<input type="checkbox"/> Wire Strippers
<input type="checkbox"/> Scratch Awl
<input type="checkbox"/> Wire Crimping Tool |
|---|--|---|

Note those tools marked with an asterisk (*) are to be obtained before your first day of employment

Employees may carry additional small hand tools. The employer can inspect tools before the employee is put to work or at any reasonable time. A representative of the Local Union may also inspect the employee's tools at any reasonable time. The employer shall replace any or all of the above tools for losses due to theft, provided the tools are put away in the workman's own toolbox, secured with a lock and placed in a safe storage area provided by the Employer at the end of the work period. It will be the responsibility of the Employer to see that the apprentice has provided a suitable storage area.

Section 3.14: The Employer shall furnish all other necessary tools or equipment, including all necessary and/or required safety equipment and apparel. Other tools may be needed to perform in a workman-like manner. Apprentices must realize that it is not journeyman's obligation to furnish tools regularly needed by the apprentice in order to carry their share of the job progress. Apprentices will be expected to furnish their own transportation; that is, capable of getting themselves and their personal tools to work and class before the assigned starting time".

This list includes the basic tools a student will be required to have to successfully complete the program. The student should discuss with their program advisor the timeline for purchasing specific tools and suggested optional tools. The College does not recommend, nor endorse, any specific brand of tools. The student should give careful consideration when selecting tools they will use in their career. (10/1/2025)
