Equal Opportunity/NonDiscrimination Policy - It is the policy of Southeast Community College to provide equal opportunity and nondiscrimination in all admission, attendance, and employment matters to all persons without regard to race, color, religion, sex, age, marital status, national origin, ethnicity, veteran status, sexual orientation, disability, or other factors prohibited by law or College policy. Inquiries concerning the application of Southeast Community College's policies on equal opportunity and nondiscrimination should be directed to the Vice President for Access/Equity/Diversity, SCC Area Office, 301 S. 68th Street Place, Lincoln, NE 68510, 402-323-3412, FAX 402-323-3420, or jsoto@southeast.edu. This publication should not be considered a contract between SCC and any prospective student. SCC's Board of Governors reserves the right to make changes in this publication during the life of the publication and without notice. A0700 - AT (09/20)

Your goal is to obtain a bachelor's degree, but without the debt that comes with taking every class at a four-year school. SCC is here to help! Our open-access program offers anyone a pathway to a bachelor's degree. Whether you plan to major in art, zoology, or anything in between, SCC advisors will work with you to develop an academic plan appropriate for your transfer and career goals.

Begin Your Path to Possible today!

SCC is the Right Choice

- Our small class size means more individual attention from your instructors
- Our faculty are highly qualified in their fields of study with more than one-third holding doctoral degrees, so you work with experts, not teaching assistants
- Get real-world experience to compliment your coursework. SCC offers practicum experiences for students interested in education and theatre. Political science internships also are available.
- If you're concentrating on biotechnology, you will gain hands-on lab skills during a practicum experience, making you highly marketable to biotech companies
- SCC works closely with four-year schools to develop transfer guides, and can help you select the classes that will best transfer
- Tailored advising services are available to support you in and out of the classroom, and advisors will work with you to create an educational plan that fits with your academic, career and personal goals
- Extend your learning and classroom experiences by participating in groups like Psychology/Sociology Club, Humanities Club and Chemistry Club; experiences in the Native American, African American and Latin X Read-Ins; opportunities to help youth with science experiments at Family Science Night; research experiences in Biotechnology and Psychology Research Methods; Theatre and Choral performances; a Speech Contest; contributing to SCC's literary magazine, "Illuminations," and more

"I loved teaching English classes at SCC, mostly because of the amazing students we have. We have such a wide variety of learners, representing a range of ages and backgrounds, which makes the classroom environment so rich and interesting. It's great that we keep our class sizes small enough that students can get to know one another and instructors can get to know and learn from their students. I taught writing classes, so I had the opportunity to read about the experiences and interests of our students, and I was always learning something and gaining inspiration from them."

Dr. Carolee Ritter
Dean, Arts & Sciences Division
