CHOOSE YOU!

**STEM**

*Nondestructive testing is examining an object without destroying its usefulness. Our Nondestructive Testing Technology program is one of a few programs of its kind in the United States.*

*We train students to examine products and materials for flaws without damaging the products. Graduates take pride in knowing they are doing something to keep our world safe.*

*Jobs can be found in many industries, including aerospace, power generation and utilities, chemical and petrochemical, defense and military (civilian and enlisted), general manufacturing, and transportation.*

## SCC is the Right Choice

- NDT's radiography training includes actual X and Gamma radiography, as well as two digital modalities.
- Advanced NDT concepts in the areas of phased-array ultrasonic testing and Eddy Current testing techniques, along with multi-frequency Eddy current applications, are offered.
- SCC has a very well-balanced program which emphasizes strong fundamentals in the six primary areas of NDT.

## » Career Options

- NDT Technician
- NDT Inspector
- NDT Engineer
- Research and Development Specialist
