SCC's Long Term Care Administration program will prepare you for a leadership role at a long-term care community. If your passion is to care for people of all ages, provide high-quality care and lead your facility to greater heights, this program is for you. Many program graduates begin their careers in rural settings, where there is a need for nursing home and/or assisted living administrators.

*"This program has created a solid foundation for my future in long-term care. The instructors helped me achieve my goals of becoming a long term care administrator through providing me with knowledge and confidence, which led me to successfully passing my boards. By completing this program it has only enhanced my passion for working in the long term care setting."*

-Jessica Crunk, Chief Executive Officer  
 Nebraska City

## SCC is the Right Choice

Our entire Associate of Applied Science degree focuses on long-term care, which is unique among schools that offer the program. Our curriculum emphasizes knowledge and skills you'll need as an administrator, and many real-life situations are brought to the classroom to help students identify solutions and prepare for on-the-job experiences.

- Our program is 100% online
- Receive real-world experience by observing best practices and conducting interviews at local and area long-term care facilities
- Choose the Assisted Living Administration focus or the Nursing Home Administration focus
- This degree meets the education requirements for licensure as a Nursing Home Administrator and exceeds the education requirements for approval as an Assisted Living Administrator in the state of Nebraska.

Additional requirements must be met in order to obtain a Nursing Home Administrator license. This includes completion of a state-approved "administrator-in-training" or mentoring program and passing a national licensing examination. These are usually completed after graduation and are not part of this program. Education and training requirements vary from state to state, and it is advisable to check the specific requirements for your state before beginning this or any program of study. In states that require additional formal education, individual courses from this degree program are often accepted as transfer credits.

## Top Career Options

- Nursing home administrator
- Assisted living administrator
- Leadership role in long-term care
