

Personality + Career

Students in SCC’s Academic Transfer programs are curious, have strong interpersonal, verbal, and written skills, and are good critical thinkers. They have a desire to learn from diverse viewpoints and can effectively evaluate and apply information to solve problems and make decisions. Academic Transfer students also have a desire to pursue a bachelor’s degree or higher.

| Program           | Credential           | What do students learn in the program?   | Transfer Opportunities  |
|-------------------|----------------------|--|---|
| Academic Transfer | Associate of Arts    | Students take courses in subjects such as English, math, science, art, history, psychology, sociology, political science, economics, music, languages, and speech. The Associate of Arts program places <b>emphasis on humanities and social science</b> courses to prepare students to pursue a bachelor’s degree in fields such as education, humanities, social science, social work, etc.                      | Students in SCC’s Academic Transfer program have the opportunity to transfer to almost any institution. Students should contact a transfer advisor at their destination school to determine transfer requirements.<br>Nebraska college and university transfer information can be found: <a href="https://southeast.edu/transfer-information">southeast.edu/transfer-information</a>                              |
| Academic Transfer | Associate of Science | Students take courses in subjects such as math, biology, chemistry, physics, English, political science, computer science. The Associate of Science program places <b>emphasis on math and science</b> courses to prepare students to pursue a bachelor’s degree in fields such as agriculture, computer science, engineering, science, mathematics, etc.  | Students in SCC’s Academic Transfer program have the opportunity to transfer to almost any institution. Students should contact a transfer advisor at their destination school to determine transfer requirements.<br>Nebraska college and university transfer information can be found: <a href="https://southeast.edu/transfer-information">southeast.edu/transfer-information</a>                              |
| Global Studies    | Certificate          | The Global Studies certificate offers a strong global foundation necessary for future success. This program is the perfect complement if you want to enter the workforce with the language and critical thinking skills necessary to be a leader in your community.<br>Gaining an international perspective can increase your desirability to employers and will complement several academic fields, fields.       | If you would like to add a global perspective to your resume to make you a more competitive candidate in a diverse, international workforce, then the Global Studies certificate is perfect for you.<br>Courses in the Global Studies Certificate courses are eligible for transfer to other colleges and universities.   |
| Psychology        | Associate of Arts    | In this program we will explore mental processes, social influences, the development process and how each of these areas influence humans and our behavior. Students will utilize the scientific method to explore humanity, doing so with a theoretical focus. Psychology is a vast field with many possible focus areas which allow students to work with, and explore, human behavior from multiple viewpoints. | The AA in Psychology curriculum is designed for flexibility and broad applicability to four-year transfer institutions. Since Baccalaureate degree requirements vary from institution to institution, the course options within each category are intended to provide a broad base of psychology and general education courses that fulfill many requirements at various colleges and universities in our region. |

Students who graduate from these programs are not eligible for specific exams, licenses, or credentials, but often complete pre-requisite coursework for advanced degrees at other institutions. Required supplies are dependent upon the courses students select. For example, some art or science courses may require specific supplies or include lab fees. Uniforms are not required.

Academic Transfer

- Associate of Arts
- Associate of Science
- Global Studies
- Psychology

SCC’s Academic Transfer program provides a strong pathway to a bachelor’s degree and beyond!

The Associate of Arts and Associate of Science degrees equip students with a strong academic foundation and are a smart investment in your future. Students earn college credit that transfers to almost any four-year college or university without the financial cost of other schools.

The Associate of Arts in Psychology prepares students to transfer to a four year institution to major in psychology or a related field. Students will gain a broad base exposure to psychology while completing general education courses. Additionally, SCC offers a Global Studies Certificate, giving students a strong global foundation, making them more competitive in a diverse, international workforce.

SCC’s Academic Transfer programs take great pride that our graduates are well-prepared for success at their transfer colleges and are sought out by other schools because of their preparation and academic ability.

# The SCC Experience

- » Academic Transfer students benefit from intentional advising. Each SCC student is assigned two advisors to support and guide them as they work toward their goals. The College Advisor is well connected to four-year school representatives and is trained to specifically advise transfer students on requirements. The faculty advisor is an expert in their field of study and connects students with opportunities in and out of the classroom, based on the student's interests. Both advisors are committed to student success and are available to answer questions for students.
- » SCC's Academic Transfer faculty are among the best! Our faculty are highly qualified, with more than one-third holding doctoral degrees. Students learn in small class sizes and receive individual attention from qualified experts rather than teaching assistants.
- » The Academic Transfer program is committed to real-life experiences for students in and out of the classroom. Students participate in engaged learning activities that equip them with essential skills such as teamwork, critical thinking, communication, and more. Outside of the classroom, students can participate in internships and practicums, service learning projects, the annual speech contest, department clubs such as the Psychology/Sociology Club, Chemistry Club, or Humanities Club, the College's newspaper or creative works publication, or travel in the U.S. and abroad through study away and global education trips.
- » At SCC, those pursuing an AA in Psychology and intending to transfer into the 4-year level, are afforded several opportunities early on in their degree pathway including the Psychology/Sociology Club where they can meet like-minded peers, explore the field in more in-depth ways and foster connections with faculty beyond the classroom. Students are able to pursue internships in a psychology related field and receive college credit. Students are also able to participate in several opportunities to grow their research and presentation experience.
- » Our Global Studies Certificate program affords students a small investment with a big return. Students who have other career interests but want to show their employer their commitment to global issues can add this certificate to any other existing degree and, with some foresight and intention, take classes that they would need for several other degree programs. One of the options of this coursework includes an internship related to Global Issues, allowing students an early-career opportunity to explore and further determine interests as well as areas that may not be a good fit.

Transfer Admissions Representatives from the following colleges and universities regularly visit SCC:

- Bellevue University
- Bryan College of Health Sciences
- Concordia University
- Doane University
- Nebraska Wesleyan University
- Peru State College
- University of Nebraska – Lincoln
- University of Nebraska Omaha
- Wayne State College
