

Personality + Career

Students in SCC's Academic Transfer programs are curious, have strong interpersonal, verbal, and written skills, and are good critical thinkers. They have a desire to learn from diverse viewpoints and can effectively evaluate and apply information to solve problems and make decisions. Academic Transfer students also have a desire to pursue a bachelor's degree or higher.

Program	Credential	What do students learn in the program?	Transfer Opportunities	Are graduates prepared for/to complete exams for specific credentials/licensing/certifications at the end of the program?	Required Tools, Supplies, and Uniforms
Academic Transfer	Associate of Arts	Students take courses in subjects such as English, math, science, art, history, psychology, sociology, political science, economics, music, languages, and speech. The Associate of Arts program places emphasis on humanities and social science courses to prepare students to pursue a bachelor's degree in fields such as education, humanities, social science, social work, etc.	Students in SCC's Academic Transfer program have the opportunity to transfer to almost any institution. Students should contact a transfer advisor at their destination school to determine transfer requirements. Nebraska college and university transfer information can be found: southeast.edu/transfer-information	Students are not eligible for specific exams, licenses, or credentials, but often complete pre-requisite coursework for advanced degrees at other institutions.	Required supplies are dependent upon the courses students select. For example, some art or science courses may require specific supplies or include lab fees. Uniforms are not required.
Academic Transfer	Associate of Science	Students take courses in subjects such as math, biology, chemistry, physics, English, political science, computer science. The Associate of Science program places emphasis on math and science courses to prepare students to pursue a bachelor's degree in fields such as agriculture, computer science, engineering, science, mathematics, etc.	Students in SCC's Academic Transfer program have the opportunity to transfer to almost any institution. Students should contact a transfer advisor at their destination school to determine transfer requirements. Academic Transfer

- Associate of Arts
- Associate of Science
- Global Studies

» southeast.edu/academictransfer

SCC's Academic Transfer program provides a strong pathway to a bachelor's degree and beyond! The Associate of Arts and Associate of Science degrees equip students with a strong academic foundation and are a smart investment in your future. Students earn college credit that transfers to almost any four-year college or university without the financial cost of other schools. SCC's Academic Transfer program is committed to student success and delivering engaging and challenging courses to prepare students for their next step in a supportive environment. SCC's Academic Transfer program takes great pride that our graduates are well-prepared for success at their transfer colleges and are sought out by other schools because of their preparation and academic ability. The Academic Transfer degree also validates a student's ability to successfully complete college-level coursework, further expanding career advancement opportunities for students with job experience. Your Path to Possible starts with SCC's Academic Transfer program!

The SCC Experience

- » The Academic Transfer program offers both an Associate of Arts and an Associate of Science degree. The **Associate of Arts** degree allows students to focus their study on liberal arts coursework such as language, humanities, religious, social sciences, fine arts, etc. preparing students to transfer and complete a bachelor's degree in areas like education, psychology, music, social work, history, and more! The **Associate of Science** degree gives students the opportunity to focus their study on math and science courses, preparing them to complete a bachelor's degree in science, engineering, math, and more. Students in the Associate of Science focus their study in math and science to prepare them for advanced coursework in those areas. The result of these offerings is that SCC Academic Transfer graduates are prepared for any future educational goals!
- » Academic Transfer students benefit from intentional advising. Each SCC student is assigned two advisors to support and guide them as they work toward their goals. The College Advisor is well connected to four-year school representatives and is trained to specifically advise transfer students on requirements. The faculty advisor is an expert in their field of study and connects students with opportunities in and out of the classroom, based on the student's interests. Both advisors are committed to student success and are available to answer questions for students.
- » SCC's Academic Transfer faculty are among the best! Our faculty are highly qualified, with more than one-third holding doctoral degrees. Students learn in small class sizes and receive individual attention from qualified experts rather than teaching assistants.
- » The Academic Transfer program is committed to real-life experiences for students in and out of the classroom. In the classroom, students participate in engaged learning activities that equip them with essential skills such as teamwork, critical thinking, communication, and more. Outside of the classroom, students can participate in music and theatre ensembles and performances, internships and practicums, service learning projects, the annual speech contest, department clubs such as the Psychology/Sociology Club, Chemistry Club, or Humanities Club, the College's newspaper or creative works publication, or travel in the U.S. and abroad through study away and global education trips.
