## Program overview

The Adult & Juvenile Services and Corrections program introduces students to evidence-based practices in community-based correctional services, institutional corrections, secure mental health facilities and juvenile justice agencies. The program is designed to equip students with both the skills and knowledge needed to prepare them for the special challenges involved in working with a wide variety of clients in a community-based corrections setting and working with inmates in an institutional setting.

This program is designed to support the continued professional growth of in-service practitioners through the enhancement of field specifics and knowledge. The program provides students educational and internship experiences that enable them to succeed in entry-level positions or advance in their criminal justice career. The program provides an overview of the criminal justice system while also focusing on elements of supervision, risk assessment, conflict resolution, communications, and reporting techniques.

SCC's criminal justice faculty have extensive education, knowledge and experience in law enforcement, corrections, juvenile justice, probation, military, prosecution, and defense litigation, as well as the proper procedures and an understanding of criminal law, which means students receive up-to-date information and relevant skills.
