Employment &
Transfer Statistics

GRADUATE REPORT

Dear Friend of Southeast Community College,

On behalf of the Board of Governors, the alumni, faculty, staff, and students of this excellent institution, I am pleased to present Southeast Community College's Graduate Report. The report includes graduation and employment statistics associated with 2015 graduates from all of our applied technology and transfer programs.

The report includes the total number of graduates, the number employed within the training-related field, the number continuing their education, the percent employed within Nebraska, and the average salary for SCC graduates. In addition to graduation and employment statistics, the report includes employers and transfer colleges and universities associated with each of SCC's programs. The report also includes a sampling of personal experiences of graduates and employers in relation to the impact of SCC's programs.

This report represents one of our many efforts to evaluate the success of our programs and the degree to which we are accomplishing our mission.

SCC is committed to its mission of providing the highest quality applied technology and academic education opportunities to its 15-county service area. SCC has a long history of ensuring that employers have access to qualified graduates who have the skills needed for successful and productive employment. SCC continually seeks to align its programs with the specific needs and requirements of employers and transfer institutions. We are committed to meeting the educational needs of our students, employers and the community.

Sincerely,

A handwritten signature in black ink, which appears to read "Paul Illich". The signature is fluid and cursive, with a large initial "P" and "I".

Paul Illich, President
Southeast Community College

The mission of Southeast Community College is to empower and transform its students and the diverse communities it serves. The College provides accessible, dynamic, and responsive pathways to career and technical, academic transfer, and continuing education programs. Student success and completion is maximized through collegiate excellence, exemplary instruction, comprehensive student support services, enrichment programs, and student-centered processes. SCC is committed to a proactive and evidence-based approach that continually assesses and responds to student, community, and employer demand for higher education.

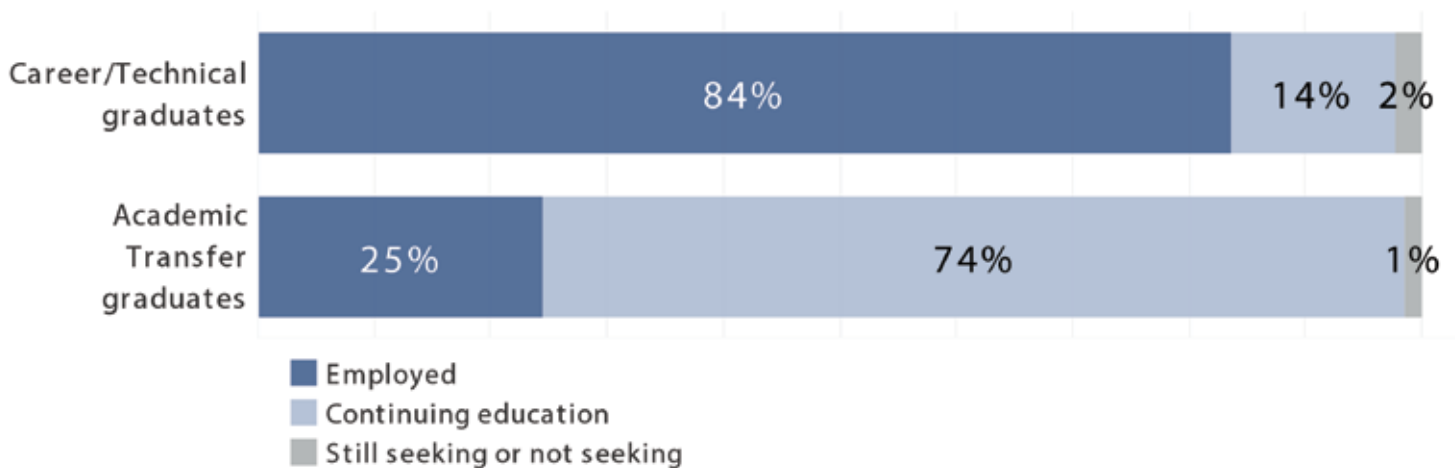

98% SUCCESS RATE

SCC graduates who are employed or continuing their education.

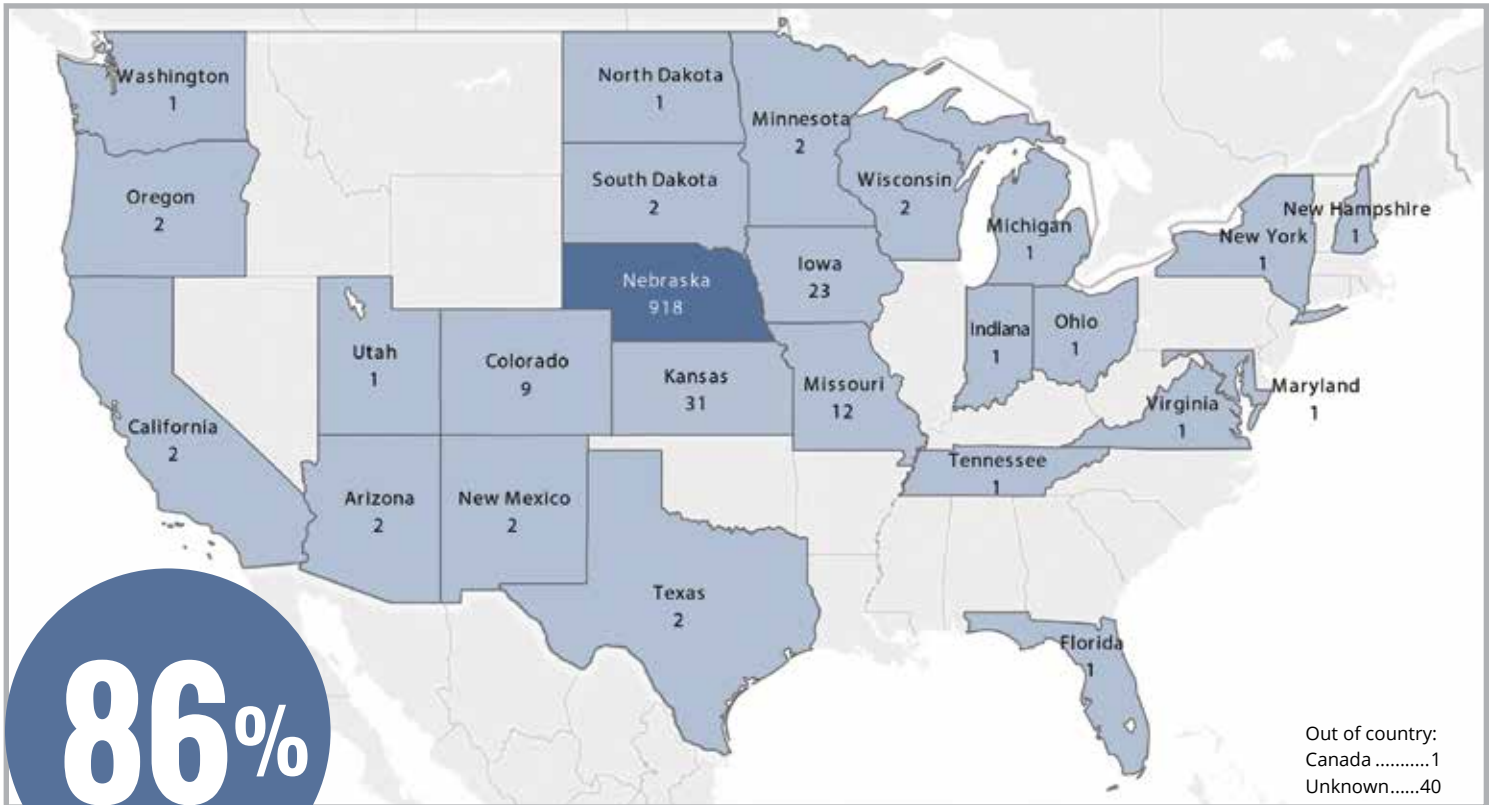

Of 1,670 graduates during the 2015 year, only 2% of those who responded were not employed or continuing their education.

Employment and Transfer

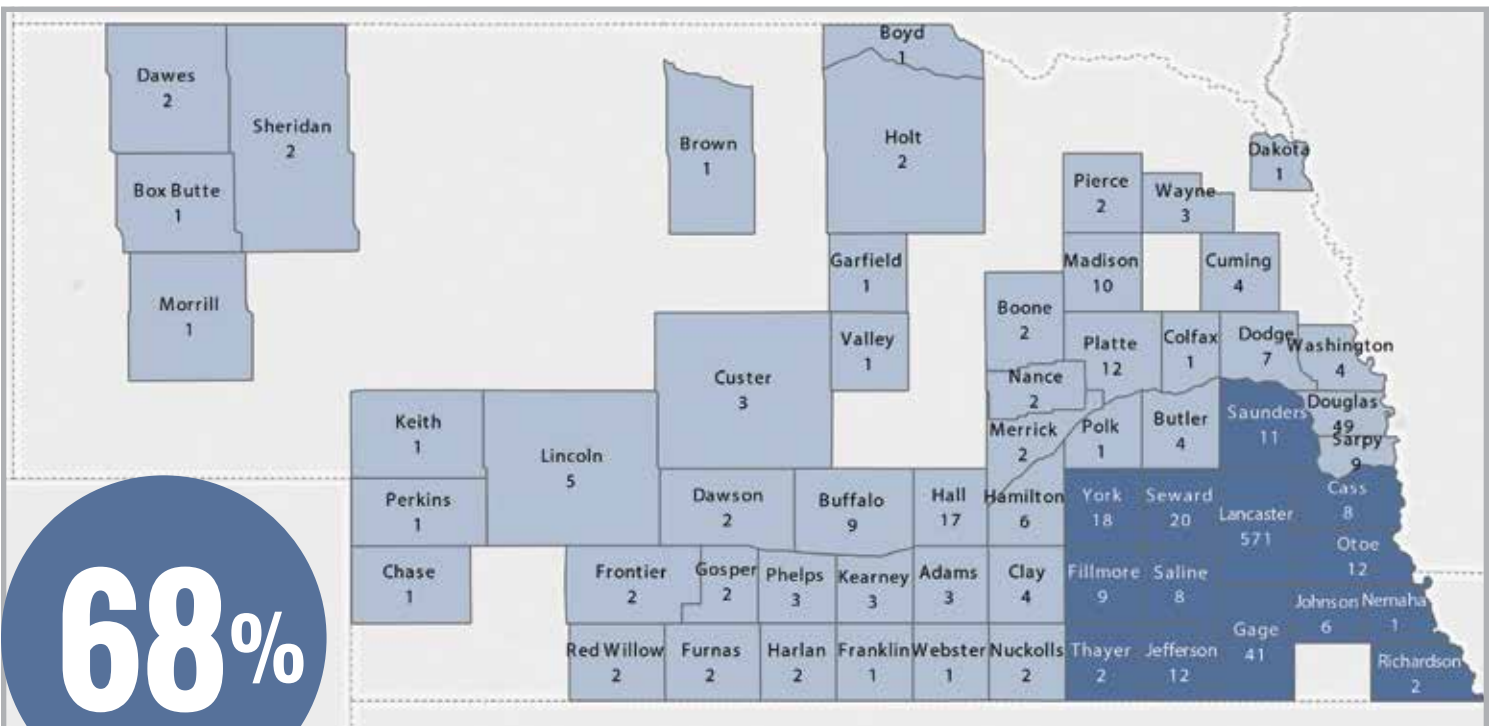

A large majority of the 1208 graduates from Career/Technical fields who responded are employed (84%) and a large majority of the 208 Academic Transfer graduates who responded are continuing their education (74%).

STATE AND REGIONAL IMPACT

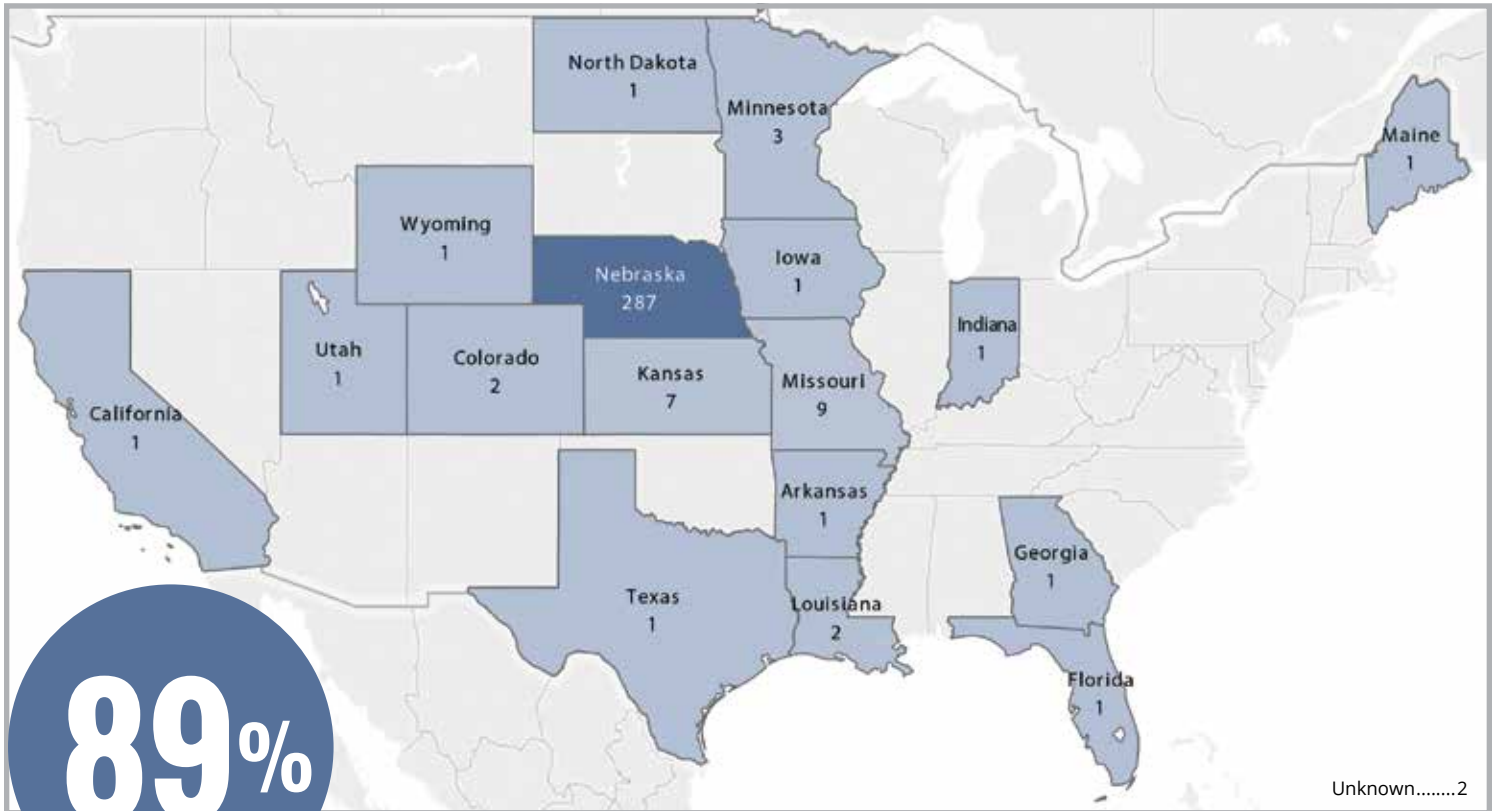

86% of employed graduates are working in Nebraska.

68% of employed graduates are working in our 15-county service area.

CONTINUING EDUCATION

89%

of graduates who are continuing their education are doing so in Nebraska.

Gathering Data

Information about the post-graduation status of SCC graduates was collected from three primary sources: directly from the graduates at or near the time of graduation, from an online survey six months after graduation, and from the National Student Clearinghouse. The information at the time of graduation was collected by the Placement Offices through personal conversations, classroom visits, telephone calls, emails, mailings, texts, and Facebook.

Wage and employment information has been

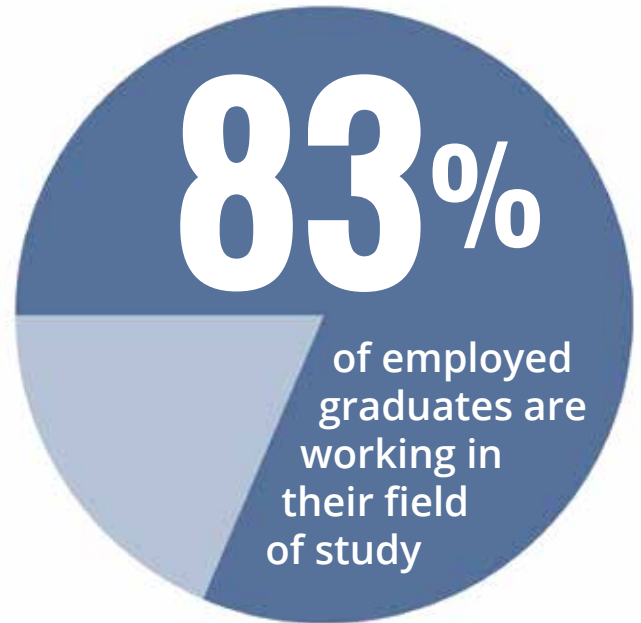

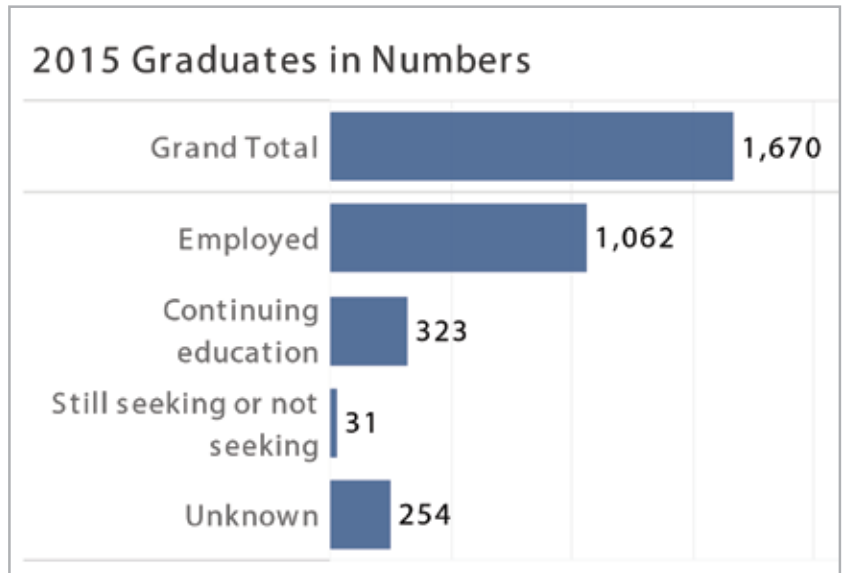

self-reported by graduates for their first job after graduation. Self-reported continuing education status was supplemented with information from the National Student Clearinghouse.

After the data collection was complete, the Institutional Research Office combined responses from the Placement Office and the online survey and supplemented that with information from the National Student Clearinghouse. For those graduates that provided SCC with information both at the time of graduation and six months later, we used the information from six months after graduation.

The final data source included 891 who provided information at the time of graduation (63%), 483 who provided information six months after graduation (34%), and 42 for whom we have only information from the National Student Clearinghouse (3%).

We removed salary information if there were fewer than three graduates in a program due to confidentiality. Graduates who gave no response are not included in the percentage calculations.

- **Total graduates during 2015: 1670**
- **Number of responses: 1416**
- **Response rate: 84.8%**

2015 Programs of Study	Number of graduates	Employed in training-related job	Employed in non-training-related job	Continuing education	Still seeking, Not seeking, No response	Percent working in Nebraska	Average Hourly Salary	Average Annual Salary

2015 Totals	1670	878	184	323	285			

All salaries based on a 40-hour work week unless noted. Salary statistics reflect certificates, diplomas and associate degrees.

(14-15) Data for these programs do not graduate students yearly and are taken from the 2014-15 report.

1 Salaries were not reported for a large enough sample and have been omitted for confidentiality.

2 Pay plans and benefits vary to include commissions and bonuses.

3 Must complete 640 hours of a state-specific Administrator-in-Training program.

4 Average annual salary for first-year drivers is \$42,000. Drivers with three years of experience average \$52,000 annually.

HIRING COMPANIES

FROM GRADUATES

Brent Benes

"SCC equipped me with the tools to succeed in the Agriculture industry. It opened more career paths for me than I imagined. Now I'm doing what I love and I'm getting paid for it. Every employer I've had has commented how much they appreciate the knowledge and skills SCC graduates enter the workforce with."

Greenhouse Research Technician, Bayer CropScience Breeding and Trait Development Station, Beaver Crossing, NE
Agriculture Business & Management Technology Graduate

Caleb Billesbach

"My experience at SCC was something that you can't get anywhere else. The teachers and staff helped me gain the knowledge to continue to get to where I am today."

Student, University of Nebraska at Kearney, Kearney, NE
Academic Transfer Graduate

Tyler Ferguson

"SCC is a good idea for anyone interested in a career as a diesel mechanic. The program gives you a basic grasp of the industry, and I had a job within four quarters of the program. I would definitely recommend the program."

Shift Lead, Crete Carrier, Lincoln, NE
Diesel Technology-Truck Graduate

Emily Forney

"I use everything that I learned at SCC. I did my cooperative training for the city of Beatrice, Board of Public Works, which turned into a job offer. I would recommend SCC to others, not just for the education but for the people."

Account Clerk, City of Beatrice – Board of Public Works, Beatrice, NE
Office Professional Graduate

Kevin Rubeck

"My experience attending Southeast Community College in Milford was outstanding. I had attended a four-year university for Construction Management and was frustrated at the lack of hands-on skills and personal attention from my professors. Going to SCC, I learned a lot of those same principles and ideas, but I also learned technical hands-on skills to back up the knowledge taught in the classroom. Upon graduation, I was hired at Bierman Contracting Inc. in Columbus, NE. After only six months, I advanced from being a laborer to foreman and now superintendent. The company recognized my motivation and attitude and helped me achieve my goal of where I wanted to be in five years in a mere six months. I am now leading a project and overseeing more than 20 different subcontracted companies from all over the United States.

The knowledge and opportunities through SCC and Bierman Contracting Inc. have allowed me to reach my goals and to set new ones."

Superintendent, Bierman Contracting, Inc., Columbus, NE
Building Construction Technology Graduate

Jason Schoneweis

"As a graduate of the Nondestructive Testing Technology program at SCC, I understand the importance of development under a program focused on fundamentals and practical application. The instructor knowledge and focus at SCC provides the platform students need to develop as NDT technicians. The inspectors in our industry are accountable for safe, reliable examinations with repeatable results, and the core foundation established at SCC prepares them to excel."

Principal Level III, GE Hitachi Nuclear Field Services, Wilmington, NC
Nondestructive Testing Technology Graduate

SUCCESS STORIES

Jason Gieselman

Jason Gieselman's company, Ink Alley Screenprint + Design, offers screen printing, embroidery, and graphic design solutions. Using Gieselman's 2013 Visual Publications degree and a drive to provide quality products and service, he and his business partner have created a culture where customer service is their first priority. Centrally located in downtown Lincoln, their business is working with a mix of individuals, businesses, organizations, and events. Combined with their high energy and recognized by their clients as creative, competitive, and flexible, Jason credits his degree with providing a solid start for his business.

Visual Publications Graduate

Jeremy Seggerman

Receiving his badge from Beatrice Mayor Stan Wirth, Jeremy said the department as a whole provides a great service to the community. Fire and Rescue Chief Brian Daake said, "the ceremony served as a chance to recognize Captain Seggerman for his hard work and dedication to the department."

Captain, Beatrice Fire & Rescue, Beatrice, NE
Fire Protection Technology Graduate

Kyle Herek

"I am working directly with Nebraska Medicine. Over the last few years I've been part of a team working to design a new inventory management solution, which is now being implemented across the Nebraska Medicine enterprise. Additionally this solution also is being implemented with many other hospital systems such as Cleveland Clinic and Henry Ford. During this time I have also worked to complete my bachelor's degree in Supply Chain and Logistics Management."

Supervisor of Site Operations and Project Manager, Cardinal Health
Surgical Technology Graduate

FROM EMPLOYERS

"I have hired several young drivers during my tenure with Sapp Bros Inc., and wanted to commend the Professional Truck Driver Training program for the excellent job they do with training. Our employee has exceeded all expectations of an inexperienced driver for his driving skills and attitude. We are very fortunate to be one of the beneficiaries of an excellent graduate from your institution."

Bill Young, Manager, Sapp Bros. Inc., York, NE

"SCC interns and graduates have proven to be very valuable pieces to our workforce. They show up prepared with the work ethic and the skills to step into a number of roles within our operation."

Justin Schmitz, Branch Manager, Helena Chemical Company, Centralia and Seneca, KS
