

Community colleges will continue to serve as essential partners in the workforce system providing education and training, aligning to industry standards, reaching underrepresented populations, and forging bridges that extend from K-12 education to employment.

Source: Nebraska's 2016 Combined State Plan for the Workforce System (p 55)

Community colleges receive a small proportion of Nebraska property taxes.

Source: State of NE (FY2018)

Property taxes account for half of college revenue.

Source: Audit documents (FY2018)

These funds allow us to:

Increase Nebraska's skilled workforce

Nebraska community colleges train workers for many H3* occupations in the state.

*H3 refers to High demand, High skill, High wage jobs.

Keep tuition and fees low

Tuition and fees at Nebraska community colleges are considerably lower than four-year alternatives Source: IPEDS (2017-2018)

Enroll a large number of students*

In 2017-18, Nebraska community colleges enrolled

62,113 credit students **72,629** non-credit students

Provide a large return on investment

\$2.20 is the taxpayer return on investment for every \$1 of public money spent in Nebraska community colleges. Source: EMSI, PFI 2018

* There are two sources for these data: IPEDS as compiled by CCPE for credit students and individual colleges for non-credit students.

Between 2006-07 and 2017-18,
Nebraska community colleges
granted **75,254** awards.

**Most of these awards were in Trades,
Health, or Arts & Humanities.**

Source: IPEDS as compiled by CCPE; Includes both Certificates and Associate degrees.

Nebraska has six community colleges

In 1971, the Legislature created the Nebraska Community College System by combining all junior colleges, state vocational/technical colleges, and area technical schools. By 1974, the state had been divided into six community college areas, each governed by a locally-elected eleven-member board. Five of the six colleges are members of NCCA.

Nebraska community college credit-seeking students form a diverse group* (Fall 2017)
