Associate Degree Nursing

Registered nurses play a vital role on the front lines of the healthcare workforce. Our intensive curriculum prepares you to excel as a competent, confident and compassionate nurse. Your learning environments include in-person classes, labs, clinicals, and simulated patient care environments.

As a registered nurse, your role will be to provide and coordinate patient care, ensuring the best possible outcomes, and being a patient advocate.

This program is accredited by the Accreditation Commission for Education in Nursing, Inc., 3390 Peachtree Road NE, Suite 1400, Atlanta, GA 30326, Phone 404-975-5000, www.acenursing.org; and approved by the Nebraska Board of Nursing.

This program leads to licensure or certification. Refer to the program's webpage for information on states and territories where this program does and does not meet requirements. For more information, contact the program director.

The SCC Experience

- » You will take classes and practice your nursing skills in our state-of-the-art Health Sciences building and Interdisciplinary Center.
- » Students gain excellent skills as they will spend time at clinicals and in lab settings. This level of hands-on experience prepares SCC graduates to immediately enter the workforce!
- » Clinical experiences are held at a variety of facilities in Lincoln and surrounding communities in multiple areas of nursing care and specialties, giving students a well-rounded experience caring for a variety of patients.
- » SCC maintains strong partnerships with many area four-year colleges and universities, ensuring students have a smooth transition for furthering their education. SCC provides a strong foundation in nursing education that prepares students to excel as they pursue their bachelor's, master's, and beyond!
- » You will be well-prepared to take the NCLEX-RN exam.

Program	What is the starting term for each program option?	In what term do students start clinicals?	Where do students participate in clinicals?	In general, what time of day and days of the week can students expect to attend clinical?	Will the program help student secure their sites? Do students need to contact clinical sites prior to acceptance/placement?	How many clinical hours do students complete in the program?
Associate Degree Nursing – LPN-to-ADN	Spring	Typically the second term, may depend on the student's individual plan.	Students may be assigned to clinical in Lincoln, Beatrice, and surrounding areas. Students will attend clinical in a variety of sites including hospitals, long-term care, and clinics.	Clinical will be scheduled based on facility availability and will vary based on each facility. Students typically attend 1-3 days per week of clinical between the hours of 6:00am-10:00pm (these time frames are subject to change). The amount per week and time frames will depend on the term the student is enrolled as well as facility availability.	The clinical coordinator will place students in clinical sites based on required hours, specialties, rotations, and availability. The program meets with other nursing schools in the area every 6 months to determine which sites are available to students. Students should not contact potential clinical sites.	383
Associate Degree Nursing – Traditional AAS	Fall/Spring	Typically the second term, may depend on the student's individual plan.	Students may attend clinicals in Beatrice, Lincoln, and surrounding communities.	Clinical will be scheduled based on facility availability and will vary based on each facility.
