Surgical First Assist

» southeast.edu/surgicalfirstassist

A surgical first assistant has expanded duties which are more focused on assisting the surgeon during surgery. You will assist the surgeon with tasks such as visualization of the surgical site, hemostasis, wound closure, and safe operation practices, providing optimal results for the patient. Our Surgical First Assist program allows you to continue to work full-time while advancing your career. You will take online courses with five in-person labs during the first week of the Spring Semester.

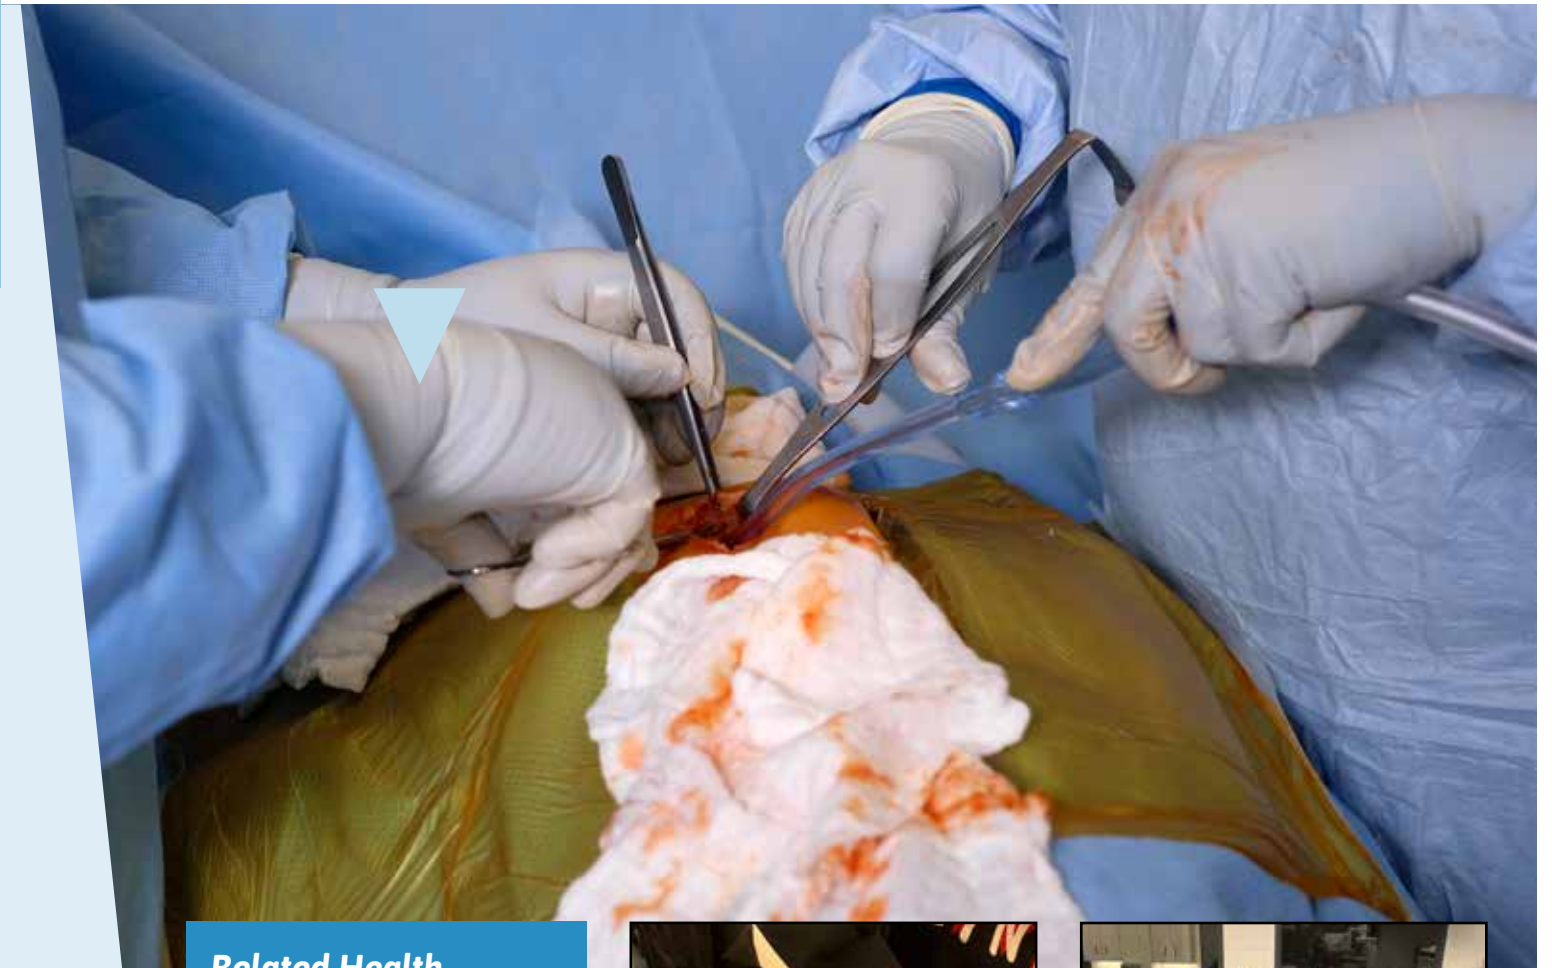

Accreditation by the Commission on Accreditation of Allied Health Education, www.caahep.org, 9355 113 St N #7709, Seminole, FL 33775, Phone: 727-210-2350, Fax: 727-210-2354.

The SCC Experience

- » SCC's Surgical First Assist program is for the Certified Surgical Technologist with at least three years experience in the field who is looking for career advancement.
- » The state-of-the-art Health Sciences Building provides an excellent learning environment, including LapSim, which gives students the ability to navigate virtual laparoscopic surgery.
- » SCC's Surgical First Assist program is one of 12 accredited surgical first assist certificate programs in the country. Our faculty designed an intentional, comprehensive curriculum to ensure that students gain the skills needed to keep patients safe and succeed.
- » Labs are taught by surgeons, giving students additional exposure to case studies and real-life learning experiences. Additionally, SCC partners with a local hospital to provide DaVinci robot training, allowing students to learn with the most advanced technology.
- » Nebraska students have the opportunity to take the national certification exam prior to graduating from SCC! Graduates leave SCC prepared to advance their career!
