

Personality + Career

SCC Dental Assisting students are good communicators, organized, flexible, and empathetic. They like to work in a team setting and are willing to learn and ask questions.

Program	What do students learn in the program?	What you'll earn!	Career Opportunities	Certificate Preparation	Required Tools, Supplies, and Uniforms
Dental Assisting Diploma	Classes are taught in a flipped classroom environment, with engaged learning in lecture classes and hands-on learning in the labs. You will learn a wide range of tasks and procedures regarding infection control, assisting the dentist with various procedures, taking radiographs, coronal polishing, taking impressions, preparing and mixing dental materials, fabricating temporary crowns/bridges, office management tasks, oral hygiene instructions, ordering supplies, communication, and educating the patient before, during and after treatment.	\$18.40 per hour; \$38,272 annually	<ul style="list-style-type: none"> • Certified Dental Assistant • Dental Assistant • Orthodontic Assistant • Licensed Dental Assistant • Dental Claims Processor • Office Manager 	The one-year diploma program allows graduates to take the national board exam to become a Certified Dental Assistant and a Nebraska Licensed Dental Assistant.	Uniform and supplies available through the SCC Campus Store.
Dental Assisting Associate of Applied Science	In addition to the required General Education courses, students learn advanced Dental Assisting Scope duties such as: administration of nitrous oxide (laughing gas), final impressions for fixed (crowns and bridges) and removable (partials and dentures) prosthesis, denture/partial adjustments, and contour and cementation of primary crowns (on baby teeth). Advanced Scope course is taught in a hybrid format. All of the lecture content is delivered online, while the lab component is scheduled on a specific date and time on campus with a supervising dentist.	No graduate salary data available.	<ul style="list-style-type: none"> • Certified Dental Assistant • Dental Assistant • Orthodontic Assistant • Licensed Dental Assistant • Dental Claims Processor • Office Manager 	Graduates of the A.A.S. program are able to apply for a permit that is added to their existing dental assistant license. This permit increases the services and procedures they are able to perform.	Uniform and supplies available through the SCC Campus Store.

The SCC Experience

- » We offer simulated hands-on learning in our lab to prepare you to work with patients in a clinical setting. Your educational experience also includes training in our eight fully functional dental operators as well as other educational tools.
- » All of our instructors are graduates of the SCC Dental Assisting program, and each one is a Nationally Certified Dental Assistant and Licensed Dental Assistant in the state of Nebraska. Our faculty's clinical experience is a valuable asset to students as they share first-hand experience and knowledge with students, further preparing them to enter the workforce.
- » SCC's students' clinical rotations start at the University of Nebraska Medical Center College of Dentistry. We partner with clinics to offer a variety of clinical site experiences during your last term of the diploma program.
- » You will complete the coronal polishing and X-ray certificates while you are in the program.
