ECON-2110

Principles of Macroeconomics

Prerequisite: It is recommended that students have a strong college level math and accounting background before taking this class.

This course is a study of the “big ideas” of macroeconomics such as GDP, inflation, unemployment, labor, and international trade. A look at public-policy decision making using macro theories such as: monetary policy, fiscal policy and other economic-stabilization theories, also is presented. This course will also examine the economic challenges facing our economy.
