402-437-2756, 800-642-4075 ext. 2756,
 kzabel@southeast.edu

Our Medical Assisting program prepares you to work in physician offices. Some of the many skills you will learn are: taking vital signs, height and weight, drawing blood, testing blood and urine, throat and nasal swabs, injections, electrocardiograms, vision and hearing screenings, infant measurements, and assisting with minor surgeries. You also will learn how to do many of the skills needed at the front of the physician office such as checking in patients, making appointments and referrals, bookkeeping, and insurance and coding. The following physician offices hire SCC Medical Assisting graduates: family practice, allergy and asthma, cardiology, dermatology, ENT, endocrinology, internal medicine, oncology, pediatric, podiatry, OB-GYN, ophthalmology, optometry, pulmonology, and urology.

SCC is the Right Choice

Our program will prepare you to become a competent entry-level medical assistant in the cognitive (knowledge), psychomotor (skills) and affective (behavior) learning domains.

• Enjoy flexibility by attending full- or part-time
• Complete 225 hours of supervised practicum experience in physician offices during the final term
• You’ll take the CMA (AAMA) Certification Exam prior to graduating
• An optional course is offered to help students obtain a Limited Radiographer License in Nebraska. Those students may then be able to take X-rays of the chest and extremities in a doctor’s office.

Health Information Management Systems

Southeast Community College, in cooperation with Central Community College, provides the opportunity for students to receive an associate degree in Health Information Technology or a Diploma in Medical Coding or Reimbursement Specialist.

If interested, see the Academic Transfer program or contact:
