CHOOSE YOU!

STEM

The duties of a Lincoln Electrical Joint Apprenticeship and Training Center inside wireman include, but are not limited to, working on commercial and industrial electrical systems, including:

- planning and initiating a project
- establishing temporary power during construction
- establishing a grounding system
- installing services to buildings and other structures
- establishing power distribution
- planning and installing raceway systems
- installing new wiring and repairing old wiring
- wiring power and controls for motors, HVAC, and other equipment
- installing receptacles, lighting systems and fixtures
- troubleshooting and repairing electrical systems
- installing fire alarm systems

SCC is the Right Choice

- This unique partnership between the LEJATC and SCC provides the student the opportunity to "Earn While You Learn."
- Students who are accepted into this five-year program will work full time during the day, earning wages and benefits, and are required to attend trade-related classes in the evenings. These classes are two nights a week for three hours each night for about eight months out of each year of apprenticeship.
- Upon completion of the five-year program, students can earn an Associate of Applied Science degree and will receive a certificate of completion from the United States Department of Labor as well as the LEJATC.

More about the program

This program has been registered with the U.S. Department of Labor since 1946. It is offered through SCC, which is accredited through the Higher Learning Commission.

Program is five years in length and requires at least 900 hours of classroom instruction and at least 8,000 hours of on-the-job training.

Class start time:

- Fall term: last Thursday in August
- Spring term: second Monday in January

The **classroom training** will take place at LEJATC, 1415 Old Farm Road, in Lincoln, Nebraska.

On-the-job training will take place at various jobsites located within the jurisdiction of IBEW Local #265.

In addition to employment, students who are accepted into this program also receive **tuition assistance through LEJATC. Contact LEJATC for more information.

Electrician Construction - IBEW Option - Lincoln Electrical JATC **Inside Apprentice Tool List**

This is the required list of tools for anyone working under the Collective Bargaining Agreement between IBEW Local #265 and the Nebraska Chapter of NECA.

The following is taken from the Collective Bargaining Agreement: Section 3.13:

“(a) All Employees covered by this agreement shall provide themselves with and keep in first class condition, a suitable toolbox equipped with a lock in good working order and a kit of tools consisting of:

- | | | |
|--|--|----------------------------|
| 1) 2 Pair Channel Lock Pliers (or equivalent) * | 7) Knife (utility or equivalent) * | 15) 7 Piece Nut Driver Set |
| 2) Assortment of Screwdrivers; Med. Straight, Large Straight, and #2 Phillips* | 8) Level, not over 18” in length * | 16) Set of Allen Wrenches |
| 3) Diagonal Cutting Pliers * | 9) Long or Needle Nose Pliers * | 17) Plumb Bob |
| 4) Claw Hammer * | 10) EMT Reamer; ½”, ¾”, and 1” | 18) Chalk Line |
| 5) Hacksaw Frame * | 11) Adjustable Wrench or Combination Wrench Kit; 1/4” to 9/16” | 19) Flashlight |
| 6) 6’ Wood Ruler and/or Tape measure (16’ minimum) * | 12) Small Steel Drill Bits, not over ¼” | 20) Wire Strippers |
| | 13) Tap Wrenches, 6/32, 8/32, 10/24, 10/32, and ¼ x 20 | 21) Scratch Awl |
| | 14) Voltage Tester for Nominal Voltages | 22) Wire Crimping Tool |

Note those tools marked with an asterisk (*) are to be obtained before your first day of employment

Employees may carry additional small hand tools. The employer can inspect tools before the employee is put to work or at any reasonable time. A representative of the Local Union may also inspect the employee’s tools at any reasonable time. The employer shall replace any or all of the above tools for losses due to theft, provided the tools are put away in the workman’s own toolbox, secured with a lock and placed in a safe storage area provided by the Employer at the end of the work period. It will be the responsibility of the Employer to see that the apprentice has provided a suitable storage area.

Section 3.14: The Employer shall furnish all other necessary tools or equipment, including all necessary and/or required safety equipment and apparel. Other tools may be needed to perform in a workman-like manner. Apprentices must realize that it is not journeyman’s obligation to furnish tools regularly needed by the apprentice in order to carry their share of the job progress. Apprentices will be expected to furnish their own transportation; that is, capable of getting themselves and their personal tools to work and class before the assigned starting time”.
