STEM

Tens of millions of adults have a sleep disorder, and while the sleep industry has grown, so have the careers to support it. Develop the skills of a sleep technologist in SCC's Polysomnographic Technology program.

Our program will provide you the knowledge and skills to diagnose and treat sleep disorders such as sleep apnea, periodic limb movement disorder, narcolepsy, restless legs syndrome, insomnia, and nighttime behaviors like sleepwalking and REM sleep behavior disorder.

Also, our program is ideal for students who have already obtained an associate degree in a health science-related field of study and are looking for a career change.

"As a working mom of two, returning to school had always been difficult. SCC made it easy for me to take that step. I received the guidance and help I needed all throughout the program, making it easy for me to succeed. I am grateful to SCC for helping me achieve my goal and build a career for myself as an RPSGT."
