

Personality + Career

You will succeed as a polysomnographic technologist if you are a detail oriented and strong communicator who is comfortable working nights by yourself or with a small group of people.

Program	What do students learn in the program?	What you'll earn!	Career Opportunities	Certificate Preparation	Required Tools, Supplies, and Uniforms
Polysomnographic Technology	Students learn all aspects of performing polysomnograms and learn the roles and responsibilities of a technologist. Students will also learn the sleep-wake cycle, the pathologies of sleep disorders, and how to classify sleep disorders. The impact of medical conditions and medications on sleep and managing chronic conditions is also taught. Processes, procedures, interfacing and troubleshooting equipment and devices, and patient education are also covered. Students will prepare for the board exam as part of the program.	\$23.10 per hour; \$48,048 annually	<ul style="list-style-type: none"> • Sleep Trainee • Sleep Technician • Sleep Technologist • Sleep Scorer • Sleep Center Director 	Students are eligible to take the internationally recognized credential RPSGT exam (through the BRPT) upon graduation. RPSGT: Registered Polysomnographic Technologist BRPT: Board of Registered Polysomnographic Technologists	Medical scrubs based on clinical site requirements. Computer with Internet access.

Millions of people have a sleep disorder. Our Polysomnographic Technology program gives you the skills and knowledge to diagnose and treat sleep disorders. You will learn the difference between sleep disorders and normal sleep as you gather the information for physicians to interpret.

Common reasons to be in a sleep study include waking up more tired than when you went to bed, excessive daytime sleepiness, sleep apnea and snoring.

The Polysomnographic Technology program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Committee on Accreditation of Polysomnographic Technologist Education (CoAPSG): Commission on Accreditation of Allied Health Education Programs (CAAHEP); 25400 U.S. Highway 19 North, Suite 158; Clearwater, FL 33763; 727-210-2350; www.caahep.org (<http://www.caahep.org/>)

The SCC Experience

- » SCC's Polysomnographic Technology program is an online, part-time program with clinical rotations completed at an approved sleep disorders center. It is one of the most cost-effective programs in the country.
- » Graduates are eligible to sit for the credentialing exam offered by the Board of Registered Polysomnographic Technologists. SCC has a 100% pass rate on the Registered Polysomnographic Technologist (RPSGT) exam.
- » You will have free membership in the American Academy of Sleep Medicine while in the program, which gives you access to medical journals and research materials.
- » Many of our students receive an additional degree to make themselves more marketable in the workforce. Respiratory Care is ideal.
- » Our interactive program focuses on outcomes.

Related Programs at SCC:

- Associate of Health Sciences
- Radiologic Technology
- Respiratory Care

Program	What is the starting term for each program option?	In what term do students start clinicals?	Where do students participate in clinicals?	In general, what time of day and days of the week can students expect to attend clinical?	Will the program help student secure their sites? Do students need to contact clinical sites prior to acceptance/placement?	How many clinical hours do students complete in the program?
Polysomnographic Technology	Fall	Spring	The program makes every effort to identify clinical sites near the student's home. Sleep centers can be independent standing or in-hospital. The program has previously secured sites in: <ul style="list-style-type: none"> <li style="width: 25%;">• Minnesota <li style="width: 25%;">• South Dakota <li style="width: 25%;">• Iowa <li style="width: 25%;">• Alabama <li style="width: 25%;">• Nebraska <li style="width: 25%;">• Colorado <li style="width: 25%;">• Arizona <li style="width: 25%;">• Georgia <li style="width: 25%;">• Michigan <li style="width: 25%;">• New Jersey <li style="width: 25%;">• Virginia <li style="width: 25%;">• Tennessee <li style="width: 25%;">• Georgia 	Clinicals are scheduled from 6:30 p.m. to 7 a.m. Days of the week are scheduled between the student and the clinical site, dependent on clinical availability.	The program works to identify clinical sites near the student's home. If one is not available, the student will need to travel to an existing clinical site (with availability) to complete the program. Space is always available at Nebraska sites. Students are asked to provide names, emails and phone numbers of sleep centers in their area. It is recommended that students arrange to shadow a Sleep Tech prior to securing a contract.	135
