

2021
2022

YOUR FUTURE. YOUR CHOICE.

www.southeast.edu/Agriculture

CHOOSE YOU!

Agriculture is one of the most diverse industries in the world. It is because of this diversity that students enroll in SCC's Agriculture Management & Production program. This degree allows you to personalize your focus area reflecting your interest in agribusiness, agronomy, or diversified agriculture.

You will gain hands-on education both inside and outside the classroom using the latest technology. Our 900-acre lab gives you the opportunity to get real-world experiences and train on the newest leased equipment.

We have a large array of students who pursue opportunities within the agriculture industry in marketing, insuring and processing, as well as returning to manage family farming or ranching operations.

Begin Your Path to Possible today!

SCC is the Right Choice

- Gain knowledge and skills through cooperative and internship experiences across the U.S. and abroad.
- Small class sizes for more individual attention.
- Dedicated instructors have been trained in the areas in which they teach.
- You will receive personalized attention from faculty who care about your success, personally and professionally.
- Lab scenarios include the birthing of calves, scouting crops for insects and disease, and utilizing modern technologies in order to enhance your knowledge and skills.
- Receive one-on-one advising from an experienced ag professional, helping you to meet your professional goals.
- A Certificate in Precision Agriculture can easily be coupled with any of our focus areas and be completed within the degree time frame.
