

2021  
2022

**YOUR FUTURE. YOUR CHOICE.**

[www.southeast.edu/AcademicTransfer](http://www.southeast.edu/AcademicTransfer)

*CHOOSE YOU!*

Your goal is to obtain a bachelor's degree, but without the debt that comes with taking every class at a four-year school. SCC is here to help!

Our open-access program offers anyone a pathway to a bachelor's degree. With courses available across the STEAM disciplines (science, technology, engineering, arts, and math), as well as the humanities and social sciences and a growing list of honors course options, SCC advisors will work with you to develop an academic plan appropriate for your interests as well as transfer and career goals.

Whatever your goals, the Academic Transfer Program offers you the opportunity to develop the essential skills and abilities to help you succeed in life, such as:

- critical thinking
- problem solving
- analytical reasoning
- inquiry and research
- communication and listening
- teamwork
- leadership
- adaptability
- organization and time management

## SCC is the Right Choice

- Our small class sizes means more individual attention from your instructors.
- Our faculty are highly qualified in their fields of study with more than one-third holding doctoral degrees, so you work with experts, not teaching assistants.
- SCC works closely with four-year schools to develop transfer guides and can help you select the classes that will best transfer. Advising and admissions representatives from the University of Nebraska, Nebraska Wesleyan University, Bellevue University, Doane University, and others are available on campus regularly to answer questions and facilitate a smooth path to your intended transfer institution.
- Get real-world experience to complement your coursework. SCC offers practicum experiences for students interested in education and theatre, internships in political science, and service learning opportunities in a variety of other courses.
- Tailored advising services are available to support you in and out of the classroom, and advisors will work with you to create an educational plan that fits with your academic, career and personal goals.
- Extend your learning outside of the classroom by participating in groups like the Psychology/Sociology Club, Humanities Club, and Chemistry Club; in experiences like the Native American, African American, and Latin X Read-Ins; in opportunities to help youth discover science at Family Science Night; and in events like the annual Speech Contest.
- Through the transfer program's credit classes you have opportunities to participate in undergraduate research in science and psychology, take lessons in guitar or piano or voice, participate in theatre productions or choral groups, create fine art, engage in service learning in the community, write stories for and help produce the school newspaper, contribute to the College's award-winning creative works publication, Illuminations, and more!

Credit hours required for graduation:

<b>Academic Transfer</b>	
»Associate of Arts .....	60
»Associate of Science .....	60
