Power up your career as a successful technician by enrolling in SCC's John Deere Tech program. The College has been a proud partner with Deere & Company since 1989 and was the first of its kind in the U.S. SCC has trained entry-level technicians for the company’s vast network of dealerships ever since. Our instructors have completed extensive John Deere technician training, and you’ll have the opportunity to work on the latest equipment and technology. Our program is designed to upgrade your technical competence on machinery that continues to get more sophisticated as you begin your career at a John Deere dealership.

Why SCC?

You will receive classroom lecture and real-life laboratory experiences on John Deere products at our Milford Campus and a unique opportunity to work at a John Deere dealership. Each specialized subject is studied in the classroom and laboratory on campus, followed by related work experience at the dealership. Classroom instruction covers the basics as well as the latest developments in all John Deere agricultural and consumer products.

- Prior to entering the program, you will secure a sponsoring John Deere dealer and continue employment at that dealership after graduation
- Receive hands-on learning in an outstanding facility that can accommodate several pieces of large equipment
- You’ll use the newest John Deere tools on the newest John Deere equipment
- You’ll use John Deere websites for information and service and have access to all John Deere resources
- Learn about engines and fuel systems; hydraulics and power trains; electrical and electronics; tillage, seeding and harvesting equipment; HVAC systems; and oxy acetylene and gas metal arc welding

Top Career Options

- John Deere dealership technician

Graduate Earnings

Recent graduates report an average starting salary of $36,608 per year.
