Forest Bathing
Forest Bathing, or Shinrin-yoku, is the practice of engaging our senses in the restorative forest environment for mental and physical health benefits. The practice began in Japan and has grown in its use throughout the world. It has been shown to mitigate stress, reduce anxiety, anger, depression and sleeplessness. Components of plants and the natural environment have been found to stimulate positive immune system responses. Join us at the Prairie Pines Nature Preserve to participate in gently guided activities that engage your senses in connecting you to the energy and restoration of the natural world.
