CHOOSE YOU!

SCC's Dietary Manager program is approved by the Association of Nutrition & Foodservice Professionals and will provide you with the necessary skills to manage foodservice operations in non-commercial organizations such as hospitals, long-term care facilities, schools, and correctional facilities.

Instructors who are registered dietitian nutritionists will work closely with you to reach your goals and directly supervise a minimum of 25 of the nutrition-related field experience hours. Foodservice field experience hours are precepted by an RDN or with the approval of the program director, a dietetic technician, registered with at least one year of practitioner experience. The remaining 25 hours are directly supervised by a CDM, CFPP, DTR, or RDN.

In the absence of an RD, DTR, or CDM, CFPP and with the approval of the program director, other healthcare foodservice professionals, like executive chefs and directors of foodservice, who have a minimum of five years of work experience in a managerial or supervisory capacity in non-commercial foodservice that includes third-party oversight, such as CMS, TJC, state department of health, etc. can precept foodservice field experience.
