HEATING, VENTILATION, AIR CONDITIONING & REFRIGERATION TECHNOLOGY

Do you enjoy using your hands to troubleshoot and fix things? Are you able to follow step-by-step instructions to properly design, build, install, service, and repair things? If the answer is yes, our Heating, Ventilation, Air Conditioning & Refrigeration Technology program is right for you! Our two-year program will provide you basic knowledge of the HVAC/R industry and put you on track toward a successful rewarding career.

SCC is the Right Choice

There is a high demand for well-trained HVAC/R technicians nationwide, and SCC’s program often leads to EPA certification for refrigerant handling.

- You’ll learn heating and cooling checks, work on projects in refrigeration, sheet metal and brazing and learn how to install an HVAC system in our student-built house
- Receive hands-on training in a variety of lab settings using the same equipment and test instruments used in the field
- Our program graduate employment rate is high, with 93% of 2019 graduates finding work in the industry
- To gain valuable experience working with a company, students will take a 240-hour paid Cooperative Experience from May to July

Equal Opportunity/NonDiscrimination Policy - It is the policy of Southeast Community College to provide equal opportunity and nondiscrimination in all admission, attendance and employment matters to all persons without regard to race, color, religion, sex, age, marital status, national origin, ethnicity, veteran status, sexual orientation, disability, or other factors prohibited by law or College policy. “...the partnership between the HVAC program at SCC and Shanahan’s has been essential in keeping our business supported with well-rounded individuals in the HVAC trade. Over the last several decades, we have grown and adapted new technology, much of this was through our involvement with SCC faculty and staff. The graduation placement percentage and job opportunities are key indicators of how valuable this program is. We truly appreciate our relationship with all of the programs at SCC.”

-Todd Hilfiker, Operations Manager, IES Commercial Inc., dba Shanahan Mechanical & Electrical, Lincoln, NE

Prior to graduation, students will be required to take the Industry Competency Exam. The ICE measures industry-agreed standards of basic competencies for entry-level technicians.
