Informal Grievance Process is concluded.
Step 1.
If the Informal Grievance Process has not resulted in a satisfactory/acceptable resolution, a Formal Grievance Form may be completed and submitted to the campus Dean of Student Services.

Step 1.1 - To initiate a Formal Grievance, a Formal Grievance Form must be completed and submitted to the campus Dean of Student Services. Formal Grievance Forms and a related checklist are available from the campus Dean of Student Services Office.

Step 1.2 - The campus Dean of Student Services will, within five (5) days, or on a date mutually agreed upon by the Dean and grievant, call together the Grievance/Disciplinary Hearing Committee. The campus Dean of Student Services or the dean's designee will serve as Chairperson of the Grievance/Disciplinary Hearing Committee. The Dean of Student Services may not serve as the Chairperson at the Grievance Hearing for any disciplinary action he/she administered, or for discipline administered by anyone the Dean of Students supervises.

Grievance/Disciplinary Hearing Committee
The campus Dean of Student Services shall be responsible for appointing a minimum of five (5) members to the Student Grievance/Disciplinary Hearing Committee each term.

A Grievance/Disciplinary Hearing Committee may include, but is not limited to:
- The Campus Dean of Student Services (ex officio)
- Program chair
- Instructional staff
- Student Senate representative
- Support staff
- Administrative staff
- Other individuals deemed appropriate and/or necessary as determined by the Dean of Student Services

A quorum consists of five (5) committee members. If a quorum is not established, the hearing must be rescheduled. Grievance and Disciplinary Hearings are administrative in nature and afford all participants a fair opportunity to present and clarify the facts of the situation.

Step 2.
Within five (5) days of the date the complaint is received by the campus Dean of Student Services, the Grievance/Disciplinary Hearing Committee shall meet to gather, review and clarify information from all relevant parties, and to prepare a written response to the grievant.

The following guidelines will serve as a basis for Committee Meetings and Hearings:

Grievance Hearing Guidelines
1. The student is permitted to appear in person to review the complaint. Such a request must be indicated on the Formal Grievance Form.
2. The employee(s) against whom the student has filed a grievance will be invited by the Committee Chairperson to present and clarify facts and information relating to the student-filed grievance.
3. Committee members, the student and other participants will receive copies of the formal grievance when deemed appropriate by the Dean or Committee Chairperson.
4. The student will be notified in writing of the date, time and place of the hearing via either U.S.P.S. Registered Mail with Return Receipt Requested OR delivered in person to the student with the student signing his/her signature acknowledging receipt of the response.
5. Hearings are not open to the public or to College staff not invited by the Committee Chairperson to participate.
6. Participants will be excused after their statements are given and questioning has ended.
7. The Committee Chairperson may make any reasonable procedural rulings deemed necessary to expedite the hearing, to limit the amount or nature of information presented by participants, and to safeguard the confidentiality of statements given at the hearing. Specific procedures will be explained by the Committee Chairperson prior to the beginning of the meeting or hearing.

(Note: The Committee Chairperson may exclude from the meeting or hearing any persons who fail to comply with the procedures or rulings of the Committee Chairperson.
8. The student may have witnesses and an advisor of his/her choice, who have specific personal knowledge of the situation being grieved, to be selected from faculty, staff or student body of the College. (See “Use of Legal Counsel” for exception to these guidelines.) In no instance will another person be permitted to speak independently for the student or in his/her stead.
9. Students are responsible for notification of their selected advisors and/or witnesses. Prior to the hearing, the student must inform the Committee Chairperson whether the selected advisor(s) and/or witnesses will attend the hearing.
10. If the student fails to attend a scheduled hearing, and has not requested that the hearing be rescheduled and provided a reasonable basis for doing so, the committee may, at its discretion, proceed on the basis of available information.
11. An audio recording will be made of the information presented, and a copy of the recording will be made available to the student grievant if requested.
12. After hearing the information provided by the student and other participants concerning the grievance, committee members will discuss the grievance in closed session.
13. A separate audio recording will be made of the Committee discussion after the student grievant and the other participants have been excused. (This separate audio recording will be filed under confidential cover with the appropriate SCC employee(s) if the student grievant requests an Appeal Hearing following the steps outlined in the Grievance Appeal Process.)
14. The Committee shall review and consider the information presented and consult with appropriate College staff as necessary and appropriate. After review and consideration, the committee may decide to:
   a.) uphold the action taken; or
   b.) grant the remedy requested by the grievant; or
   c.) select an alternative resolution.
15. A decision requires a simple majority vote of the committee members present. However, a minimum of five (5) committee members must be present and available to conduct a vote.
16. Within five (5) days (excluding Saturdays, Sundays and holidays) that the College is in session, from the date that the hearing was conducted, a written response shall be prepared by the Committee Chairperson and sent to the student grievant. The response will be delivered to the student via either U.S.P.S. Registered Mail with Return Receipt Requested OR delivered in person to the student with the student signing his/her signature acknowledging receipt of the response.

   The response shall include:
   a. the committee’s determination
   b. a reference to the current College Catalog/Handbook for the next step in the Grievance Appeal Process
   c. the name, address and contact information for the next step in the appeal process.
17. Copies of the decision/response to the student shall be sent under confidential cover to those against whom the grievance was filed, the Vice President for Student Services, Grievance Committee Members, Campus Director, and College Vice President that the domain of the grievance pertained to (Instruction, Technology, Student Services)
18. If the student grievant requests an Appeal Hearing following the steps outlined in the appeal process, the Grievance/Disciplinary Hearing Committee Chairperson shall forward all grievance materials, information and audio recordings to the next SCC employee(s) identified in the appeal process.
19. If the student grievant does not appeal, all grievance-related documents and recordings shall be retained and filed in the Dean of Student Services’ Office.
Process to Appeal

A. Appeal to the Vice President/Campus Director

If the student is not satisfied with the decision of the Grievance/Disciplinary Hearing Committee, the student may file, with the Vice President/Campus Director, a written request for a Grievance Appeal Hearing with the College Vice President that the domain of the grievance pertained to (Instruction, Technology, Student Services), as identified by the committee. The request must be filed within five (5) days of receiving the Grievance/Disciplinary Hearing Committee’s decision.

The Grievance/Disciplinary Hearing Committee Chairperson shall forward all grievance materials, information and audio recordings to the appropriate College Vice President if the student grievant requests an Appeal Hearing following the steps outlined in the appeal process.

The appropriate College Vice President will hold the Appeal Hearing requested within twenty (20) days of the date the request was received.

The student will be notified in writing of the date, time and place of the hearing via either U.S.P.S. Registered Mail with Return Receipt Requested OR delivered in person to the student with the student signing his/her signature acknowledging receipt of the response.

B. Appeal to the College President

If the decision of the appropriate Vice President/Campus Director is not satisfactory to the grievant, the grievant may request in writing within five (5) days an Appeal Hearing with the College President. The College President will hold the Appeal Hearing request within twenty (20) days of the date the request was received.

The student will be notified in writing of the date, time and place of the hearing via either U.S.P.S. Registered Mail with Return Receipt Requested OR delivered in person to the student with the student signing his/her signature acknowledging receipt of the response.

C. Appeal to the Board of Governors

Only matters involving a student’s Suspension or Dismissal from the College may be appealed to the Board of Governors. If the decision of the College President is not satisfactory to the grievant, the grievant may request in writing within five (5) days an Appeal Hearing with the Board of Governors.

The hearing before the Board of Governors will be held as scheduled by the Board Chair. The Board will conduct the Appeal Hearing within twenty (20) days of the date the request was received.

The student will be notified in writing of the date, time and place of the hearing via either U.S.P.S. Registered Mail with Return Receipt Requested OR delivered in person to the student with the student signing his/her signature acknowledging receipt of the response.

D. External Avenues for Redress

In the event the grievant filing an appeal is not satisfied with the decision of the College, the grievant may wish to explore avenues of redress external to the College.

Health, Safety and Security

Appearance

Reasonable cleanliness and appearance in dress are expected of all students. When and where safety factors are involved, each program should continue to establish those regulations considered in the best interest of the students. Program safety regulations are posted.

Campus Security

SCC is committed to ensuring the safety and security of students, employees, and visitors on its campuses, in College facilities and at College-sponsored activities and events. The College provides a variety of services and programs designed to promote and support safety and security.

SCC students, visitors and employees should report any suspected criminal activity or other emergencies at any SCC location to local law enforcement. Any student who is involved in an incident concerning safety and security should immediately report the incident to the campus Dean of Student Services.

Children on Campus

Children are not to be left unattended in any area of the College. Children may accompany students and visitors in common areas such as the cafeteria, student center and Student Services areas. Students should not bring children to classes or quiet study areas.

Communicable Diseases

SCC cooperates with county and state health departments in developing procedures for the control of communicable diseases. All procedures conform to the regulations for communicable disease control established by the State Health Department.

Firearms, Weapons and Dangerous Instruments prohibited

Policy

The possession, concealment or use of firearms, weapons, fireworks and explosive materials, or other dangerous instruments is prohibited in college-owned buildings, grounds or vehicles, or at any location where a meeting, activity or athletic event is conducted, sponsored or sanctioned by the College.

The authority to develop, implement, and interpret administrative guidance for this policy is vested in the Vice President for Student Services. Responsibility for monitoring and enforcing established administrative guidelines will be assigned to the appropriate College staff at SCC locations.

Administrative Guidelines/Procedures

1. Definitions/Examples of Prohibited Items
   a. **Firearms** – Any weapons designed or readily converted to expel any projectile by the action of an explosive. Examples include: pistol, revolver, starter gun, rifle, shotgun, short rifle, and short shotgun.
   b. **Weapons** – Any knife with a blade over three and one-half inches in length. Examples include: daggers, dirks, knives, and stilettos, or other dangerous instrument capable of inflicting cutting, stabbing, or tearing wounds.
   c. **Fireworks and Explosive Materials** – Any composition or device designed for the purpose of producing a visible or audible effect by combustion, deflagration, or detonation. Examples include: common fireworks (firecrackers, bottle rockets, sparklers, ground/ aerial/whistling devices); ammunition; black powder; gun powder, other explosive or combustible articles.
   d. **Dangerous Instruments** – Any air or gas-powered pistol or rifle, including paintball/BB/pellet or tranquilizer guns/ rifles; knuckles and brass or iron knuckles; bow and arrow, or any other projectile weapon or device; atomic, radiological, chemical, bacteriological, or biological materials.

2. Exceptions
   These prohibitions apply to everyone (i.e., employees, students, invitees, and visitors) except:
   a. Law Enforcement Officials carrying or using weapons in conjunction with their official duties; and
   b. Use of prohibited items is permitted if/when an approved part of the regular course of instruction or college-approved activity.

3. Violations
   Violation of this policy will result in discipline and/or law enforcement action.
General Liability Insurance
The College maintains general liability insurance to cover accidents that occur as a result of faulty equipment or College negligence. However, SCC is not responsible for accidents that occur on campus as a result of student negligence. Students are urged to maintain private health insurance to assure coverage. Contact the campus Student Services Office for additional information.

Law Enforcement Contacts
In situations deemed to be non-emergency or not requiring special considerations (e.g., safety and security), the following procedures will be followed for routine law enforcement contacts at any SCC facility:

Initial Point of Contact - The initial point of contact for all law enforcement representatives will be the Campus Director (or designee) in the Campus Office. The Campus Director (or designee) will assume responsibility for assessing the law enforcement request, determining appropriate next steps, and documenting relevant details of the law enforcement contact.

Student Contact Request - If a duly authorized law enforcement representative on official business requests interaction with a SCC student, the Campus Director (or designee) will contact and involve the Dean of Student Services, who will coordinate and assist to effectuate the law enforcement contact with the student at a place, time, and in a manner that is deemed to be prudent and appropriate.

Privacy/Confidentiality - Law enforcement contacts of the nature described above do not obviate the College’s responsibility to safeguard information and files that students or employees reasonably expect to be private/confidential (e.g., student records protected under FERPA, or employee personnel files).

Missing Persons
Missing Student Notification Guidelines
These guidelines and procedures are established pursuant to Section 485 (j) of the Higher Education Opportunity Act of 2008, and apply only to SCC students who reside in on-campus housing at the Beatrice and Milford campuses.

If anyone has reason to believe that a student who resides in on-campus housing (Beatrice/Milford) has been missing from campus for 24 hours, he or she is required to immediately report their concerns to the Dean of Student Services at their location:

- Beatrice: 402-228-8220
- Milford: 402-761-8270

Law Enforcement Notification
The Dean of Student Services, or their designee, must immediately refer a missing student report to local law enforcement having jurisdiction in the area:

- Beatrice: Police 402-223-4080; Gage County Sheriff 402-223-5221
- Milford: Police 402-761-2772; Seward County Sheriff 402-643-2359

Emergency Contact Notification
Once a law enforcement investigation determines that a student is missing, the Dean of Student Services, in consultation with the SCC President or designee, will, within 24 hours of the determination, notify emergency contact(s) identified by the student. If the missing student is younger than 18 years of age and not an emancipated minor, the emergency contact(s) identified by the student. If the missing student is younger than 18 years of age and not an emancipated minor, the SCC will notify his/her custodial parent or guardian in addition to the emergency contact person identified by the student.

Student Designation of Contact Person
Each student residing in on-campus housing will be required to confidentially register with the College one or more individuals to be an emergency contact strictly for “missing persons” purposes. This information will be accessible only to authorized campus officials, and will not be disclosed, except to law enforcement personnel in furtherance of a missing person investigation.

Administrative Authority
The Vice President for Student Services, or designee, is charged with the administrative responsibility and authority to develop, monitor and report on detailed procedures and activities designed to implement missing student notification requirements.

Sex Offender Registry
The Nebraska Sex Offender Registration Act requires convicted sex offenders to register with local law enforcement officials. Registry information regarding convicted offenders is published in local newspapers and also is available to the public at http://www.nsps.state.ne.us on the Nebraska State Patrol’s Web site.

1. Institutions, including colleges and universities, are required to monitor the presence of convicted sex offenders at their facilities. SCC officials will routinely receive information regarding sex offenders residing in counties where our campuses are located.

2. Upon their enrollment for classes each term at any College facility, all sex offenders listed on the public registry are hereby required to contact and register with the Dean of Student Services at that facility. Failure to comply will result in disciplinary action.

Should you have an interest in accessing registry information while on campus, computers are available in the Learning Resource Center at each SCC facility.

To report any persons, activities, or behaviors you deem to be suspicious or questionable, please contact the Dean of Student Services at your campus location.

NOTICE: You are advised to immediately contact law enforcement by dialing 911 to report crimes, or if you feel a reasonable threat to your safety and security.

Illness, Accident and Injury
SCC reserves the right to call a physician in case of student illness or injury, and to call for ambulance service to deliver a student to the hospital. Judgment of the school officials shall determine such action.

In the case of a student illness or injury, SCC reserves the right to contact 911 Emergency Services for assistance. The judgment of SCC staff present at the scene shall determine what immediate action needs to be taken.

Every effort will be made to prevent accidents, but the College incorporates the following statement as part of its understanding with students. SCC assumes no liability, expressed or implied, for the results of sickness or accidents involving personal injury to any student whether in connection with the College’s instructional program wherever conducted, or incidental to other activities on the College’s properties or elsewhere.

Drills and Evacuation
Fire drills may be held periodically during the year. Each instructor will inform students of the exit or exits to be used in an emergency evacuation. The signal to leave the building will be a steady alarm signal. Whenever this occurs students are to immediately exit the building in an orderly manner. Students are to move away from the building to a distance of at least 50 feet and are not to block the exits, sidewalks or fire hydrants. Staff will indicate when it is safe to return to the building.

Emergency Procedures
Students should be aware of the emergency exits and procedures posted throughout the buildings.
Polices & Guidelines

Shelter areas. They are:

It is the responsibility of the division deans, program chairs and instructors of SCC to properly inform the students of the designated instructions.

"All clear" has been sounded, students will be notified and given further directions and move in an orderly fashion to a shelter area. When an notified by an alarm signal. Students are to follow the instructor's instructions.

In case of a severe weather or threat of a tornado, students will be notified by an alarm signal. Students are to follow the instructor's instructions.

Emergencies

Tornadoes, Severe Storms or Other Emergencies

In case of a severe weather or threat of a tornado, students will be notified by an alarm signal. Students are to follow the instructor's directions and move in an orderly fashion to a shelter area. When an "all clear" has been sounded, students will be notified and given further instructions.

Eyewear

In compliance with Nebraska statute 85-901, students at SCC are required to obtain and wear appropriate industrial quality eye protective devices while participating in or observing the following courses of instruction in designated areas of campus facilities:

(a) Vocational, technical, industrial arts, chemical, chemical-physical, involving exposure to:

(i) Hot molten metals or other molten materials;

(ii) Milling, sawing, turning, shaping, cutting, grinding, or stamping of any solid materials;

(iii) Heat treatment, tempering or kiln firing of any metal or other materials;

(iv) Gas or electric arc welding or other forms of welding processes;

(v) Repair or servicing of any vehicle; or

(vi) Caustic or explosive materials;

(b) Chemical, physical, or combined chemical-physical laboratories involving caustic or explosive materials, hot liquids or solids, injurious radiations, or other hazards not enumerated.

Eyewear is available through the campus bookstores.

Safety Procedures and Practices

Good safety procedures and practices are an important part of a student's education and future employment. Each division at SCC maintains certain safety standards and expects students to understand and practice those standards.

Please note: You can be notified of campus closings due to weather or other emergency circumstances by signing up for text messaging or email notification at http://southeast.regroup.com/signup

Policies & Guidelines

Tornadoes, Severe Storms or Other Emergencies

In case of a severe weather or threat of a tornado, students will be notified by an alarm signal. Students are to follow the instructor's directions and move in an orderly fashion to a shelter area. When an "all clear" has been sounded, students will be notified and given further instructions.

It is the responsibility of the division deans, program chairs and instructors of SCC to properly inform the students of the designated shelter areas. They are:

Parking and Driving

Parking is available to students on each campus. Some parking spaces are reserved and designated for persons with disabilities. Parking in these designated areas requires a special restricted permit.

Driving or parking is not permitted on grassy surfaces or other non-established driving or parking areas except as expressly permitted by posted signs.

Contact the Student Services Office for information on Restricted Parking Spaces, Administrative Guidelines, and procedures.

Milford and Beatrice campuses require a parking permit sticker for the campus parking lots. Contact your campus’ Student Services Office for more information. Each campus encourages owners to lock their cars.

The College is not responsible for damages to a car while parked on college property. Students are responsible for having insurance coverage on their vehicles.

Campus speed limits and all state and local traffic regulations must be observed. Driving against the normal flow of traffic is not allowed.

Temporary (Restricted) Permit

A temporary restricted parking permit may be obtained through the Physical Plant Office or Student Services on your campus. A doctor’s statement stating need is required. No fee required.

BEATRICE
Student Services, Kennedy Center, 402-228-8210

LINCOLN
Physical Plant, 402-437-2570

MILFORD
Physical Plant, 402-761-8253
Beatrice Campus

Driving
1. The speed limit on the Beatrice Campus is 20 miles per hour.
2. All federal, state and local traffic regulations are in effect on campus. Driving against the normal flow of traffic is not allowed.

Parking/Permits
1. All faculty, staff and enrolled students who use the parking lots are required to display a parking permit. Permits are issued to students at registration.
2. Student parking is located in the lots south of the residence halls, west of Hoover, and the areas in the lot east of Kennedy Center not designated “handicapped” and “visitor.”
3. Residential student parking is designated in the lot west of Hoover Hall.
4. No vehicle is permitted to occupy more than one stall. Please park between the lines. Improper parking will result in a citation and fine.
5. Students using parking lots with angled parking stalls are not permitted to move ahead into a stall that faces against the flow of traffic. Students parking against the flow of traffic will be ticketed.
6. General student parking is not allowed in the following designated areas and will result in a citation and fine:
   • visitor parking
   • handicapped parking (without visible permit)
   • designated NO PARKING or restricted zones
   • service entrances
   • Family Resource Center lot west of Adams Hall

Fines
1. Parking fines may be paid at the Business Office located in the Kennedy Center. Hours are 8 a.m. - 5 p.m., Monday through Friday.
2. Failure to pay fines will result in the following:
   • Fine will increase as noted on the citation.
   • Student may not register for next term.
   • Transcripts will not be issued.
3. Students who have repeated parking violations and unpaid fines will be subject to having their vehicle towed at their expense plus the expense of the violation.

Other Regulations
1. Major repair of vehicles on campus is discouraged. Inoperable vehicles will be towed at owner’s expense if allowed to remain on campus property an unreasonable length of time.
2. For your safety, keep your car doors locked and do not leave valuables in your car.

Snow Removal Parking Regulations
1. Hoover/Jackson parking lot: The snow will first be removed from the west end of the Hoover parking lot. The day after it snows, all Hoover and Jackson residents will be required to move their vehicles to the west end of the lot by 10:30 a.m., after the snow has been removed.
2. Roosevelt/Kennedy/Washington parking lot: The day after it snows, all Roosevelt residents will be required to move their vehicles to the Truman Center parking lot by 10:30 a.m., after the snow has been removed.

Vehicles not moved will be ticketed and, if necessary, towed at the owner’s expense.

Lincoln Campus

Driving
1. While driving on campus, each student is expected to follow all state, local and College driving regulations.
2. Campus speed limits for all motorized vehicles are 20 mph unless otherwise posted.

Parking
1. Students may park in any parking lot unless otherwise posted.
2. A parking area for motorcycles is designated in both the south and north parking lots.
3. Bike racks are available on the north, south, and east sides of the campus building.
4. General student parking is not allowed in the following designated areas:
   a) Reserved for SCC Board of Governors meetings
   b) Handicapped Parking (without visible special permit)
   c) On campus streets, drives or service drives.
5. Vehicles left overnight without prior approval are subject to being towed. To obtain approval call the physical plant, 402-437-2570.

Violation Fees
Illegally parked vehicles will be ticketed and violators will be required to pay parking fines according to the fine schedule. Repeat offenders’ vehicles may be towed away at the owner’s expense. Parking ticket fines must be paid prior to the deadline stated on the ticket and are payable at the Cashier’s Office in Student Services, room E-1. Failure to pay fines according to campus rules and regulations will result in disciplinary action.

Restricted Parking Permits
Restricted parking permits are available at the city clerk’s office located in the City/County Building, 550 So. 10 St. For either a permanent or temporary permit a doctor’s statement stating need will be required. The fee for either permit is $5.

Energy Square ESQ Parking (Downtown Lincoln)
Students attending classes at the Energy Square location in Lincoln may purchase parking cards for reduced parking rates. Contact the city of Lincoln parking office at 402-441-PARK. Students must have a current student ID to purchase the parking cards.

Milford Campus

Parking Permits
1. All students are required to register the vehicles they will be driving on campus. All vehicles parked on campus must have a valid permanent or temporary parking permit.
2. Permits are available on the day of class registration or from the parking office in the Physical Plant Building
   Hours: 7:30 a.m.–4:30 p.m.
3. Parking permits are valid for the student’s enrollment period.
4. One vehicle permit and one motorcycle permit are allowed to each student at no cost. A $6 fee is charged for additional permits.
5. Temporary permits are available and valid for ten school days. They must be visible before parking on campus.

Driving
1. While driving on campus, each student is expected to follow the regulations and traffic policies established by the College, and all state and local traffic regulations.
2. The speed limit on campus is 15 mph.
Policies & Guidelines

Parking
1. Student parking lots are located west of the residence halls. This is the only area for student parking.
2. Motorcycle parking, staff parking, production parking, visitor parking, cafeteria staff parking and handicap parking areas are designated by signs. Student parking is not allowed in designated areas without a visual permit.
3. Faculty overflow parking is in the student lot only. Vehicles will be ticketed in all other areas.
4. Visitor overflow parking is in the student lot.
5. Staff loading and unloading materials must have permission from the Physical Plant Office and must park in designated area immediately after loading or unloading.

Visitor Parking
Visitor parking is reserved parking for visitors: prospective students, class speakers, companies and business interviewing, seminar and workshop participants, and training center participants. Staff and students are not allowed to park in the visitors’ lot. All training center workshop participants, and training center participants. Staff and students are not allowed to park in the visitors’ lot. All training center and workshop participants must display a visitors “Guest Permit” or be ticketed.

Violation Fees
1. Improper parking in student parking - $5 fine; Winter parking violations - $15.
2. All other parking violations - $15 fine.
3. Students who have repeated violations will be subject to towing of their vehicle at their expense plus the expense of the parking violation. Towing charges will be paid by the violator to the towing service.
4. Fines are paid to the Business Office.
5. Persons who have acquired a parking permit may receive a replacement permit if identifiable remnants of the original permit are presented to the Campus Parking Office. Persons unable to comply with this requirement must submit an acceptable statement that the original permit has been destroyed and is not available. All violations incurred on the old permit will be charged to the original permit holder.

Appeals
1. Violations may be appealed to the Parking Violations Appeals Team which meets the first and third Friday of each month at 9:45 a.m. in the Physical Plant Conference Room.
2. The Parking Violations Appeals Team may uphold or dismiss the violation. Any violation fee paid prior to adjudication by the team will be refunded through normal College processes should the violation be reduced or dismissed.

Parking Violations Appeals Team
1. The Parking Violations Appeals Team will consist of the following: two students and one staff representative.
2. The Parking Violations Appeals Team will meet the first and third Friday of each month at 9:45 a.m. in the Physical Plant Conference Room.
3. A Parking Appeals Form must be completed and turned in to the Parking Office prior to 4 p.m. of the fifth class day (first day begins the date the violation was received.) A copy of the violation must accompany this form for the appeal to be accepted.
4. The student or staff filing the appeal must attend a hearing before the Parking Violations Appeals Team within 15 class days from the date of the violation or be assessed the fine.

Other Regulations
1. Outdoor repair of automobiles on or off the student parking lot is discouraged.
2. Inoperable vehicles will be towed at owner’s expense if on campus property an unreasonable length of time.
3. Major mechanical work is not allowed on campus or in parking areas.
4. For your safety, we suggest you keep your car doors locked. Do not leave valuables in your car. Purchase and installation of smooth “Theft Proof” lock knobs are advised.
5. Responsibility for finding a legal parking space rests with the motor vehicle operator. Lack of space is not an acceptable excuse for violation of parking regulations.
6. Operation of snowmobiles on all College property is prohibited.
7. All vehicles must be removed from campus over the winter and summer breaks.

Winter Parking (Nov. 1 - March 31)
1. All student vehicles parked overnight (10 p.m. to 7 a.m.) are to be parked in the designated Winter Parking Area - sections B, C, and D in student parking, or the crushed rock area.
2. No vehicles are to remain in the faculty/staff parking lot overnight. Faculty and staff who are off-campus overnight with a College vehicle are to park their personal vehicles in the parking area to the east of the Physical Plant Building.
3. Production vehicles, where the work is completed and being held for payment and pickup, are to be parked in the enclosed production storage area or if space is not available, parked west of the Physical Plant Building. Other production vehicles parked along the Welsh Street are to be parked to the east end of the street.
4. Vehicles left overnight in undesignated student parking areas and faculty/staff parking lots will be ticketed and subject to being towed at the owner’s expense.

Quality Assurance

Assessment of Student Learning and Program Review
Student assessment is a major focus in higher education. The programs at SCC conduct an ongoing assessment of student learning with an annual report completed each fall. This process is managed by the faculty within each program who assess the instruction, the quality of the program and the student learning that is taking place. Students are assessed as they enter the college/programs, during their studies and as they complete their Program of Study. Continual modifications are made to enhance the programs for more student learning opportunities.

Program Review is a formal review process completed for the Nebraska Postsecondary Coordinating Commission on a seven-year rotation. The programs utilize advisory committees on an annual basis. These committees consist of employers that are business and industry professionals. The annual review and formal program review provide SCC with assistance in making decisions regarding program content and program changes.

Student Evaluation of Faculty
Students are provided an opportunity to evaluate instructors. The purpose of the instructor evaluations is to help instructors improve instructional methods. Student feedback helps reaffirm good instructional performance. For information regarding student evaluations of faculty, contact the appropriate division dean.

Academic Support

Career Advising Services
Career advising services are available to students, alumni and the general public. The advising process is tailored to students’ needs and includes discussion of student interests, values and aptitudes; review of various programs of study; selection of programs for further exploration; discussion of program requirements; explanation of career options available in various fields of study; and arrangement of appointments with academic or vocational program staff.

One important consideration in career advising is testing and assessment. All students who wish to enter a program of study at SCC must have an assessment of their reading, writing and math aptitude. The assessment is often accomplished by taking the ACT in high school. For students who have not taken the ACT, Southeast Community College has the Asset or COMPASS tests available for that initial assessment. Each campus has a testing center where students can take the Asset test or computerized COMPASS test. Performance on the Asset or COMPASS affects eligibility for programs of study, as well as English and math classes. Career advising staff act as a liaison to SCC admissions and financial aid representatives. Career advising staff also work closely with academic advising staff to help students plan what courses to take and in what sequence.

Academic Advising
SCC has academic advisors who work primarily with undeclared students or students who are contemplating changing majors. Most academic advising is provided by campus faculty, program chairs or deans. Career advising staff may refer students to academic advisors to discuss requirements of programs and offer guidance to students in planning a schedule which fits individual needs. Both career and academic advisors work with students who may later wish to transfer to a four-year college or university.

Disability Services
Southeast Community College provides services for students with disabilities. It is the students’ responsibility to contact the Disability Services provider on campus if they believe they have a disabling condition with may substantially limit their ability to participate in class. Students who are requesting an accommodation based on a documented disability are advised to make the request known as soon as possible to ensure timely service. Failure to do so may result in a delay in determining whether a student has a documented disability as required by law. Students who are requesting an accommodation based on a disability with may substantially limit their ability to participate in class. Students who are requesting an accommodation based on a documented disability must have a disability service providers

BEATRICE
Career Advising Center, Jackson Hall rm. J406, 402-228-8242
LINCONE
Career Advising Center, Lincoln Campus rm. J2, 402-437-2620
MILFORD
Placement & Assessment Center, 402-761-8202

SCC also has a TDD (Telecommunication Device for the Deaf). The phone number is 402-437-2702. Contact the Student Services Office for more information.

Non-Traditional Students
Career Advising Services assist older students, single parents or students entering gender nontraditional programs to be successful.

Personal Counseling
Personal counseling or therapy is not available through the Career Advising Centers in Beatrice, Lincoln, or Milford. Students are welcome to visit with SCC advisors about personal concerns to ascertain whether a referral to outside professional mental health services is advisable. Staff will assist students to locate professional resources appropriate to their needs.

Student Retention and Success
The Student Retention Specialist on each campus assists students who are experiencing academic difficulty by helping them develop plans for success. The specialist can help students acquire skills needed for college success, such as how to study effectively, take tests, reduce stress, and manage time. The staff also can help students access other college resources, such as tutoring, career advising, health and wellness activities. Retention specialists can help students problem-solve and sometimes suggest community resources that can help students with stress management or practical problems that arise due to attempting to manage multiple priorities.

The retention staff can be reached as follows:

BEATRICE
Kennedy Center Room K404, 402-228-3468 ext. 1351
LINCOLN
Room H1, 402-437-2678
Learn to Dream program, Room H1 402-437-2606
MILFORD

Testing and Assessment
Students who wish to take certain college level English and mathematics classes must offer evidence that they are academically ready to be successful in these courses. SCC administers the ASSET/COMPASS tests on site at each campus to evaluate initial academic readiness. The test administration is provided at no charge but retesting costs $15. Contact the Career Advising Center on each campus for details. (See “Steps for Admission into a Program of Study” section III.)

Makeup Testing (LINCOLN) – With an instructor’s permission, the Testing Center may provide makeup testing services for students who cannot attend their regularly scheduled testing date due to circumstances beyond their control. The instructor will complete and attach a “Makeup Test” cover slip to each test submitted. The following procedures are implemented to ensure proper authorization for testing and identification of each examinee:

1. All tests must have a makeup test form properly completed and attached.
2. Students referred for testing must know the title or name of the test, know the instructor’s name, and present a picture ID or positive identification by SCC personnel.
3. It is very important that the test be available in the testing center once permission has been given for the student to test.
4. Instructors are responsible for picking up the completed tests.

Note: Reviewing previous tests in preparation for current tests is not appropriate in the testing center.

Test Proctoring - There will be a $15 test-proctoring fee per test for students taking a test from another school. Contact the campus Testing Center for information and scheduling.

The Testing Center also provides distance-learning class testing.
Tutoring Services
Free tutoring services are available to students taking credit classes on each campus. Tutoring services depend on the availability of tutors. Tutors are professional staff and qualified students. Tutoring is typically limited to a maximum of three hours total per student per week. See locations listed below for information about tutoring availability, times and locations.

Placement Services
Placement services for alumni and current students include
• posting of job listings on campus or online at (https://placement.southeast.edu)
• job referrals
• resume assistance
• interviewing techniques
• on-campus interviews
• career fairs

Alumni
The Alumni Offices of SCC cultivate ongoing relationships with alumni. The College invites alumni to open houses, homecoming and other College events and publishes newsletters highlighting College events, programs and opportunities.

Employment
Current SCC students interested in off-campus employment opportunities should contact the Placement Office or register with the online Placement Web tool at www.southeast.edu. Go to Quicklinks and click on Online Placement Employment Services.

SCC graduates are offered lifetime placement services to assist in their employment search.

TRIO Student Support Services
TRIO Student Support Services (SSS) is a federally funded program that helps first-generation, low income and students with disabilities with demonstrated academic need to overcome class, social, and cultural barriers to higher education. The goal of the program is to increase retention, graduation and transfer rates of eligible students from two-year to four-year institutions. TRIO SSS is available to 160 SCC students who have applied and been accepted each year.

How do I qualify?
To qualify students must demonstrate academic need and be enrolled in a program of study that leads to an associate degree or diploma within four (4) years. In addition, a student must also meet at least one of the following criteria:
• Be a first generation college student (parents did not complete a four-year degree)
• Qualify for financial assistance through low-income status (i.e. Pell recipient)
• Qualify as a student with a disability

What services and activities are available:
• Academic, financial, and personal counseling
• Career planning and job shadowing
• Cultural events and on-campus activities
• Student leadership opportunities
• TRIO grant aid (if eligible)
• Scholarship research assistance
• Four-year college tours and transfer school counseling
• Advocacy and referral services
• Group workshops or individualized help regarding time management, stress management, study skills, test taking, note taking, scholarship essay writing

For more information visit the TRIO SSS office on your campus
Beatrice Kennedy-403
Lincoln 8800 Street Campus-H1
Milford Eicher Technical Center-100Q

TRIO Upward Bound
TRIO Upward Bound is a grant-funded program awarded to SCC by the U.S. Department of Education. The goals of Upward Bound are to help academically at-risk students in grades 9 through 12 stay in school, graduate and prepare to enter and succeed in college. The program targets low-income, first-generation students.

First-generation students are those whose parents have not graduated from a four-year college.

The SCC Upward Bound program began Sept. 1, 2003 and is located on the Beatrice Campus. The College partners with three southeast Nebraska high schools to serve 50 eligible students. Participating high schools are Beatrice, Fairbury and Southern (Wymore-Blue Springs).

The SCC Upward Bound program provides intensive support to participants including ongoing advising, counseling, tutoring, supplemental education, skills development, career and college exploration and a six-week summer instructional program which includes an out of state trip for qualifying students. Upward Bound participants who graduate from high school have the opportunity to participate in the Bridge Academy – a college transition program that gives students the opportunity to live on campus, take an SCC class, and adjust to becoming a successful college student. For more information visit The Upward Bound staff - Hoover Hall.

Campus/Student Life

Announcements & Cancellations

In Beatrice
Posted Announcements
A bulletin board located in the Kennedy Center is available for students to advertise items for sale. The Administrative Office must approve all posted announcements and notices.

Cancellations
When classes are cancelled, every effort is made to contact the media by 7 a.m. or earlier.

The following media will be notified if classes are cancelled:

Text Messaging
To receive emergency notification via text message, sign up at http://southeast.regroup.com/signup

Television
Channel 10-11 KOLN-KGIN TV (Lincoln), Channel 8 KLKN TV (Lincoln)

Radio

Web
See www.southeast.edu, thehub.southeast.edu or Facebook © for
inclement weather and closing information.

Hazardous driving conditions do not automatically mean classes
will be cancelled. However, travel for students is not recommended
or encouraged if there is a question of being able to reach the
campus safely.

In Lincoln
Posted Announcements
Information concerning College matters is posted in each program
area and on bulletin boards located throughout the building. A
bulletin board is located in the student center for student use. All
announcements for posting must be approved by the student activities
coordinator and posted only on this bulletin board.

Cancellations
Only the Campus Director or a designated representative can
authorize the cancellation of College programs and activities or
announce the cancellation to the news media. It can be assumed that
campus programs, classes and services will be held as scheduled if no
announcement is made through the news media. The campus feels
adequate provisions have been established to eliminate calling College
personnel regarding cancellations.

When weather or other conditions necessitate cancellation, the
following procedure is followed:
Daytime programs and services - a decision will be made and
announced to the news media by 5 a.m.
Evening programs and services - a decision will be made and
announced to the news media by 4 p.m.

Announcements of cancellation of College programs and services
will be made to the following area media:

In Milford
Posted Announcements
Information concerning College matters is posted daily in each program
area and on first floor bulletin boards of the Eicher Technical Center and
on The HUB. All announcements and notices posted must be approved
by the Student Services Office and hung only on bulletin boards.

Public Address System
Announcements of extreme importance are broadcast over the College
P.A. system at 8 a.m. Emergency announcements are made when
necessary.

Cancellations
When classes are cancelled, every effort is made to contact the media by
6 a.m. or earlier.

The following media are notified if classes are cancelled:

Text Messaging
To receive emergency notification via text message, sign up at
http://southeast.regroup.com/signup

Television
Channel 10-11 KOLN-KGIN TV (Lincoln), Channel 8 KLKN TV (Lincoln)

Radio

Web
See www.southeast.edu, thehub.southeast.edu or Facebook © for
inclement weather and closing information.

Telephone
402-761-8400 – a recorded message will update you on the status of
classes.

When classes are cancelled, every effort is made to contact the media by
6 a.m. or earlier.

Hazardous driving conditions do not automatically mean classes will
be cancelled. However, travel for students is not recommended or
courage if there is a question of being able to reach the campus
safety. Students should use good judgment in making travel decisions.
Students can call the campus to check for cancellation.

General-Purpose-Bulletin-Boards and the Posting/Distribution of
Informational Material
Each campus may provide general-purpose-bulletin-boards which are
clearly identified as such. College general-purpose-bulletin-boards are
available for use by recognized student groups if scheduled and
supervised in accordance with campus rules and regulations. Requests
and approvals for use of College general-purpose-bulletin-boards are
processed by the Campus Director’s Office or designee. The College
reserves the right to require any organization requesting use of College
general-purpose-bulletin-boards to provide proof of adequate liability
insurance which includes SCC as an additional named insured.

The specific use shall observe these rules:

1. No posting for commercial or business purposes.
2. Only one poster/announcement per activity.
3. No poster larger than 11 by 17 inches.
4. Posted material is to be removed on the day following the event.
   No material posted for more than 14 days. Bulletin boards are to
   be completely cleared at the end of the academic term.
5. Posters, notices, or announcements may not be posted
   anywhere except on designated general-purpose-bulletin-
   boards without prior permission of the Campus Director.

Costs incurred for removal of items posted in violation of this regulation
shall be billed to the organization, business, or individual found
responsible.

Informational material may be distributed in College buildings by
student organizations recognized by the College, but only with the
permission of the Campus Director. Such material may be distributed
on College property outside of the buildings by individuals or
organizations, regardless of whether they are recognized by the
College, provided that the Campus Director shall establish guidelines
relating to time, location, and manner of such distribution, and that the
Campus Director has given permission for the distribution.

Materials may not be distributed so as to interfere with pedestrian or
vehicular traffic, or the educational program of the College, or to create
a problem of litter. Flyers may not be placed on windshields of vehicles
on College property. Costs incurred in removal of any items distributed
in violation of these regulations will be billed to the individuals or
organizations found responsible.
Athletics

Intercollegiate Athletics
SCC is a member of the Nebraska Community College Athletic Conference and the National Junior College Athletic Association. SCC-Beatrice competes at the intercollegiate level in men’s and women’s basketball, men’s golf and baseball, and women’s volleyball and softball. The campus mascot is the Storm.

To compete in intercollegiate athletics, students must maintain the required scholastic level and conduct themselves on and off campus in a manner which brings credit to themselves, to teammates and to the College.

SCC’s athletic participation is governed by the eligibility rules of the NJCAA.

Intramural Athletics
Each campus of SCC offers intramural sports/recreational activities for any full- or part-time student enrolled in credit division courses. Intramural sports are arranged by the Campus Activities Office and may include flag football, basketball, volleyball, softball, golf, tennis and racquetball. Each campus also has tennis courts and a gymnasium available for student use. For additional information about the intramurals on campus, contact the Student Activities Office on campus.

Bookstore
The College operates and manages a campus bookstore on each campus. A full range of new and used textbooks, supplies, educational aids, gift items and personal items is available. The bookstore offers book rental and a buy back program for used textbooks. (Buy back is generally at the end of the term.) Bookstore hours are compatible with most class schedules. The bookstore accepts cash, checks, MasterCard, VISA, and Discover credit cards. Books also are available online at www.sccbookstore.com.

Bus Service
The Lincoln Campus is served by the Lincoln Public Works Department. Bus service is provided at the main entrance (east) of the building. For bus schedules and information about pickup and delivery points and fees, contact the Lincoln Transportation System.

Cafeteria/Food Service
The College provides food service on each campus. Vending machines also are available.

BEATRICE
The campus operates a snack bar located in Kennedy Center. It is open to students, staff, and the general public, and serves breakfast, lunch, and snacks Monday through Friday.

Students eating in the snack bar are requested to be considerate of others. Reasonable cleanliness and appearance in dress are expected. Snack bar customers are to bus their own dishes and leave the table clean for the next person.

Vending machines and microwave also are available in the snack bar area. Catering service is available by special arrangements.

LINCOLN
The campus operates a cafeteria located in the main hallway near the front entrance and is open to SCC students, personnel and the general public. The cafeteria serves breakfast and lunch, and a snack menu throughout the afternoon and evening hours. Vending machines and a microwave also are available in the cafeteria area. Catering service is available by special arrangements.

All cafeteria customers are to bus their own dishes and leave the table clean for the next person.

Students are asked to use the Student Center to study or socialize during the busiest dining time—9:45 a.m.–1 p.m.

MILFORD
Contract food service is provided at the campus cafeteria. Non-contract meals for visitors and guests also are available. The cafeteria is closed on Friday evenings and on weekends.

The cafeteria is located in the G. Alan Dunlap Center. All students living in Nebraska and Cornhusker residence halls must contract to eat meals in the cafeteria. Room and board contracts are signed for each term. Contracts are considered to be in effect until expired or terminated. A registered, full-time student whose course of study requires the majority of time to be spent off campus during meal time, may request a waiver of this cafeteria contract from the Dean of Student Services. Cafeteria contracts are available for students living off campus.

Students eating in the cafeteria are requested to be considerate of others. Cafeteria customers are to bus their own dishes and leave the table clean for the next person. Reasonable cleanliness and appearance in dress are expected, and it is requested that shoes be worn, shirts buttoned and dirty gym clothes covered with a jacket or shirt.

The cafeteria is operated by a private contractor, and is managed by their personnel. The manager has the right to refuse service to individuals who ignore or fail to comply with established standards of good health, conduct, appearance and dress.

A cafeteria committee comprised of students, the manager and the Dean of Student Services, meets regularly to discuss mutual problems. All comments and concerns about the cafeteria are handled through this committee. Special meetings are called when needed. The cafeteria contract is on a declining balance. When you purchase food, the amount will be subtracted from your account. You cannot carry over credit to the next term.

Calendar
The Student Activities Office prepares a calendar of activities and events scheduled on campus. The calendars are available to students free of charge from the Student Activities Office.

A College calendar with each campus beginning, ending, registration, and graduation dates is available on the College Web site, www.southeast.edu, and on the HUB under academics.

Child Care

LINCOLN
The Child Development Center located on the Lincoln campus provides SCC-Lincoln students with priority status for developmental child care. A professional staff provides care and education for the center’s children. Since children are enrolled on a first-come, first-served basis according to age groups, early contact is advised. Services are available for children aged six weeks to kindergarten. The Center offers full-time and part-time options.

The U.S. Department of Education CCAMPIS grant provides a limited number of scholarships for eligible students for the following child care services.

Summer Day-camps are available June-August for children ages 6-11.

Adventures Mini-Camps for K-5th grade children are available during the school year for specified days that the Lincoln Public Schools are not in session. Applications for both programs are available in the Child Development Center, Room C-1.

Additional information may be obtained by contacting the Child Development Center director on the Lincoln campus.

MILFORD
The Milford campus assists those needing day care services to locate services available in the community. Contact Student Services for more information.
Clubs & Organizations

Student Organizations

SCC believes that an important part of an educational program for students includes the opportunity to participate in extracurricular activities. Each campus provides an organized activities program for students. The goal is to encourage the social, cultural and/or physical development of students. Leadership and participation in activities are looked upon favorably by future employers. Students gain a sense of satisfaction and accomplishment as well.

Student Organization Guidelines

SCC recognizes student organizations which will contribute to the intellectual development of students. In order for a student organization to gain recognition from the College, it must have an approved constitution, a faculty member as advisor and be approved by the Student Senate and the campus administration. For the process of establishing a new organization, information about a specific organization or how you can join, contact the Student Activities Coordinator.

Fund-raising activities by recognized student organizations or other non-profit organizations may only be conducted with the permission of the Campus Director.

Classification for Student Organizations

A. Associations, Societies related to SCC programs, careers, degrees (e.g. AWS, AITP affiliated to national). Directly related to SCC Mission/Program/Curriculum (e.g. Ag Club, SIFE, SkillsUSA)
B. Honoraries (e.g. PTK)
C. Social/Recreational groups sponsored by the College (MEO, Kaleidoscope, etc.)
D. Student Support/Special Interests not sponsored/endorsed by the College (e.g. other recreational, religious, political, social, affinity groups, Fraternities/Sororities)

Travel and Transportation Guidelines for SCC Vehicles

1. Student Organizations classified as “A”, “B” or “C”
   A. Travel destination must be approved by Student Activities Coordinator or campus designee.
   B. Travel for student organizations in the A, B, or C categories may use available SCC vehicles:
      1. Travel must be within a distance not to exceed a 250-mile radius from campus.
      2. Eligible student organizations must complete the physical plant mileage reimbursement form.
      3. Physical plant will bill the eligible student organization for the total miles traveled at the current IRS mileage rate approved by the SCC Board of Governors.
      4. The miles traveled by the Student Organization will be paid out of the Campus Student Activities Fund (cost center budget 725).
   5. Student organizations in A, B, or C categories will be eligible for subsidized mileage reimbursement up to $750 per year. Each Student organization whose travel exceeds the $750 limit per year will be required to raise funds (in advance) to pay for the travel that exceeds the subsidized $750 limit.
   6. Student organization trips that exceed the 250 mile radius limit will not be eligible for college vehicle usage. Student organizations traveling to destinations outside of the approved 250 mile limit must make and pay for all of their travel arrangements. College vehicles may not be used and the college will not pay for any expenses associated with the travel.

2. Student organizations in the “D” classification
   A. Are not eligible to use SCC College vehicles.
   B. Are not eligible for mileage reimbursement from the SCC Student Activities Fund.

Beatrice Clubs And Organizations

AGRICULTURE CLUB: The Agriculture program has a club with several “interest areas” for members. It includes divisions for Agribusiness, Agronomy, Crops judging, and Horticulture. Classification A.

See listings below...

AGRIBUSINESS – Agribusiness students develop leadership skills by participating in activities which improves their qualifications for professional employment. The members and officers of the Agribusiness Club will learn the skill of “involvement” which is highly sought by employers who seek to motivate their current workforce and increase productivity. Classification A.

AGRONOMY – Agronomy students learn expert crop judging. Members participate in the annual NACTA Crops Judging contests and sponsor students in the annual fall Collegiate Crops Judging Contest in Kansas City and Chicago. Invaluable experience is gained in grain grading, seed analysis, identification and general agronomic knowledge by participating on these teams. Classification A.

HORTICULTURE – Horticulture students participate in activities such as community landscaping projects, the annual bedding plant sale, and the annual golf tournament. Students are able to further their professional development by improving their leadership and teamwork skills. Members will participate in various conferences and trade shows related to their field of study such as the NLNA (Nebraska Nursery & Landscape Association), and GCSAA (Golf Course Superintendents Association of America) annual conference and trade show. Classification A.

LIVESTOCK JUDGING – Students learn leadership skills and gain an opportunity to participate in college level livestock judging competitions. Students will have an opportunity to travel and compete in contests throughout the Midwest including Louisville, Kansas City and Denver. To compete at livestock judging contests students must first enroll in Introduction to Livestock Evaluation and Advanced Livestock Evaluation classes. These courses are not required to become a club member. Expenses for travel are raised by the club through various activities. College scholarships are available to members of the Livestock Judging Club. Classification A.

RODEO/HORSE SHOW – Students gain leadership skills and opportunities to participate in Intercollegiate Rodeo and Intercollegiate Horse Show Association events. Membership is open to all SCC Students beginning each fall with new members welcomed throughout the year. The Rodeo participants affiliate with the Great Plains Section of the National Intercollegiate Rodeo Association (NIRA) and may compete in ten sanctioned Great Plains Rodeos each school year collecting points to qualify them for the National Finals held each June. The Horse Show participants affiliate with Zone 9, Region 3, of the Intercollegiate Horse Shows Association, (IHSA) and may compete in ten sanctioned Region 3 Horse Shows each year collecting points to qualify them for Region, Zone, Super Zone and National Finals held in March, April and May. Other club activities include community service, support for horse events and involvement in college activities. Classification C.

CAMPUS CRUSADE FOR CHRIST – This group is an interdenominational, primarily student, Christian organization seeking to provide a spiritual environment to study and discuss the Bible, worship, pray, encourage, and provide opportunities for Christian fellowship. Classification D.

COLLEGIATE NEBRASKA CATTLEMAN – This organization is to discuss issues and find solutions to problems that may be arising in the cattle industry. Classification D.

HUMANITIES CLUB – This club provides students with opportunities to experience the visual and performing arts at SCC and in eastern Nebraska. Student participants plan group trips to visit local art galleries, museums, plays, and musical performances. The purpose of Humanities Club is to promote student appreciation and understanding of the arts. This club is open to all interested students regardless of program major. Classification A.

</tbody>
</table>
**Milford Clubs And Organizations**

**AMERICAN SOCIETY FOR NONDESTRUCTIVE TESTING** – This group is an affiliate of the ASNT and open to all NDT students. ASNT is designed for the advancement of scientific, engineering and technical knowledge of NDT through planned group activities. Classification A.

**AMERICAN WELDING SOCIETY** – This group is an affiliate of the American Welding Society and open to all Welding Technology students. Classification A.

**ASSOCIATED GENERAL CONTRACTORS** – This group is a student chapter of the Associated General Contractors, Nebraska Building Chapter and is open to students enrolled in Architectural Engineering Technology and Building Construction Technology. The purpose of the organization is to increase student awareness of the commercial construction industry through the use of guest speakers, product demonstrations, and field trips; to provide students networking opportunities with other construction division students and construction professionals; to provide community service; and to develop leadership skills in the student members. Classification A.

**CAMPUS CRUSADE FOR CHRIST** – This group is an interdenominational Christian student organization open to all students. Weekly meetings are held to help meet the spiritual needs of students through worship, music, Bible study, and fellowship. Evenings and weekend retreats are designed to provide interaction with students from other colleges. Classification D.

**INTERNATIONAL SOCIETY OF CERTIFIED ELECTRONIC TECHNICIANS (ISCET)** – IS CET has trained, prepared, and test technicians in the electronics and appliance service industry for over thirty years. The Certified Electronics Technician (CET) Program, founded in 1965, is designed to measure the degree of theoretical knowledge and technical proficiency of practicing technicians. The voluntary certification concept enables employers to separate knowledgeable job applicants from those with less training and skills. All of the instructors in the EST program are CET certified in at least one journeyman field of electronics. SCC is an authorized testing center for the CET exams. Most electronics students take and pass the test before graduating from SCC. The national average pass rate of the Associate level test is 43%. Pass rate for SCC students is over 70%. Classification A.

**NATIONAL ASSOCIATION OF HOME BUILDERS** – This group is a student chapter of the National Home Builders Association sponsored by the Lincoln Home Builders Association and is open to students enrolled in any of the construction technology programs. NAHB is designed to enhance educational opportunities for students interested in careers related to residential/light commercial construction remodeling and provides professional growth beyond the classroom environment. The Milford Campus chapter was selected the nation’s “outstanding chapter” for 1990, chosen over Texas A & M and Purdue University, who placed second and third respectively. Classification A.

**NATIONAL ELECTRONICS SERVICE DEALERS ASSOCIATION (NESA)** – For over fifty years, NESA has been the premier association of, and for, professional service providers in foreign countries. Classification A.

**NATIONAL SYSTEMS CONTRACTORS ASSOCIATION (NSCA)** – NSCA is the leading not-for-profit association representing the commercial electronic systems industry. With a slate of more than 2,500 member companies worldwide, the National Systems Contractors Association is a powerful advocate of all who work within the low-voltage industry, including systems contractors/integrators, product manufacturers, consultants, sales representatives, architects, specifying engineers and other allied professionals. Classification A.

**PHI BETA LAMBDA** – This group is a national business honorary for College business students. It is the college level equivalent of Future Business Leaders of America. Phi Beta Lambda promotes interest in business administration; accounting and secretarial education and helps members gain self-confidence and develop leadership skills. Classification A.

**PROFESSIONAL SURVEYORS ASSOCIATION OF NEBRASKA (PSAN)** – This group promotes community service, camaraderie, and a link between Surveying/Civil Engineering education and Surveying/Civil Engineering Industry. PSAN is designed to promote the preservation and conservation of survey markers and the land and the communities that surround them. This group is open to students in the Land Surveying/Civil Engineering Program. Meetings are held the first Wednesday of each month. Classification A.

**SCC AMATEUR RADIO CLUB** – This is a Ham radio club that all students automatically become associated with when they enter into the communications classes on the Milford campus of SCC’s Electronic Systems Technology program. We have an extensive set of radios and antenna systems with which we teach radio systems and enable students to get “on air” to communicated with other amateur radio enthusiasts around the world. Our call sign is KC0KCI. Classification D.

**SKILLSUSA** – This club is an affiliate of the National SkillsUSA, an organization that prepares America’s high performance workers. SkillsUSA is designed to provide quality education experiences in leadership, teamwork and character development. It builds and reinforces self-confidence, work attitudes and communication skills and emphasizes high-ethical standards, superior work skills and life-long education. Classification A.

**SOCIETY OF MANUFACTURING ENGINEERS S218** – This group is a student affiliate of the Lincoln Senior Chapter 222 open to Manufacturing Engineering and Machine Tool students in other programs related to manufacturing. The organization is designed to promote higher levels of understanding in areas related to manufacturing, to provide an opportunity for professional association membership, and to allow students opportunities for professional development in the world of manufacturing. Classification A.

### College Colors

The College’s colors are blue and white.

### Commons Areas

#### Student Centers

SCC provides campus Student Centers where students meet to relax, socialize with other students, or participate in scheduled activities. Each Student Center provides a lounge area, snack area, TV, video games, vending machines, and wireless internet access. The hours of each campus Student Center are posted.

#### Wellness/Fitness Center

Each campus has a Wellness/Fitness Center that provides, free to students, the use of exercise equipment that is designed to help students achieve a healthy lifestyle.

### Communication & Email

Students will receive an email account with @live.southeast.edu. This will be the College’s preferred method of communication with a student. The @live.southeast.edu account provides students with 25 Gig of free storage in the cloud plus access to Microsoft Word, Excel, PowerPoint, and OneNote products. Students needing more information should go to the Hub at thehub.southeast.edu.
Employment
Students interested in current off-campus employment opportunities should contact the Placement Office or register at www.southeast.edu. Click on Placement Center then click on Online Employment Services.

Facilities Use
College facilities are available for use by recognized student groups if scheduled and supervised in accordance with campus rules and regulations. Requests and approvals for use of College facilities are processed by the Campus Director’s Office or designee. The College reserves the right to require any organization requesting use of College facilities to provide proof of adequate liability insurance which includes SCC as an additional named insured.

Fax
BEATRICE
A FAX machine is available for student use at the Switchboard. There is a cost of $1 per page for each page sent or received. The number is 402-228-2218.
LINCOLN
A FAX machine is available for student use in the Student Activities Office. There is a cost of $1 per page for each page sent or received. The number is 402-437-2633.
MILFORD
A FAX machine is available for student use at the Switchboard. There is a cost of $1 per page for each page sent or received. The number is 402-761-2324.

Fees
The Student Services’ fee is used to finance student activities, programs and events which include intramural sports, social and cultural activities, Student Senate, tutorial services, and wellness. All part-time and full-time credit students are charged a Student Services fee each term. The Student Senate is responsible for budgeting this fee. The furnishings and equipment in the student center are examples of the use of this fee. See the Tuition, Fees and Housing Chart.

First Aid
BEATRICE
First aid kits are available throughout the Beatrice campus including in residential housing units. College personnel reserve the right to call an ambulance whenever they deem necessary. The College requires all injuries to staff, students, and visitors to be reported to the College Administrative Offices.
LINCOLN
The campus first aid station is located in the Wellness Center, room O-3. Every injury, however slight, should be reported. First aid kits are located throughout the campus.
MILFORD
The campus first aid area is located in the Business Office in the Eicher Technical Center. Every injury should be reported regardless of whether medical attention is needed. The College makes every effort to provide emergency first aid. First aid kits are located throughout the campus. Contact your instructor or residence hall counselor for assistance.

Food and Drinks
Students are not permitted to eat food or drink beverages in the instructional classrooms, laboratories or the Learning Resource Centers. Snacks, drinks and other refreshments are to be consumed in designated areas only. The College currently allows only clear bottled water in all College facilities except in designated areas where doing so may cause potential damage to equipment or health and safety concerns. Appropriate signs designate where bottled water is prohibited.
BEATRICE
Food and beverages are allowed in the Student Center snack bar.
LINCOLN
Food and beverages are allowed in the cafeteria and Student Center. The Campus Director must approve special arrangements for food service in non-designated areas.
MILFORD
Food and beverages are allowed in the student lounge, cafeteria, and snack bar.

Government & Leadership
Student Ambassadors
Student Ambassadors is designed for students to experience and assist with campus public relations activities. The Ambassadors serve as tour guides, admissions assistants and goodwill ambassadors for the College. If you are interested in becoming an Ambassador, contact Student Services.

Student Senate
Student Senate is the student governing body of the campus participating in the administration of student affairs. The Senate acts in an advisory capacity and represents students in the planning and decision-making process. The president of Student Senate is a non-voting member of the SCC Board of Governors. If you would like more information on Student Senate, contact the Student Activities Coordinator on your campus.

Residence Hall Assistants
Resident Assistants are live-in positions (in student housing) designed for exceptionally mature students who have the interest, skills, and time necessary to perform assigned duties and assist in the development of the SCC Residential Life Program. Resident Assistants are presented with unique opportunities for personal development and are trained in the areas of peer advising and referral, interpersonal communication, programming, team building, community development, and administration. Selected each spring, Resident Assistants are appointed for the following academic year.

Student Representative on the Board of Governors
Students are represented on the SCC Board of Governors through a non-voting student representative. The student Board member helps present students’ issues and enables positive communication among the students, the administration and the Board of Governors. This position is shared by three students, each representing his/her respective campus.
Housing
The College provides on-campus housing at the Milford and Beatrice campuses. The College is not responsible for personal items which may be stolen or damaged. Students should carry personal property insurance for their belongings. Students living in housing must maintain a full-time student status (12 credit hours). If students should fall below full-time status, approval from the Dean of Student Services must be obtained to allow their staying in housing.

BEATRICE
Beatrice has traditional housing and apartment-style housing available. Priority for the newer, apartment-style housing is given to second year students in good standing. All apartment-style units have a kitchenette. For student convenience, all residence halls at Beatrice have cable TV and internet access in each room. Housing on campus is available for single men and women. There is no food (Board) plan available on the Beatrice Campus, but the Snack Bar is open Monday through Friday.

(For information on housing costs see the Tuition, Fees, & Housing Chart.) Beatrice Campus maintains off-campus housing for Parents of All Ages program participants.

LINCOLN
Lincoln Campus does not provide student housing, but it will provide information for students seeking housing which includes apartment and home listings, city locator maps, prices and general information on independent living. Please contact the Student Services Office for more information.

MILFORD
Milford residence halls have cable TV and internet access. Housing is available for men, women, married couples and single parents. Housing contracts are signed prior to the beginning of each term on the Milford Campus. (For information on housing costs see the Tuition, Fees, & Housing Chart.)

The Hub
The Hub (https://thehub.southeast.edu) is SCC’s intranet portal. Only current students can log in and access the site.

The Hub:
• includes a single sign-on to WebAdvisor, Moodle and the student@live.southeast.edu email account
• includes notifications of important information for students
• provides access on and off campus to all library databases and Films on Demand
• is where students access their online Moodle classes
• provides access to information students need to know about the College

I.D. cards
Free photo identification cards (IDs) are available for each student for use on campus in the LRC, Business Office, Bookstore, entry to College activities, etc. Photo IDs are not transferable. Any students requesting a replacement student photo ID card, for whatever reason during the term they are enrolled, will be charged a $5 fee. A new ID card would be issued without the $5 replacement charge for students returning to school who have not taken classes for one or more terms. Students transferring to a different campus would be considered a new student and would not be charged for a replacement ID card. Photo times will be announced and taken at the following locations.

BEATRICE
Library Resource Center

LINCOLN
Information Desk or Student Activities Office (section “O” by the gym)

Please note: At the beginning of each term that students will be on campus, students need to bring a copy of their current class schedule and their ID card to the Student Activities Office or Information Desk. A sticker will be placed on the back of the ID card, validating its use for that term.

MILFORD
Assessment Center

Library Resource Center/Media Services
The Library Resource Centers of SCC operate to provide accessible learning environments for students and employees. By using both traditional and electronic resources, the LRCs meet the needs of students and employees at each campus while serving the College as a whole.

Hours of service, phone numbers and access to the LRCs’ electronic resources are available at the LRCs’ web page at www.southeast.edu. Loan policies vary by location. A valid student identification card is required to check out materials. Overdue fees and replacement fees may be charged for late, lost or damaged materials. Passwords are needed for remote use of the databases. Students and employees should contact their campus LRC for passwords and training with the databases.

Media services are available through the LRCs. Although each campus LRC laminates materials and runs transparencies, the Media services differ by campus. If interested in media services, contact your campus LRC for additional information.

Lost and Found
BEATRICE
Lost and found items may be reclaimed at the Student Services’ Office.

LINCOLN
The campus lost and found is located in the Student Services Office, room E-1. Report lost items and turn in found items to this location. Unclaimed items are donated to charity at the end of each term.

MILFORD
The lost and found department is located in the Student Services Office in the Eicher Technical Center. Items found should be turned in, and items lost should be reported. Unclaimed items will be donated to charity.
Mail

BEATRICE
Incoming - Mail for residents of student housing is placed in an assigned mailbox. The address for resident students is:

  Student’s Name
  SCC-Beatrice
  ___________Hall, Room # ______
  4771 W. Scott Rd.,
  Beatrice, NE 68310-7042

Outgoing - A mailbox for outgoing mail is located in the Kennedy Center near the mail room and in the mail room in Hoover Hall.

LINCOLN
Lincoln Campus does not have incoming mail for students. An outgoing mailbox is available in the campus Bookstore and stamps may be purchased there.

MILFORD
Incoming - Postal boxes for residence hall residents are located in Cornhusker Hall. Resident students are requested to use the following residence address:

  Student’s Name
  SCC-Milford
  ___________Hall, Room # ______
  611 State Street
  Milford, NE 68405-8498

Outgoing - A mailbox for outgoing mail is located on campus by the Eicher Technical Center on the north side of the LRC.

Messages
The campus will attempt to notify a student if an emergency message is received. However, the College cannot assume liability or responsibility for messages not successfully delivered. Non-emergency message service is not available.

Newspapers

BEATRICE
The Storm Warning is a weekly bulletin of current events and news that is produced by the student activities coordinator and is distributed on campus each Monday.

Students may work on the campus newspaper, The Challenge, in a variety of capacities if they have experience from high school, another college, or a commercial newspaper. Positions are open for reporters, photographers and page layout designers who are familiar with InDesign software. Students receive one hour of college credit.

Students also receive training in online publishing at The Challenge. Go to www.sccchallenge.com.

LINCOLN
The Source is a weekly bulletin of current events and news that is produced by the Student Activities Coordinator and is distributed on campus each Monday as well as online. Deadline for submitting articles and news items is the preceding Thursday at noon. Items should be submitted to the Student Activities Office located in the Student Center. The activities coordinator prepares the publication and serves as editor.

Other publications (newsletters, newspapers, brochures, pamphlets) distributed on campus must have the approval of the Campus Director.

MILFORD
The Daily Announcements is a bulletin of current events and news that is distributed throughout the campus, online and at designated locations.

Notary

BEATRICE
A notary public is located in the Jackson Hall J410 & J411. This service is free to SCC students and employees.

LINCOLN
Notary service is available free of charge in the following locations:
- Business Occupations T100
- Continuing Education Office J2
- Testing Center L3
- Student Services E1
- Campus Director’s Office F1

MILFORD
Notary service is available free of charge in the Student Services Office and the Business Office.

Performing Arts–Beatrice & Lincoln

College Choir
The College Choir performs a variety of musical styles in concerts on campus and for organizations in the community.

Vocal Ensemble
“After the Storm” is an auditioned small performance group that performs a wide variety of choreographed music.

Theatre
Theatre production classes are open to all interested students. Theatre students rehearse and perform two productions each school year.
Photocopy
Copy machines are available in each campus LRC for student use; some copiers are coin-operated. Copyright restrictions apply. For more information on copyright law, please contact the LRC staff.

Solicitation on campus
Solicitation on campus grounds, including Residence Halls or students’ residences, is prohibited. Commercial vendors, authorized by the Campus Director and invited by a designee of the College, are exempt and allowed to supply necessary items.

Telephones
Pay phones are available in each campus building for student use. Office telephones on campus are for the use of College personnel.

TDD (Telecommunication Device for the Deaf)
The Lincoln Campus has a TDD located in the main hallway by the “M” section. (See also “Cell Phones” and “Electronic Devices.”)

Tools
The majority of the tools and equipment used by students in the programs are supplied by the College. However, students may want to purchase their own tools and equipment. Students in some programs are required to purchase hand tools. Students will want to own an electronic calculator.

Detailed tool lists for each program are available in the bookstore and/or the Student Services Office. Instructional staff in individual programs will offer guidance to enable students to purchase the most serviceable tools for the money. Tool companies visit the school throughout the school year and those dates are announced.

Students should carry insurance for their personally-owned equipment.

Web Tools
Students, faculty, staff, alumni and the general public can access a variety of information about the College through our Web tools.
Southeast Community College offers a wide variety of credit and noncredit continuing education classes, workshops and seminars in Beatrice, Lincoln, Milford and throughout the 15 counties of southeast Nebraska. These educational activities provide instruction in areas that allow individuals to upgrade their present job skills, train for new careers, develop recreational and cultural interests, prepare for high school completion tests, improve basic education skills, or earn non-program college credit.

Continuing Education classes are made available throughout the SCC campuses as well as in cooperation with many local public and private entities such as public schools, hospitals, nursing homes, libraries, senior citizen centers, civic organizations, businesses, industries and churches. Advisory committees help the College determine needs, suggest classes seek talent and promote continuing education programs. Following is a brief description of each programming area with the Continuing Education division. For more detailed information about classes, seminars, workshops, and services, please see our website at www.southeast.edu/continuing or call 402-437-2700 or 800-828-0072, extension 2700.

- Global Corporate College

Basic Skills, GED, ESL & Citizenship

Basic Skills

SCC supports several grant-funded opportunities for instruction to help adults improve their life skills throughout SCC’s adult education classes. In our classes you will find: quality instruction, small class size, friendly staff and faculty, convenient class locations, day and evening classes.

GED

General Educational Development Preparation provides adults, 16 years and older and not enrolled in secondary schools, an opportunity to prepare for the GED Tests and earn a Nebraska High School Diploma. There is a $20 registration fee that covers classes taken during our fiscal year which runs from July 1 through June 30. Applicants must attend an orientation where students are given an assessment to determine individualized needs for improving basic skills for the GED testing, work, or continuing education. There is no charge for the classes which are offered mornings, afternoons, and evenings at locations throughout the city of Lincoln and the 15-county SCC area.

English As a Second Language (ESL)

A variety of credit and noncredit ESL classes are offered at SCC for individuals wanting to improve their ability to speak, understand, and write the English language. The program consists of a series of classes to provide a strong foundation in fundamental grammar structures, sentence patterns and vocabulary of English. All ESL classes include reading, writing, listening and speaking. Students who have not previously registered for the SCC ESL program or have been out of class for more than six months must make an appointment for the ESL Orientation.

Citizenship

Southeast Community College offers classes to prepare adults to become a citizen of the United States. Information is provided on: application process, interview process, rights and responsibilities of citizenship, history of the United States, and structure of the U.S. government.
Business & Technology
SCC offers a full complement of courses to assist small business owners, as well as larger corporations. We offer fundamental courses in accounting, finance, and marketing as well as more advanced topics like leadership, management, and professional development. Computer classes cover various types of software, including accounting, databases, desktop publishing, digital media, graphic design, multimedia/presentation, spreadsheet and Web design. A variety of introductory computer courses for basic computer operation for both Personal Computer (PC) and MAC are also available.

Families, Finances & Home
Continuing Education is dedicated to helping individuals and families identify certain competencies that will enhance their life skills, improve their home environments, and the quality of personal and family life. Courses are designed to meet the needs of persons who wish to upgrade job skills and knowledge, prepare for useful employment, and personal improvements. These basic concepts comprise the subject matter areas in the fields of families, finances, home, food, and nutrition. A variety of classes are also designed to meet the educational, occupational, and recreational needs of area residents related to the fields of furniture repair and home construction.

Health/EMS
SCC offers training programs and courses for adults who wish to become health care providers, who need to upgrade their skills, or who are required to maintain their professional licensure by acquiring Continuing Education Units (CEUs). SCC is approved by the Nebraska Department of Health as a training agency for EMTs and nursing assistants. The College is also an approved training agency by the American Heart Association.

The Continuing Education Division offers numerous credit, noncredit, and CEU programs such as continuing education for nurses, nursing assistants, surgical technicians, medical radiographers, nursing home administrators, counselors, pharmacy technicians, dental assistants. Numerous CPR and Basic Life Support courses are also available. Many short-term programs prepare students to seek employment as EMTs, nursing assistants, and medication aides. Many programs are co-sponsored with healthcare facilities, professional associations, and voluntary health agencies.

Continuing education classes are also offered to meet consumer needs for healthy living skills such as stress management, nutrition, and family relationships.

Industry & Trades
Credit and noncredit classes, seminars, and workshops are conducted to meet the educational, occupational, and recreational needs of area residents related to fields of Auto Body, Automotive, Boiler Operation, Custodial Maintenance, Electrical, Forklift, Industrial Maintenance, Machine Tool, Motorcycle, Plumbing, Refrigeration & Air Conditioning, Small Engines, Welding.

Leisure Learning
A variety of classes and workshops, leisure oriented, are designed for personal enrichment and enjoyment. The Leisure Learning programming of the division is divided into areas such as: Animal Care, Arts/Crafts/Hobbies, Audio/Video, Communication, Dance, Floristry, History, Horticulture, Languages, Music, Needlework, Party Planning, Personal Development, Recreation, Sports and Fitness, Science, Sewing, Progressive Interest, Primitive Outdoor Skills, and Woodworking. Each area provides a variety of courses available to the public each term.

Traffic, Safety & Licensing
Providing individuals the opportunity to enhance skill levels and attain the skills required in the state of Nebraska are courses such as Driver Education, Traffic School, Defensive Driving, CDL, and Motorcycle Safety.

Training Solutions
Assisting companies, organizations and individuals maintain the skills of their employees, or professional growth in the case of individuals, is the focus of the Training Solutions team. Training offered through this program includes open to the public seminars, classes, and workshops. Training Solutions also offers customized training that is designed to meet the specific training needs of the client. Customized training is generally delivered onsite and scheduled at times that are convenient for the client. The training topics are not limited, but generally fall in one of the following categories:

- Computer Skills
- Technical Skills
- Supervisory/Leadership Skills
- Business and Industry Related Skills
- Management Development
- Regulatory Compliance
- Intercultural/Diversity

Training Solutions also works with economic development and entrepreneurs including the following areas:

SCORE: Small business owners can receive free management consulting, information, and technical assistance from SCORE (Service Corps of Retired Executives). SCORE can consult with you on a confidential, one-on-one basis regarding areas such as accounting, finance, sales, marketing, data analysis, personnel, and technical assistance. SCORE also maintains a resource library stocked with useful information for anyone starting, buying, or operating a small business.

Economic Development: At the request of area Chambers of Commerce or economic development councils, Training Solutions staff make presentations or gather information to encourage businesses to settle in southeast Nebraska. SCC stays abreast of legislative activity, working with businesses, local governments, and other interested parties on upcoming action that could affect economic development.

WorkKeys: Together, Nebraska business and education systems face a tremendous challenge: to close the gap between the levels of job skills needed in today's workplace and the actual skill levels possessed by today's employees. In addition, future employees must be prepared – not with narrow skills appropriate only to jobs which may disappear or change radically within five or ten years, but with transferable skills that will enable them to adapt to the constantly changing workplace. Incrementally, new jobs will require individuals to possess strong interpersonal, communication, and problem-solving workplace skills.

The WorkKeys system from American College Testing (ACT) is an effective network of information services designed to help bridge this skills gap. By providing individuals with reliable information regarding their own workplace skills and the level skills required by jobs, WorkKeys empowers individuals to make informed career decisions.

Global Corporate College
Southeast Community College is the lead community college in the state of Nebraska with Global Corporate College (www.globalcorporatecollege.com). GCC is a network of community colleges around the country committed to helping employers realize the full potential of their workforce. This unique organization leverages the best learning industry practices with the resources of accredited academic institutions. GCC provides the highest quality training and performance improvement support to employers worldwide by providing:

- access to innovative and flexible education programs
- a variety of proven learning methods
- diverse content areas
- highly qualified and competent educators
- state-of-the-art facilities

Lead member colleges are invited to join Global Corporate College based on reputation and experience in providing employer-sponsored training and education. In addition to assuring client support throughout their state, these institutions bring additional value by sharing curriculum solutions, instructional design and development resources and best practices.
SCC offers high-quality courses in a variety of non-traditional mediums to students. Distance education serves students who need ways to access quality education and professional development at non-traditional times, in non-traditional places and with non-traditional formats. Distance learning courses use the same curriculum and meet the same standards as those offered face-to-face on SCC’s three campuses. Several state-of-the-art teaching technologies are used in the delivery of the distance learning courses. SCC offers credit courses comprised of fiber-optics, Internet, and off-campus courses.

Complaint/Grievance Process for Students at a Distance

SCC Online (Virtual Courses)

SCC Online addresses the changing nature of work, home life and learning with the creative use of educational technology. You are at the gates of our virtual campus, a campus that extends SCC’s educational programs to learners around the globe. Our online program provides a complete academic environment. It draws on the expertise of SCC’s faculty; it provides learner support that ranges from advising to online registration; and it offers access to a wide range of resources, including the College’s library system.

You have an opportunity to do homework with others in your class, to join in collaborative discussions led by the instructor, and to participate in a wide range of educational activities, all thanks to a cyberspace journey of just a few seconds.

SCC programs currently provided entirely online:

- Business Administration
- Dental Assisting
- Early Childhood Education
- Food Service Certificate
- Long Term Care Administration
- Medical Assisting
- Office Professional
- Polysomnographic Technology (with a 2-day Lincoln workshop)
- Radiologic Technology (with clinicals in your area)
- Respiratory Care (with clinicals in your area)
- Surgical Technology (with clinicals in your area)
- Also: Transfer and general education courses

Virtual Learning Health Alliance

The SCC Distance Learning Health Academy allows students to take classes online while remaining in their communities and regions. At the same time SCC works with the student’s local community colleges and local hospitals to ensure that the general education component of the plan is in place.

Students are admitted to the Radiologic Technology, Surgical Technology or Respiratory Care program. Students will complete core education classes in areas such as composition and math at their local community colleges or through SCC. They will begin their health care provider programs with SCC instructors who teach the courses online. The online classroom allows instructors and students to engage in discussion and interactions through modern technology. Depending on the agreements reached with local hospitals the online portion of the program can serve students anywhere in the nation or world. The local hospitals or clinics provide the clinical laboratory setting and an instructor/supervisor for students who are required to complete their program requirements of clinical (practicum) education. In addition to completing graduation requirements for the program, clinical training allows students to gain greater familiarity with local health care facilities and staff. The investment is based on the likelihood that the medical technologists educated right in their own communities or regions are very likely to remain there to work in local hospitals and clinics.
SCC faculty in the three programs are committed to placing 80 percent or more of the graduates of the medical programs right in the community and regional medical facilities and in other less urban areas where they are needed so much.

SCC’s Radiologic Technology distance program is the only one in the United States to have earned AMA approval.

SCC will work with local hospitals or clinics to develop a plan for addressing student needs, including whether SCC can assist you. One issue will be to determine whether there are sufficient procedures in your surgery, respiratory care, and/or radiology departments to provide the necessary clinical settings for students.

Contact Bob Morgan, Dean, Virtual Learning 402-228-8272 or 800-233-5027 x1272 or e-mail bmorgan@southeast.edu for more information.

Jointly Offered Programs

**Early Childhood Education**

Early Childhood Education is being offered online as a joint venture between SCC and the other five community colleges in Nebraska. Career possibilities are in the areas of preschool teachers, infant and toddler caregivers, and before- and after-school activity coordinators for school-age children in Head Start programs.

**Medical Coding (Health Information Management Systems)**

Central Community College, in cooperation with SCC, provides students the opportunity to enter the occupation of medical coding. This program allows students to maintain residency in their hometown area. Students who pursue an education in medical coding will complete the program’s general education courses and support level courses through SCC. The medical coding courses are taken online from CCC.

**Fiber Optics**

The fiber optics system is a fully interactive distance learning system, using fiber optic cable between sites to transmit video, audio and data signals. Academic and career/technical course offerings are available through this system. Both day and evening courses are available.

Southeast Nebraska Distance Learning Consortium is a fiber optic system in southeast Nebraska that is comprised of four SCC locations (Beatrice, Lincoln, Milford, Energy Square), Peru State College, Educational Service Units 3, 4, 5 and 6, and more than 50 public school districts.

**Off-Campus Courses**

Off-campus courses are conducted within the College area, but not at one of the SCC campuses. Credit classes meet the approved curriculum, meet the same criteria and have the same course number as a campus class and are taught by an instructor approved by the College. Some credit courses may have prerequisites or minimum required scores on an assessment test prior to registration. ASSET, COMPASS and ACT/SAT scores are frequently used to determine placement. Courses are frequently held at local high schools.

**SENCAP**

**Southeast Nebraska Career Academy Partnerships**

SCC and many southeast Nebraska school districts within our service area have formed Career Academy Partnerships. SENCAP provides high school juniors and seniors the opportunity to take college-level credit courses. The courses are considered “dual credit” meaning the student will receive credit for the high school and college course at the same time. Students can explore career fields and may be able to participate in community career events including tours, job-shadowing experiences, and listening to speakers.

For more information please contact:

Dr. Randy Nelson, 402-323-3425 or 800-642-4075 ext. 3425
rnelson@southeast.edu

**Complaint/Grievance Process for Students at a Distance**

Southeast Community College is committed to resolving student grievances, complaints and concerns in an expeditious, fair and amicable manner. The purpose of the student grievance procedure is to secure, at the lowest level possible, equitable and timely solutions to problems that may arise. A Student attending Southeast Community College at a distance who has a concern, complaint or a need to resolve an issue or grievance should contact Robert Morgan, Dean of Virtual Learning for assistance, bmorgan@southeast.edu, 402-228-8272 or e-mail bmorgan@southeast.edu for more information.

The College’s Student Grievance Procedure can be found in the College Catalog and SCC Student Handbook. Southeast Community College is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools.
Southeast Community College’s faculty and staff concentrate on excellence in teaching and dedicate themselves to helping students prepare for successful careers.

Advisory committees are chosen from the business and industrial areas to advise SCC in the planning, implementing and maintaining of our educational programs.

James Isemann, Instructor, History  
BS, Truman State University, Kirksville MO 1991;  
MA, Truman State University, Kirksville MO 1992;  
PhD, Kansas State University, Manhattan KS 66506

Celia Ison, Instructor, Anatomy/Physiology/Biology  
BS, University of Central Arkansas, Conway AR 1988;  
MS, University of Central Arkansas, Conway AR 1999

Jeffery Ives, Instructor, Electronic Systems Technology  
AAS, Southeast Community College, Lincoln NE 2000

Mark A. Jacobsen, Instructor, Automotive Technology  
AAS, Southeast Community College, Lincoln NE 1982

Loy James, Program Co-Chair/Instructor, Agriculture  
AAS, Southeast Community College, Lincoln NE 2007;  
BS, University of Nebraska, Kearney NE 2002

Barbara A. Jauken, Instructor, Computer Information Technology  
AAS, McCook Community College, McCook NE 1974;  
BS, Kearney State College, Kearney NE 1983

Ken L. Jefferson, Program Chair/Instructor, Automotive Technology/Motorcycle, ATV, & Personal Watercraft Technology  
AAS, Southeast Community College, Milford NE 1970;  
Bachelor of Technology, Peru State College, Peru NE 2002

Jeanine Jewell, Instructor, English  
BA, University of Iowa, Iowa City IA 1977;  
MA, Western Washington University, Bellingham WA 1996;  
PhD, University of Nebraska, Lincoln NE 2005

Daniel B. Johnson, Program Co-Chair/Instructor, Social Sciences  
BS, Iowa State University, Ames IA 1975;  
MS, Iowa State University, Ames IA 1977

Douglas A. Johnson, Instructor, Business Administration  
BS, Nebraska Wesleyan University, Lincoln NE 1973

Todd Johnson, Instructor, Business Administration  
BS, Kearney State College, Kearney, NE 1987;  
MBA, University of Nebraska Omaha, Omaha NE 1994

Keith E. Jones, Instructor, Diesel Technology- Truck Diploma, Central Community College, Hastings NE 1972

Veronica Jones-Aki, Instructor, Human Services  
BA, Rider University, Lawrenceville NJ 1979

Alicia Jordan, Instructor, Office Professional  
BA, Nebraska Wesleyan, Lincoln NE 2005;  
MA, Doane College, Crete NE 2008

Kim Jordenning, Instructor, Agriculture Business & Management Technology  
Certificate, Fairbury Junior College, Fairbury NE 1971;  
BS, University of Nebraska, Lincoln NE 1974

Michael J. Kadavy, Instructor, Human Services  
AAS, Southeast Community College, Lincoln NE 1981;  
BS, College of St. Mary, Omaha NE 1986

Scott A. Kahler, Program Chair/Instructor, Machine Tool Technology  
AAS, Southeast Community College, Milford NE 1977;  
BS, University of Nebraska, Lincoln NE 1981

Lynnett Kastens, Instructor, Medical Assisting  
AAS, Southeast Community College, Lincoln NE 2007;  
BS, University of Nebraska Kearney NE 2002

Deb Kay, Instructor, Office Professional  
BS, University of Nebraska, Lincoln NE 1992;  
MA, University of Nebraska, Lincoln NE 1984

Mike F. Keating, Instructor, Graphic Design | Media Arts  
BA, University of Great Falls, Great Falls MT 1979;  
BS, Montana State University, Bozeman MT 1989;  
MEd, Montana State University, Bozeman MT 1999

Tammy Kelch, Instructor, Human Services  
BS, Nebraska Wesleyan University, Lincoln NE 1999;  
MS, Doane College, Lincoln NE 2004

John V. Kenkel, Instructor, Laboratory Science Technology  
BS, Iowa State University, Ames IA 1970;  
MA, University of Texas, Austin TX 1972

Karen Killham, Instructor, Computer Information Technology  
AA, North Platte Junior College, North Platte NE 1972  
BA, University of Nebraska, Lincoln NE 1974

Patty H. Killman, Instructor, Office Professional  
AAS, Wichita State University, Wichita KS 1972;  
BA, Wichita State University, Wichita KS 1974
Laurie Kilzer, Instructor, Computer Information Technology Diploma, Southeast Community College, Lincoln, NE 1988; AAS, Southeast Community College, Lincoln NE 1998; BA, Bellevue University, Omaha NE 2007

Brian Kirchner, Instructor, English BS, Emporia State University, Emporia Kansas 1990; MA, Emporia State University, Emporia Kansas 1992; MFA, University of Alabama, Tuscaloosa AL 1995

Janet Kirchner, Instructor, English/Developmental Writing BA, Regis University, Denver, CO 1990; MA, University of Alabama, Tuscaloosa AL 1993

Jonathan Kisy, Instructor, GM Automotive Service Education Program (ASEP) AAS, Southeast Community College, Milford NE 1994

Karen A. Koch, Instructor, Architectural-Engineering Technology AAS, Southeast Community College, Milford NE 1998; BA, University of Nebraska, Kearney NE 1991

Randall Koch, Instructor, Machine Tool Technology AAS, Southeast Community College, Lincoln NE 1999

Richard Louis Kohn, Instructor, Business Administration BS, University of Nebraska, Lincoln NE 1975; JD, University of Nebraska College of Law, Lincoln NE 1982

Julie Kohtz, Instructor, Computer Programming Technology AAS, Southeast Community College, Milford NE 1991
James Kollars, Instructor, Machine Tool Technology Nebraska Vocational Technical College, Milford NE 1970

Cinda Konken, Instructor, Human Services BS, Nebraska Wesleyan University, Lincoln NE 1996; MS, University of Nebraska, Omaha NE 1999

Crystal Kozak, Instructor, Early Childhood Education BS, University of Nebraska, Lincoln NE 1990; MED, Doane College, Crete NE 2010

Lisa Krabbenholt, Instructor, Associate Degree Nursing ADN, Central Community College, Grand Island, NE 2002; BSN, Nebraska Wesleyan University, Lincoln NE 2004; MSN, Nebraska Wesleyan University, Lincoln NE 2007

Russel Kreis, Instructor, Electronic Systems Technology AAS, Community College of the Air Force, 1992; AAS, Mississippi Gulf Coast Community College, Gulfport MS 1993; BS, University of Southern Mississippi, Hattiesburg MS 2004

Cynthia Kreps, Instructor, Surgical Technology AAS, Southeast Community College, Lincoln NE 1998; BS, Doane College, Crete NE 2010

Norman Kreps, Instructor, Manufacturing Engineering Technology AAS, Southeast Community College, Milford NE 1978

Nancy M. Krumland, Program Co-Chair/Instructor, Business Administration BS, University of Nebraska, Lincoln NE 1975; MS, University of Nebraska, Lincoln NE 1979

Mike Kuebler, Instructor, Professional Truck Driver Training Certificate, Brown Institute, Minneapolis MN 1996

Terry Kuebler, Instructor, Motorcycle, ATV, & Personal Watercraft Technology Diploma, Southeast Community College, Lincoln NE 2001

Jerry Kumke, Instructor, Automotive Technology AAS, Southeast Community College, Milford NE 1986

Denise W. Lagueux, Instructor, Practical Nursing LPN, Diploma, Southeast Community College, Lincoln NE 1980; ADN, College of St. Mary, Omaha NE 1990; BSN, Nebraska Wesleyan University, Lincoln NE 1998; MSN, University of Nebraska Medical Center, Omaha NE 2003

David F. Lamb, Instructor, Human Services BA, Texas Technological University, Lubbock TX 1971

Janelle J. Lamb, Instructor, Office Professional BS, University of Nebraska, Lincoln NE 1975

Tammie Lang, Instructor, Business Marketing/Management AAS, Southeast Community College, Lincoln NE 1987 BS, Grace University, Omaha NE 1998; MS, Bellevue University, Omaha NE 2006

Luann Larsen, Instructor, Psychology BA, University of Nebraska, Lincoln NE 1982; MA, University of Nebraska, Lincoln NE 1987

Dale Lawver, Instructor, John Deere Tech AAS, Southeast Community College, Milford NE 1992

Kristin Lewis, Instructor, Respiratory Care BS, Midland Lutheran College, Fremont NE 1989

Marci Loschen, Instructor, Business BS, University of Wyoming, Laramie WY 1995

Med, University of Nebraska, Kearney NE 2001

Kate Loden, Instructor English BA, University of Colorado, Boulder CO 1981; MA, Northern Arizona University; Flagstaff AZ 1982

Patricia Lorenz, Instructor, Practical Nursing RN Diploma, Bryan School of Nursing, Lincoln NE 1971; BSN, Nebraska Wesleyan University, Lincoln NE 2000; MSN, Nebraska Wesleyan University, Lincoln NE 2008

Wendy Love, Instructor, Architectural-Engineering Technology AAS, Southeast Community College, Milford NE 1990

Keith Mabon, Instructor, Criminal Justice BS, Northwest Missouri State University, Maryville MO 1990

Lisa Machado, Instructor, Business Administration BS, University of Nebraska, Lincoln NE 1994; MBA, University of Phoenix, Las Vegas NV 2002

David Madcharo, Instructor, Electronics Systems Technology BS, University of Nebraska, Lincoln NE 1992

MBA, Case Western Reserve University, Cleveland OH 2010

Bonnie Malcolm, Instructor, Office Professional BS, Chadron State College, Chadron NE 1975; MEd, University of Nebraska, Lincoln NE 1983

Tonya Maloy, Instructor, Medical Assisting ADN, Southeast Community College, Lincoln NE 1997; BSN, University of NE Medical Center, Omaha NE 2005; MSN, NE Wesleyan University, Lincoln NE 2011

Melinda Martinson, Instructor, Associate Degree Nursing BSN, Nebraska Wesleyan University, Lincoln NE 2006; MSN, Nebraska Wesleyan University, Lincoln NE 2009

Dan D. Masters, Program Chair/Instructor, Computer Aided Design Drafting AAS, Southeast Community College, Lincoln NE 1967

Theresa Mattern, Instructor, Radiologic Technology AAS, Southeast Community College, Lincoln NE 1995; BA Bellevue University, Bellevue NE 2007;

Steven McConnell, Instructor, Biological Sciences BS, University of Nebraska, Lincoln NE 1981; MS, University of Nebraska, Lincoln NE 1983

Danny McCulloch, Instructor, Welding Technology AAS, Southeast Community College, Lincoln NE 1998

Aditha McLaughlin, Instructor, Adult Basic Education BA, Northwest Missouri State University, Maryville MO 1972

Ann McManaman, Instructor, Practical Nursing BSN, Bryan College of Health Sciences, Lincoln NE 2007

Dennis J. Medinger, Program Chair/Instructor, Parts Marketing and Management Diploma/AAS, Southeast Community College, Milford NE 1978; BS, University of Nebraska, Lincoln NE 1998

Judy Mieth, Instructor, Radiologic Technology BS, University of Nebraska, Lincoln NE 1978; MS, Wayne State College, Wayne NE 2005

Richard Mildenberger, Instructor, Computer Information Technology BA, Hofstra University, Hempstead, NY 1974; Diploma, Southeast Community College, Lincoln NE 1987; AAS, Southeast Community College, Lincoln NE 1999

Julie Miller, Instructor, Early Childhood Education BS, University of Nebraska, Lincoln NE 1998

MEd, Doane College, Lincoln NE 2005

April Minster, Instructor, Associate Degree Nursing BSN, University of NE Medical Center, Omaha NE 2004

Tim Mittan, Instructor, Business Administration BS, Peru State College, Peru NE 1986; MA, Doane College, Crete NE 2001

Robin D. Monroe, Program Co-Chair/Instructor, Laboratory Science Technology BA, St. Cloud State College, Saint Cloud MN 1971; BA, St. Cloud State University, Saint Cloud MN 1973; MA, St. Cloud State University, Saint Cloud MN 1975
Rick D. Morphew, Program Chair/Instructor, Automotive Technology/CAP/ASEP/ASSET
AAS, Iowa Lakes Community College, Estherville IA 1972

Todd Morrill, Instructor, Chrysler Automotive Program (CAP)
AA, Northeast Community College, Norfolk NE 1984

Dollie Mott, Instructor, Office Professional
BS, University of Nebraska, Omaha NE 1988;
MS, University of Nebraska, Omaha NE 2003

Robert J. Moyer, Instructor, Mathematics
BS, University of Nebraska, Lincoln NE 1990
MS, University of Nebraska, Lincoln NE 1993

Dale Mueller, Program Chair/Instructor, Land Surveying/Civil Engineering Technology
AS, St. Cloud Technical College, St. Cloud MN 1997

Lois E. Muhlbach, Instructor, Food Service/Hospitality
BS, University of Nebraska, Lincoln NE 1971;
Certificate, Southeast Community College, Lincoln NE 1982

Jennifer Muller, Program Co-Chair, Instructor, Graphic Design/Media Arts
BA, University of Nebraska, Lincoln NE 2005

Susan Nielsen, Instructor, Developmental Studies
BA, Wayne State College, Wayne NE 1981;
MA, Doane College, Crete NE 1994

Richard Nielsen, Jr., Instructor, English
BA, Yankton College, Yankton SD 1975;
BS, University of South Dakota, Vermillion SD 1980;
PhD, University of Nebraska, Lincoln NE 1991

Barbara Neuwirth, Instructor, Academic Education
AS, Northern Montana College, Havre, MT 1984;
Bachelor of Technology, Northern Montana College, Havre MT 1984;
MBA, Northern Arizona University, Flagstaff AZ 1990

Dan Nickel, Instructor, Electronics Systems Technology
Diploma, Central Community College, Hastings NE 1977

Dana Nimic, Instructor, Mathematics
Diploma, Southeast Community College, Lincoln NE 1984;
BS, University of Nebraska, Lincoln NE 1988;
MSA, University of Nebraska, Lincoln NE 1990;
MS, University of Nebraska, Lincoln NE 1991

Carolyn Nolte, Instructor, English
BA, NE Wesleyan University, Lincoln NE 1996
MA, University of Nebraska, Lincoln NE 2002

Gerald D. Norris, Instructor, Automotive Technology
AAS, Southeast Community College, Milford NE 1981

Arend Nyland, Instructor, Welding
AAS, Southeast Community College, Lincoln NE 2003

Sally Olson, Instructor, English
BS, Kearney State College, Kearney NE 1982;
MA, University of Nebraska, Lincoln NE 1990

Francine M. Oran, Instructor, Medical Assisting
Medical Assistant, Diploma, Institute of Medical-Dental Technology, Mesa AZ 1982;
BS, Arizona State University, Tempe, AZ 1992;
MA, Bellevue University, Bellevue NE 2008

Steven B. Ottmann, Instructor, Mathematics/Physics
BS, University of Nebraska, Lincoln NE 1972

Sue Outson, Instructor Psychology
BS, University of Nebraska, Lincoln NE 1980
MA, University of Nebraska, Lincoln NE 1983

Mark Packard, Instructor, Sociology
BS, Morningside College, Sioux City IA 1973;
Teaching Cert, Morningside College, Sioux City IA 1980;
MS, University of Nebraska, Lincoln NE 1992

Susan Pallas, Instructor, Accounting
BA, Chadron State College, Chadron NE 1987;
MBA, University of Nebraska, Omaha NE 1997

Renea Panske, Instructor, Mathematics
BS, Mississippi University for Women, Columbus MS 1967;
MAT, University of Nebraska, Lincoln NE 1983

Theresa Parker, Instructor, AAS, Southeast Community College, Lincoln NE 1985;
BA, College of Saint Mary, Omaha NE 1988

Duane Parrish, Instructor, Welding Technology
Diploma, Chase County High School, Imperial NE 1967

Kimberly Paul, Instructor, Psychology
BA, University of Nebraska, Lincoln NE 1995
MEd, University of Nebraska, Lincoln NE 1997
PhD, University of Nebraska, Lincoln NE 2005

Carol Ann Penrosa, Instructor, Associate Degree Nursing
BSN, Union College, Lincoln NE 1976;
MSN, Andrews University, Berrien Springs MI 1989

Stanley J. Peters, Instructor, Business Administration
BS, University of Nebraska, Lincoln NE 1978
MBA, University of Nebraska, Lincoln NE 1983

Ronald R. Petsch, Program Chair/Instructor, Building Construction Technology
AAS, Southeast Community College, Milford NE 1974;
BS, University of Nebraska, Lincoln NE 1978;
MEd, University of Nebraska, Lincoln NE 1991

Sheryl Piening, Instructor, Academic Education
BS, University of Nebraska, Lincoln NE 1974;
MS, University of Nebraska, Lincoln NE 1989

Elina Pierce, Program Chair/Instructor, Pharmacy Technician
Certificate, School of Medical Billing, Norcross, GA 2005;
BA, University of Nebraska Lincoln, Lincoln NE 2007;
MSP, University of Phoenix, Phoenix AZ 2009

John C. Pierce, Program Chair, Instructor, Energy Generation Operations
AAS, Central Community College, Hastings NE 1975;
Diploma, Central Community College, Hastings NE 1978;
BS, Bellevue University, Bellevue NE 1994

Rose Pollard, Instructor, Business Administration
AAS, University of Nebraska, Curtis NE 1976;
BA, University of Nebraska, Kearney NE 1989;
MEd, University of Nebraska, Lincoln NE 1994

Janice Poppenga, Instructor, Speech
BA, University of South Dakota, Vermillion SD 1972;
MA, University of Nebraska, Omaha NE 1994

David M. Rainforth, Instructor, Building Construction Technology
BS, Peru State College, Peru NE 1969

Samuel Rapien, Program Co-Chair/Instructor, Graphic Design
Media Arts
BA, University of Nebraska, Lincoln NE 2006
MA, University of Nebraska, Lincoln NE 2009

Glenn Ray, Instructor, Computer Information Technology
Diploma, Southeast Community College, Lincoln NE 1987;
AAS, Southeast Community College, Lincoln NE 1999

Robert A. Redler, Instructor, Electronic Systems Technology
AAS, Southeast Community College, Milford NE 1986

Sharon K. Rehn, Instructor, Surgical Technology
CST Diploma, Southeast Community College, Lincoln NE 1981;
ADN, College of Saint Mary, Omaha NE 1984;
BS, Doane College, Crete NE 2001

Kent Reinhart, Instructor, Mathematics/Physics
BS, University of Nebraska, Lincoln NE 1985;
MS, University of New Hampshire, Durham NH 1989

Kenneth G. Reinsch, Program Chair/Instructor, Electrical & Electromechanical Technology
AAS, Southeast Community College, Milford NE 1977

Kathy Reiter, Instructor, Business Administration
BBA, University of Toledo, Toledo OH 1980;
MBA, University of Toledo, Toledo OH 1989;
MSA, Central Michigan University, Mt. Pleasant MI 2003

Victoria Retheiser, Instructor, Food Services
BS, New Mexico State University, Las Cruces NM 1995;
MS, New Mexico State University, Las Cruces NM 1997

David Reynolds, Instructor, Engineering/Physics
BS, University of Iowa, Iowa City IA 1998;
PhD, University of California, Santa Barbara CA 2004

Doug Reznick, Instructor, John Deere Tech
AAS, Southeast Community College, Milford NE 1981

Dianne Riesche, Instructor, Associate Degree Nursing
BSN, Midland Lutheran College, Fremont NE 2002;
MSN, Wesleyan University, Lincoln NE 2004

Carolee Ritter, Program Chair/Instructor, Humanities/English
BA, Rutgers University, New Brunswick NJ 1989;
MA, Colorado State University, Fort Collins CO 1992;
PhD, University of Nebraska, Lincoln NE 2005

Philip Ross, Instructor, Developmental English
BS, Kearney State College, Kearney NE 1987;
MA, University of Nebraska, Lincoln NE 1992

Jered Roth, Instructor, Auto Collision Repair Technology
AAS, Southeast Community College, Milford NE 1981

Michael Roth, Instructor, HVAC/R Technology
AAS, Southeast Community College, Milford NE 1996

Todd Roth, Instructor, Computer Aided Design Drafting
AAS, Southeast Community College, Milford NE 1999; AAS, Southeast Community College, Milford NE 2000

Kristin Ruiz, Instructor, Practical Nursing
ADN, University of Nebraska Medical Center, Omaha NE 1979; BSN, University of Nebraska Medical Center, Omaha NE 1981; MN, University of Kansas Medical Center, Lawrence KS 1986

Alan Rumbaugh, Instructor, Livestock Production
BS, Tarleton State University, Stephenville TX 1989

Lynnette Sabatka, Instructor, Computer Aided Design Drafting
AAS, Southeast Community College, Lincoln NE 2001

Eric Sack, Instructor, English
BA, Wesleyan University, Middletown CT 1982

Kathryn Samuelson, Instructor, English
BA, University of Nebraska, Lincoln NE 1969; MA, University of Nebraska, Lincoln NE 1990

Scott Samuelson, Instructor, Energy Generations Operations
AAS, Southeast Community College, Milford NE 1983

Georgina Sanchez, Instructor, Humanities/Spanish
BS, Universidad Mundial, Santo Domingo, Dominican Republic, 1986; MA, University of Nebraska Lincoln, Lincoln NE 2007

Jill H. Sand, Program Chair/Instructor, Respiratory Care Certificate, Respiratory Care, Immanuel Medical Center, Omaha NE 1997; BS, Midland Lutheran College, Fremont NE 1997

Anthony Schafer, Instructor, Automotive Technology
AAS, Southeast Community College, Milford NE 1981

Robin Schindler, Instructor, Mathematics
AAS, Northeast Technical Community College, Norfolk NE 1990; BA, Wayne State College, Wayne NE 1992; MA, University of Nebraska, Lincoln NE 1998

Lynn Schlake, Instructor, Agriculture Business & Management Technology
BS, University of Nebraska, Lincoln NE 1980

Brent Schluckebier, Instructor, Electrical Technology
AAS, Southeast Community College, Milford NE 1997

Debbie Schmeckle, Instructor, Mathematics
BS, University of Nebraska, Kearney NE 1994; MS, University of Nebraska, Kearney NE 1997

Renee S. Schnieder, Instructor, Associate Degree Nursing
RN Diploma, Saint Joseph Mercy School of Nursing, Sioux City IA 1977; BSN, Nebraska Wesleyan University, Lincoln NE 1992; MSN, University of Nebraska Medical Center, Omaha NE 1998

Eldon D. Schoenfeld, Instructor, Auto Collision Repair Technology
AAS, Southeast Community College, Milford NE 1972

Gerrine A. Schreck-Kirby, Instructor, Food Service/Hospitality Diploma, Des Moines Area Community College, Des Moines IA 1978; BA, Doane College, Lincoln NE 2006 MA, Doane College, Lincoln NE 2011

Jo A. Schuster, Program Co-Chair/Instructor, Computer Information Technology
BS, Kearney State College, Kearney NE 1983

Barbara Schwarz, Instructor, Practical Nursing
RN, Diploma, Bryan School of Nursing, Lincoln NE 1985; BS, Peru State College, Peru NE 1989; BSN, Nebraska Wesleyan University, Lincoln NE 2004; MSN, Nebraska Wesleyan University, Lincoln NE 2008

Allen Scribner, Instructor, Building Construction Technology Diploma, Lincoln Northeast High School, Lincoln NE 1967

Craig Shaw, Instructor, Auto Collision Repair Technology
AAS, Southeast Community College, Milford NE 1988

Preston D. Shires, Instructor, History
BA, University of California, Santa Barbara CA 1979; MA, California State University, Sacramento CA 1984; PhD, University of Nebraska, Lincoln NE 2002

Mark Silvia, Instructor, Developmental English
BS, Utah Valley University, Orem, UT 2004

MA, Kansas State University, Manhattan KS 2006

Jeff Slafter, Instructor, John Deere Tech
AAS, Southeast Community College, Milford NE 1985

Nicole Sieddems, Instructor, Physical Therapist Assistant
MPT, University of Nebraska Medical Center, Omaha NE 1995

Eric Smith, Instructor, Mathematics
BS, University of Nebraska, Lincoln NE 1994; MS, University of Nebraska, Lincoln NE 1998

Matthew Smith, Instructor, Automotive Technology
AAS, Southeast Community College, Lincoln NE 1999

Michael Smith, Instructor, English
BA, George Washington University, Washington DC 1971; MA, University of Nebraska, Lincoln NE 1982

Terry Spoon, Program Chair/Instructor, Fire Protection Technology
AAS, Oklahoma State University, Stillwater OK 1978; BS, Northwest Missouri State University, Maryville MO 1979

Michael J. Stalker, Instructor, Electrical & Electromechanical Technology
AAS, Southeast Community College, Milford NE 1988

Laura Stallings, Instructor, Surgical Technology
AAS, Southeast Community College, Lincoln NE 2008

Loran A. Stara, Instructor, Building Construction Technology
AAS, Southeast Community College, Milford NE 1983

Jody Starr, Instructor, Horticulture-Agribusiness
BA, University of Nebraska, Lincoln NE 1998

Bruce Stephen, Instructor, Anatomy & Physiology
BS, State University of New York, Cortland NY 1991; MS University of Massachusetts, Dartmouth MA 1994

John P. Stephenson, Instructor, Mathematics
BS, Wichita State University, Wichita KS 1989; MS, Wichita State University, Wichita KS 1994

Karen A. Stevens, Instructor, Practical Nursing
LPN, Metropolitan Community College, Omaha NE 1975; ADN, University of Nebraska Medical Center, Omaha NE 1986; BSN, University of Nebraska Medical Center, Omaha NE 1989; MSN, Nebraska Wesleyan University, Lincoln NE 2005

Norman Stimbart, Instructor, Computer Information Technology
AAS, Southeast Community College, Lincoln NE 1985; AAS, Southeast Community College, Lincoln NE 2000

Crystal L. Stuh, Instructor, Dental Assisting
Diploma Dental Assisting, Southeast Community College, Lincoln NE 1994

Beth Stutzman, Program Chair/Instructor, Computer Programming Technology
Diploma, Southeast Community College, Milford NE 1982; AAS, Southeast Community College, Milford NE 1991

Melissa Stutzman, Instructor, Human Services
AA, Southeast Community College, Beatrice NE 1998
BA, University of Nebraska, Lincoln NE 2001
MA, Doane College, Lincoln NE 2004

Roxanne R. Stutzman, Instructor, Computer Programming Technology
AAS, Southeast Community College, Milford NE 1979

Rose Suggett, Program Chair/Instructor, Psychology
BS, Peru State College, Peru NE 1992; MS, University of Nebraska, Lincoln NE 1995; PhD, Madison University, Gulfport MS 2004

Emily Suh, Instructor, Developmental English
BA, University of Minnesota, Minneapolis MN 2006
MA, University of Minnesota, Minneapolis MN 2008

Elmer Linn Sunderland, Instructor, Learning Center
BS, Kansas State University, Manhattan, KS 1969; ME, University of Nebraska, Lincoln NE 1988

Cynthia Surrounded, Instructor, Human Services
AAS, Southeast Community College, Lincoln NE 1998; BS, Nebraska Wesleyan University, Lincoln NE 2001; MS, Nebraska Wesleyan University, Lincoln NE 2003

Bernardine “Jo” Taylor, Program Chair/Instructor, Food Service/Hospitality
BS, University of Nebraska-Lincoln, Lincoln NE 1972; Dietetic Internship, University of Nebraska, Lincoln NE 1973; MA, University of Nebraska, Lincoln NE 1989

Kirby Taylor, Instructor, Machine Tool Technology
AAS, Southeast Community College, Milford NE 1994
Keith Tempel, Instructor, Deere Construction & Forestry Equipment Tech  
AAS, Southeast Community College, Milford NE 1992

Brad L. Thiel, Instructor, Human Services  
BS, Nebraska Wesleyan University, Lincoln NE 1973;  
MA, University of Nebraska, Lincoln NE 1978

Debra L. Thomas, Instructor, Early Childhood Education  
BA, University of Nebraska, Lincoln NE 1974;  
MS, University of Nebraska, Lincoln NE 1976

Lori Thompson, Instructor, Associate Degree Nursing  
BA, University of Nebraska, Lincoln NE 1995;  
BSN, Creighton University, Omaha NE 1997;  
MSN, Clarkson College, Omaha NE 2009

Stan Thorpe, Instructor, Building Construction Technology  
BA, Wayne State College, Wayne NE 1959

Terri M. Tiedeman, Instructor, Business Administration  
BS, University of Nebraska, Lincoln NE 1978;  
MED, University of Nebraska, Lincoln, NE 2007

Kevin Timoney, Instructor, Electrical & Electromechanical Technology  
AAS, Southeast Community College, Milford NE 1991, 1992

Dennis Toalson, Instructor, Agribusiness  
BS, University of Missouri, Columbia MO 1971;  
MED, University of Missouri, Columbia, MO 1981

Daniel L. Tonjes, Instructor, Electrical & Electromechanical Technology  
AAS, Southeast Community College, Milford NE 1979

Barbara Tracy, Instructor, English  
BA, Bellevue University, Bellevue NE 1988;  
MA, University of Nebraska, Omaha, NE 1992;  
PhD, University of Nebraska, Lincoln NE 2009

Ivette Trentini-Hutcheson, Instructor, Speech  
AAS, Southeast Community College, Lincoln NE 1997;  
BS, Bellevue University, Bellevue NE 2005;  
MA, Bellevue University, Bellevue NE 2008

Nicole Trevena, Instructor, Psychology  
BA, Doane College, Crete NE 2005  
MA, Doane College, Lincoln NE 2009

Mary Trumble, Program Chair/Instructor, Practical Nursing  
LPN, Des Moines Area Community College, Ankeny IA 1979;  
RN, St. Luke's School of Nursing, Fargo ND 1981;

MSN, Nebraska Wesleyan University, Lincoln NE 2003

John Tucker, Instructor, Radiologic Technology  
AAS, Southeast Community College, Lincoln, NE 2002

Kevin Uhler, Instructor, Automotive Technology  
AAS, Southeast Community College, Milford NE 1995;  
BS, Bellevue University, Bellevue NE 1996

Elaine Vavra, Instructor, Manufacturing Engineering Technology  
AAS, Southeast Community College, Milford NE 1993;  
BA, Concordia College, Seward NE 1997

Steve Vavra, Instructor, Diesel Farm Technology  
AA, Southeast Community College, Milford NE 1983

Ronald Vey, Instructor, Math/Physics  
BS, University of Nebraska, Lincoln NE 1973;  
MA, University of Nebraska, Lincoln NE 1976

William E. Vologda, Program Chair/Instructor, Auto Collision Repair Technology  
Deere Construction & Forestry Equipment Technology, John Deere Technology  
AAS, Southeast Community College, Milford NE 1977;  
AAS, Southeast Community College, Milford NE 1979

Kent Vollenweider, Instructor, Developmental Math  
BS, University of Nebraska, Kearney NE 1981;  
MBA, University of Nebraska, Lincoln NE 1994

Dennis Wagner, Instructor, Ford Asset  
BS, Chadron State College, Chadron NE 1971

Randall L. Wallbridge, Program Chair/Instructor, Nondestructive Testing Technology  
AAS, Southeast Community College, Milford NE 1981

Dalene K. Walker, Instructor, Associate Degree Nursing  
BA Nursing, Augustana College, Sioux Falls SD 1980;  
MSN, Clarkson College, Omaha NE 2008

Dustin Walsh, Instructor, Mathematics  
BS, University of Kansas, Lawrence KS 2000;  
MS, University of Nebraska, Lincoln NE 2003

Janeen Ward, Instructor, Early Childhood Education  
BA, Kearney State College, Kearney, NE 1986  
MED, Doane College, Crete NE 2009

Kimberly Waswick, Instructor, Computer Information Technology  
AA, Minot State University, Minot ND 1990;  
BA, Minot State University, Minot ND 1990;  
MS, Minot State University, Minot ND 1998

Misty Wehling, Instructor, Microbiology/Biology  
BS, Union College, Lincoln NE 2001;  
MS, University of Nebraska, Lincoln NE 2004

Philip White, Instructor, HVAC/R Technology  
AAS, Southeast Community College, Milford NE 1982

Joshua Whitney, Instructor, Journalism & English  
BS, Peru State College, Peru NE 1997;  
MA, Northern Arizona University, Flagstaff AZ 2002

William A. Wiley, Instructor, Nondestructive Testing Technology  
AAS (2), Southeast Community College, Milford NE 1979;  
BS Peru State College, Peru NE 2009

Roger A. Will, Instructor, Associate Degree Nursing  
Diploma, Mary Manning School of Nursing, Hastings NE 1975;  
BS, University of Nebraska, Kearney NE 1977;  
BSN, University of Nebraska College of Nursing, Omaha NE 1987;  
MSN, Bishop Clarkson, Omaha NE 1995

Leon J. Williams, Instructor, Electronic Systems Technology  
AAS, Southeast Community College, Milford NE 1968;  
BS, University of Nebraska, Lincoln NE 1972

Robert L. Williams, Instructor, Life Sciences  
BS, University of Nebraska, Lincoln NE 1973;  
PhD, University of Nebraska, Lincoln NE 1984

Warren Wilson, Instructor, Business Administration  
BA, University of Nebraska, Lincoln NE 1975;  
JD, University of Nebraska, Lincoln NE 1978

Tim Wismer, Instructor, Automotive Technology and Diesel Technology-Truck  
AAS, Nebraska Technical College, Milford NE 1971

Kenni Woerner, Instructor, Agribusiness/Ag Tech  
BA, Doane College, Crete, NE 2001

Brent Wohl, Instructor, Welding Technology  
AAS, Southeast Community College, Lincoln NE 1996

Julie Wollenberg, Instructor, Pharmacy Technology  
BS, University of Nebraska, Lincoln NE 2000

Joel Wooton, Instructor, History  
BS, University of Nebraska, Omaha NE 1978;  
MS, United States Sports Academy, Daphne AL 1986;  
MS, United States Sports Academy, Daphne AL 1993

Vicki Wooton, Instructor, Business Administration  
BA, Midland Lutheran College, Fremont NE 1984;  
MS, United States Sports Academy, Daphne AL 1993

Gary Yocum, Instructor, Agriculture Business & Management Technology  
AS, Cloud County Community College, Concordia KS 1984;  
BS, Kansas State University, Manhattan, KS 1986;  
MS, Kansas State University, Manhattan KS 1987

Thomas Young, Instructor, Social Sciences  
BS, University of Nebraska, Lincoln NE 1979;  
MS, University of Nebraska, Omaha NE 1981;  
PhD, University of Nebraska, Lincoln NE 1985

Mary “Kathy” Zabel, Instructor, Medical Assisting  
AAS, Southeast Community College, Lincoln NE 1979;  
BS, Nebraska Wesleyan University, Lincoln NE 1978

Robert “Dan” Zabel, Program Co-Chairs/Instructor, Welding Technology  
AAS, Southeast Community College, Lincoln NE 1980

Robert J. Zetocha, Instructor, Speech  
BS, the North Dakota State University, Fargo ND 1979;  
MA, the North Dakota State University, Fargo ND 1982

Judy M. Zieg, Instructor, General Education  
BS, University of Minnesota, Duluth MN 1970;  
MA, University of Northern Colorado, Greeley CO 1984

Katherine Zupancic, Instructor Psychology  
BA, University of Southern Colorado, Pueblo CO 1978;  
MA, University of Northern Colorado, Greeley CO 1984
