

## Personality + Career

Culinary students are creative and passionate about food. They enjoy working with their hands, have good attention to detail, enjoy variety, and are committed to customer service. Physical stamina to stand for long periods and the ability to multi-task are also important.

Program	Credential	What do students learn in the program?	What do students earn?	Career Opportunities	Are graduates prepared for/to complete exams for specific credentials/licensing/certifications at the end of the program?	Required Tools, Supplies, and Uniforms
Baking/Pastry	Diploma	Students gain basic culinary, knife, baking, and cooking skills and become familiar with key terminology and industry equipment and then advance their knowledge and skills for preparing breads, laminate doughs, yeast-baked products, pies, cake decorating and assembly and fancy cookies. Students will also learn to create fine cakes, pastries, plated desserts, artisan breads, and to do both advanced sugar and chocolate pastillage, creating edible artwork.	New program. No data to report.	Mid-level baking positions including: Baker Cake Decorator	No	In addition to books, students are also required to purchase a uniform and knife set (available from the SCC Campus Store).
Baking/Pastry	Associate of Applied Science	In addition to the skills and information noted above, students gain baking/pastry industry experience through practicum and internship experiences. Students will apply their skills in real-world bakery settings. Students will also learn to create menus and develop an understanding of food service operations, including facility design. Additionally, students learn to produce desserts for fine dining banquets and buffets.	New program. No data to report.	Upper-level baking positions including: Executive Pastry Chef Bakery Manager Pastry Chef Head Baker	No	In addition to books, students are also required to purchase a uniform and knife set (available from the SCC Campus Store).
Culinary/Hospitality	Certificate	Students gain basic culinary, knife, baking, and cooking skills and become familiar with key terminology and industry equipment. Students also learn to offer good guest service and how to cost effectively purchase quality ingredients.	New program. No data to report.	Entry level food service positions including: Food preparation worker Cook – fast service and short order	No	In addition to books, students are also required to purchase a uniform and knife set (available from the SCC Campus Store).
Culinary/Hospitality	Diploma	In addition to the skills noted above, students have the opportunity to advance their skills with a Culinary Arts (advanced knife skills, selection and fabrication of meat and seafood, table side cooking, baking with laminate doughs, quick breads, yeast breads, fancy cookies, international cuisine) or Hospitality (staff supervision, team building, décor and design, event coordination, customer service, professional and professional selling techniques) focus. Students will take advanced courses in one of the focus areas, giving them additional specialized experiences to succeed in the industry. Students will build on their culinary skills and techniques.	New program. No data to report.	Mid-level food service positions including: Line Cook Cook-restaurant Baker	No	In addition to books, students are also required to purchase a uniform and knife set (available from the SCC Campus Store).
Culinary/Hospitality	Associate of Applied Science	In addition to the advanced skills noted above, students will further refine their abilities through additional advanced coursework in the Culinary or Hospitality focus areas. Students will plan, deliver, and plate meals for the public in Course Restaurant and participate in a practicum giving students first-hand experience in the industry. Students can choose to focus in Culinary Arts, Culinary Communication, or Hospitality Management.	\$14.50 per hour; \$30,160 annually	Manager and upper level food service positions including: Chef Sous Chef Catering Chef Head Baker Pastry Chef Supervisor Production Cook	No	In addition to books, students are also required to purchase a uniform and knife set (available from the SCC Campus Store).

\* Students graduate with an entry-level certification through the American Culinary Federation. With additional experience, graduates can work toward and then high-level industry certifications. Students in Hospitality Management focus may work toward a diploma from the National Restaurant Association Hospitality Education Foundation (NRA) by completing NRA-designated courses, passing the NRA course finals with a minimum 75%, and completing required work experience.

# Culinary Programs

- Baking/Pastry  
- Culinary/Hospitality

A degree from SCC's Baking/Pastry or Culinary/Hospitality programs establishes our graduates as leaders in the culinary and hospitality industry as they cook and bake in and operate in restaurants, bakeries, hotels, food trucks, catering businesses, and more! Our graduates learn the art and skill of preparing all types of food and cuisine as well as the technical abilities needed to create elegant desserts and culinary masterpieces, effectively manage a kitchen, staff, and resources. Throughout the program, students gain hands-on experience that prepares them to enter the workforce and immediately connect their passion for food to employment.

# The SCC Experience

- » Students learn in state-of-the-art facilities. The Great Plains Culinary Institute opened in spring 2018, giving students access to dedicated culinary and bakery teaching labs with industry-standard equipment, a demonstration kitchen, a coffee shop, Course Ground Coffee, and an upscale dining restaurant, Course Restaurant. The program's facilities give students access to hands-on experience with top-of-the-line equipment and the ability to learn in real-life kitchens, preparing them for any situation.
- » The Culinary/Hospitality and Baking/Pastry programs are accredited by the American Culinary Federation, meaning that SCC's programs meet the highest standards in culinary education. Additionally, SCC's Culinary/Hospitality faculty are all professional chefs with years of industry experience. They bring their experience to the classroom, giving students access to a variety of expertise and valuable industry connections.
- » Students gain hands-on experience through a mixture of lab and classroom experiences. Students spend approximately 60% of their time in the lab and 40% of their time in the classroom. Students develop a strong foundation in basic culinary and baking techniques early in the program and advance their skills as they progress through the program.
- » Course Restaurant offers SCC Culinary/Hospitality students the unique experience of learning all aspects of working in a restaurant in a real on-campus restaurant! Students will cook for and serve the public through a variety of intentional learning experiences and course components. As part of the programs, Associate of Applied Science (AAS) students will plan, deliver, and plate meals for the public, giving them unmatched experience in a real setting.
